

LEMOORE PLANNING COMMISSION
Regular Meeting
AGENDA
Lemoore Council Chambers
429 'C' Street

December 14, 2015
7:00 p.m.

1. Pledge of Allegiance and Roll Call

2. Public Comments and Inquiries

If you wish to comment on an item, which is not on the agenda, you may do so under "Public Comment." In order to allow time for all public comments, each individual's comments are limited to five minutes. When addressing the Commission, you are requested to come forward to the speaker's microphone, state your name and address, and then proceed with your presentation.

3. Approval – Minutes – Regular Meeting, November 9, 2015

4. Presentation – Strategic Initiatives – Andrea Welsh, City Manager

5. Public Hearing – Report and Recommendation – Resolution No. 2015-12 – Recommending Approval of Zoning Text Amendment 2015-01 – Amending Lemoore Municipal Code Chapter 4 of Title 9 (Zoning Ordinance) - Related to Marijuana Cultivation, Marijuana Processing, Marijuana Delivery, and Marijuana Dispensaries in the City of Lemoore

6. Public Hearing – Report and Recommendation – Resolution No. 2015-13 – Recommending Approval of General Plan Amendment – 2015-01 – A Comprehensive Update to the Housing Element for the 2016-2024 Planning Period

7. Report (Oral) – Water Update – Public Works Director Nathan Olson

8. Planning Director's Report – Interim Planning Director Judy Holwell

9. Commission's Report and Request for Information

Adjournment

Tentative Future Items

January 11, 2016

CIP Budget Presentation for General Plan Conformity

Notice of ADA Compliance: If you or anyone in your party needs reasonable accommodation to attend, or participate in, any Planning Commission Meeting, please make arrangements by contacting City Hall at least 24 hours prior to the meeting. They can be reached by calling 924-6700, or by mail at 119 Fox Street, Lemoore, CA 93245.

Any writings or documents provided to a majority of the Planning Commission regarding any item on this agenda will be made available for public inspection at the City Clerk's Counter at City Hall located at 119 Fox Street, Lemoore, CA during normal business hours. In addition, most documents will be posted on the City's website at www.lemoore.com.

CERTIFICATION OF POSTING

I, Kristie Baley, Planning Commission Secretary, do hereby declare that the foregoing Agenda for the Lemoore Planning Commission Regular Meeting of Monday, December 14, 2015 at 7:00 p.m. was posted on the outside bulletin board located at City Hall, 119 Fox Street in accordance with applicable legal requirements. Dated this 11th day of December 2015.

//s//

Kristie Baley, Commission Secretary

WELCOME TO YOUR LEMOORE PLANNING COMMISSION MEETING

Whether you are attending this meeting because of general interest, or because a particular item of special interest is to be reviewed, your presence is an important means of helping to insure an informed public and responsible City Government.

PLANNING COMMISSION

The Planning Commission has been established to advise the City Council in planning and zoning matters.

REGULAR PLANNING COMMISSION MEETINGS

Meetings are held at 7:00 p.m. on the Second Monday of each month. Business requiring Commission action is listed on the Planning Commission Meeting Agenda. An agenda is prepared for each Planning Commission Meeting. In compliance with the State open meeting laws (Brown Act), only those items on the agenda may be acted upon by the Planning Commission.

CONDUCT AT PUBLIC MEETINGS

Your courtesy is requested to help our meeting run smoothly. If you'll be kind enough to follow these simple rules, we can make the best possible use of time. Please silence all electronic devices. Please refrain from public displays or outbursts such as unsolicited applause, comments, cheering, foul language, or obscenities. Any disruptive activities that substantially interfere with the ability of the City to carry out its meeting or prevents/disrupts others from fully participating in the meeting will not be permitted and offenders will be requested to leave the meeting pursuant to Government Code § 54957.9.

PUBLIC COMMENTS

At a Planning Commission meeting, those who wish to be heard on matters on the agenda should indicate their desire to speak when the item is ready for discussion. If you wish to comment on an item which is not on the agenda, you may do so under "Public Comments". In order to allow time for all public comments, each individual's comments are limited to five minutes. Time shall not be shared/loaned from speaker to speaker. If you wish to request time on an upcoming Planning Commission Agenda to present a particular item or matter to the Planning Commission, you may contact the Planning Commission Secretary at any time before 12:00 noon on the Tuesday immediately preceding the Planning Commission meeting to so request. If the matter is within the Planning Commissions jurisdiction, and the Planning Commission has not taken action or considered the item at a recent meeting, the Planning Director may place the item on the Agenda. When addressing the Planning Commission, you are requested to come forward to the speaker's microphone, state your name and address, and then proceed with your presentation.

PLANNING COMMISSION ACTION

Resolution

A Resolution is a formal written expression of a policy, opinion or desire of the Planning Commission. It requires only one reading and becomes effective on adoption.

Minute Order

Actions of the Planning Commission recorded only in the Minutes taken in all cases where a formal Resolution is not needed or required.

SUGGESTIONS, INQUIRIES OR COMPLAINTS

While any citizen may speak directly to the Planning Commission concerning suggestions, inquiries or complaints, the Planning Director or Department Head responsible for the service or work concerned, can usually provide pertinent information or handle the matter without delay if a request is made directly to him or her. If you are not sure which department to call, or whenever you feel the matter has not been properly handled, please contact the office of the Planning Director at 711 W. Cinnamon Drive, telephone 924-6740.

Minutes of the
LEMOORE PLANNING COMMISSION
November 9, 2015

MEETING CALLED TO ORDER:

At 7:00 p.m. the meeting was called to order.

ATTENDANCE:

Chairman Garcia, Vice-Chairman Clement, Commissioners, Badasci, Dow, Marvin, Wynne; Public Works Director Olson, Interim Planning Director Holwell, Commission Secretary Baley

ABSENT:

Commissioner Monreal

PUBLIC COMMENT:

There was no comment from the public.

INTRODUCTION:

Public Works Director, Nathan Olson

MINUTES – REGULAR MEETING JULY 13, 2015:

It was moved by Commissioner Clement and seconded by Commissioner Marvin to approve the Minutes of the Planning Commission Regular Meeting of July 13, 2015.

Ayes: Clement, Marvin, Badasci, Dow, Wynne, Garcia

Absent: Monreal

INTRODUCTION AND PRESENTATION: LEMOORE NAVAL AIR STATION CAPTAIN ASHLIMAN – UPDATE ON NAS LEMOORE:

Captain Ashliman introduced himself and presented a brief history of NAS Lemoore; explanation of flight patterns; information regarding incoming squadrons; future development of the air station and the surrounding areas.

PRESENTATION – MEDICAL MARIJUANA REGULATION AND SAFETY ACT – COMMANDER OCHOA, LEMOORE POLICE DEPARTMENT:

Lemoore Police Department, Commander Ochoa presented information regarding Assembly Bills 266, 243 and 643 related to Medical Marijuana regulations.

Lemoore Police Chief Darrell Smith stated that he suggests banning all marijuana cultivation in Lemoore. Proposed changes to the Municipal Code will be presented to the Planning Commission December 14, 2015.

PUBLIC HEARING – REPORT AND RECOMMENDATION – RESOLUTION NO. 2015-11 – ZONING TEXT AMENDMENT NO. 2015-01: AMENDMENT TO VARIOUS SECTIONS OF THE CURRENT ZONING ORDINANCE (LEMOORE MUNICIPAL CODE TITLE 9)

Chairman Garcia opened the Public Hearing.

City Planner Brandt presented proposed changes to the Ordinance.

Interim Planning Director Holwell provided explanation as needed.

There were no comments from the public.

Chairman Garcia closed the Public Hearing at 8:49 pm.

It was moved by Commissioner Badasci and seconded by Commissioner Dow to approve Resolution No. 2015-11 recommending approval of Zoning Text Amendment No. 2015-01.

Ayes: Badasci, Dow, Marvin, Wynne, Clement, Garcia

Absent: Monreal

PLANNING DIRECTOR'S REPORT:

Interim Planning Director Holwell reported:

The recent meeting regarding the General Plan, Zoning and Infrastructure Master Plan was an initial meeting. She explained that is why there was no information to send out prior to the meeting.

Caltrans is expected to submit a traffic study and estimated cost by the end of year regarding the proposed diverging diamond project at Bush Street and Highway 41 Interchange. The project is expected to reduce impact fees to west side developers.

Changes have been made to the temporary use permit application and requirements.

The site plan for Fast and Friendly fuel station and mini mart proposed for the south east corner of Bush Street and 19th Avenue is moving forward. Staff is expecting submittal of revised site plan soon.

Two subdivisions are proposed north east of "D" Street and Lemoore Avenue. While one is moving forward quickly, the other has been slowed due to a storm drain study. Staff is in process of determining how much acreage is needed for storm drain ponding basins.

PG & E submitted plans to relocate 19th Avenue service center to Enterprise Drive and Commerce Way.

City Council will discuss Impact fees during November 17 study session. Commissioners are invited to attend if interested.

Upcoming Planning Commission agenda items and holiday events.

COMMISSIONERS' REPORT AND REQUESTS FOR INFORMATION:

Commissioner Marvin noted the increased traffic at Fox Street and Cinnamon Drive and inquired about the feasibility of a round-about at that intersection.

Holwell stated she is unaware of any changes proposed for the four way stop at that intersection.

Commissioner Clement inquired about the future of the, soon to be vacant, Fresh and Easy building.

Holwell reported that staff is working with Cris Com to promote new business, but has not received solid interest in that building yet.

Holwell informed Commissioners that, due to the large industries located in Lemoore; the State of California recently recognized the City's inability to reduce water use enough to become compliant with new regulations. As a result City staff has been asked to educate the top 25 users and assist them with ideas to reduce use. Public Works Director Nathan Olson and City Planner Steve Brandt also commented during the short discussion.

ADJOURNMENT:

At 9:05 p.m. the meeting adjourned.

Approved the 14th day of December, 2015.

Full digital audio recording is available.

Attest:

Dr. Jeffrey Garcia, Chairman

Kristie Baley, Commission Secretary

City of Lemoore

Strategic Initiatives 2015-2020

Mission

To provide high quality services and establish the conditions for economic vitality and high quality of life.

Vision

Lemoore will be an economically vital community, marked by educational, cultural, recreational and business opportunities.

Strategic Initiatives: By focusing priorities through Strategic Initiatives, the City will maintain a sense of community and small town feel while still developing into a mid-sized, full service city.

Strategic Initiative: Safe & Vibrant Community

Formerly: Safe Community

A safe and secure community is essential to the high quality of life and economic success. The City is committed to a high level of service-oriented public safety strategies and working in partnership with the community.

Focus Areas

- Community relations, partnerships and outreach through a community-oriented philosophy.
- Enhanced police services for gang and narcotic enforcement, education and prevention strategies.
- Police officer recruitment and retention, including developing a diverse candidate pool, and outreach to youth interested in a law enforcement career.
- Continue support of volunteer fire department.

Strategic Initiative: Growing & Dynamic Economy

Formerly: Business & Job Opportunities

Lemoore is a community with significant opportunities for business development, community special events, and a variety of business and residential development ideas. The City supports creative ideas that expand and increase opportunities for employment in Lemoore, while supporting existing businesses and attracting new business to the community. It is important to develop a sound economic development plan that includes relationship building, and policies and procedures to be business friendly in support of the Vision and Strategic Initiatives.

Focus Areas

- Strengthen service-based business presence in the region to promote a healthy and sustainable economy.
- Maintain a sense of community and small town feel while still developing into a mid-sized, full service city.
- Improve physical infrastructure in of support economic development.
- Lemoore is perceived as an attractive and business friendly location for business and job opportunities and career development.
- Ensure safe, reliable, and modern public infrastructure by planning for repair/replacement of existing public infrastructure and future expansion.

Strategic Initiative: Fiscally Sound Government

Financial information is critical to successful planning. It is imperative to assure that projected financial capacity will provide sufficient resources to achieve results. A five-year balanced capital improvement plan will allow for thoughtful prioritization of plans in parallel with revenues to ensure the alignment of services match available resources to maintain fiscal stability.

Focus Areas

- Develop a five-year, progressive capital improvement plan.
- Establish system for on-going review of rates and fees.
- Review and/or develop financial policies to ensure they align with best practices.
- Develop a balanced operating budget that addresses the priorities and needs of the community.
- Establish criteria for appropriate evaluation of new purchases and facilities maintenance costs.

Strategic Initiative: Operational Excellence

Formerly: Municipal Services that are focused on community needs and efficiently delivered by customer-oriented staff

Provide cost-effective innovative technology and appropriate resources to ensure superior service delivery and strengthen customer service culture to ensure a positive experience.

Focus Areas:

- Enhance internal intra-departmental relationships.
- Build a high performance team through skilled, committed and professional employees in a supportive environment. Ensure leaders at all levels in the organization are prepared for success.
- Effectively engage and communicate with the community.
- Ensure continuity & stability of the organization through succession planning.
- Maintain an organizational structure that best meets the needs of the community.
- Provide outstanding internal and external customer service.
- Leverage the city's resources to optimize project and service delivery.

Strategic Initiative: Community & Neighborhood Livability

Formerly: Small Town Charm with Modern Conveniences

Provide an environment that supports diverse neighborhoods, with a broad range of commercial services and housing, through managed growth through the appropriate planning, annexation, land use and development review processes.

Focus Areas:

- Create a desirable sense of place that differentiates Lemoore from other communities.
- Develop a code enforcement plan that is in alignment with community philosophy.
- Continue and enhance economic development efforts to ensure employment opportunities.
- Consider developing an annexation philosophy and plan.
- Conduct a review and update of the zoning ordinance.
- Review and update the General Plan.
- Develop a long-term master plan and implementation strategy.

Staff Report

ITEM NO. 5

To: Lemoore Planning Commission
From: Steve Brandt, City Planner and Darrell Smith, Chief of Police
Date: December 3, 2015 Meeting Date: December 14, 2015

Subject: Recommendation of Ordinance No. 2016-01, Amending Title 9 (Zoning Ordinance) and Title 4 (Health and Safety Ordinance) of the Lemoore Municipal Code, Imposing An Express Ban on Marijuana Cultivation, Marijuana Processing, Marijuana Delivery, and Marijuana Dispensaries in the City of Lemoore

Proposed Motion:

Staff recommends that the Planning Commission conduct a public hearing to take testimony on the proposed changes to the Municipal Code, and then recommend adoption to the City Council. The proposed municipal code amendments would impose an express ban on marijuana cultivation, marijuana processing, marijuana delivery, and marijuana dispensaries in the City limits.

Some of the amendments are found in Title 9, the Zoning Ordinance, which requires review and recommendation by the Planning Commission. The changes to the Zoning Ordinance are included in the recommended Planning Commission resolution. The draft Ordinance is also attached for reference. The draft Ordinance includes the Zoning Ordinance changes and also the other changes to the Municipal Code that are not in the Zoning Ordinance. The Commission can comment on the other changes, but it not required to recommend those changes.

Subject/Discussion:

On October 9, 2015, Governor Jerry Brown signed AB 243 and AB266, the "Medical Marijuana Regulation and Safety Act" ("Act"), into law. The Act becomes effective January 1, 2016 and contains provisions that govern the cultivating, processing, transporting, testing, and distributing of medical marijuana to qualified patients throughout the state. The Act contains statutory provisions that allow local governments to enact ordinances prohibiting marijuana cultivation, processing, delivery, and dispensaries.

In 1996, the voters of the State of California approved Proposition 215 entitled "The Compassionate Use Act of 1996" or "CUA" to enable seriously ill Californians, under the care of a physician, to legally possess, use, and cultivate marijuana for medical use under state law. In 2003, the California Legislature adopted SB 420 entitled the Medical Marijuana Program ("MMP") which permits qualified patients and their primary caregivers to associate collectively or cooperatively to cultivate

marijuana for medical purposes without being subject to criminal prosecution under the California Penal Code. Neither the CUA nor the MMP require or impose an affirmative duty or mandate upon a local government to allow, authorize, or sanction the establishment of facilities that cultivate or process medical marijuana within its jurisdiction. Under the Federal Controlled Substances Act, the use, possession, and cultivation of marijuana are unlawful and subject to federal prosecution without regard to a claimed medical need.

Several California cities have reported negative impacts to the public health, safety, and welfare resulting from marijuana cultivation, processing and distribution activities, including offensive odors, illegal sales and distribution of marijuana, trespassing, theft, violent robberies and robbery attempts, fire hazards, and problems associated with mold, fungus, and pests.

AB 243 requires local agencies that regulate or desire to regulate the cultivation of marijuana to enact an ordinance expressly regulating this type of activity. Regulations governing the cultivation of marijuana are necessary to protect the health, safety and welfare of the City. During the past five years, more than 40 cities and 25 counties in California have adopted ordinances that regulate or ban the cultivation of medical marijuana within their jurisdictions.

The proposed ordinance expressly provides that cultivation of marijuana is prohibited in all zone districts in the City, and that no permit or license of any type shall be issued for marijuana cultivation within the City's jurisdictional limits.

AB 266 requires local agencies that ban or desire to ban marijuana delivery services or mobile marijuana dispensaries to enact an ordinance affirmatively prohibiting this type of activity. Marijuana delivery services, often referred to as mobile marijuana dispensaries, bring marijuana and marijuana products directly to residences, offices and certain unconventional locations. In many of these operations, businesses use runners to make the deliveries of marijuana. These so-called marijuana couriers advertise a wide variety of marijuana strains and other products, including edibles, in newspapers and on the Internet.

The proposed Ordinance expressly provides that marijuana delivery services are prohibited in the City, and that no permit or license of any type shall be issued for marijuana delivery services within the City's jurisdictional limits.

The Lemoore Municipal Code, as currently written, does not expressly address the cultivation, processing, delivery, and distribution of medical marijuana. To avoid having such federally prohibited activities permitted by the Act, the attached ordinance text amendments expressly prohibits the establishment and operation of marijuana cultivation, processing, delivery, and dispensary activities.

Currently, the City of Lemoore Zoning Ordinance allows for personal use cultivation in residential areas subject to local building codes. Collective or cooperative cultivation is only allowed in Light Industrial zones. The attached ordinance text amendments would make these uses not allowed in any zones by amending Table 9-4B-2 of Section 9-4B-2 of the Zoning Ordinance. See attached resolution for the exact text amendment changes.

Alternatives or Pros/Cons:

- If the city does not have a land use ordinance in place regulating or prohibiting the cultivation of marijuana, either expressly or otherwise under the principles of permissive zoning, or chooses not to administer a conditional permit program, then commencing March 1, 2016, the State Department of Food and Agriculture will be the sole licensing authority for medical marijuana cultivation applicants.

- If a city does not expressly prohibit the delivery of medical marijuana within its jurisdiction, delivery will be allowed (with a State dispensary license). This means that if our city wishes to prohibit the delivery of medical marijuana within our jurisdiction, the city must adopt an ordinance expressly prohibiting delivery services and mobile dispensaries.
- If we do not adopt an express ban ordinance before the State begins issuing any State licenses, a State-licensed dispensary will be able to deliver medical marijuana within our jurisdiction. An express ban ordinance must be in place before the State begins issuing State licenses. The State currently estimates that it will begin issuing dispensary licenses in January 2018, but that could certainly happen sooner.
- Failure to act prior to March 1, 2016, will result in loss of local control over the ability to prohibit cultivation, processing, delivery, and dispensing of marijuana inside the city limits.

