## **Staff Report**

**Item # SS 3**

**To: Lemoore City Council**  
**From: David Wlaschin, Director of Public Works**  
**Fred Jimenez, Interim Public Works Superintendent**  
**Date: May 8, 2012**  
**Subject: Discussion – Storm Drainage System – Lemoore Avenue South of Railroad**

---

### **Discussion**

Staff is evaluating the storm drain system as it relates to Lemoore Avenue/Lemoore High School drainage areas as discussed by City Council at its April 17, 2012 Meeting.

The system, as constructed, works off a gravity hydraulic plan and does not involve much of a pumping system unlike most other City storm systems. The system has worked this way since the mid 1960's and has been expanded to meet growth needs.

Attached is a map of the service area and an aerial photo of same. We will discuss possible options with Council on Tuesday prior to involving the City Engineer.

### **Budget Impact**

None at this time.

### **Recommendation**

For discussion.
