

# Proper Storage of Refuse Containers

The Lemoore Municipal Code allows the following options.

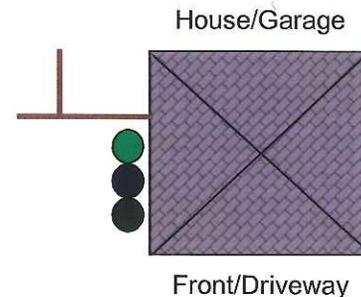

## Back Yard Storage Preferred

Storing refuse containers in the back yard, behind the fence, away from public view, is the **preferred** location.

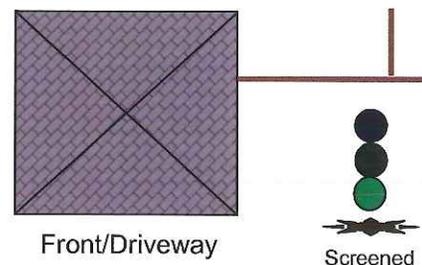

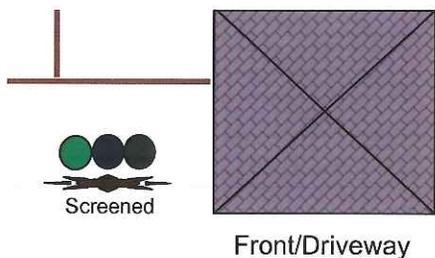

## Side Yard Adjacent to Structure

Containers may be stored in front of the fence, **unscreened**, if placed directly next to the building.

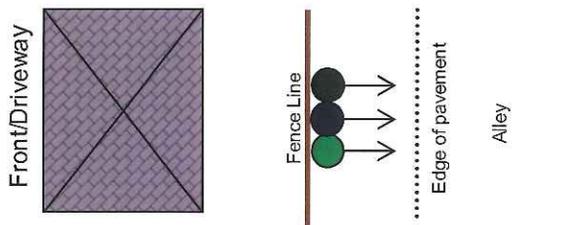

**Front & Side Yards:** Containers may be placed away from the building if **screened** from direct view from the street. Examples of screening include shrubbery, lattice, fence, etc.

## Alley Service – Storage & Pick Up Locations

**Alley service container storage:** Containers are to be stored behind the fence or next to a building structure. (**Not in the alley**).

**Alley pick up:** Move containers adjacent to pavement on side of alley designated for pick up. After pick up, move containers back to storage area on the same day as pick up.
