Staff Report

Study Session Item # 2

To: Lemoore City Council
From: Lauren Apone, Administrative Analyst
Date: June 27, 2011
Subject: Healthy Air Living

Discussion:

The San Joaquin Valley Air Pollution Control District has requested that a representative give a presentation to Council regarding their Healthy Air Living program.

Healthy Air Living is an initiative that provides ways to make decisions, day to day, that take into consideration their effect on Valley air quality. Healthy Air Living is a "toolbox" of ideas and strategies that help each of us take voluntary, high-impact measures in our personal lives and workplace to reduce emissions

The three objectives of the Healthy Air Living Program are:

- Reduce the number of vehicle miles traveled through the Valley each day
- Reduce emissions from equipment and processes
- Reduce emissions during peak smog episodes

Budget Impact:

None.

Recommendation:

Information only.
