Staff Report

ITEM 2-11

To: Lemoore City Council
From: Joe Simonson, Parks and Recreation Director
Date: July 14, 2015 **Meeting Date:** July 21, 2015
Subject: Budget Adjustment – Emergency Improvement to Golf Course
Water Well Pump – Resolution 2015-16

Discussion:

The City recently experienced a failure with the front nine well and an emergency improvement expenditure was needed for the pump to ensure adequate water supply and prevent costly damage to four greens. The damage to the greens can occur in less than 24 hours and therefore necessitated immediate action and repair.

Staff is requesting funds from the Golf Course Capital Fund for Valley Pump & Dairy Systems expenditure of \$10,194.37 to improve system lines; pull and install pump and motor; and service remaining portions of the second tee well pump.

Staff is also requesting that the Council make the appropriate findings that this repair required immediate expenditure of funds to safeguard property and that the Council by a four-fifth's vote approve Resolution 2015-16 declaring the emergency and the need to dispense with the competitive bid process.

Budget Impact:

A budget adjustment to the Golf Course Capital Fund account (4245-4825AR) in the amount of \$10,195.

Recommendation:

That City Council, by motion, authorizes the expenditure from the Golf Course Capital Fund (4245-4825AR) in the amount of \$10,195 for the Emergency Improvement to the Golf Course Water Well Pump and approves Resolution 2015-16.
