Staff Report

ITEM SS-3

To: Lemoore City Council

From: Joe Simonson, Parks and Recreation Director 

Date: June 25, 2015 **Meeting Date:** July 7, 2015

Subject: Bid Award for BMX Water Line

Discussion:

At the May 19, 2015 City Council meeting, Council approved a one-time expenditure from the Parks Improvement Fund (074B) to install water lines to the new BMX Track and Lemoore Framework Racing.

Staff requested proposals and two (2) bids were received as follows:

West Valley Construction	\$122,715.00
Mattos Underground Construction	\$160,160.70

The bids were well above the contractor's initial estimate of 84,893.17, approved by City Council. Staff is in favor of rejecting the bids, refining the proposal and extending the time frame for bidders to submit a proposal.

Budget Impact:

Parks Improvement Fund (074B) would remain the same if bids are rejected and project cancelled. Parks Improvement Fund (074B) could potentially be subject to additional outlay of funds, if project is rebid or Council directs staff to accept one of the bids.

Recommendation:

That City Council discuss and direct staff on how to proceed with the BMX / Lemoore Framework Racing water line project. This item will be brought back during the regular session for approval.
