In my job I experience the difference of want and need
daily. We may want to add infrastructure, personnel or
other resources. However that does not mean we need
it, or more importantly, if we can afford it. That experience is
something I believe could be very useful in this position.

Have you been, or are you now a member of a governmental board, commission or committee? If so, please provide name and dates service.

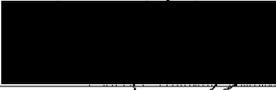

No.

REMARKS: Please indicate any further information that will be of value regarding your appointment.

I would also like to state that I don't believe any
business is good business. We need to attract businesses
that not only help the local economy, but also maintain
the small town feel that we enjoy now.
