

Some Helpful Tips to Get the Most Into Your Cans

Recycling

- You can take your mixed recyclables (including large boxes that will not fit in your recycling container) to recycling dumpsters at the City Corporation Yard at 711 West Cinnamon Drive. This will help with those few weeks per year when you may have too many recyclables to fit in your blue container.
- All cardboard boxes should be collapsed so that they can fit easier in your recycling container. It is amazing how much more you can fit in your recycling container if there isn't a big box taking up most of the room.
- Talk to your neighbors and share containers when you need some extra capacity.
- You can take many beverage bottles to the local recycling center and get money for your recyclables! The following is a list of participating recycling centers in Lemoore:

Als Uhaul & Propane
100 S 19 1/2 Ave
(559) 924-0345

Lemoore Recycling
345 N 19th Ave
(559) 924-8805

Nexcycle/Save Mart #73
105 W Hanford Armona Rd
(909) 796-2210

Green Waste

- To prevent grass clippings from sticking in the green waste container, mow your lawn when it is dry and place loose material (such as shrubbery) in the bottom of the container.
- Talk to your neighbors and ask to share containers. It is very unlikely that all of your neighbors trim their trees at the exact same time each year, so ask to use the extra space in your neighbor's container and do the same for them.
