**Subject:** RE: Lemoore Rail Crossing at Daphne Lane...

Mr. Briltz:

After internal discussions and outreach to the San Joaquin Valley Railroad (SJVR), we have determined that a package including addition of automatic crossing gates and other improvements to the existing crossings in Lemoore, along with a proposal for a new crossing at Daphnie Lane would likely be agreeable to all parties and prevent protests to an application and a resulting contested proceeding.

Toward that end, our staff is attempting to arrange a field site diagnostic review of the Lemoore crossing for late May or early June.

We look forward to working with the City and SJVR on the project and improving rail crossing safety in Lemoore.

Please contact me if you have questions or concerns as we move forward.

Thank you,

Daren Gilbert, Manager  
Rail Transit and Crossings Branch  
Consumer Protection and Safety Division