California Environmental Quality Act

This project is covered by the general rule that the California Environmental Quality Act (CEQA) applies only to projects which have the potential for causing a significant effect on the environment. It can be seen with certainty that there is no possibility that this project may have a significant effect on the environment; therefore, the activity is not subject to CEQA. [Reference: State CEQA Guidelines sec. 15061(b)(3), General Rule Exemption]

Draft Ordinance (for reference)

RESOLUTION #2015-12

**A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF LEMOORE
RECOMMENDING APPROVAL OF AMENDMENTS TO
SECTION 2 OF ARTICLE B OF CHAPTER 4 OF TITLE 9
AND SECTION 5 OF ARTICLE A OF CHAPTER 4 OF TITLE 9
OF THE LEMOORE MUNICIPAL CODE RELATING TO ZONING**

At a Regular Meeting of the Planning Commission of the City of Lemoore duly called and held on December 14, 2015, at 7:00 p.m. on said day, it was moved by Commission member _____, seconded by Commission member _____ and carried that the following Resolution be adopted:

WHEREAS, the City staff has proposed changes to Section 2 of Article B of Chapter 4 of Title 9 and Section 5 of Article A or Chapter 4 or Title 9 of the Lemoore Municipal Code of the Lemoore Zoning Ordinance; and

WHEREAS, the City staff has proposed changes to Chapter 8 of Title 4 of the Lemoore Municipal Code relating to Medical Marijuana; and

WHEREAS, the City of Lemoore, acting as lead agency, has determined that the project is covered by the general rule that the California Environmental Quality Act (CEQA) applies only to projects which have the potential for causing a significant effect on the environment, and it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, therefore the activity is not subject to CEQA; and

WHEREAS, the Planning Commission of the City of Lemoore, after duly published notice, held a public hearing before said Commission on December 14, 2015;

NOW THEREFORE, BE IT RESOLVED that the Planning Commission of the City of Lemoore recommends approval to the Lemoore City Council of the proposed Zoning Code Amendments, as follows:

SECTION 1. Table 9-4B-2 of Section 2 of Article B of Chapter 4 of Title 9 of the Lemoore Municipal Code is amended to read as follows:

**TABLE 9-4B-2

28. ~~Must be in conformity with the land use definitions in this chapter and [title 4, chapter 8](#) of the municipal code as well as the Health And Safety Code section 11362.768 (which imposes additional requirements). Also see the land use definitions in this chapter and the regulations in Title 4, Chapter 8 of the Lemoore Municipal Code.~~

SECTION 2. Subsection C of section 5 of Article A of Chapter 4 of Title 9 of the Lemoore Municipal Code is amended to read as follows:

“City” means the City of Lemoore.

“Cultivate” or “cultivation” is the planting, growing, harvesting, drying, processing, or storage of one or more marijuana plants or any part thereof in any location.

SECTION 3 Subsection D of section 5 of Article A of Chapter 4 of Title 9 of the Lemoore Municipal Code is amended to read as follows:

“Delivery” shall be as defined in the Medical Marijuana Regulation and Safety Act, California Business and Professions Code section 19300.5(m), as that section may be amended from time to time, and includes the commercial transfer of medical marijuana and medical marijuana products from a dispensary as well as the use of any technology platform that enables qualified patients and caregivers to arrange for or facilitate the transfer.

SECTION 4. Subsection M of section 5 of Article A of Chapter 4 of Title 9 of the Lemoore Municipal Code is amended to read as follows:

~~MEDICAL MARIJUANA CULTIVATION - COLLECTIVE OR COOPERATIVE: The indoor growing and cultivating of marijuana by a group of medical marijuana cardholders or their caregivers, without any compensation being given to anyone, within an enclosed building in the light industrial zone district. All persons who associate together for the collective or cooperative cultivation must participate in the cultivation and the cultivation must occur solely among members of the association. No employees, independent contractors, or other persons may be utilized for the cultivation. No member may compensate any other member to cultivate on his/her behalf. This type of cultivation shall be subject to requirements of title 4, chapter 8 of the municipal code.~~

~~MEDICAL MARIJUANA CULTIVATION - PERSONAL USE: The indoor growing and cultivating of marijuana within a private residence, in an attached garage, or in an accessory building if the property is a detached single-family residence by an individual qualified patient or person with a medical marijuana identification card. A primary caregiver shall only cultivate medical marijuana at the residence of a qualified patient or person with an identification card for whom he/she is the primary caregiver. Medical marijuana cultivation for personal use shall be subject to requirements of title 4, chapter 8 of the municipal code.~~

~~MEDICAL MARIJUANA DISPENSARY: Any facility or location, whether fixed or mobile, where medical marijuana is made available to, distributed by, or distributed to more than three (3) of the following: 1) a qualified patient, 2) a person with a medical marijuana identification card, or 3) a primary caregiver. All three (3) of these terms are defined in strict accordance with California Health And Safety Code sections 11362.5 and 11362.7 et seq. Unless otherwise regulated by this code or applicable law, a "medical marijuana dispensary" shall not include the following uses: a clinic licensed pursuant to chapter 1 of division 2 of the Health And Safety Code, a healthcare facility licensed pursuant to chapter 2 of division 2 of the Health And Safety Code, a residential care facility for persons with chronic life threatening illness licensed pursuant to chapter 3.01 of division 2 of the Health And Safety Code, a residential care facility for the elderly licensed pursuant to chapter 3.2 of division 2 of the Health And Safety Code, a residential hospice, or a home health agency licensed pursuant to chapter 8 of division 2 of the Health And Safety Code, as long as any such use complies strictly with applicable law including, but not limited to, Health And Safety Code sections 11362.5 and 11362.7 et seq. Medical marijuana dispensaries where medical marijuana is distributed by,~~

~~distributed to, or made available to any combination of three (3) or more qualified patients, persons with an identification card, or primary caregivers as defined by California Health And Safety Code section 11362.5 et seq., are prohibited in all zone districts.~~

“Marijuana” shall have the same definition as in California Health and Safety Code Section 11018, as it now reads or as may be amended.

“Medical marijuana” means marijuana used for medical purposes in accordance with California Health and Safety Code Section 11362.7 et seq., as may be amended.

“Medical marijuana collective” or “dispensary” means any operation, including a store-front facility or structure, mobile facility, or delivery service, wherein medical marijuana is made available, sold, offered for sale, given, distributed, traded, cultivated for, or otherwise provided to primary caregivers or qualified patients, as defined by this chapter.

A “medical marijuana collective” or “dispensary” shall not include the following uses, as long as the location of such uses is otherwise regulated by code or applicable law: (1) a clinic licensed pursuant to Chapter 1 of Division 2 of the California Health and Safety Code; (2) a health care facility licensed pursuant to Chapter 2 of Division 2 of the California Health and Safety Code; (3) a residential care facility for persons with chronic life-threatening illnesses licensed pursuant to Chapter 3.01 of Division 2 of the California Health and Safety Code; (4) a residential care facility for the elderly licensed pursuant to Chapter 3.2 of Division 2 of the California Health and Safety Code; and (5) a residential hospice or a home health agency licensed pursuant to Chapter 8 of Division 2 of the California Health and Safety Code, as long as any such use complies strictly with applicable law including, but not limited to, California Health and Safety Code Section 11362.7 et seq.

SECTION 5 . Subsection P of section 5 of Article A of Chapter 4 of Title 9 of the Lemoore Municipal Code is amended to read as follows:

“Primary caregiver” shall have the same definition as in California Health and Safety Code Section 11362.7 et seq., as it now reads or as amended.

SECTION 6. Subsection Q of section 5 of Article A of Chapter 4 of Title 9 of the Lemoore Municipal Code is amended to read as follows:

“Qualified patient” shall have the same definition as California Health and Safety Code Section 11362.7 et seq., as it now reads or as amended.

Passed and adopted at a Regular Meeting of the Planning Commission of the City of Lemoore held on December 14, 2015, by the following votes:

ORDINANCE NO. 2016-01

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF LEMOORE AMENDING CHAPTER 8 OF TITLE 4 AND CHAPTER 4 OF TITLE 9 OF THE LEMOORE MUNICIPAL CODE RELATING TO MEDICAL MARIJUANA

THE CITY COUNCIL OF THE CITY OF LEMOORE DOES ORDAIN AS FOLLOWS:

SECTION 1. FINDINGS.

1. The Compassionate Use Act (Proposition 215). In 1996, with the adoption of Proposition 215, the California voters approved the Compassionate Use Act (Health and Safety Code § 11362.5) to ensure that seriously ill Californians have the right to obtain and use marijuana for medical purposes where that medical use is deemed appropriate and has been recommended by a physician, without fear of criminal prosecution under limited, specified circumstances.
2. Supplemental Statutory Regulations (SB 420). In 2004, the State Legislature enacted SB 420 to clarify the scope of the Compassionate Use Act and provide additional statutory guidance regarding medical marijuana use. These statutes are codified at Health and Safety Code § 11362.7 et seq. and allow cities and counties to adopt supplemental rules and regulations.
3. Federal Law (The Controlled Substances Act). While State law allows the use of marijuana for medical purposes, marijuana is an illegal controlled substance under the Federal Controlled Substances Act. The United States Supreme Court has ruled that notwithstanding California law, the distribution of medical marijuana through a medical marijuana dispensary is unlawful (United States v. Oakland Cannabis Buyers' Cooperative (2001) 532 U.S. 483) as is the possession, use, and cultivation of marijuana for personal medical purposes Gonzales v. Raich (2005) ___ U.S. ___. Violations are subject to federal prosecution.
4. Health, Safety, and Welfare Concerns. The City of Lemoore has identified a number of health, safety, and welfare concerns associated with the cultivation, distribution, delivery and consumption of medical marijuana. Some documented problems with cultivation include offensive odors, trespassing, theft, and violent encounters between growers and persons attempting to steal plants. For indoor grows, there are problems with fire hazards and problems associated with mold, fungus, and pests. For distribution, there are documented problems with medical marijuana dispensaries such as increased crime in and about the dispensary, robberies of customers, negative impact on nearby businesses, nuisance problems, and increased DUI's. Some of the concerns with the consumption of marijuana include smoke drifting into neighboring residences, children being able to observe and smell the consumption of marijuana, and driving under the influence of marijuana.

There is a need to adopt health, safety, and welfare regulations, including appropriate zoning regulations, to avoid adverse impacts on the community which may arise from the cultivation, distribution, deliveries and consumption of medical marijuana.

5. The Compassionate Use Act and SB 420 Could Lead to the Opening of Medical Marijuana Dispensaries. Medical marijuana advocates assert that medical marijuana dispensaries, businesses which sell marijuana to qualified patients, persons with valid identification cards, and designated primary care givers are permitted by the Compassionate Use Act and SB 420. Individuals have relied upon these laws to open dispensaries in a number of communities throughout the State. Medical marijuana advocates assert that patients may designate these businesses as their primary caregiver and the business can serve an unlimited number of patients.

In addition to the primary caregiver provision, SB 420 allows qualified patients, persons with identification cards, and primary caregivers of qualified patients and persons with identification cards, to associate within California to collectively or cooperatively cultivate medical marijuana. Medical marijuana advocates have indicated that they may rely upon these provisions to operate medical marijuana dispensaries by having persons qualified to receive medical marijuana designate others to cultivate and distribute medical marijuana on their behalf.

Because of the problems associated with dispensaries and the potential for such dispensaries to open in the City, it is necessary to adopt regulations addressing medical marijuana dispensaries and deliveries to protect the public health, safety, and welfare of the citizens of Lemoore. Without a city ordinance in place, medical marijuana dispensaries could open in the City and operate without restriction, subject only to State and federal prosecutorial discretion for violations of State and federal drug laws.

6. The Compassionate Use Act and SB 420 Could Lead to the Large-Scale Cultivation of Marijuana. SB 420 provides that qualified patients, persons with valid identification cards, and designated primary care givers who associate within California in order to collectively or cooperatively cultivate marijuana for medical purposes are not subject to criminal sanctions. This provision could lead to the large-scale cultivation of medical marijuana within the City and the problems associated therewith. Therefore it is necessary to adopt regulations addressing the cultivation of medical marijuana to protect the public health, safety, and welfare of the citizens of Lemoore. Without a city ordinance in place, the cultivation of marijuana could occur within the City without restriction.
7. AB 243 and AB266 Medical Marijuana Regulation and Safety Act. On October 9, 2015, Governor Jerry Brown signed AB 243 and AB266, the "Medical Marijuana Regulation and Safety Act" ("Act"), into law. The Act becomes effective January 1, 2016 and contains provisions that govern the cultivating, processing, transporting, testing, and distributing of medical marijuana to qualified patients throughout the state. The Act contains statutory provisions that allow local governments to enact ordinances prohibiting marijuana cultivation, processing, delivery, and dispensaries.

8. Intent to Comply With Federal Law. In adopting this ordinance, the Council is intending to comply with federal law which prohibits the cultivation and distribution of marijuana, whether for medical purposes or otherwise. To the extent this ordinance does not address a particular aspect of the cultivation, distribution, delivery or consumption of medical marijuana, the City is not intending to permit conduct that is otherwise prohibited by federal law.
9. Conduct Which Endangers Others: Nuisances. Nothing in this ordinance shall be construed to allow persons to engage in conduct that endangers others or causes a public nuisance.

SECTION 2: AMENDMENT OF CODE: PUBLIC WELFARE (MEDICAL MARIJUANA).

Chapter 8, of Title 4, of the Lemoore Municipal Code is amended in its entirety as follows:

MEDICAL MARIJUANA CULTIVATION

4-8-1: PURPOSE AND INTENT:

4-8-2: EFFECTIVE DATE:

4-8-3: PERSONAL USE CULTIVATION:

4-8-4: COLLECTIVE OR COOPERATIVE CULTIVATION:

4-8-3:DEFINITIONS:

4-8-4: PROHIBITED ACTIVITIES:

4-8-5: PERSONAL USE CULTIVATION:

4-8-6: MEDICAL MARIJUANA COLLECTIVE, COOPERATIVES, OR DISPENSARY:

4-8-7: MEDICAL MARIJUANA CULTIVATION:

4-8-8: MARIJUANA DELIVERY PROHIBITED:

4-8-9: VIOLATION AND PENALTY:

4-8-10: PUBLIC NUISANCE:

4-8-1: PURPOSE AND INTENT:

~~To the extent that the city is required to allow the cultivation of medical marijuana under state law, the rules set forth herein shall apply. Nothing in this chapter shall be interpreted to permit medical marijuana dispensaries, as defined by section 9-4A-5 of this code. (Ord. 2012-05, 11-20-2012)~~

It is the purpose and intent of this chapter to prohibit the cultivation of medical marijuana, medical marijuana dispensaries, cooperatives, collectives, deliveries and cultivation in order to preserve the public peace, health, safety, and general welfare of the citizens of the city. Additionally, it is the purpose and intent of this chapter to repeal outdated ordinances pertaining to medical marijuana in the city.

4-8-2: EFFECTIVE DATE:

~~A. Thirty Days After Passage: The ordinance codified herein shall take effect and be in full force and effect from and after thirty (30) days after its final passage and adoption. Within fifteen (15) days after its adoption, the ordinance codified herein, or a summary of the ordinance codified herein, shall be published once in a newspaper of general circulation.~~

~~B. Grace Period: Notwithstanding the foregoing, those qualified patients and persons with identification cards, and primary caregivers, who were cultivating marijuana in the city as of the date the ordinance codified herein was introduced by the city council in strict compliance with the medical marijuana cultivation regulations then in effect, and remain in strict compliance with those regulations, shall have a period of six (6) months from the effective date to comply with the amended regulations set forth in this chapter. For purposes of this grace period, "cultivating marijuana" shall mean actual growing plants. No new plantings or seedlings are allowed. (Ord. 2012-05, 11-20-2012)~~

A. Thirty Days After Passage: The ordinance codified herein shall take effect and be in full force and effect from and after thirty (30) days after its final passage and adoption. Within fifteen (15) days after its adoption, the ordinance codified herein, or a summary of the ordinance codified herein, shall be published once in a newspaper of general circulation.

4-8-3: PERSONAL USE CULTIVATION:

~~An individual qualified patient or person with an identification card shall be allowed to cultivate marijuana within his/her private residence, in an attached garage, or in an accessory building if the property is a detached single family residence. A primary caregiver shall only cultivate medical marijuana at the residence of a qualified patient or person with an identification card for whom he/she is the primary caregiver. Medical marijuana cultivation for personal use shall be subject to the following requirements:~~

~~A. Area: The medical marijuana cultivation area shall not exceed thirty two (32) square feet measured by the canopy and not exceed ten feet (10') in height per residence. This limit applies regardless of the number of qualified patients or persons with an identification card residing in the residence. The cultivation area shall be a single designated area.~~

~~B. Lighting: Medical marijuana cultivation lighting shall not exceed a total of one thousand two hundred (1,200) watts, unless a housing inspection and letter of compliance is first obtained (subsection 8-1A-2B of this code) from the Lemoore building inspection division. Such housing inspection will determine if the existing electrical system can safely supply power to the proposed lighting at the proposed location. Should alterations be needed to the electrical system, a permit will need to be obtained by the applicant prior to any work being done.~~

~~C. Building Code Requirements: Any alterations or additions to the residence, including garages and accessory buildings, shall be subject to applicable building and fire codes, including plumbing and electrical, and all applicable zoning codes, including lot coverage, setback, height requirements, and parking requirements.~~

- ~~D. Gas Products: The use of gas products (CO₂, butane, etc.) for medical marijuana cultivation or processing is prohibited.~~
- ~~E. Evidence Of Cultivation: From a public right of way, there shall be no evidence visible from the exterior of medical marijuana cultivation occurring on the site.~~
- ~~F. Residence: The qualified patient or person with an identification card shall reside in the residence where the medical marijuana cultivation occurs.~~
- ~~G. Cultivation Elsewhere In The City: The qualified patient or person with an identification card shall not participate in medical marijuana cultivation in any other location within the city of Lemoore.~~
- ~~H. Incidental Use: The residence shall maintain a kitchen, bathrooms, and primary bedrooms for their intended use and not be used primarily for medical marijuana cultivation.~~
- ~~I. Ventilation: The medical marijuana cultivation area shall include a ventilation and filtration system designed to ensure that odors from the cultivation are not detectable beyond the residence, or the property line for detached single family residences, and designed to prevent mold and moisture and otherwise protect the health and safety of persons residing in the residence and cultivating the marijuana. This shall include, at a minimum, a system meeting the requirements of the current, adopted edition of the California building code section 1203.4 natural ventilation or section 402.3 mechanical ventilation (or its equivalent(s)). Subsection 9-5B-2C1 of this code shall apply when determining the detection of odors (the "reasonable person" standard).~~
- ~~J. Storage Of Chemicals: Any chemicals used for medical marijuana cultivation shall be stored outside of the habitable areas of the residence and outside of public view from neighboring properties and public rights of way.~~
- ~~K. Nuisance: The medical marijuana cultivation area shall not adversely affect the health or safety of the nearby residents by creating dust, glare, heat, noise, noxious gases, odor, smoke, traffic, vibration, or other impacts; and shall not be hazardous due to the use or storage of materials, processes, products or wastes, or from other actions related to the cultivation.~~
- ~~L. Property Owner Authorization: For rental property, the lessee shall obtain written authorization from the property owner or property management company to cultivate medical marijuana.~~
- ~~M. Notification: The owner and any lessee of the residence upon which cultivation will occur shall inform the police department of the intent to cultivate medical marijuana and pick up a handout setting forth the owner and lessee responsibilities under this section. This notification shall be provided prior to the commencement of the cultivation, except that for existing cultivation, the information shall be provided within ten (10) days of the effective date of this chapter. The police department may direct the owner and lessee to the planning or building department for more information about building code and permit requirements~~

that may be applicable if alterations or additions to the residence are contemplated. The police department and other involved departments shall keep patient information confidential to the extent required by law.

