Re. Johnny Olivas' Fire Prevention Presentation July 24, 2012

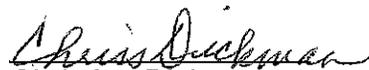

Dear Chief Gibson:

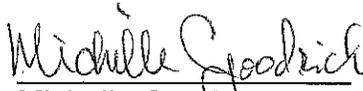

First of all, we wish to thank you for volunteering to give a presentation to our Neighborhood Watch members at our recent meeting. However, your representative, Johnny Olivas, was very welcome in your stead. We must apologize that he was delayed in joining you at the Fireman's Annual Games Night as Police Chief Laws spoke first on the agenda. In each case, each gentleman was very generous with their time and spoke for more time than was planned.

Mr. Olivas was thorough but relaxed in his delivery, providing excellent information regarding home fire prevention and reviewing the need for smoke/carbon monoxide alarms as well as the types of fire extinguishers. He also reviewed how kitchen fires can be prevented with just an ounce of common sense, and such fires may be put out with a clear head and a few simple kitchen items.

Once again, thank you for volunteering and assigning us a congenial replacement speaker. Johnny's presence was much appreciated.

Sincerely,

Christine Dickman
