Re: School Resource Officer Training

The SRO school was great. It's one of the best schools I've ever been to. My class was full of veterans with a vast and diverse experience in law enforcement. The discussions in the class helped me better understand the role as a YDO. I was able to apply the classroom material to the job itself. There were a lot of interactive activities which made the learning hands on. The active shooter portion of the training helped me realize how unprepared I really am for this job. I truly believe this class helped prepare me to be the best YDO that I can be. I highly recommend this class for any future YDOs. I look forward to serving my duties as a YDO this school year and the differences I can make in the students lives.