~~N. Additional Requirements For Garages And Accessory Buildings: The following additional requirements shall apply for personal use cultivation that occurs in a garage or accessory building. The garage or accessory building shall be secure, locked, and fully enclosed, with a ceiling, roof or top. All walls and doors shall be entirely opaque. The ceiling, top or roof may contain transparent materials, provided, however, that its contents are not visible from adjoining uses, including multi-story buildings, if applicable, or public rights of way. The garage or building shall include an audible alarm or a burglar alarm monitored by an alarm company or private security company. The garage or building, including all walls, doors, and the roof, shall be constructed with a firewall assembly of green board meeting the minimum building code requirements for residential structures and include material strong enough to prevent entry except through an open door. If the garage is to be structurally altered, the underlying zone district requirements for covered parking still apply, and must retain at least one covered space per residential dwelling unit.~~

~~O. Posting Of Physician Recommendation Or Identification Card; Posting Of Owner Permission: A copy of a qualified patient physician recommendation or identification card shall be posted in a conspicuous place in the cultivation area for each patient residing in the residence who is cultivating medical marijuana. For rental properties, a copy of the owner's written authorization to cultivate marijuana shall be posted in the same manner. (Ord. 2012-05, 11-20-2012)~~

4-8-4: COLLECTIVE OR COOPERATIVE CULTIVATION:

For the collective or cooperative cultivation, such cultivation shall be confined to the ML (light industrial) zone district within the city and be subject to the restrictions of Health And Safety Code section 11362.768 and to the following requirements:

~~A. Secure Enclosed Structure; Code Compliance: The cultivation of medical marijuana shall at all times occur in a secure, locked, and fully enclosed structure, with a ceiling, roof or top. All walls and doors shall be entirely opaque. The ceiling, top or roof may contain transparent materials, provided, however, that its contents are not visible from adjoining uses, including multi-story buildings, if applicable, or public rights of way. The security shall include an audible alarm or a burglar alarm monitored by an alarm company or private security company. The structure shall meet all applicable building and fire codes, including plumbing and electrical, and all applicable zoning codes, including lot coverage, setback, height requirements, and parking requirements. At a minimum, the structure, including all walls, doors, and the roof, shall be constructed with a firewall assembly of green board meeting the minimum building code requirements for commercial structures and include material strong enough to prevent entry except through an open door.~~

~~B. Ventilation: The structure for cultivating medical marijuana shall include a ventilation and filtration system designed to ensure that odors from the cultivation are not detectable beyond the property line and designed to prevent mold and moisture and otherwise protect the health~~

~~and safety of those persons participating in the cultivation. This shall include, at a minimum, a system meeting the requirements of the current, adopted edition of the California building code section 1203.4 natural ventilation or section 402.3 mechanical ventilation (or its equivalent(s)). Subsection 9 5B 2C1 of this code shall apply when determining the detection of odors (the "reasonable person" standard).~~

~~C. Maximum Of Ninety Nine Plants: The maximum number of plants, whether mature or immature, shall not exceed ninety nine (99) marijuana plants.~~

~~D. Signage And Markings: There shall be no signage or markings on the property, structure, on any other building located on the property, or off site, which in any way evidences that the collective or cooperative cultivation of medical marijuana is occurring on the property.~~

~~E. Required Participation In The Cultivation; No Employees: All persons who associate together for the collective or cooperative cultivation must participate in the cultivation and the cultivation must occur solely among members of the association. No employees, independent contractors, or other persons may be utilized for the cultivation.~~

~~F. No Compensation Or Sales; Distribution Only Among Members: No member may compensate any other member to cultivate on his/her behalf. All distribution of the cultivated marijuana shall be solely among members of the association and shall be without compensation of any kind. Nothing in this subsection shall be deemed to prevent a primary caregiver from subsequently providing the cultivated marijuana to one of his/her qualified patients.~~

~~G. No On Site Consumption: No on site consumption of medical marijuana shall occur.~~

~~H. No Cultivation In Conjunction With A Business; No Sales Of Goods Or Services: The cultivation shall not occur in conjunction with any business. No products or services shall be sold from the property where the cultivation occurs.~~

~~I. Record Requirements: The owner and/or lessee of the property upon which the cooperative or collective grow occurs shall provide the following information to the police department in a form and manner approved by the police department:~~

- ~~1. Full name, address, and telephone number(s) of the owner and lessee, including all alias names used in the previous ten (10) years;~~
- ~~2. The address where correspondence is to be mailed;~~
- ~~3. A list of all qualified patients, persons with identification cards, and primary caregivers participating in the cultivation (the list shall include each person's full name, alias names used, driver's license numbers, home and work addresses, and phone number(s));~~
- ~~4. A copy of all participant physician recommendations, identification cards, and primary caregiver evidence;~~

5. A sketch or diagram showing the property with the location of the cultivation and all buildings on the property, including a statement showing the total area occupied by the cultivation and the distance from the property lines;
6. A statement setting forth the number of plants to be cultivated and demonstrating that the cultivation does not exceed the maximums set forth under state law or this chapter, namely patient maximums and the cap of ninety nine (99) plants;
7. A statement identifying all persons who will be tending to the cultivation and describing the cultivation process;
8. For lessees, written evidence that the owner has consented to use of the property for medical marijuana cultivation;
9. Such other information as the police department determines is necessary to ensure compliance with state law and this chapter.

This information shall be provided prior to the commencement of the collective or cooperative cultivation except that for existing collective or cooperative cultivation operations, the information shall be provided within ten (10) days of the effective date of this chapter. The information provided shall be updated upon any change within ten (10) days. The police department shall keep patient information confidential to the extent required by law.

J. Inspections: The cultivation operation shall be open for inspection by any law enforcement officer or city code enforcement officer (including, but not limited to, a city building inspector and fire marshal) between the hours of eight o'clock (8:00) A.M. and nine o'clock (9:00) P.M. seven (7) days a week, or at any time upon responding to a call for service related to the property where the cultivation is occurring.

K. Violations: In addition to the remedies provided in this chapter, if the collective or cooperative cultivation occurs in violation of this chapter or any other local or state law or regulation, the owner or lessee shall be prohibited from further collective or cooperative cultivation at any location within the city for a period of one year after notice by the city of the violation. Subsequent violations shall result in a three (3) year prohibition. (Ord. 2012-05, 11-20-2012)

4-8-3:DEFINITIONS:

For the purposes of this chapter, these words and phrases shall be defined as follows:

“City” means the city of Lemoore.

“Cultivate” or “cultivation” is the planting, growing, harvesting, drying, processing, or storage of one or more marijuana plants or any part thereof in any location.

“Delivery” shall be as defined in the Medical Marijuana Regulation and Safety Act, California Business and Professions Code section 19300.5(m), as that section may be amended from time to time, and includes the commercial transfer of medical marijuana and medical

marijuana products from a dispensary as well as the use of any technology platform that enables qualified patients and caregivers to arrange for or facilitate the transfer.

“Marijuana” shall have the same definition as in California Health and Safety Code Section 11018, as it now reads or as may be amended.

“Medical marijuana” means marijuana used for medical purposes in accordance with California Health and Safety Code Section 11362.7 et seq., as may be amended.

“Medical marijuana collective” or “dispensary” means any operation, including a store-front facility or structure, mobile facility, or delivery service, wherein medical marijuana is made available, sold, offered for sale, given, distributed, traded, cultivated for, or otherwise provided to primary caregivers or qualified patients, as defined by this chapter.

A “medical marijuana collective” or “dispensary” shall not include the following uses, as long as the location of such uses is otherwise regulated by code or applicable law: (1) a clinic licensed pursuant to Chapter 1 of Division 2 of the California Health and Safety Code; (2) a health care facility licensed pursuant to Chapter 2 of Division 2 of the California Health and Safety Code; (3) a residential care facility for persons with chronic life-threatening illnesses licensed pursuant to Chapter 3.01 of Division 2 of the California Health and Safety Code; (4) a residential care facility for the elderly licensed pursuant to Chapter 3.2 of Division 2 of the California Health and Safety Code; and (5) a residential hospice or a home health agency licensed pursuant to Chapter 8 of Division 2 of the California Health and Safety Code, as long as any such use complies strictly with applicable law including, but not limited to, California Health and Safety Code Section 11362.7 et seq.

“Primary caregiver” shall have the same definition as in California Health and Safety Code Section 11362.7 et seq., as it now reads or as amended.

“Qualified patient” shall have the same definition as California Health and Safety Code Section 11362.7 et seq., as it now reads or as amended.

4-8-4: PROHIBITED ACTIVITIES:

Marijuana cultivation, marijuana processing, marijuana delivery, and marijuana dispensaries shall be prohibited activities in the City, except where the City is preempted by federal or state law from enacting a prohibition on any such activity. No use permit, variance, building permit, or any other entitlement, license, or permit, whether administrative or discretionary, shall be approved or issued for the activities of marijuana cultivation, marijuana processing, marijuana delivery, or the establishment or operation of a marijuana dispensary in the City, and no person shall otherwise establish or conduct such activities in the City, except where the City is preempted by federal or state law from enacting a prohibition on any such activity for which the use permit, variance, building permit, or any other entitlement, license, or permit is sought.

4-8-5: PERSONAL USE CULTIVATION:

Personal use cultivation is a prohibited in all zone districts in the city.

4-8-6: MEDICAL MARIJUANA COLLECTIVE, COOPERATIVES, OR DISPENSARY:

A medical marijuana collective, cooperative, or dispensary is a prohibited use in all zone districts in the city.

4-8-7: MEDICAL MARIJUANA CULTIVATION:

Prohibition of marijuana cultivation. Marijuana cultivation by any person, including primary caregivers and qualified patients collectives, cooperatives or dispensaries, is prohibited in all zone districts within the city. Prohibited medical marijuana cultivation declared a public nuisance.

The establishment, maintenance, or operation of any prohibited cultivation of medical marijuana, as defined in this chapter, within the city is declared to be a public nuisance and is prohibited in all zone districts. Each person or responsible party is subject to abatement proceedings, in addition to all other legal and equitable relief available to the city.

4-8-8: MARIJUANA DELIVERY PROHIBITED:

- A. No Person shall deliver marijuana to any location within the City from a mobile marijuana dispensary, regardless of where the mobile marijuana dispensary is located, or regardless of whether a technology platform is used by the dispensary or engaged in any operation for this purpose.
- B. No person shall deliver any marijuana-infused product such as tinctures, baked goods or other consumable products, to any location within the City from a mobile marijuana dispensary, regardless of where the mobile marijuana dispensary is located, or engage in any operation for this purpose

Public Nuisance declared

Operation of any mobile marijuana dispensary within the City in violation of the provisions of this Chapter is hereby declared a public nuisance and may be abated pursuant to all available remedies.

4-8-9: VIOLATION AND PENALTY:

Any person violating any of the provisions of this chapter shall be guilty of a misdemeanor and subject to a maximum penalty of six (6) months imprisonment in the County Jail or a fine of one thousand dollars (\$1,000.00), as well as the administrative penalties as set forth, as may be amended. Violators shall be subject to any other enforcement remedies available to the city

under any applicable state or federal statute or pursuant to any other lawful power the city may possess.

4-8-10: PUBLIC NUISANCE

Any violation of this chapter is hereby declared to be a public nuisance.

SECTION 3: AMENDMENT OF CODE: PLANNING AND ZONING.

Table 9-4B-2 of Section 2 of Article B of Chapter 4 of Title 9 of the Lemoore Municipal Code is amended to read as follows:

**TABLE 9-4B-2
ALLOWED USES AND REQUIRED ENTITLEMENTS FOR BASE ZONING DISTRICTS**

~~MEDICAL MARIJUANA DISPENSARY: Any facility or location, whether fixed or mobile, where medical marijuana is made available to, distributed by, or distributed to more than three (3) of the following: 1) a qualified patient, 2) a person with a medical marijuana identification card, or 3) a primary caregiver. All three (3) of these terms are defined in strict accordance with California Health And Safety Code sections 11362.5 and 11362.7 et seq. Unless otherwise regulated by this code or applicable law, a "medical marijuana dispensary" shall not include the following uses: a clinic licensed pursuant to chapter 1 of division 2 of the Health And Safety Code, a healthcare facility licensed pursuant to chapter 2 of division 2 of the Health And Safety Code, a residential care facility for persons with chronic life threatening illness licensed pursuant to chapter 3.01 of division 2 of the Health And Safety Code, a residential care facility for the elderly licensed pursuant to chapter 3.2 of division 2 of the Health And Safety Code, a residential hospice, or a home health agency licensed pursuant to chapter 8 of division 2 of the Health And Safety Code, as long as any such use complies strictly with applicable law including, but not limited to, Health And Safety Code sections 11362.5 and 11362.7 et seq. Medical marijuana dispensaries where medical marijuana is distributed by, distributed to, or made available to any combination of three (3) or more qualified patients, persons with an identification card, or primary caregivers as defined by California Health And Safety Code section 11362.5 et seq., are prohibited in all zone districts.~~

"Marijuana" shall have the same definition as in California Health and Safety Code Section 11018, as it now reads or as may be amended.

"Medical marijuana" means marijuana used for medical purposes in accordance with California Health and Safety Code Section 11362.7 et seq., as may be amended.

"Medical marijuana collective" or "dispensary" means any operation, including a store-front facility or structure, mobile facility, or delivery service, wherein medical marijuana is made available, sold, offered for sale, given, distributed, traded, cultivated for, or otherwise provided to primary caregivers or qualified patients, as defined by this chapter.

A "medical marijuana collective" or "dispensary" shall not include the following uses, as long as the location of such uses is otherwise regulated by code or applicable law: (1) a clinic licensed pursuant to Chapter 1 of Division 2 of the California Health and Safety Code; (2) a health care facility licensed pursuant to Chapter 2 of Division 2 of the California Health and Safety Code; (3) a residential care facility for persons with chronic life-threatening illnesses licensed pursuant to Chapter 3.01 of Division 2 of the California Health and Safety Code; (4) a residential care facility for the elderly licensed pursuant to Chapter 3.2 of Division 2 of the California Health and Safety Code; and (5) a residential hospice or a home health agency licensed pursuant to Chapter 8 of Division 2 of the California Health and Safety Code, as long as any such use complies strictly with applicable law including, but not limited to, California Health and Safety Code Section 11362.7 et seq.

Subsection P of section 5 of Article A of Chapter 4 of Title 9 of the Lemoore Municipal Code is amended to read as follows:

"Primary caregiver" shall have the same definition as in California Health and Safety Code Section 11362.7 et seq., as it now reads or as amended.

Subsection Q of section 5 of Article A of Chapter 4 of Title 9 of the Lemoore Municipal Code is amended to read as follows:

“Qualified patient” shall have the same definition as California Health and Safety Code Section 11362.7 et seq., as it now reads or as amended.

SECTION 4. CALIFORNIA ENVIRONMENTAL QUALITY ACT FINDING.

This Ordinance is categorically exempt from environmental review pursuant to CEQA Guidelines Section 15061(b)(3).

SECTION 5. SEVERABILITY.

If any provision of this ordinance is declared unlawful by a court of competent jurisdiction, the Council intends that the remaining provisions of this ordinance remain in effect.

SECTION 6. EFFECTIVE DATE.

This ordinance shall take effect and be in full force and effect from and after thirty (30) days after its final passage and adoption. Within fifteen (15) days after its adoption, the ordinance, or a summary of the ordinance, shall be published once in a newspaper of general circulation.

The foregoing ordinance was introduced at a regular meeting of the City Council of the City of Lemoore held on the 5th day of January, 2016 and passed and adopted at a regular meeting of the City Council held on the ___ day of _____, 2016 by the following vote:

AYES:
NOES:
ABSTAIN:
ABSENT:

The foregoing ordinance is hereby approved this ___ day of _____ 2016

2016-2024 Housing Element Update

Planning Commission
December 14, 2015

Housing Element Overview

- 2016 update required by state law
- Joint effort of Kings County & 4 cities
- Refine housing programs through 2024
- Review by HCD – “Certification”

Housing Element Requirements

- Maintain & improve existing housing
- Plan for growth needs for all income levels
- Remove constraints on housing of all types
- Fair housing

Key Issues

- **Regional Housing Needs Assessment (RHNA)**
- **Constraints on housing of all types and persons with special needs**

Regional Housing Needs Assessment

- Mandated by state law & prepared by KCAG
- Each jurisdiction must accommodate its fair share of the county's housing need for all income levels
- Focus on Lower-income categories (VL + L)
- Linked to availability of sites with appropriate zoning
- RHNA is not a construction quota

RHNA Income Categories

Kings County 2015

<i>Median Income = \$57,900</i>	Income Limits	Affordable Rent	Affordable Price (est.)
Extremely Low (<30%)	\$17,350	\$434	\$65,000
Very Low (31-50%)	\$28,950	\$724	\$110,000
Low (51-80%)	\$46,300	\$1,158	\$180,000
Moderate (81-120%)	\$69,500	\$1,738	\$270,000
Above Mod (>120%)	\$69,500+	\$1,738+	\$270,000+

RHNA Allocations

2016-2024

Jurisdiction	RHNA
Avenal	639
Corcoran	946
Hanford	4,832
Lemoore	2,985
County unincorporated	818
KCAG Total	10,220

RHNA vs. Sites 2016-2024

City of Lemoore	Very Low	Low	Mod	Above Mod	Total
RHNA	677	507	534	1,267	2,985
Units built 2014-15	13	14	185	--	212
Net Remaining RHNA	1,157		350	1,267	2,773
Potential development	1,523		1,181	1,121	3,825
Adequate Sites?	Yes	Yes	Yes	Yes	Yes

Sources: Kings County Association of Governments; City of Avenal

Constraints

- Transitional & supportive housing (Program 4.10)
- Farmworker housing (Program 4.11)

Next Steps

- **Planning Commission recommendation**
- **City Council public hearing & adoption**
- **HCD review & certification**
- **Program implementation & annual review**

Staff Report

ITEM NO. 6

To: Lemoore Planning Commission
From: John Douglas, AICP, Prinicipal
Date: December 10, 2015 **Meeting Date:** December 14, 2015
Subject: Comprehensive Update to the Housing Element for the 2016-2024 Planning Period

Staff Recommendation:

Staff recommends that the Planning Commission conduct a public hearing and adopt Resolution 2015-13 recommending City Council approval of the 2016-2024 Housing Element update.

Background:

State law requires each jurisdiction in Kings County to prepare an updated Housing Element for the 2016-2024 planning period. The County and its four cities have again followed a collaborative process in preparing a joint Housing Element document for all five jurisdictions. As described below, the joint Housing Element includes data, analysis and general goals and policies covering the entire county, but each jurisdiction has separate programs that apply only to that jurisdiction. In adopting the Housing Element, no jurisdiction is required to adopt programs that apply to another jurisdiction.

A public workshop regarding the Housing Element update was held by the City Council on November 4, 2014, and the draft Housing Element was subsequently submitted to the California Department of Housing and Community Development ("HCD") for review as required by state law. On November 24, 2015 HCD issued a letter (**Exhibit A**) finding that some revisions to the Draft Housing Element are necessary to fully address the requirements of state law. In response to HCD's comments, a revised draft Housing Element has been prepared. Responses to HCD's comments, as well as the revised Housing Element are attached to the Planning Commission Resolution (**Exhibit B**) and discussed further in the Key Issues section below.

Analysis:

The General Plan is the City's primary planning policy document and includes state-mandated "elements" that set forth objectives, principles, standards and goals to guide orderly development. The City's current Housing Element covering the 2009-2014 planning period was adopted in 2010. State law now establishes requirements for updating Housing Elements on an eight-year cycle concurrent with every other update to the Regional Transportation Plan. Within the Kings County Association of Governments ("KCAG") region, the 2016-2024 planning period is referred to as the "5th

Housing Element cycle” in reference to the five required updates since the comprehensive revision to state housing element law in 1980.

Pursuant to state law, draft Housing Elements must be submitted to HCD for review prior to adoption. The state legislature has granted HCD the authority to promulgate detailed guidelines for the preparation of Housing Elements, and also to issue opinions regarding whether local Housing Elements substantially comply with the requirements of state law. A finding of substantial compliance by HCD is referred to as Housing Element “certification.”

Housing Element certification is desirable for several reasons. The General Plan establishes the foundation for a city’s exercise of local zoning and land use regulatory powers. State law provides a presumption of validity for a Housing Element that has been certified by HCD. As a result, a certified Housing Element can help support a city’s land use authority in the event of a legal challenge. In addition, some grant funding programs require a certified Housing Element as a prerequisite for eligibility. The \$120,475 Housing-Related Parks Grant received by Lemoore in 2013 is an example of such grant funding.

The state legislature has determined that the availability of housing is of vital statewide importance, and attainment of decent housing and a suitable living environment for every Californian is a priority of the highest order. Achievement of this goal requires cooperation between governments and the private sector to expand housing opportunities and accommodate the housing needs of Californians of all economic levels.

In accordance with Section 65583 of the California *Government Code*, the Housing Element must include the following components:

- A review of the previous Housing Element’s goals, policies, objectives and programs to ascertain the effectiveness of each of these components, as well as the overall effectiveness of the Housing Element;
- An assessment of housing needs and an inventory of resources and constraints related to meeting these needs;
- A statement of goals, policies and quantified objectives related to maintenance, preservation, improvement and development of housing; and,
- A policy program that provides a schedule of actions that the City intends to undertake to implement the policies set forth in the Housing Element.

Housing Element Organization

The 2016-2024 Housing Element is organized into the following six chapters and three appendices:

- **Chapter 1: Introduction** describes the purpose, organization and requirements of the Housing Element;
- **Chapter 2: Housing Needs Assessment** analyzes the demographic, economic and housing trends and describes the housing needs of each jurisdiction’s residents;

- **Chapter 3: Resources and Opportunities** analyzes resources for housing, including land, financial and administrative resources, and opportunities for energy conservation;
- **Chapter 4: Constraints** analyzes both governmental and non-governmental constraints to housing production;
- **Chapter 5: Housing Plan** describes each jurisdiction's strategies and actions for the construction, conservation, rehabilitation and preservation of housing;
- **Chapter 6: Glossary** provides definitions of the terms used in the Housing Element;
- **Appendix A: Evaluation of the Prior Housing Element** describes each jurisdiction's progress in implementing the programs contained in the prior Housing Element;
- **Appendix B: Land Inventory** provides a parcel-level inventory of land suitable for housing development in each jurisdiction;
- **Appendix C: Public Participation Summary** describes opportunities for public review of the new Housing Element and how comments have been addressed.

