To whom it may concern, My name is Ron Jones and I am the owner of kings county garden. After speaking to Chief Laws about setting restriction on number of plants, square footage requirements, and power usage in city limits. I returned to my shop and spoke to several open medical cannabis growers and "most of them" agreed with Mr. Laws and my self. 24 plants 40 square feet, and 2500 watts of power would be sufficient to fill the needs of most any individual medical patient. Of course there is always opposition. But it was accepted by 80% of the growers I spoke to. Please feel free to call me if you have any questions or concerns. (REDACTED)
