CITY CLERK'S OFFICE

SEP 17 2013

To the Lemoore City Council:

RECEIVED

This letter is concerning the Cedar Lane Extension. I know that the city wants to keep up with the times and improve their city and ways of getting around it. Does putting in an extension help with this idea? Yes, to what extent!

I am a concern citizen that lives on Larish Street which is a street that the CITY has left behind to defend for ourselves. All around Larish Street the other streets have been paved and sidewalks put in, BUT NOT Larish Street. My street is the bumpiest in the city and has pit holes through the street, plus there is only a sidewalk part way up on one side. There are some citizens living on Larish Street with disabilities and cannot walk using their rollers or use their wheelchairs since there are no sidewalks and the street is so bumpy that their wheelchairs get struck or their family members think it is a bad idea to go down the street because of the fast cars driving it. Larish Street is also used by students walking to Lemoore High; they walk in the street to get to school. Is that safe for them? No way is Larish Street safe for any citizen to walk down.

I think that the city council should think of the citizens living on Larish Street before planning a new street. I would like the money that the council has on building the Cedar Lane Extension to go to repair and fix Larish Street like other streets in Lemoore.

Thank You,

Gail Empert