While the new Housing Element has been extensively revised to include updated demographic information and reflect changed circumstances, the policies and programs are not substantially different from the existing Housing Element.

Key Issues

The Housing Element update involves two key issues: 1) identification of adequate sites for housing development to accommodate projected population growth at all income levels; and 2) zoning regulations pertaining to affordable housing and persons with special needs.

Adequate Sites for Housing

A key requirement of state law is that each jurisdiction demonstrate the availability of adequate sites with appropriate zoning to accommodate residential development commensurate with its assigned share of regional growth needs as described in the Regional Housing Needs Assessment (RHNA).

At the beginning of each Housing Element cycle, KCAG prepares a RHNA Plan in consultation with HCD. The RHNA identifies the number of new housing units each jurisdiction must accommodate through its land use plans and zoning regulations. It is important to note that the RHNA establishes planning targets, not development quotas. No penalty is imposed on cities if actual development does not achieve the RHNA allocations as long as adequate sites are available with appropriate zoning and densities to accommodate the RHNA at all income levels.

Chapter 3 and Appendix B of the Housing Element include an analysis of each jurisdiction's assigned share of the region's housing needs and the availability of sites that could accommodate new housing development commensurate with the RHNA. Lemoore's RHNA allocation for the new planning period is 2,985 housing units distributed among income categories as follows:

**2016-2024 RHNA Allocation
City of Lemoore**

Very Low	Low	Moderate	Above Moderate	Total
677*	507	534	1,267	2,985

*Per state law, half of the very-low units are assumed to be in the extremely-low category
Source: KCAAG, 1/28/2015

The very-low- and low-income categories of the RHNA allocation normally receive the most attention because state law requires cities to establish appropriate development standards to address these needs. Under state law, zoning that allows multi-family development at a density of 20 units/acre or more is deemed appropriate to facilitate development of housing that is affordable to very-low- and low-income households in Kings County. As indicated in HCD’s review letter, state law also includes a provision allowing jurisdictions to identify sites with maximum densities of less than 20 units/acre as suitable for lower-income housing if supporting analysis can be provided based on market demand, financial feasibility, and development experience.

The Housing Element relies upon vacant parcels in the RMD zone (17.4 units/acre maximum) to satisfy a portion of the lower-income RHNA allocation, however HCD has stated that additional analysis is necessary to demonstrate the suitability of this density as sufficient to facilitate lower-income housing in Lemoore. If HCD does not accept the City’s analysis of suitable densities for lower-income housing, a zoning amendment could be required to increase the allowable density in the RMD zone and stringent standards could be imposed such as a minimum density of 20 units/acre for future developments on rezoned sites. Although the Zoning Code includes a High Density Residential (RHD) designation that allows up to 25 units/acre, there are no vacant RHD parcels. The draft Housing Element has been revised to provide additional analysis documenting the feasibility of lower-income housing development at the densities allowed in the RMD zone.

Zoning Regulations for Affordable Housing and Persons with Special Needs

State law requires all jurisdictions to adopt zoning standards and procedures to facilitate affordable housing development and accommodate persons with disabilities and other special needs. The following changes to zoning regulations are required in order to ensure consistency with state law.

- Transitional and supportive housing. Transitional and supportive housing must be considered residential uses and permitted subject only to the same requirements as apply to other residential dwellings of the same type in the same zone. A Code amendment is necessary to allow these uses subject to a CUP in the PO zone.
- Farmworker housing. State law requires that up to six farmworkers sharing a residence must be treated as a family use for zoning purposes, and farmworker housing complexes with up to 12 units or 36 beds in group quarters must be permitted as an agricultural use in any zone where agriculture is permitted. A

Code amendment is necessary to allow households of up to six farmworkers in the RHD zone subject only to the same standards as apply to other families.

Chapter 5 of the draft Housing Element includes Programs 4.10 and 4.11 to address these requirements.

HCD Review and Certification of the Housing Element

Cities and counties are required to submit Housing Elements to HCD for review and certification prior to and after adoption. The draft Housing Element has been revised in response to HCD's comments, as summarized in Exhibit 1 of the Draft Resolution. Following adoption by the City Council, the Housing Element must be submitted to HCD for final review. Typically HCD will not grant full certification of the Housing Element until the Zoning Code amendments described above have been completed.

Environmental Assessment:

Initial Study/Negative Declaration (IS/ND) No. SCH 2010041002 was adopted by the City Council on May 4, 2010 for the 2009-2014 Housing Element update. That IS/ND concluded that the Housing Element would not result in a significant impact on the environment. The Draft 2016-2024 Housing Element update does not propose any substantial changes to City policies or development regulations that would result in new significant environmental impacts or a substantial increase in the severity of impacts analyzed in the previous IS/ND, therefore an Addendum has been prepared pursuant to CEQA Guidelines Sections 15162 and 15164. (See **Exhibit "C"**)

Public Comments:

Public hearing notice for the proposed Housing Element update was published in the Hanford Sentinel on December 3, 2015. No comments have been received as of the preparation of this report.

November 24, 2015

Ms. Judy Holwell, Acting Planning Director
Planning Department
City of Lemoore
119 Fox Street
Lemoore, CA 93245

Dear Ms. Holwell:

RE: The City of Lemoore's 5th Cycle (2016-2024) Draft Housing Element

Thank you for submitting Lemoore's draft housing element update which was received for review on September 25, 2015. Pursuant to Government Code (GC) Section 65585(b), the Department is reporting the results of its review. Our review was facilitated by various communications including a conversation with Mr. John Douglas, of J.H. Douglas & Associates, on November 10, 2015.

The draft housing element addresses many statutory requirements; however, revisions will be necessary to comply with State housing law (GC, Article 10.6). The enclosed Appendix describes changes needed to meet remaining statutory requirements.

To remain on an eight year planning cycle, pursuant to Senate Bill 375 (Chapter 728, Statutes of 2008) the City must adopt its housing element within 120 calendar days from the statutory due date of January 31, 2016 for KCAG localities. If adopted after this date, GC Section 65588(e)(4) requires the housing element be revised every four years until adopting at least two consecutive revisions by the statutory deadline.

For information on housing element adoption requirements, please visit our website at: http://www.hcd.ca.gov/hpd/hrc/plan/he/he_review_adoptionsteps110812.pdf

Public participation in the development, adoption and implementation of the housing element is essential to effective housing planning. Throughout the housing element process, the City must continue to engage the community, including commenters on the draft housing element and organizations that represent lower-income and special needs households, by making information regularly available, considering and incorporating comments where appropriate.

HCD Review of Lemoore's Housing Element

November 24, 2015

Page 2

The Department appreciates the dedication you and Mr. John Douglas provided in preparation of the housing element and looks forward to receiving Lemoore's adopted element. We are committed to assisting the City of Lemoore in addressing all statutory requirements of housing element law. If you have any questions or need technical assistance, please contact Greg Nickless, of our staff, at (916) 274-6244.

Sincerely,

Glen A. Campora
Assistant Deputy Director

Enclosures

**APPENDIX
CITY OF LEMOORE**

The following changes would bring the City of Lemoore's housing element into compliance with Article 10.6 of the Government Code (GC). Accompanying each recommended change, we cite the supporting section of the Government Code.

Housing element technical assistance information is available on the Department's website at; www.hcd.ca.gov/hpd. Among other resources, the Housing Element section contains the technical assistance tool, Building Blocks for Effective Housing Elements (Building Blocks), available at: www.hcd.ca.gov/hpd/housing_element2/index.php.

A. Housing Needs, Resources, and Constraints

1. *Include an inventory of land suitable for residential development, including vacant sites and sites having the potential for redevelopment, and an analysis of zoning and public facilities and service to these sites (Section 65583(a)(3)). The inventory of land suitable for residential development shall be used to identify sites that can be developed for housing within the planning period (Section 65583.2).*

Appropriate Densities to Accommodate Lower Income Households: While the element notes existing densities are sufficient to facilitate housing affordable to lower income households, it must also include:

- An analysis, including, but not limited to, factors such as market demand, financial feasibility and development experience within the identified zone(s) demonstrating how the adopted densities can accommodate the RHNA for lower-income households; or
- For communities with densities that meet specific standards (at least 20 units per acre for Lemoore), no analysis is required other than identifying sufficient sites to accommodate the RHNA for lower-income households (Section 65583.2(c)(3)). See the *Building Blocks* at http://www.hcd.ca.gov/hpd/housing_element2/SIA_zoning.php#zoning.

Emergency Shelters: The element indicates emergency shelters are allowed within the Community Facilities zone, pursuant to SB 2 (Chapter 633, Statutes of 2007). However, it must also clarify emergency shelters are permitted without discretionary action and demonstrate sufficient capacity to accommodate the need emergency shelter such as a description of available and suitable acreage or other development opportunities.

2. *Analyze potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including...local processing and permit procedures (Section 65583(a)(5)).*

Local Processing and Permit Procedures: The element states that multifamily projects require Planning Commission approval of a Major Site Plan and Architectural Review. To address this requirement, the element should also discuss approval findings and impacts on timing and approval certainty.

3. *Analyze any special housing needs such as elderly, persons with disabilities, including a developmental disability, large families, farmworkers, families with female heads of households, and families and persons in need of emergency shelter (Section 65583(a)(7)).*

Special Housing Needs: While the element includes some identification and analysis of special housing needs, it must quantify and analyze the housing needs of farmworkers and persons experiencing homelessness. For more information, see the *Building Blocks* at http://www.hcd.ca.gov/housing-policy-development/housing-element/hn_shn_home.php.

B. Housing Programs

1. *Include a program which sets forth a schedule of actions during the planning period, each with a timeline for implementation, which may recognize that certain programs are ongoing, such that there will be beneficial impacts of the programs within the planning period, that the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, the provision of regulatory concessions and incentives, and the utilization of appropriate federal and state financing and subsidy programs when available. The program shall include an identification of the agencies and officials responsible for the implementation of the various actions (Section 65583(c)).*

To address the program requirements of GC Section 65583(c)(1-6), and to facilitate implementation, housing element programs should include definitive implementation timelines (e.g., at least annually) for:

- Program 4.8 (Affordable Housing Project Assistance),
 - Program 4.9 (Senior and Special Needs Housing), and
 - Program 4.11 (Employee and Farmworker Housing).
2. *Identify adequate sites which will be made available through appropriate zoning and development standards and with public services and facilities needed to facilitate and encourage the development of a variety of types of housing for all income levels...(Section 65583(c)(1)).*

As noted in Finding A1, the element does not include a complete site listing and analysis and therefore, the adequacy of sites and zoning were not established. Based on the results of a complete sites inventory and analysis of sites, the City may need to add or revise programs to address a shortfall of sites and zoning for a variety of housing types.

For example, the element may need to include a program to provide sites with zoning that allows owner-occupied and rental multifamily uses by-right sufficient to accommodate the remaining need for lower-income households. By-right, pursuant to 65583.2(i) means, among other things, local government review must not require a CUP, planned unit development or other discretionary review or approval.

3. *The housing element shall contain programs which assist in the development of adequate housing to meet the needs of extremely low-, very low-, low- and moderate-income households (Section 65583(c)(2)).*

As noted in Finding A3, the element requires an analysis of special housing needs. Depending upon the results of that analysis, the City may need to revise or add programs to address the housing needs of persons with developmental disabilities and farmworkers.

4. *The housing element shall contain programs which address, and where appropriate and legally possible, remove governmental constraints to the maintenance, improvement, and development of housing (Section 65583(c)(3)).*

As noted in Finding A2, the element requires an analysis of potential governmental constraints. Depending upon the results of that analysis, the City may need to revise or add programs and address and remove or mitigate any identified constraints.

4. *The housing program shall promote equal housing opportunities for all persons regardless of race, religion, sex, marital status, ancestry, national origin or color (Section 65583(c)(5)).*

While Program 4.13 commits to include fair housing information at City Hall and the City website for fair housing, it should also commit to additional locations or methods to ensure fair housing information is disseminated throughout the community. Please refer to the following technical assistance resource on the *Building Blocks'* website at http://www.hcd.ca.gov/hpd/housing_element2/PRO_eho.php

C. Quantified Objectives

Establish the number of housing units, by income level, that can be constructed, rehabilitated, and conserved over a five-year time frame (Section 65583(b)(1 & 2)).

While the element includes these objectives by income group for new construction and conservation (page 5-38), it must also include objectives for rehabilitation.

D. Public Participation

Local governments shall make a diligent effort to achieve public participation of all economic segments of the community in the development of the housing element, and the element shall describe this effort (Section 65583(c)(8)).

While the element includes a general summary of the public participation process, it does not demonstrate how the City has or will make a diligent effort to include all segments of the community. For example, few comments have been received and further effort to obtain input has not been described. Additional efforts to include all segments of the community should be considered to demonstrate diligent efforts and the element should describe the success of outreach efforts, public comments and how the element considered and incorporated public comments.

In addition, the Department encourages the City to consider the San Joaquin Valley Fair Housing and Equity Assessment as part of the housing element update. For more information, please see <http://www.hcd.ca.gov/housing-policy-development/docs/san-joaquin-fair-housing020915.pdf>.

E. Other

Other Elements of the General Plan: For your information, some other elements of the general plan must be updated on or before the next adoption of the housing element. The safety and conservation elements of the general plan must include analysis and policies regarding fire and flood hazard management (GC Section 65302(g)). Also, the land-use element must address disadvantaged communities (unincorporated island or fringe communities within spheres of influence areas or isolated long established "legacy" communities) based on available data, including, but not limited to, data and analysis applicable to spheres of influence areas pursuant to GC Section 56430. The Department urges the City to consider these timing provisions and welcomes the opportunity to provide assistance. For information, please see the Technical Advisories issued by the Governor's Office of Planning and Research at: http://opr.ca.gov/docs/SB244_Technical_Advisory.pdf and http://opr.ca.gov/docs/Final_6.26.15.pdf.

Water Sewer Priority: For your information, Government Code Section 65589.7 requires water and sewer providers to establish specific procedures and grant priority water and sewer service to developments with units affordable to lower-income households. The statute also requires local governments to immediately deliver the housing element to water and sewer providers. The Department recommends including a cover memo describing the City's housing element, including the City's housing needs and share of the regional housing need.

RESOLUTION NO. 2015-13

**A RESOLUTION OF THE PLANNING COMMISSION
OF THE CITY OF LEMOORE
RECOMMENDING APPROVAL OF THE 2016-2024 HOUSING ELEMENT**

At a Regular Meeting of the Planning Commission of the City of Lemoore duly called and held on December 14, 2015, at 7:00 p.m. on said day, it was moved by Commission member _____, seconded by Commission member _____ and carried that the following Resolution be adopted:

WHEREAS, state law requires each jurisdiction in California to adopt a General Plan, which includes a Housing Element; and

WHEREAS, each jurisdiction within Kings County is required by state law to prepare an update to its Housing Element for the 2016-2024 planning period; and

WHEREAS, on November 4, 2014 the City Council conducted a study session regarding the 2016-2024 Housing Element; and

WHEREAS, in compliance with Section 65585 of the California Government Code, the Draft Housing Element was transmitted to the California Department of Housing and Community Development ("HCD") for review; and

WHEREAS, on November 24, 2015 HCD issued a letter reporting its findings on the Draft Housing Element, which has been reviewed and considered by the Planning Commission; and

WHEREAS, the City's responses to each and every HCD comment along with a summary of revisions made in the Draft Housing Element to address those comments are set forth in Attachment 1, incorporated herein by reference; and

WHEREAS, the Planning Commission conducted a duly-noticed public hearing to considered the Housing Element amendment at its regularly scheduled meeting on December 14, 2015, at which time all interested persons were provided an opportunity to offer comments; and

WHEREAS, an Addendum to Negative Declaration No. SCH 2010041002 for the 2009-2014 Housing Element was prepared in compliance with the California Environmental Quality Act ("CEQA").

NOW THEREFORE, BE IT RESOLVED on the basis of the facts and evidence provided in the staff report and the written and oral evidence presented at the public hearing, the Planning Commission hereby resolves as follows:

1. That the Addendum to Negative Declaration No. SCH 2010041002 prepared for the 2009-2014 Housing Element satisfies the requirements of CEQA for the

2016-2024 Housing Element Update. There is no substantial evidence in the record that the 2016-2024 Housing Element Update would have a significant effect on the environment. The Addendum reflects the independent judgment of the Planning Commission.

2. That the proposed Housing Element amendment is internally consistent with the other elements of the General Plan.
3. That the proposed 2016-2024 Housing Element amendment, as set forth in Attachment 1 and incorporated herein by reference, addresses the comments of HCD and substantially complies with the requirements of state housing element law (Government Code Sec. 65580 et seq.).

BE IT FURTHER RESOLVED that the City of Lemoore Planning Commission recommends City Council approval to the Lemoore City Council of the 2016-2024 Housing Element Amendment.

Passed and adopted at a regular meeting of the Planning Commission of the City of Lemoore held on the 14th day of December 2015, by the following vote:

AYES:
NOES:

Exhibit 1

HCD Comments and Responses City of Lemoore

HCD Comment*	Housing Element Page	Response
A.1 Appropriate Densities to Accommodate Lower Income Households	B-3	<p>As noted in the revised Housing Element, the most recent affordable housing development is Cinnamon Villas, located in the Low-Medium Density (RLMD) zone. Maximum density in the RLMD zone is 14.5 units/acre. The project requested and was granted a density bonus to allow 15 units/acre although a density up to 20 units/acre was possible under density bonus law. This project exemplifies the fact that market conditions in Lemoore do not require densities of 20 units/acre to facilitate affordable housing development. The City also approved a \$230,000 fee deferral in support of this project's LIHTC application.</p> <p>A recent high-end market-rate apartment development (The Grove) was recently built at a density of 16.7 units/acre, less than the 17 units/acre allowed under the zoning regulations.</p> <p>These projects demonstrate that the allowable density of 17.4 units/acre is appropriate to facilitate both affordable and market-rate multi-family development in the RMD zone.</p>
A.1 Emergency Shelters	4-18	<p>The element has been revised to clarify that emergency shelters are permitted by right, without discretionary review, in the Community Facilities (CF) zone. Required standards include only those that apply to other uses in the same zone. Parcels within the CF zone encompass approximately 589 acres, including 6 vacant parcels totaling over 150 acres, and provide adequate vacant and underutilized sites to accommodate the City's need for additional shelter facilities.</p>
A.2 Local Processing and Permit Procedures	4-25	<p>Chapter 4 has been revised to provide additional analysis of permit processing procedures and required findings for approval. As an example of the City's review and approval process, the Cinnamon Villas affordable apartment project was approved in 2 phases in 2009 and 2014. Phase I was approved by the Planning Commission in approximately 2 months and Phase II was approved in approximately 6 weeks.</p>

HCD Comment*	Housing Element Page	Response
A.3 Farmworker and Homeless Needs	2-31 4-16 2-35 4-18	<p><u>Farmworkers.</u> Farmworker housing needs are described in Chapter 2. According to recent Census data there are an estimated 633 farmworkers living in Lemoore, which represents about 8% of the county’s total farmworker population. As noted in Chapter 4, Program 4.11 includes a commitment to process a Zoning Code amendment to ensure conformance with employee housing law (Health and Safety Code Sections 17021.5).</p> <p><u>Homeless.</u> As noted in Chapter 2, Lemoore was not included in the 2015 Point-in-Time homeless survey conducted by the Kings/Tulare County Continuum of Care Coordinating Group. The element has been revised to include the Police Department’s estimate of approximately 10 homeless persons in Lemoore. As noted in Chapter 4, the City’s emergency shelter regulations are consistent with state law.</p>
B.1 Implementation Timelines	5-28/29	Programs 4.8, 4.9 and 4.11 have been revised to include more specific implementation timelines.
B.2 Adequate Sites		As noted under A.1 above, the element has been revised to address this comment.
B.3 Persons with Developmental Disabilities and Farmworkers		As noted under A.3 above, the element has been revised to address this comment.
B.4 Governmental Constraints		As noted under A.2 above, the element has been revised to address this comment.
B.4 Fair Housing	5-30	Program 4.13 has been expanded to identify additional actions the City will take to disseminate fair housing information.
C. Quantified Objectives	5-39	Table 5-1 has been revised to include quantified objectives for rehabilitation.
D. Public Participation	C-1	Appendix C includes a description of the public participation process during preparation of the Housing Element update. As noted in this appendix, notices of all meetings were mailed to an extensive list of persons and organizations, many of whom represent the interests of lower-income households and persons with special needs. Public comments and revisions in

HCD Comment*	Housing Element Page	Response
	Chapter 5	<p>response to those comments are summarized in Table C-3.</p> <p>The San Joaquin Valley Fair Housing and Equity Assessment (SJVFEHA) was also reviewed during preparation of the Housing Element, and while Hanford was the only Kings County jurisdiction specifically addressed in that report, the Housing Plans (Chapter 5) for all of the jurisdictions include fair housing programs that are responsive to the recommendations contained in the SJVFEHA report.</p>
E. Other Elements of the General Plan	1-5	Chapter 1 includes discussion of the relationship between the Housing Element and other elements of the General Plan. The element has been revised to include a reference to recent changes in state law related to the Land Use Element and unincorporated island, fringe, or legacy communities.
E. Water and Sewer Priority	4-32	The analysis of water and wastewater service in Chapter 4 has been revised to include a reference to Government Code Sec. 65589.7, which requires jurisdictions to provide copies of Housing Elements to local water and wastewater providers upon adoption, and also requires those providers to grant priority to developments that include units affordable to lower-income households.

