Re: Cellular Phone Forensics

MAY 19-23, 2014

Recently I was selected to attend the Cellular Phone Forensics Class offered by the Department of Justice. This class will hopefully be the first of many that myself and Cpl Pescatore will be able to attend.

This training and expertise obtained from this class has provided the LPD with extremely powerful investigative tools. On my first day back to work from this training, I was able to use the tools and training I received to retrieve evidence from both a cell phone and a tablet.

It was an excellent course and I look forward to attending similar courses in the future.