Chapter 1. Introduction

A. Planning Context

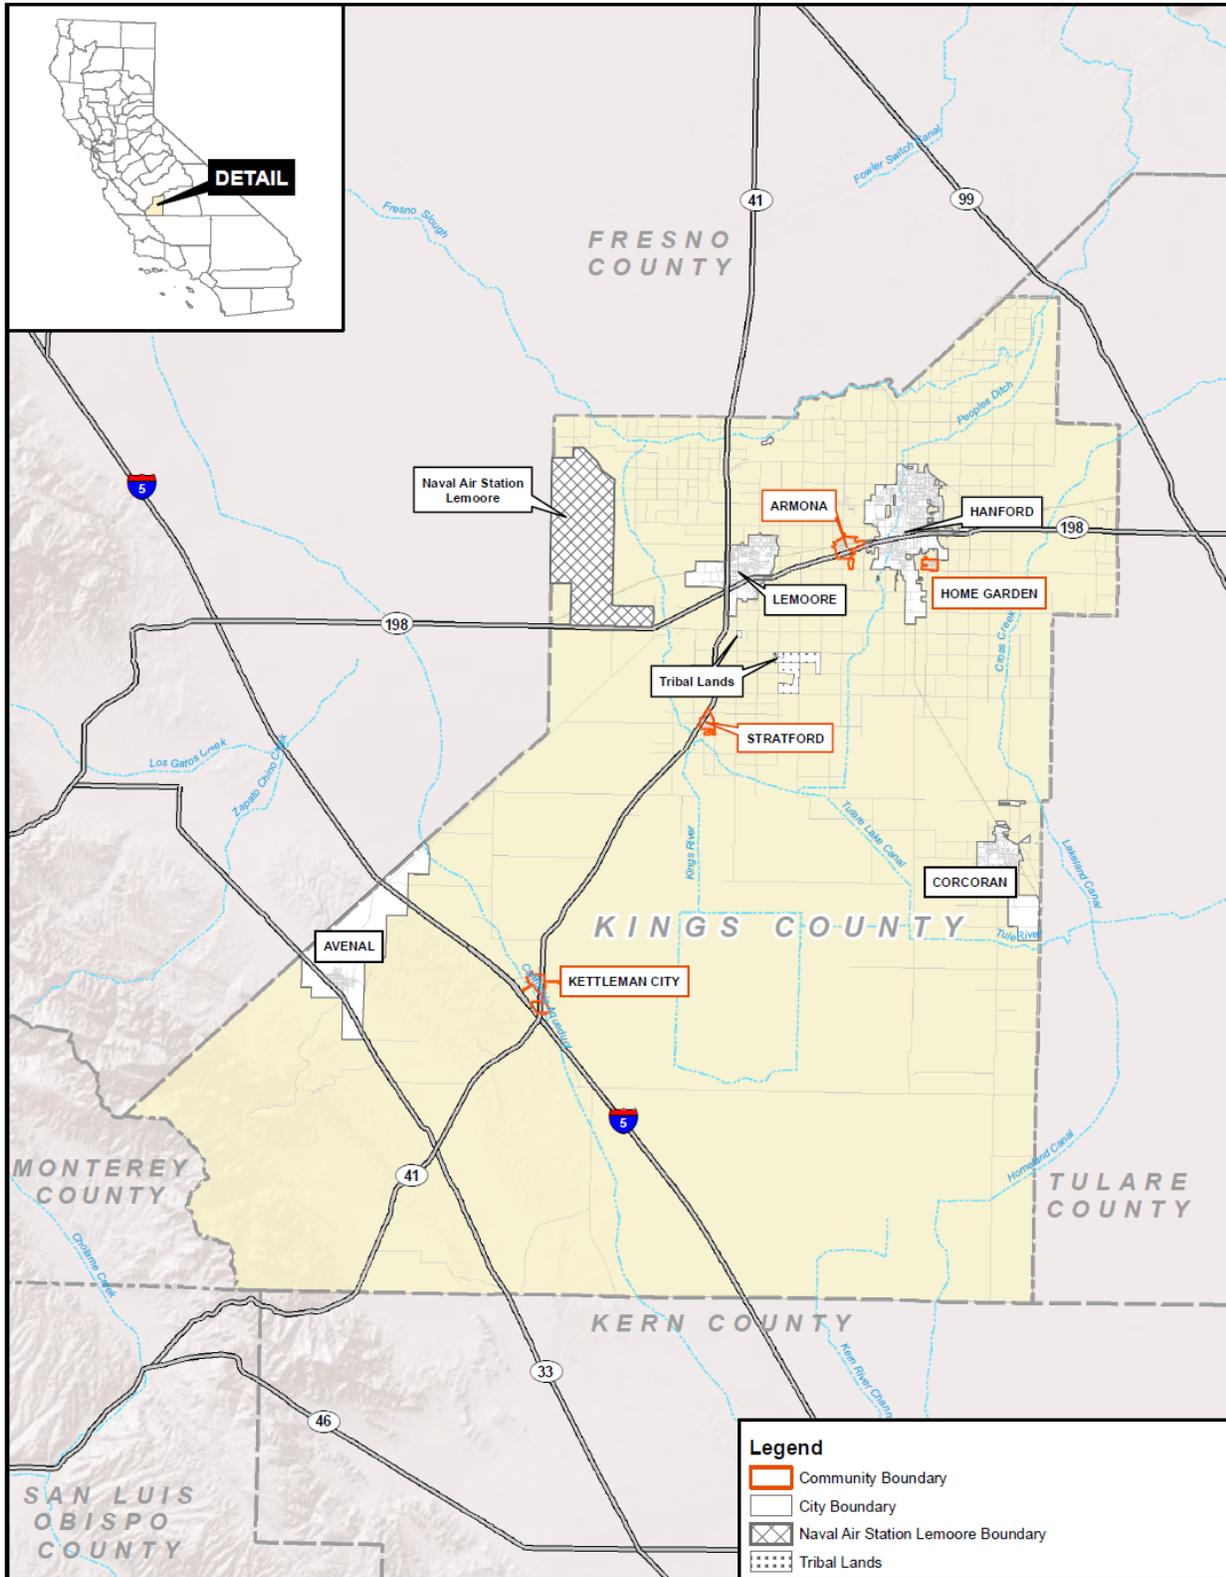

Kings County is located within the agriculturally rich San Joaquin Valley, with Fresno County to the north and west, Tulare County to the east, and Kern County to the south. Created in 1893, Kings County was carved from the western portion of Tulare County and later added another 100 square miles from Fresno County. The Kings River, from which the County derives its name, runs along the northern edges and flows south towards the center of the County. Historically, this river flowed farther south to what was once Tulare Lake. Now referred to as the Tulare Lake Basin, this area is extensively used for agricultural crop production.

Kings County is comprised of four cities (Avenal, Corcoran, Hanford, and Lemoore), four unincorporated community service areas (Armona, Home Garden, Kettleman City, and Stratford), and a few other smaller community pockets. According to the California Department of Finance, approximately 150,000 people lived in Kings County as of January 2015, with approximately 13,500 of those housed within the three state prison facilities. The Lemoore Naval Air Station houses approximately 4,900 naval personnel and dependents in approximately 1,630 housing units, while the Santa Rosa Rancheria is home to about 500 Tachi Yokut Indians on 1,535 acres of tribal land.

Access through the County and to other major outside destinations is provided by a network of highways and railroads. While Interstate 5 and State Route 99 provide routes to the Los Angeles and San Francisco Bay metropolitan areas, State Route 41 connects the valley with the Central Coast and Yosemite National Park. State Route 198 provides access to Sequoia National Park. The Burlington Northern Santa Fe Railroad connects Kings County to Sacramento and Bakersfield while the San Joaquin Valley Railroad connects to Huron to the west and Visalia and Porterville to the east. The County's transportation network has played a key role in its economic development. Agriculture remains the predominant landscape of Kings County, with approximately 84% of its land area used for agriculture. While dairy products are the County's leading commodity, the agricultural industry is diversified with cotton, cattle, field crops, seeds, fruit & nuts, vegetables, apiary products, livestock & poultry, and other related products also having a significant presence.

As Kings County begins the 2016-2024 planning period, California is in its fourth consecutive year of drought conditions and water supply is expected to continue to be a serious challenge for both urban and agricultural users.

Figure 1 – Regional Location Map

B. Methodology

1. Purpose and Statutory Authority

The Housing Element is mandated by §§65580-65589 of the California *Government Code*. State Housing Element law requires that each city and county identify and analyze existing and projected housing needs within their jurisdiction and prepare goals, policies, programs and quantified objectives to further the development, improvement, and preservation of housing. To that end, state law requires that the housing element:

- Identify adequate sites to facilitate and encourage the development, maintenance and improvement of housing for households of all economic levels, including persons with special needs;
- Remove, as legally feasible and appropriate, governmental constraints to the production, maintenance, and improvement of housing for persons of all income levels;
- Assist in the development of adequate housing to meet the needs of low- and moderate-income households;
- Conserve and improve the condition of housing and neighborhoods, including existing affordable housing;
- Promote equal housing opportunities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability; and
- Preserve lower-income publicly-assisted housing developments within each community.

The Housing Element is organized into the following major sections:

- Analysis of the demographic, housing, and special needs characteristics and trends in Kings County jurisdictions (Chapter 2).
- Analysis of land, financial, and organizational resources available to address the housing goals in Kings County (Chapter 3).
- Review of potential market, governmental, and environmental constraints that affect Kings County jurisdictions' ability to address their housing needs (Chapter 4).
- The Housing Plan to address identified housing needs, including housing goals, policies and programs (Chapter 5).
- Evaluation of each jurisdiction's accomplishments toward meeting the goals and objectives set forth in the previous Housing Element (Appendix A).
- A detailed land inventory of suitable sites for housing development (Appendix B).

2. Framework for the Joint Kings County Housing Element

In California, it is typical for each city or county to prepare and maintain its own General Plan and housing element. However, in Kings County the four cities and the County have chosen to collectively

Chapter 1. Introduction

prepare a joint Countywide housing element with administrative support from the Kings County Community Development Agency. While unusual, this collaborative approach to the housing element has a number of advantages, including the following:

- Over the past several decades, the trend in dealing with complex public policy issues has been toward a regional approach to problem-solving. Existing housing element law embodies this principle through the regional housing needs allocation (RHNA) process. Perhaps the most recent and far-reaching example of this regional approach is Senate Bill 375, the landmark global warming legislation. SB 375 establishes a framework for regional planning and “Sustainable Communities Strategies” intended to reduce greenhouse gas emissions through land use, housing and transportation policies.
- Housing markets are regional in nature and do not stop at jurisdictional boundaries. Coordinated regional strategies offer the potential to be more effective in addressing housing needs than when each jurisdiction operates individually.
- In difficult economic times such as these, economies of scale accruing from shared resources can result in significant cost savings to jurisdictions that jointly prepare housing elements.

3. Data Sources

In preparing the Housing Element, various sources of information were consulted. The 2010 decennial Census and the annual American Community Survey updates were used as the primary sources of demographic information. However, other sources supplemented the Census data where available and relevant, including the following:

- Housing conditions surveys conducted by the jurisdictions;
- Population and housing data from the California Department of Finance (DOF);
- Employment data from the California Employment Development Department (EDD);
- Local economic data from the Kings County Economic Development Corporation;
- Housing market data from the Kings County Board of Realtors;
- Population and housing characteristics from Naval Air Station Lemoore;
- Point-in-time homeless data provided by Kings/Tulare Continuum of Care;
- Land use data based on the General Plans and zoning ordinances of each jurisdiction; and
- Regional housing needs information prepared by the Kings County Association of Governments.

4. Relationship to the General Plans

State law requires that the Housing Element be consistent with other elements of jurisdictions’ General Plans. Policies and programs set forth in this Housing Element are consistent with policies and programs in other elements of the respective General Plans. However, if during the implementation of this Housing Element any inconsistencies with other portions of the General Plans are identified, appropriate amendments to maintain internal consistency will be proposed. For example, Government Code Sec.

65302.1 requires jurisdictions within the San Joaquin Valley to include in appropriate elements of the General Plan analysis, policies and feasible implementation measures to improve air quality. This Housing Element supports this provision of state law through its identification of sites for development of a variety of housing types in appropriate locations consistent with the regional growth forecast, regional housing needs plan, and regional transportation plans.

Government Code Sec. 65302 requires amendments to the Safety and Conservation elements to include analysis and policies regarding flood hazard and management information upon the next revision of the Housing Element after January 1, 2009. Sec. 65302.10 also requires each jurisdiction to amend the Land Use Element to identify unincorporated island, fringe, or legacy communities inside or near its boundaries upon each revision of the Housing Element. If necessary, amendments to those elements will be processed in order to maintain consistency between elements.

C. Community Involvement

State law requires local governments to make a diligent effort to achieve public participation of all economic segments of the community in the development of the housing element. To that end, each jurisdiction has provided opportunities for residents, interested parties, and local officials to participate in the update process and offer recommendations regarding housing needs and strategies to address those needs.

The public participation process for this Housing Element involved four major stages:

1. Public workshops and meetings in each of the four cities and the unincorporated County during the preparation of the Draft Housing Element;
2. Publication of the Draft Housing Element and subsequent review by the California Department of Housing and Community Development (HCD);
3. Revisions to the Housing Element to address comments from HCD and publication of a revised Draft Housing Element;
4. Public hearings before the Planning Commission and City Council of each city and the Planning Commission and Board of Supervisors of Kings County prior to adoption of the final Housing Element.

For details regarding the public meetings and hearings, as well as a summary of issues raised during the update process, please refer to Appendix C.

Chapter 2. Housing Needs Assessment

The availability of decent and affordable housing for residents is an important housing goal. To accomplish this goal, a comprehensive assessment of housing needs provides the basis for developing responsive policies and programs. This chapter presents and analyzes demographic, economic, and housing characteristics and their impact upon housing needs in the cities of Avenal, Corcoran, Hanford, and Lemoore and unincorporated Kings County. The Housing Plan (Chapter 5) provides the policies and strategies to address identified housing needs.

A. Population and Household Characteristics

Housing needs in Kings County are largely determined by population and employment growth, coupled with various demographic variables. Characteristics such as age, household size, occupation, and income combine to influence the type of housing needed and its affordability.

1. Population Trends

Kings County is comprised of four incorporated cities (Avenal, Corcoran, Hanford, and Lemoore), four unincorporated community service areas (Armona, Home Garden, Kettleman City, and Stratford), and a few other smaller community pockets. According to the California Department of Finance (DOF), Kings County had a total population of 149,721 in 2015; however, about 11% of that is represented by persons in group quarters, primarily the state prisons and Naval Air Station Lemoore (Table 2-1).

**Table 2-1
Kings County Population Growth, 1990-2015**

Jurisdiction	Household Population				Change 1990-2015	
	1990	2000	2010	2015	Persons	%
Avenal	5,505	7,973	9,082	9,095	3,590	65.2%
Corcoran	8,309	9,539	12,573	12,630	4,321	52.0%
Hanford	29,927	40,839	53,068	54,603	24,676	82.5%
Lemoore	13,606	19,710	24,514	25,308	11,702	86.0%
Unincorporated	32,122	31,271	32,165	31,502	(620)	(1.9%)
County Totals	89,469	109,332	131,402	133,138	43,669	48.8%

Note: All numbers exclude persons in group quarters (State prisons and Naval Air Station Lemoore)

Sources: U.S. Census; Cal. Dept. of Finance, E5 & E8 Population & Housing Estimates, May 2015

During the past 25 years, Hanford has seen the largest population increase with about 57% of Kings County’s total growth. Lemoore also experienced substantial growth during this period, with a population increase of 86%. Avenal and Corcoran saw population increases of about 65% and 52%, respectively, during the 1990-2015 time period. The unincorporated county has experienced a small decline in population since 1990.

Chapter 2. Housing Needs Assessment

According to DOF¹, Kings County's household population (i.e., excluding group quarters) is projected to reach approximately 167,000 by the year 2030, a gain of about 25% over 2015 levels.

2. Age Characteristics

Although population growth strongly affects total demand for new housing, housing needs are also influenced by age characteristics. Typically, different age groups have distinct lifestyles, family characteristics, incomes, and housing preferences. As people move through each stage of life, their housing needs and preferences also change. Age characteristics are therefore important in planning for the changing housing needs of residents.

Coupled with housing prices, the homeownership rate is related to householder age. Homeownership rates tend to increase with the age and income of the householder.

Housing needs often differ by age group. For instance, most young adults (under 34) are single or starting families. Housing needs for younger adults are addressed through apartments or first-time homeownership opportunities. Middle-aged residents (34-64) may already be homeowners, are usually in their prime earning years and have dependents living at home, and thus tend to seek larger homes. Seniors often own a home but, due to limited income or disabilities, may need assistance to remain in their homes. As life expectancies increase, the 65+ age group is projected to be the fastest-growing population segment, resulting in increasing need for assisted living and care facilities.

As shown in Table 2-2, Corcoran has the lowest percentage of children while Hanford has the highest percentage of seniors age 65+.

Table 2-2
Age Distribution

Age Group	Avenal	Corcoran	Hanford	Lemoore	Kings County
Total population	15,001	24,043	54,195	24,616	151,806

Median age	30.1	36.1	31.7	28.7	31.1

Source: Census 2009-2013 ACS, Table S0101

3. Race and Ethnicity

As shown in Table 2-3, the largest racial/ethnic groups in Kings County in 2000 were Hispanics (51%) and Non-Hispanic Whites (35%). Asian, African American and other groups together comprised about 12% of the County total.

¹ California, Department of Finance, P-4 Report, Population Projections for California Counties 2015-2030, March 2015.

Table 2-3
Race and Ethnicity

Racial/Ethnic Group	Avenal	Corcoran	Hanford	Lemoore	Unincorp	Kings County

Total	100%	100%	100%	100%	100%	100%

Source: 2010 Census, Table DP-1

4. Household Type and Overcrowding

A household refers to the people occupying a home, such as a family, a single person, or unrelated persons living together. Families often prefer single-family homes or condominiums to accommodate children, while single persons generally occupy smaller apartments or condominiums. Single-person households often include seniors or young adults.

Table 2-4 displays household composition by community as reported by the Census ACS. Families comprised approximately 77% of all households within Kings County. Countywide, the proportion of single households was approximately 18%. However, the percentage of single households varied by location. The cities of Hanford (20.5%) and Lemoore (19.5%) had the highest percentage of single-person households.

As noted earlier, Kings County has a significant population of people living in group quarters who are not counted as households. Avenal and Corcoran State Prisons are counted in the total population figures, but are not counted as households. The same is true for persons living on-base at Naval Air Station Lemoore.

Table 2-4
Household Characteristics

Age Group	Avenal	Corcoran	Hanford	Lemoore	Uninc.	Kings County
Total households	2,727	3,516	17,161	8,072	9,309	40,785

Chapter 2. Housing Needs Assessment

Overcrowding

Overcrowding is often closely related to household income and the cost of housing. The U.S. Census Bureau considers a household to be overcrowded when there is more than one person per room, excluding bathrooms and kitchens; and to be severely overcrowded when there are more than 1.5 occupants per room. Overcrowded households are usually a reflection of the lack of adequate income for housing.

Table 2-5 details the percentage of households that live in overcrowded situations. Overcrowding is more prevalent among renters than owners. Avenal showed the highest rate of overcrowding, with over 23% of renters and 8% of owners reporting more than one person per room. About 18% of Corcoran renters reported overcrowding or severe overcrowding.

**Table 2-5
Overcrowding by Tenure**

Persons per Room	Avenal	Corcoran	Hanford	Lemoore	Uninc.	Kings County
Total households	2,727	3,516	17,161	8,072	9,309	40,785
Owner occupied:	996	1,605	9,658	4,363	4,505	21,127
0.50 or less	42.9%	49.3%	63.2%	63.1%	57.0%	59.8%
0.51 to 1.00	49.3%	41.6%	32.5%	33.0%	34.6%	34.5%
1.01 to 1.50	4.6%	6.5%	3.2%	3.0%	6.7%	4.2%
1.51 to 2.00	3.2%	2.5%	0.6%	1.0%	1.8%	1.2%
2.01 or more	0.0%	0.0%	0.4%	0.0%	0.1%	0.2%
Renter occupied:	1,731	1,911	7,503	3,709	4,804	19,658
0.50 or less	25.9%	42.2%	49.9%	53.1%	42.0%	45.7%
0.51 to 1.00	50.4%	39.8%	36.5%	40.1%	50.9%	42.2%

2.01 or more	1.5%	0.6%	0.9%	0.5%	0.0%	0.6%

Source: Census 2009-2013 ACS, Table B25014

5. Household Income and Overpayment

Along with housing prices and rents, household income is the most important factor affecting housing opportunities within Kings County. Housing choices such as tenure (owning versus renting), housing type, and location are dependent on household income. On the other hand, however, household size and type often affect the proportion of income that can be spent on housing. Table 2-6 shows the median household income of each community as reported by the Census ACS.

**Table 2-6
Median Household Income**

Jurisdiction	Median Household Income	% of County
Avenal	\$ 28,794	60%
Corcoran	\$ 32,914	68%
Hanford	\$ 52,614	109%
Lemoore	\$ 53,711	112%
Unincorporated	N/A	N/A
Kings County	\$ 48,133	100%

Source: Census 2009-2013 ACS

The median household income for the entire County was reported as \$48,133. Hanford and Lemoore had the highest median household incomes at approximately \$52,600 and \$53,700, respectively. This is likely due to the larger proportion of these cities' workforces with "white-collar" jobs.

A. Population and Household Characteristics

Avenal and Corcoran had median households below the County average, at \$28,794 and \$32,914, respectively. In both communities, a larger proportion of the workforce held “blue-collar” jobs such as farming, construction, extraction, manufacturing, production, transportation, and material moving.

Although median household income is a common benchmark for comparison, the distribution of household income also provides a useful measure of housing needs in a community. In housing analysis, households are typically grouped into categories, expressed relative to the Area Median Income (AMI) and adjusted for family size. Using State of California income thresholds, the income groups analyzed were as follows:

- Extremely low income: Up to 30% of AMI
- Very low income: 31-50% of AMI
- Low income: 51-80% of AMI
- Moderate income: 81-120% of AMI
- Upper income: Above 120% of AMI

Table 2-7 estimates the number of households within each income category in each jurisdiction as reported in HUD Comprehensive Housing Affordability Strategy (CHAS) data based on the 2007-2011 Census ACS. In comparison to other cities, Avenal and Corcoran had the highest percentage of extremely-low-, very-low- and low-income households. Countywide, 43% of all households had extremely-low, very-low and low incomes. Hanford and Lemoore had the highest proportion of residents with moderate and above-moderate incomes.

Extremely Low Income Households

In 2006 state law was amended (Assembly Bill 2634) to add the Extremely-Low-Income (ELI) category (up to 30% AMI) to the required analysis of household characteristics and housing growth needs. Due to their limited incomes, these households have the greatest difficulty finding suitable housing at an affordable price. Further discussion of housing costs and affordability, as well as housing growth needs by income category is provided later in this chapter.

**Table 2-7
Household Income Distribution by Tenure**

Income Category	Avenal	Corcoran	Hanford	Lemoore	Uninc.	Kings County
Owners						
<= 30%	4.9%	5.2%	2.1%	6.4%	5.6%	4.1%

Chapter 2. Housing Needs Assessment

Housing Overpayment

State and federal housing law defines *overpayment* as a household paying more than 30% of gross income for housing expenses, including utilities. Housing overpayment is especially problematic for lower-income households that have limited resources for other living expenses.

As shown in Table 2-8, a significant portion of lower-income households in each community overpaid for housing according to HUD CHAS data (special tabulations based on the Census ACS). However, the overpayment rate varied by tenure and income level. More than half of all very-low- and extremely-low-income households in all jurisdictions, both owners and renters, were reported to be overpaying. In most communities, however, more renter households than owner households were overpaying. Few households with incomes above the median faced overpayment – often less than 10% of households.

Table 2-8
Household Overpayment by Tenure

Income Category	Avenal	Corcoran	Hanford	Lemoore	Uninc.	Kings County
Owners

B. Employment Trends

Kings County’s economy has an important impact on housing needs. Employment growth typically results in increased housing demand in areas that serve as regional employment centers. Moreover, the type of occupation and income levels for new employment also affects housing demand. This section describes the economic and employment patterns in Kings County and how these patterns influence housing needs.

1. Employment by Industry

Kings County supports a diversified economy as shown in Figure 2. Government represents the largest sector (due in large part to state prisons) and provided 33% of all jobs in the County as of 2013. Agriculture represented 15% of jobs, while Education & Health and Transportation & Public Utilities each provided 13% of employment.

Figure 2 – Kings County Employment by Industry

In August 2014, the Kings County’s civilian labor force was approximately 59,500, with an unemployment rate of 10.6% (not seasonally adjusted). In reviewing the annual data for 2013, Kings County had 60,000 people in its labor force and an unemployment rate of 13.5%. In comparing the County unemployment rate to California, the August 2014 rate was 7.4% and 8.9% for the annual average for 2013. Historically, agriculture and government have dominated Kings County’s economy. Agriculturally-oriented counties tend to have higher unemployment rates and greater seasonal variations in unemployment. Kings County is ranked 8th among California counties in agricultural production. According to the Kings County 2013 Annual Agricultural Crop Report, milk remains the county’s leading commodity, followed by cotton (second) and cattle (third). With the entire state in a severe drought, it is uncertain to what extent future water supplies will affect agricultural employment.

Chapter 2. Housing Needs Assessment

Table 2-9 through Table 2-13 summarize the major employers for the jurisdictions of Kings County. Given the rural nature of the unincorporated communities, employment and economic activity is concentrated in the cities.

2. Occupations Held by Residents

Occupations held by residents determine the income earned by a household and their corresponding ability to afford housing. Higher paying jobs provide broader housing opportunities for residents, while lower-paying jobs limit housing options. Understanding employment and occupation patterns can thus provide insight into present housing needs. Table 2-14 describes the number and type of jobs held by residents in each community based on recent Census estimates.

Table 2-14
Occupations Held by Civilians

Jurisdiction	Avenal	Corcoran	Hanford	Lemoore	Unincorp.	Kings County
Management, business, science, and arts occupations	2.8%	11.8%	28.7%	33.3%	22.9%	24.9%
Service occupations	23.9%	20.8%	25.1%	22.5%	19.8%	23.0%

Production, transportation, & material moving occupations	11.2%	15.6%	11.0%	14.7%	16.6%	13.4%

Source: Census 2009-2013 ACS, Table DP-3

Chapter 2. Housing Needs Assessment

In Hanford and Lemoore, a higher proportion of residents held managerial, business or financial related employment. These types of “white-collar” jobs typically pay higher salaries and thus allow residents to afford a greater choice of housing opportunities. However, service occupations, sales/office positions, and “blue-collar” positions typically pay relatively lower wages. Residents in these occupations have more limited ability to afford housing and, in some cases, are in the greatest need of affordable housing and assistance.

3. Jobs-Housing Balance and Commute Patterns

Commuting patterns in Kings County have an important implication for housing needs. Larger employers in the County (e.g., three state prisons, Naval Air Station Lemoore, and agricultural industries) generate a significant number of jobs. However, the workforce employed at these institutions or in the agricultural industries may live in other communities for a variety of reasons, including preferences, the availability of suitable housing, or other reasons.

Commuting patterns show the relationship between where people live and where they work. Long commuting distances increase traffic congestion that strains the existing overcrowded road and highways infrastructure systems that are often in need of maintenance. Long commuting distances also contributes to poor air quality, increases expenses to the commuting workforce, and has been shown to have negative consequences on personal health. One of the aims of the Regional Housing Needs Allocation (RHNA) Plan is to direct new housing growth to employment centers in order to balance the jobs-housing ratio and decrease commuting distances.

The table below details the workforce that resides within the Kings County region. Roughly 80% of the approximate 54,000-person workforce stays within the Kings County area for employment. The remaining workforce is employed outside the County, with less than 1% working outside the State (see Table 2-15).

Table 2-15
Work Location of Kings County Residents

Work Location	Residents	Percentage
In Kings County	43,298	79.5%
Outside Kings County	10,947	20.1%
Outside of California	217	0.4%
Total	54,462	100%

Source: Census 2008-2012 ACS

When considering the work locations of city residents within the Kings County region as illustrated in Table 2-16, the City of Hanford has the largest concentration of workers at 45.5% that live and work within their jurisdictional limits. As the largest jurisdiction in the Kings County region, the City of Hanford has the lowest proportion of residents at 54.4% who commute to jobs elsewhere in Kings County. The City of Avenal has the largest proportion of residents who commute to jobs outside of their home city at 76.6%, followed closely by the City of Lemoore at 69.6%. According to recent Census estimates, 38% of residents work in their city of residence, with 62% commuting to other work locations in Kings County. Interestingly, this is a shift from the 2000 Census data, where 48% of residents worked in their home city and 36% commuted to work elsewhere in Kings County.

When considering work locations of residents in Kings County, the jobs-housing balance can be explored. The jobs-housing balance refers to the approximate distribution of employment opportunities and workforce population in respect to a geographic area. Research has shown that a jobs-housing balanced area is less likely to have residents who commute long distances in a vehicle. Residents may also be more

likely to walk, cycle, or use public transportation when there is a balanced jobs-housing ratio. There is a general consensus that a balance of jobs to housing within an area can contribute to more sustainable travel in the form of shorter work trip distances. In looking at job locations and travel patterns in the Kings County region, the City of Hanford has the most balanced jobs-housing ratio or the most opportunities for residents to live near their place of employment.

Table 2-16
Work Locations of City Residents

C. Housing Characteristics

This section describes the housing characteristics and conditions that affect housing needs in Kings County. Important housing stock characteristics include housing type, tenure, vacancy rates, age, condition, cost and affordability.

1. Housing Type

The California Department of Finance (DOF) provides annual estimates of the number of housing units by type for each jurisdiction based on reported building and demolition permits. DOF estimated that Kings County had a total of 44,888 housing units in 2015, representing a growth of 1,021 new units (2%) countywide since 2010. As is typical in small towns and rural areas, the majority of housing stock in all jurisdictions is comprised of single-family detached houses. Single-family attached (condominium) units represent just 4.9% of all units countywide. Approximately 18% of the county’s housing stock consisted of multi-family projects, such as apartments and townhomes. The remaining 4.4% of housing units in Kings County were mobile and manufactured homes. As shown in Table 2-17, Avenal had the highest total percentage of multi-family units while Lemoore had the highest proportion of larger multi-family developments with five or more units. Unincorporated areas had the highest percentage of mobile homes.

Table 2-17
Housing Units by Type

Jurisdictions	Housing Units	Percent of Housing by Type				
		Single-Family Detached	Single Family Attached	Multi-Family (2-4 units)	Multi-Family (5+ units)	Mobile homes
Avenal	2,434	62.4%	3.3%	17.7%	12.2%	4.4%
Corcoran	4,009	73.7%	3.3%	10.7%	7.4%	4.9%
Hanford	19,133	73.5%	3.3%	8.9%	12.1%	2.2%
Lemoore	8,977	71.0%	3.7%	8.5%	13.3%	3.4%
Unincorporated	10,335	74.5%	10.0%	4.7%	1.5%	9.3%
Kings County	44,888	72.6%	4.9%	8.5%	9.5%	4.4%

Source: California Department of Finance, E-5 Report, May 2015

2. Housing Tenure and Vacancy Rates

Housing tenure (owner vs. renter) influences several aspects of the local housing market. Residential mobility is influenced by tenure, with ownership housing evidencing a lower turnover rate than rental housing. The vacancy rate also indicates the match between the demand and supply of housing. Table 2-18 details housing tenure and vacancies in Kings County and incorporated communities according to the 2010 Census. Vacancy rates of 5% to 6% for rental housing and 1.5% to 2.0% for ownership housing are generally considered to be optimum. A higher vacancy rate may indicate an excess supply of units, a softer market, and result in lower housing prices. A lower vacancy rate may indicate a shortage of housing and high competition for available housing, which generally leads to higher housing prices and diminished affordability.

Table 2-18
Household Tenure and Vacancy Rates

Housing Type	Avenal		Corcoran		Hanford		Lemoore		Uninc.		Kings County	
	Units	%	Units	%	Units	%	Units	%	Units	%	Units	%

Source: 2010 Census, Table DP-1

Chapter 2. Housing Needs Assessment

According to the Census, the housing vacancy rate in Kings County totaled 2.0% among for-sale units and 5.3% for rental units. However, the vacancy rate varied among communities. Corcoran had the highest rental vacancy rate at 11.8% yet the lowest vacancy rate among for-sale units at 1.7%. Avenal had the highest vacancy rates among for-sale units (2.9%). Hanford and Lemoore had the highest homeownership rates, at 55% and 50% respectively.

3. Housing Conditions

Housing conditions are an important indicator of quality of life in Kings County communities. Like any asset, housing ages and deteriorates over time. If not regularly maintained, structures can deteriorate and discourage reinvestment, depress neighborhood property values, and even become health hazards. Thus maintaining and improving housing quality is an important goal for communities.

Housing age can be an indicator of the need for housing rehabilitation. As shown in Table 2-19, recent Census estimates reported that over half of all housing in Kings County has been built since 1980, reflecting the significant housing growth in recent decades. Approximately 49% of the homes Countywide exceeded 35 years of age.

Most homes require increased maintenance after 30 years. Common repairs include a new roof, painting, plumbing, appliances and fixtures. Homes older than 50 years often require more substantial repairs (e.g., new siding, plumbing, or upgrades to electrical systems) in order to maintain the useful life and quality of the structure. Moreover, lead-based paint hazards are also more common in homes built before 1978 and particularly for homes built more than 50 years ago.

Table 2-19

Source: Census 2009-2013 ACS, Table DP4

As part of the 2010 Housing Element update process, each jurisdiction in Kings County conducted a comprehensive survey of housing conditions within their community. The surveys were based upon criteria developed by the California Department of Housing and Community Development. Housing was classified according to five categories – sound, minor repair, moderate repair, substantial repair, or dilapidated. Table 2-20 summarizes the results of these housing conditions surveys. Housing conditions do not appear to have changed significantly since those surveys were conducted.

Lemoore found the fewest problems, with 82% of the housing stock reported in sound condition. This is not surprising since Lemoore also has the newest housing stock. Hanford reported over three-quarters of its housing stock in sound condition. Avenal and Corcoran reported the highest proportions of structures with problems. In Avenal, 42% were in need of repair (minor, moderate or substantial) and 9% were considered dilapidated. In Corcoran, 55% of homes required repairs and 8% were dilapidated.

The housing plans for each of the jurisdictions include programs to improve housing conditions by providing grants or loans to assist low- and moderate-income households with housing repairs and rehabilitation. However, because funding for these programs has been reduced due to the statewide dissolution of redevelopment agencies, other funding sources must be found.

**Table 2-20
Housing Conditions**

Jurisdiction	Housing Conditions				
	Sound	Minor Repair	Moderate Repair	Substantial Repair	Dilapidated
Avenal	49%	7%	22%	13%	9%
Corcoran	37%	18%	28%	9%	8%
Hanford	73%	19%	8%	<1%	<1%
Lemoore	82%	15%	3%	<1%	<1%
Unincorporated Community Districts and Public Utility District	<1%	24%	47%	15%	14%

Source: Housing Conditions Reports for individual jurisdictions (2008-09)

4. Housing Affordability

State law establishes five income categories for purposes of housing programs based on the area (i.e., County) median income (“AMI”): extremely-low (30% or less of AMI), very-low (31-50% of AMI), low (51-80% of AMI), moderate (81-120% of AMI) and above-moderate (over 120% of AMI). Housing affordability is based on the relationship between household income and housing expenses. According to HUD and the California Department of Housing and Community Development², housing is considered “affordable” if the monthly housing cost (including utilities) is no more than 30% of a household’s gross income.

Table 2-21 shows current (2015) affordable rent levels and estimated affordable purchase prices for jurisdictions in Kings County by income category. Based on state-adopted standards, the maximum affordable monthly rent for extremely-low-income households is \$606, while the maximum affordable rent for very-low-income households is \$724. The maximum affordable rent for low-income households is \$1,158, while the maximum for moderate-income households is \$1,738. Maximum purchase prices are more difficult to determine due to variations in mortgage interest rates and qualifying procedures, down payments, special tax assessments, homeowner association fees, property insurance rates, etc. With this caveat, the maximum home purchase prices by income category shown in Table 2-21 have been estimated based on typical conditions in Kings County.

² HCD memo of 4/15/2015 (<http://www.hcd.ca.gov/hpd/hrc/rep/state/inc2k15.pdf>)

**Table 2-21
Income Categories and Affordable Housing Costs**

2015 County Median Income = \$57,900	Income Limits	Affordable Rent	Affordable Price (est.)
Extremely Low (<30%)	\$24,250	\$606	\$110,000
Very Low (31-50%)	\$28,950	\$724	\$130,000
Low (51-80%)	\$46,300	\$1,158	\$210,000

a. Housing Prices

Recent new home developments in Kings County (Table 2-22) had sales prices ranging from \$190,000 to \$350,000. Comparing these new home sales prices with the affordability categories shown in Table 2-21 above shows that most new single-family detached homes were priced within the moderate-income range, although some new homes were within the low-income affordability range. Real estate listings for resale single-family homes (Table 2-23) show that most asking prices are in the lower-income range in Avenal, Corcoran and the unincorporated areas of the County and in the moderate and above-moderate categories in Hanford and Lemoore.

Copper Valley - Hanford

Real estate listings for resale single-family homes (Table 2-23) show that most asking prices are in the lower-income range in Avenal, Corcoran and the unincorporated areas of the County and in the moderate and above-moderate categories in Hanford and Lemoore.

**Table 2-22
New Home Prices - Kings County**

Jurisdiction	Project/Builder	Price Range	Income Category
Avenal	Custom	\$190,000 - \$219,000	Low/Moderate

C. Housing Characteristics

A relatively small but important component of the housing market is represented by mobile homes. As of 2015, Kings County had approximately 2,000 mobile homes, located primarily in unincorporated, rural areas. Typical sales prices for new mobile homes range from approximately \$24,000 for a small (600 to 800 square feet) single-wide economy model to \$72,000 or more for a large (1,800 to 1,900 square feet) double/triple wide model³, and represent an affordable homeownership option for many households.

b. Rental Market

For many lower-income households, rental housing is an affordable option. Shown below in Table 2-24, nearly all recently-built apartments in Kings County are affordable to lower-income households, including both income-restricted and new market-rate units with extensive amenities (such as The Grove in Lemoore). Income-restricted projects also include units affordable at the very-low- and extremely-low-income level.

In addition to the newer market-rate apartment projects shown here, Kings County has a substantial number of assisted multi-family projects that were built prior to the last planning period.

As discussed later in this chapter, Kings County has approximately 25 multi-family projects financed with a variety of local, state, and federal funds. These projects provide approximately 1,500 units of affordable housing to extremely-low-, very-low- and low-income individuals, families, seniors, and disabled persons (see Table 2-33 on page 2-37).

D. Special Needs Groups

Certain groups have greater difficulty in finding decent, affordable housing due to special circumstances. Special circumstances may be related to one’s income, family characteristics, and disability status among others. In Kings County, persons and households with special needs include seniors, families with children (large households and single-parents with children) military personnel, agricultural employees, persons with disabilities, and the homeless. This section analyzes these special needs groups and identifies resources and programs designed to address these needs.

1. Seniors

According to recent Census estimates, Kings County had approximately 5,023 owner-occupied households and 1,971 renter-occupied households that were headed by seniors age 65 years and older (Table 2-25). In all jurisdictions, the majority of seniors were homeowners.

Senior households have special housing needs primarily due to three concerns – physical disabilities or limitations, limited income, and higher medical costs. Lemoore had the lowest

percentage of owner-occupied units with householders over 65 (18%), while Hanford had the highest percentage of renter householders over age 65 (12%).

**Table 2-25

Source: Census 2009-2013 ACS, Table B25007

Seniors require a variety of housing options, depending on their life circumstance. While over 70% of seniors were homeowners, a variety of factors such as fixed retirement incomes, rising health care costs and physical disabilities can result in deferred home maintenance. Each jurisdiction’s housing plan includes grant or loan programs to help seniors with repairs. Seniors with mobility disabilities may also require home modifications to improve accessibility and facilitate independent living. All jurisdictions have programs to ensure reasonable accommodation for persons with disabilities.

Senior renters, while facing similar income and mobility limitations as homeowners, are often at greater risk due to rising housing costs. To address these needs, the Housing Authority administers Section 8 rent subsidy vouchers for extremely-low- and very-low-income seniors. In addition, subsidized rental projects provide affordable housing options for many seniors.

The Kings/Tulare Area Agency on Aging and the Kings County Commission on Aging provide leadership at the local level in developing systems for home- and community-based services that maintain seniors in the least restrictive environment for as long as possible. Each jurisdiction also provides other types of supportive services for seniors. However, at some point in time, seniors may require a more supportive living environment. Congregate care facilities, residential care facilities, and skilled nursing facilities provide a wide range of housing, supportive, and medical services for seniors requiring additional care. The majority of independent and supportive residential environments are located in the most urbanized portions of the County in Hanford and Lemoore.

2. Female-Headed Households

Female-headed households have special housing needs including affordable housing, accessible daycare, health care, and other supportive services. Female-headed households comprised about 15% of all households in Kings County. State law recognizes that these households face challenges due to a combination of income levels, child care expenses, and housing availability. As shown in Table 2-26, the proportion of female-headed households ranged from about 13% in the unincorporated area to over 20%

Chapter 2. Housing Needs Assessment

in Hanford. In all jurisdictions, the percentage of female-headed households who rent is significantly greater than those who own their homes.

Source: Census 2009-2013 ACS, Table B25007

3. Large Families

Large families represented approximately 20% of all owner households and about 21% of all renter households in Kings County (Table 2-27). Large households are most prevalent in Avenal (37% of owners and 31% of renters) while Hanford and Lemoore have the lowest proportions of large households.

Large families may have difficulty finding housing units that are large enough to accommodate their needs while still being affordable. The Housing Authority helps address the needs of these families by providing rental assistance in the form of Section 8 vouchers for extremely-low- and very-low-income households. Vouchers provide the difference between the market rent charged for the unit and the amount of rent that can be afforded by the household, typically no more than 30% of household income.

Source: Census 2009-2013 ACS, Table B25009

Whereas providing rental assistance helps meet the needs of extremely-low- and very-low-income households, the underlying need for affordable housing units must also be addressed. As discussed in Table 2-33, Assisted Housing Units (page 2-37), Kings County has a total of over 2,500 units of subsidized affordable housing. The majority of these projects are located in Hanford and Lemoore. The Housing Plan (Chapter 5) sets forth programs to encourage the construction of additional affordable rental and ownership housing.

4. Military Personnel and Veterans

The U.S. Navy plays a critical role in Kings County economy and its housing market. Lemoore is home to the Naval Air Station Lemoore (NASL). Commissioned in 1961, NASL serves as the master training center for carrier-based fighter squadrons for the United States Pacific Fleet. According to NASL, military personnel at the base totaled approximately 7,500 enlistees and officers in 2009. Of those, approximately 40% were single and 60% had families.

There are currently (2015) 1,630 residential units on base, plus additional quarters for approximately 2,400 single personnel. On-base housing does not fully satisfy the total housing need for base personnel and their families. In addition to Navy personnel, approximately 2,700 civilians are employed on-base. Because of the housing shortfall, military personnel and civilians must find accommodations in nearby communities.

The basic housing allowance provided to Navy personnel ranges from \$837 to \$1,422 for single individuals and from \$1,035 to \$1,692 for families. Single-service members, grade E-1 through

Chapter 2. Housing Needs Assessment

E-4, are typically required to live on-base, while enlistees with their families must compete for remaining base family housing without any preference based on their pay grade.

In addition to active personnel, military veterans comprised a significant need group. According to recent Census estimates, approximately 10,600 military veterans lived within Kings County.

5. Agricultural Employees

Kings County is one of the state’s major agricultural areas, ranking 8th among California counties in total agricultural production. According to the Kings County Agricultural Commissioner, 92% of the total land area in the County is devoted to farm land. Table 2-28 shows the County’s leading agricultural products.

Recent Census data estimated that about 16% of employed Kings County residents worked in farming and related industries. Of these, about 37% lived in unincorporated areas (Table 2-29). Of the four cities, Avenal was home to the greatest number of farmworkers.

Farmworkers have special housing needs due to their relatively low wages. According to California Employment Development Department⁴, wages for farmworkers in the San Joaquin Valley ranged from \$12 to 14/hour, which is equivalent to approximately \$25,000/year for full-time work. As a result, farmworkers often overpay for housing (in relation to their income) and/or live in overcrowded and substandard living situations.

The nature of agricultural work also affects the specific housing needs of farmworkers. For instance, farmworkers employed on a year-round basis generally live with their families and need permanent affordable housing much like other lower-income households. Migrant farmworkers who follow seasonal harvests generally need temporary housing only for the workers themselves.

California has a statewide shortage of farmworker housing projects. For instance, the number of agricultural employee housing facilities registered with the State of California Department of Housing and Community Development (HCD) has

Table 2-28

⁴ <http://www.labormarketinfo.edd.ca.gov/data/ca-agriculture.html>

dramatically declined since the 1950s. Between 1955 and 1982, grower-registered facilities declined from 9,000 to 1,414 camps. By 1998, only 500 camps were registered with HCD, none of which were in Kings County. According to growers, the dramatic decline in labor camps is due to the high cost of maintaining housing and the climate of litigation facing growers who maintain camps. Additionally, most farm owners/managers hire the majority of their workers through temporary agencies for planting, picking, pruning, or other specific tasks, so that providing full-time housing for workers is not practical.

Although no farmworker camps exist in Kings County, the County does have a significant number of government-subsidized housing projects (e.g., Section 515 and public housing) that house farmworkers and their families. Many farmworkers live in mobile homes on the farming site. A new farmworker housing project was completed in Hanford during the 2003-2008 planning period. That project involved the renovation of an existing former motel into temporary and/or long-term, permanent agricultural employee housing. The project included 24 units plus parking, courtyard, children’s play areas and open space.

The Constraints analysis (Chapter 4) contains a discussion of each jurisdiction’s land use and zoning policies and regulations regarding farmworker housing. In communities with large farmworker populations, farmworker housing needs are met through homeownership assistance and rehabilitation loans. The majority of loans under both types of programs are issued to people working in the agricultural industry. Moreover, the majority of occupants of Section 515 projects and other subsidized projects also are employed in the farming industry. In Lemoore the farmworker population is significantly smaller, although many farmworkers also access standard homeownership and/or rehabilitation loans. The Housing Plan (Chapter 5) includes programs to address the housing and supportive services needs of farmworkers.

6. Persons with Disabilities

Because of the multitude of possible functional limitations that may present as disabilities, and in the absence of information on external factors that influence disability, surveys like the Census Bureau’s ACS are limited to capturing difficulty with only selected activities. As such, people identified by the ACS as having a disability are, in fact, those who exhibit difficulty with specific functions and may, in the absence of accommodation, have a disability. In an attempt to capture a variety of characteristics that encompass the definition of disability, the ACS identifies serious difficulty with four basic areas of functioning – hearing, vision, cognition, and ambulation.⁵

Disabilities are most common among senior citizens. According to recent Census estimates, the proportion of people 65 years of age and over reporting some type of physical disability ranged from 39% in the unincorporated area to 52% in Avenal. The incidence of disabilities affecting the working age population was considerably less, ranging from about 8% in the unincorporated county to 13% in Corcoran (see Table 2-31).

Developmental Disabilities

As defined by federal law, “developmental disability” means a severe, chronic disability of an individual that:

⁵ Source: *American Community Survey 2013 Subject Definitions*. Beginning in 2008, questions on disability represent a conceptual and empirical break from earlier years of the ACS. Hence, the Census Bureau does not recommend any comparisons of current disability data to 2007 and earlier ACS disability data, or to disability estimates from the 2000 Census.)

Chapter 2. Housing Needs Assessment

- Is attributable to a mental or physical impairment or combination of mental and physical impairments;
- Is manifested before the individual attains age 18;
- Is likely to continue indefinitely;
- Results in substantial functional limitations in three or more of the following areas of major life activity: a) self-care; b) receptive and expressive language; c) learning; d) mobility; e) self-direction; f) capacity for independent living; or g) economic self-sufficiency;
- Reflects the individual’s need for a combination and sequence of special, interdisciplinary, or generic services, individualized supports or other forms of assistance that are of lifelong or extended duration and are individually planned and coordinated.

The Census Bureau does not record developmental disabilities. According to the U.S. Administration on Developmental Disabilities, an accepted estimate of the percentage of the population that can be defined as developmentally disabled is 1.5 percent. Many developmentally disabled persons can live and work independently within a conventional housing environment. More severely disabled individuals require a group living environment where supervision is provided. The most severely affected individuals may require an institutional environment where medical attention and physical therapy are provided. Because developmental disabilities exist before adulthood, the first issue in supportive housing for the developmentally disabled is the transition from the person’s living situation as a child to an appropriate level of independence as an adult.

The State Department of Developmental Services (DDS) currently provides community-based services to approximately 243,000 persons with developmental disabilities and their families through a statewide system of 21 regional centers, four developmental centers, and two community-based facilities. Kings County is served by the Central Valley Regional Center⁶ (CVRC) which is based in Fresno. During 2014, CVRC served approximately 16,200 clients, of which about 900 to 1,000 lived in Kings County (Table 2-30). CVRC provides diagnosis, evaluation, and case management services. The Center also operates approximately 20 small group homes for mentally disabled clients and placement services to help clients find affordable, independent housing (typically Section 8 units). The Kings County Rehabilitation Center in Hanford also offers rehabilitation, vocational and life training, and operates four group homes for mentally and physically handicapped individuals.

Chapter 2. Housing Needs Assessment

State and federal law mandate minimum accessibility standards for housing. For example, local governments that use federal housing funds must meet federal accessibility guidelines for new construction and substantial rehabilitation. At least 5% of the units must be accessible to persons with mobility impairments, and an additional 2% must be accessible to persons with sensory impairments. New multi-family housing must be built so that: 1) the public and common use portions of such units are readily accessible to and usable by disabled persons; 2) the doors allowing passage into and within such units can accommodate wheelchairs; and 3) all units contain adaptive design features. In addition, state law requires all jurisdictions to provide reasonable accommodation in the application of housing policies and regulations (see Chapter 4. Constraints for additional discussion).

7. Homeless

Homelessness is often the result of multiple factors that converge in a person's life. The combination of loss of employment, inability to find a job because of the need for retraining, and high housing costs lead to some individuals and families losing their housing. For others, the loss of housing is due to chronic health problems, physical disabilities, mental health disabilities or drug and alcohol addictions along with an inability to access the services and long-term support needed to address these conditions.

Obtaining an accurate assessment of the magnitude of the homeless population is difficult because many individuals are not visibly homeless but rather live with relatives or friends, in hotels/motels or shelters, and other temporary accommodations. In an attempt to address the needs of homeless people in Kings County, the Kings/Tulare County Continuum of Care Coordinating Group conducted a Point-in-Time ("PIT") survey of homeless people in these two counties in January 2015 (Table 2-32). The study used HUD's definition of homelessness, which is defined as people who reside in emergency shelters, transitional housing, or places not meant for human habitation such as cars, parks, sidewalks, and abandoned buildings.

Based on the 2015 survey, the following portrait of homeless people emerged.

- 40% are chronic homeless
- 33% have a chronic health condition
- 41% suffer from mental illness
- 23% are victims of domestic violence
- 31% have a physical disability
- 23% have a substance abuse problem
- 7% are veterans
- 9% are unaccompanied children or young adults under age 25

As of 2015, 49% of the homeless population was housed in temporary living arrangements. Of this total, 30% lived in transitional housing and 19% were in emergency shelters. Just over half were living on the streets or in a car. (Note: Avenal and Lemoore were not included in the PIT survey, therefore the estimates of homeless persons for those cities are based on the observations of police officers or other city staff.)

Figure 3 – Shelter Facilities in Kings and Tulare Counties

Chapter 2. Housing Needs Assessment

The 2015 PIT survey identified an inventory of 237 emergency shelter beds, 340 transitional housing beds and 307 permanent supportive housing beds in Kings County (see Figure 3). The unmet need was estimated to be 75 emergency shelter beds, 22 transitional housing beds and 80 permanent supportive housing beds.⁷

Additional emergency assistance is provided by the Salvation Army in Hanford, which provides short-term assistance in the form of food, financial assistance for rent and utility bills, motel vouchers and bus or plane tickets. Corcoran Christian Aid provides food, vouchers and other types of emergency financial assistance within Corcoran.

Despite these services, a significant shortage in emergency shelters and transitional housing remains. In 2007 the State Legislature passed Senate Bill (SB) 2, which strengthened the planning and zoning requirements for emergency shelters and transitional/supportive housing. SB2 requires that all jurisdictions adopt zoning regulations that allow emergency shelters by-right in at least one zone, subject to objective development standards, or as an alternative, the jurisdiction may meet the need through a multi-jurisdictional agreement with up to three adjacent jurisdictions. As noted in the Constraints section, all of the jurisdictions in Kings County have adopted zoning regulations for emergency shelters and transitional/supportive housing in response to SB 2.

E. Analysis of At Risk Housing

State law requires that housing elements include an analysis of assisted housing projects that are eligible to change from low-income housing to market rate housing during the next ten years due to termination of subsidy contracts, mortgage prepayment, or expiration of affordability restrictions. Assisted housing developments include multi-family rental housing that receives assistance under certain federal and state programs, as well as local programs (e.g., in-lieu fees, inclusionary and/or density bonus programs).

Kings County and its four incorporated cities have 44 projects providing over 2,400 affordable rental units subsidized through local, state, and federal programs.

Covenants and deed restrictions are used to maintain the affordability of publicly assisted housing as affordable to low- and moderate-income households. Over time, however, these covenants and use restrictions expire and must be renewed or renegotiated to ensure continued affordability of housing. Table 2-33 shows the assisted rental projects in Kings County for which affordability controls are currently in place. All of these projects have affordability covenants that extend at least 10 years and, therefore, none is considered to be at risk of conversion to market rate.

⁷ The PIT survey did not include all jurisdictions in Kings County, therefore a breakdown of unmet need for each jurisdiction is not available.

F. Housing Growth Needs

1. Overview of the Regional Housing Needs Allocation

The Regional Housing Needs Allocation (RHNA) is a key tool for local governments to plan for anticipated growth. The RHNA quantifies the anticipated need for housing within each jurisdiction for the 10-year period from January 1, 2014 through January 31, 2024. Communities then determine how they will address this need through the process of updating the Housing Elements of their General Plans.

In determining the housing allocation for the five jurisdictions within Kings County, the Kings County Association of Governments (KCAG) developed an allocation methodology with the assistance of the Kings Regional Housing Technical Advisory Committee (KRHTAC). This methodology takes into account local growth assumptions and considers certain criteria as specified in *Government Code* §65584(a). The criteria used in this methodology include an analysis of available data on local housing, population, economic, and other growth factors. One growth assumption deemed relevant to housing growth and demand within Kings County is the housing needs of Naval Air Station Lemoore personnel. Although the housing unit allocations in the RHNA are not required to take into account the military base, the Indian reservation, or prison populations, the Naval Air Station Lemoore is identified as a relevant factor. Using the assumptions and methodology detailed within the RHNA plan, KCAG in coordination with the KRHTAC derived the distribution of each jurisdiction’s share of the regional housing need and allocated the units according to the four income categories for housing affordability.

The goal of the RHNA Plan is to promote a fair distribution of attainable housing among the four cities and the unincorporated County in a way that also helps meet the state’s housing goals. Attainable housing is defined as housing that is both sufficient in supply and affordably priced. The total housing units specified in the RHNA plan for each jurisdiction are not to be construed as quotas for development. The RHNA Plan only determines the number and affordability of housing units that jurisdictions need to plan for through land use policies, regulations, infrastructure plans, and other housing assistance programs. Construction and development of these allocations is not a requirement of the RHNA plan.

**Table 2-34
Regional Housing Needs, 2014-2024**

* 50% of VL units are assumed to be extremely-low per state law
Source: KCAG 2015

Table 2-34 shows the regional housing needs allocations for Kings County jurisdictions for the 2014-2024 period. All new units built or preserved after January 1, 2014 are credited in the new RHNA period. A discussion of how each jurisdiction’s land inventory accommodates this growth need is provided in Chapter 3.

Chapter 3. Resources and Opportunities

This chapter analyzes the resources available for the development, rehabilitation, and preservation of housing in Kings County and the cities of Avenal, Corcoran, Hanford, and Lemoore. This includes an evaluation of the extent to which vacant or underutilized land compares to the regional housing needs allocation, and the financial and administrative resources available to support housing activities and implement the housing programs described in Chapter 5.

A. Land Resources

California law (*Government Code* §65584) requires that each city and county, when preparing its state-mandated housing element, develop local housing programs designed to address housing needs for all income groups in their community. This concept seeks to ensure that each jurisdiction, to the extent feasible and appropriate, plans for a variety of housing for population growth expected in the region as well as people who might reasonably be expected to reside within the jurisdiction if a variety of housing accommodations appropriate to their needs were available. This section analyzes the capacity for residential development in each jurisdiction and how that capacity compares to the regional housing needs allocation (RHNA) identified in the previous chapter.

The current RHNA covers the period January 1, 2014 through January 31, 2024. Housing units built during 2014-15 are credited in the new planning period. Jurisdictions must demonstrate that there is adequate capacity to achieve the remainder of their RHNA for all income categories during the planning period based on an analysis of realistic development potential on vacant or underutilized sites.

It is important to recognize that the RHNA is a *planning target, not a construction mandate*. Since local governments do not build housing, their responsibilities are to create opportunities for residential development for all income levels through appropriate land use plans and regulations, and through implementation of programs designed to facilitate housing development. The focus of these responsibilities is on the provision of housing for lower-income households and persons with special needs since these groups have the greatest difficulty in obtaining adequate and affordable housing.

To fully address RHNA requirements, jurisdictions must demonstrate that there are adequate sites with appropriate zoning and development standards to accommodate their remaining housing need at all affordability levels. To that end, a parcel-specific inventory was prepared by each jurisdiction. The resulting inventory consists of vacant sites or underutilized sites with potential for additional development or redevelopment. Chapter 4 provides an analysis of the appropriateness of zoning regulations and development standards for each jurisdiction to facilitate housing development at all income levels. The detailed parcel listings and identification of potential development constraints for each jurisdiction are provided in Appendix B. Sites with Farmland Security Zone or Williamson Act contracts were eliminated from the analysis. The land inventory analyses for each jurisdiction are summarized in Table 3-1 below. This analysis demonstrates that the land inventory in each jurisdiction is adequate to accommodate the RHNA in all income categories.

B. Financial and Administrative Resources

Kings County jurisdictions have access to a variety of local, state, federal, and private resources to assist in the production of affordable housing for extremely-low, very-low, low- and moderate-income households. In addition, various nonprofit and for-profit agencies may have the administrative capacity to help the jurisdictions further their housing goals. The following section describes the most significant funding sources currently used by cities and the County, and the agencies that can help achieve the housing goals described in Chapter 5.

1. Financial Resources

Home Investment Partnership (HOME): The federal HOME Program offers funding for local jurisdictions to improve and/or expand the supply of affordable housing opportunities for lower-income households. All projects and programs funded with HOME funds must be targeted to very-low- and low-income households and may have requirements for matching funds from non-federal resources equal to 25% of the requested funds. All of the jurisdictions in Kings County must apply to state HCD for HOME funds annually on a competitive basis. Recently, the cities of Avenal and Hanford received HOME grants for first-time homebuyer loans and housing rehabilitation loans. Lemoore received first-time homebuyer grant funds while Kings County and Hanford received Rental New Construction grant funding.

Community Development Block Grant (CDBG): The federal CDBG program is designed to maintain viable urban communities by providing decent housing and a suitable living environment, and by expanding economic opportunities, especially for persons of low- and moderate-income. CDBG funds can be used for a variety of activities, including housing acquisition, housing rehabilitation, new construction, public works, and community facilities. Each year, jurisdictions may apply for up to \$800,000 under both the General Allocation and Economic Development components of the CDBG programs. The maximum amount per application is \$500,000. In addition, grants of up to \$70,000 per year from the General Planning and Technical Assistance allocation and \$70,000 per year for the Economic Development Planning and Technical Assistance are awarded and do not count toward the \$800,000 cap.

Affordable Housing and Sustainable Communities Program (AHSC): The AHSC Program furthers the purposes of AB 32 and SB 375 by investing in projects that reduce GHG emissions by supporting more compact, infill development patterns, encouraging active transportation and transit usage, and protecting agricultural land from sprawl development. Funding for the AHSC Program is provided from the Greenhouse Gas Reduction Fund (GGRF), an account established to receive Cap-and-Trade auction proceeds. The AHSC Program is administered by the Strategic Growth Council (SGC). HCD will implement the transportation, housing and infrastructure component of the AHSC Program. Funds are allocated through a competitive process, based on the merits of applications submitted and the proposed use of funds. The threshold requirements and application selection criteria focus on the extent to which developments realize the AHSC Program's objectives of reducing GHG emissions, benefiting Disadvantaged Communities, providing affordable housing, demonstrating project readiness, and meeting other policy considerations.

2. Administrative Resources

Described below are the major public and non-profit agencies that have been involved in housing activities or are interested in housing activities in Kings County. These agencies play important roles in meeting the housing needs of the community. In particular, they are involved in the improvement of the

Chapter 3. Resources and Opportunities

housing stock, provision of affordable housing, homeownership assistance, and rental assistance to households in need.

Self Help Enterprises: Incorporated in 1965, Self-Help Enterprises of Visalia is a non-profit housing developer that assists low-income residents of rural areas with housing and related services. “Self-help” housing refers to housing built in part by the future occupants of the home by allowing families to use their "sweat equity" as the down payment on the new home they might otherwise not be able to afford. Self-Help Enterprises is actively involved in helping farm laborers and other low-income families in becoming homeowners through both training and supervision as self-help builders, and assembling public and private funds in support of new construction. Self-Help Enterprises also develops multi-family housing and administers housing programs for all jurisdictions in Kings County on a contract basis.

Housing Authority of Kings County (HAKC): The Housing Authority’s mission is to promote decent, safe, and affordable housing and economic opportunity to low-income families throughout Kings County and its four incorporated cities. The Housing Authority operates three public housing projects providing 268 units of affordable housing and 32 state housing apartments. The Housing Authority also provides 688 Section 8 Housing Choice Vouchers. Finally, the Authority manages 45 farm labor residences, a Rental Housing Construction program apartment complex, a 44-unit California Housing Rehabilitation Program-Rental (CHRP-R) senior citizen project, and two transitional housing projects with 12 spaces for foster youth.

C. Opportunities for Energy Conservation

Avenal

The City of Avenal is developing a partnership with Pacific Gas & Electric to provide homeowners and renters with energy audits and to provide them with resources to obtain low energy products such as lights and insulation. The partnership should be in place in 2016.

Corcoran

The City of Corcoran provides expedited permit processing for residential solar energy equipment installations. The City’s Rehabilitation Program also encourages energy-efficient improvements when equipment or construction will involve items eligible for such upgrades. The City is also working with ARRA funds to install electrical retrofits on City-owned buildings/equipment, and entered into a Lease Agreement for a Solar Farm. In addition, the Housing Plan includes Program 2.16 to refer lower-income households to the Kings Community Action Organization and other community services agencies that provide financial assistance to offset the cost of home weatherization, heating (including solar photovoltaic water heater systems) and cooling.

Hanford

The City of Hanford will be incorporating the policies and requirements of recent amendments to state law (AB32 and SB375). In addition, the City requires or encourages the following in residential developments:

- Street trees which reduce heat generated from pavement
- Landscaping in new development to shade parking lots
- Solar photovoltaic panels as options

C. Opportunities for Energy Conservation

- Require developers to exceed Title 24 Standards (Heat & Energy) by 10%
- Increased residential densities
- High Albedo (light-colored roofs are often required)

Lemoore

The Community Design Element of the City's General Plan incorporates several policies and implementation actions that support energy conservation and green development. These include:

- Requiring new development to incorporate passive heating and natural lighting where feasible
- Incorporate green building standards into the Zoning Ordinance and Building Code to ensure a high level of energy efficiency in new development, including requiring the use of Energy Star appliances in new development and substantial renovations, requiring all new development to qualify for the equivalent of "LEED Silver" rating or better, requiring all new residential development to be pre-wired for optional photovoltaic energy systems and/or solar water heating, and requiring all new projects that will use more than 40,000 kilowatt-hours per year of electricity to install photovoltaic energy systems.

Kings County

The Community Development Agency provides expedited plan check and permit processing for residential projects designed to comply with the voluntary residential requirements of the California Green Building Standards Code. Expedited plan check/permit processing is also given to photovoltaic systems that provide energy for residential uses.

In addition, lower-income households are referred to the Kings Community Action Organization and other community services agencies that provide financial assistance to offset the cost of home weatherization, heating (including solar photovoltaic water heater systems) and cooling.

Chapter 3. Resources and Opportunities

This page intentionally left blank

Chapter 4. Constraints

The Kings County jurisdictions recognize that adequate and affordable housing for all income groups strengthens the community. Government policies and regulations can impact the price and availability of housing and, in particular, the provision of affordable housing. Likewise, non-governmental constraints such as land and construction costs, and environmental and infrastructure constraints can also affect housing cost and availability.

This chapter of the Housing Element discusses potential governmental and non-governmental constraints focusing primarily on those constraint areas that may be mitigated through the policies and programs discussed in Chapter 5.

A. Governmental Constraints

Local policies and regulations can impact the price and availability of housing and, in particular, the provision of affordable housing. Land use controls, residential development standards, and permit processing procedures may present constraints to the maintenance, development, and improvement of housing.

1. Land Use Plans and Regulations

The jurisdictions' General Plan Land Use Elements contain the primary policies that guide residential development. These policies are implemented through several types of ordinances, including the Zoning and Subdivision ordinances. Zoning regulations establish the amount and distribution of different land uses within the jurisdictions, while subdivision regulations establish requirements for the division and improvement of land.

a. General Plan Land Use Designations

Each city and county in California must prepare a comprehensive, long-term General Plan to guide its future. The land use element of the General Plan establishes the basic land uses and density of development within each jurisdiction. Under state law, the General Plan elements must be internally consistent, and each jurisdiction's zoning must be consistent with its General Plan. Thus, the land use plan must provide suitable locations and densities to implement the policies of the Housing Element. During the previous planning period General Plan updates were adopted in Corcoran (2014) and Kings County (2010), and updates are currently underway in Avenal and Hanford.

Table 4-1 shows the residential General Plan land use categories for the Kings County jurisdictions. The land use designations support a variety of housing types, ranging from very low density development, which generally includes single-family homes on large lots to high-density development, which includes multi-family development ranging from 14 to 29 units per acre.

Chapter 4. Constraints

**Table 4-1
General Plan Residential Land Use Categories**

Designation	Density Range (units/acre)	Description
Avenal¹		
Residential Estate	0-2	Single-family detached with lot sizes greater than 20,000 sf
Low Density Residential	2-10	Single-family detached with lot sizes greater than 6,000 sf
Medium Density Residential	10-15	Duplex, triplex and fourplex development
High Density Residential	15-29	Multi-family apartments and condominiums
Downtown Commercial	n.a.	Residential use allowed in conjunction with commercial
Community Commercial	n.a.	Residential use allowed in conjunction with commercial
Corcoran		
Very Low Density Residential	0-2	Single-family lots of one-half acre or more
Low Density Residential	4.5 – 10	Single-family detached in traditional subdivisions or clustered planned developments. Lot sizes generally are 4,500 to 7,500 sf.
Medium Density Residential	10-15	Duplex, triplex and fourplex development.
High Density Residential	15-29	Multi-family apartments and condominiums.
Hanford²		
Very Low Density Residential	0-3	Single-family estate lots with 12,000 sf or more.
Low Density Residential	2-9	Single family detached with lot sizes from 6,000 sf to 10,000 sf.
Medium Density Residential	7-15	Duplexes, zero lot lines, patio homes, and townhomes on lot sizes from 4,500 sf. to 7,500. 6,000sf min. for new subdivision.
High Density Residential	10-22	Multi-family apartments and condominiums development.
Lemoore		
Agriculture/Rural Residential	0-1	Single-family detached in rural and semi-rural areas with lot sizes greater than 40,000 sf
Very Low Density Residential	1-3	Single-family detached in semi-rural area with lot sizes between 15,000 sf to 40,000 sf
Low Density Residential	3-7	Single-family detached in typical residential subdivision with lot sizes from 7,000 to 15,000 sf
Low Medium Density Residential	7-12	Small lot single-family, attached single-family and duplexes, triplexes, fourplexes and townhomes.
Medium Density Residential	12-17	Apartments and townhomes.
High Density Residential	17-25	Multi-family apartments and townhomes.
Mixed Use	8-20	Multi-family and commercial uses.
Kings County		
Very Low Density	0-1	Single-family detached with lot sizes of at least one acre
Low Density	1-2	Single-family detached
Low-Medium Density	2-4	Single-family detached
Medium Density	4-7	Single family detached
Medium High Density	7-11	Multi-family apartments and condominiums
High Density	11-24	Multi-family apartments and condominiums
Very High Density	24+	Multi-family apartments and condominiums

Notes:

1. Avenal is currently preparing a General Plan update
2. Hanford is currently preparing a General Plan update, which is expected to be completed in early 2016. It is anticipated that allowable densities will be increased to 20 units/acre in the Medium Density category and 29 units/acre in the High Density category.

b. Zoning Designations and Housing Opportunities

Each jurisdiction in Kings County regulates the type, location, density, and scale of residential development through local zoning ordinances. The zoning regulations serve to implement each jurisdiction’s General Plan and are designed to protect and promote the health, safety, and general welfare of residents. Housing Element law requires that jurisdictions facilitate and encourage a range in types and prices of housing for all economic and social groups in the community. This includes single-family and multi-family housing, manufactured housing, residential care facilities, emergency shelters, transitional housing, and other housing.

A summary of the residential development permitted by each King County jurisdiction is provided in Table 4-2 through Table 4-6.

**Table 4-2
Permitted Residential Development by Zoning District - City of Avenal**

Housing Type	R-E	R-1	R-2	R-3	D-C	S-C	P-F
Single-Family Detached	P	P	P	P			P
Single-Family Attached			P	P			
Multi-Family			P	P	C		
Mobile Home Park	C	C	C	C

4. Housing for up to 6 persons permitted by-right in Residential, Agriculture and MU zones
5. Boarding houses for up to 30 persons permitted by Site Plan Review; larger facilities permitted by CUP
6. SROs permitted by Site Plan Review in the CS, CH and CR districts.

Source: Kings County Development Code, 2015

Chapter 4. Constraints

As shown in Table 4-2 through Table 4-6 above, Kings County jurisdictions allow for a wide variety of housing types, including single-family and multi-family residences at a variety of densities that facilitate market rate and affordable housing projects. Mixed use is also allowed in designated areas of all jurisdictions.

All jurisdictions allow for the development of manufactured housing and mobile homes, providing a valuable source of affordable housing for seniors, families, and farmworkers. In accordance with state law, all jurisdictions allow second units as a permitted use in all single-family zones. Low-income housing can be accommodated in all districts permitting residential use in Kings County jurisdictions including mixed-use districts.

c. Special Needs Housing

To further fair housing opportunities, Kings County jurisdictions provide for a range of housing opportunities for persons with special needs, including those in residential care facilities, persons with disabilities, the elderly, farmworkers, persons needing emergency shelter or transitional living arrangements, and single-room-occupancy units. Many of these groups also fall under the category of extremely-low-income households. Table 4-2 through Table 4-6 above show the zoning requirements for each jurisdiction with respect to permitted and conditionally permitted special needs housing types. Each jurisdiction's provisions for these housing types are discussed further below.

Extremely-Low-Income Households

Many of the persons and households discussed in this section under the topic of special needs fall within the *extremely-low-income* category, which is defined as 30% or less of area median income, or up to \$24,250 per year for a 4-person household in Kings County (2015).

A variety of policies and programs described in Chapter 5 address the needs of extremely-low-income households, including persons with disabilities and those in need of residential care facilities. Such programs include housing rehabilitation, preservation of existing affordable units, Section 8 vouchers, provision of adequate sites for new multi-family housing, administrative, regulatory and financial assistance to affordable projects, zoning to encourage and facilitate farmworker housing, emergency shelters, transitional and supportive housing, single room occupancy (SROs) and second units. However, it must be recognized that the development of new housing for the lowest income groups typically requires large public subsidies, and the level of need is greater than can be met due to funding limitations, especially after the dissolution of redevelopment agencies.

Residential Care Facilities

Residential care facilities refer to any family home, group home, or rehabilitation facility that provides non-medical care to persons in need of personal services, protection, supervision, assistance, guidance, or training essential for daily living. *Health and Safety Code* §§1267.8, 1566.3, and 1568.08 require local governments to treat licensed group homes and residential care facilities with six or fewer residents no differently than other single-family residential uses. "Six or fewer persons" does not include the operator, the operator's family, or persons employed as staff. Local agencies must allow these licensed residential care facilities in any area zoned for residential use, and may not require licensed residential care facilities for six or fewer clients to obtain conditional use permits or variances that are not required of other single-family dwellings.

For all Kings County jurisdictions the development standards for licensed residential care facilities for six or fewer persons are no different than for other residential uses in the same zone. A conditional use permit is required in some jurisdictions for larger residential care facilities for more than six persons. A deviation

in site planning requirements and reduction in parking may be granted through the conditional use process. A discussion of each jurisdiction’s regulations for residential care facilities is provided below:

- **Avenal** –Residential care facilities that serve six or fewer persons are a permitted use in all residential zones. Facilities serving more than six persons are conditionally permitted in all residential zones. These requirements are consistent with state law and do not pose a constraint on the establishment of such facilities.
- **Corcoran** – Residential care facilities serving six or fewer persons are permitted by-right in all residential zones as well as the Professional Office (PO) zone. Larger care facilities for more than six persons are permitted by CUP in all residential zones and the PO zone and by administrative permit in CN, CC, CH, CD and CS zones. These requirements are consistent with state law and do not pose a constraint on the establishment of care facilities.
- **Hanford** – Residential care facilities that serve six or fewer persons are a permitted use in all residential zones and the OR zone. Larger state- or county-licensed care facilities that provide housing on a temporary basis and that do not require personal supervision or rehabilitation services are conditionally permitted in all residential zones and the OR zone. These regulations are consistent with state law and do not pose a significant constraint on the establishment of residential care facilities.
- **Lemoore** –Residential care facilities that serve six or fewer persons are permitted by-right in all residential and mixed-use zones subject to the same regulations as other residential uses. Residential care facilities serving more than six persons are permitted by-right in the RHD zone and by CUP in the RLMD, RMD, MU and NC zones. These regulations are consistent with state law.
- **Kings County** – Under current zoning regulations, community care facilities that serve six or fewer persons are a permitted use all residential, mixed use and agricultural zones. Community care facilities for seven or more persons are conditionally permitted in all residential zones and most agricultural zones. In the PF zone, community care facilities serving up to 30 persons are permitted by site plan review and larger facilities are permitted by conditional use permit. These regulations are consistent with state law and do not pose a significant constraint on the establishment of residential care facilities.

Housing for Persons with Disabilities

Both the federal Fair Housing Act and the California Fair Employment and Housing Act impose an affirmative duty on local governments to make reasonable accommodations (i.e., modifications or exceptions) in their zoning laws and other land use regulations when such accommodations may be necessary to afford disabled persons an equal opportunity to use and enjoy a dwelling. Additionally, §65008 of the *Government Code* requires localities to analyze potential and actual constraints, and include programs to accommodate housing for disabled persons.

Building codes adopted by all Kings County jurisdictions incorporate accessibility standards contained in Title 24 of the California *Code of Regulations*. Compliance with building codes and the Americans with Disabilities Act (ADA) may increase the cost of housing production and can also impact the viability of rehabilitation of older properties required to be brought up to current code standards. However, these regulations provide minimum standards that must be complied with in order to ensure the development of safe and accessible housing.

Because many homes in Kings County jurisdictions were built before modern accessibility standards, an important housing issue facing people with disabilities is retrofitting existing homes to improve access.

Chapter 4. Constraints

For retrofitting homes, all jurisdictions administratively permit unenclosed ramps to protrude into required setbacks without a variance. Each jurisdiction allows a property owner to build a ramp to allow people with disabilities access into a single-family home upon securing a building permit and payment of local building permit and inspection fees. Each jurisdiction also administers a Housing Rehabilitation Program that provides federally funded loans to eligible homeowners or rental property owners to make accessibility improvements.

Key planning requirements for each jurisdiction related to housing persons with disabilities are described below:

Avenal

- Definition of “family” – The Avenal Zoning Code defines family as: *“One or more persons related or unrelated, living together as a single nonprofit housekeeping unit, as distinguished from a group occupying a boarding or lodging house, hotel, club, or similar dwelling for group use. A family shall include domestic servants employed by the family but shall not include a fraternal, religious, social, or business group.”* This definition is consistent with current housing law.
- Separation requirements – The City’s Zoning Code does not impose any separation requirements between group homes or residential care facilities.
- Site planning requirements – The site planning requirements for residential care facilities are no different than for other residential uses in the same zone. Required parking is 1 space per 4 beds.
- Reasonable accommodation – Chapter 9.16 of the City’s Zoning Code establishes administrative procedures for reviewing and approving requests for modifications to building or zoning requirements in order to ensure reasonable accommodation for persons with disabilities in conformance with state law.

Corcoran

- Definition of “family” – The Corcoran Zoning Code defines family as: *“Any group of individuals living together as a single housekeeping unit where the residents and share common living, sleeping, cooking and eating facilities. Family members need not be related by blood but are distinguished from a group occupying a boarding or lodging house, hotel or club suitable for group use.”* This definition is consistent with current law.
- Separation requirements – The City’s Zoning Code does not impose any separation requirements between group homes or residential care facilities.
- Site planning requirements – The site planning requirements for residential care facilities are no different than for other residential uses in the same zone. Required parking is 1 space per two beds plus 1 space per 300 sq. ft. of office and other non-residential areas.
- Reasonable accommodation – Chapter 11-30 of the Zoning Code provides administrative procedures for reviewing and approving requests for modifications to building or zoning requirements in order to ensure reasonable accommodation for persons with disabilities in conformance with state law.

Hanford

- Definition of “family” – The Hanford Zoning Code defines family as: “A *single residential unit or person or group of persons living together as a domestic unit in a single residential unit*”. Program 3.12 includes a commitment to review this definition and initiate a Code amendment if necessary to ensure conformance with current housing law.
- Separation requirements – The City’s Zoning Code does not impose any separation requirements between group homes or residential care facilities.
- Site planning requirements – The site planning requirements for residential care facilities are no different than for other residential uses in the same zone. Required parking is 1 space per four beds plus 1 space per staff person during the day shift.
- Reasonable accommodation – The City’s Zoning Code (Chapter 17.72) includes administrative procedures for reviewing and approving requests for modifications to building or zoning requirements in order to ensure reasonable accommodation for persons with disabilities. Requests for reasonable accommodation are reviewed and approved administratively by the Community Development Director within 30 days of receiving an application. There is no fee associated with a reasonable accommodation application.

Lemoore

- Definition of “family” – The Lemoore Zoning Code defines “family” as “*An individual or group of two or more persons occupying a dwelling and living together as a single housekeeping unit in which each resident has access to all parts of the dwelling and where the adult residents share expenses for food or rent. Family does not include institutional group living situations such as dormitories, fraternities, sororities, monasteries, convents, residential care facilities or military barracks, nor does it include such commercial group living arrangements as boardinghouses, lodging houses, and the like.*” This definition is consistent with current law.
- Separation requirements – The City’s Zoning Code does not impose any separation requirements between group homes or residential care facilities.
- Site planning requirements – The site planning requirements for residential care facilities are no different than for other uses in the same zone. Required parking is 1 space per four beds. Reasonable accommodations – Zoning Code Sec. 9-2B-6 establishes administrative procedures for reviewing and approving requests for modifications to building or zoning requirements in order to ensure reasonable accommodations for persons with disabilities.
- Reasonable accommodation – Zoning Code Sec. 9-2B-6 establishes administrative procedures for reviewing and approving requests for modifications to building or zoning requirements in order to ensure reasonable accommodation for persons with disabilities.

Kings County

- Definition of “family” – The Kings County Development Code defines family as: “*One or more persons living as a bona fide single nonprofit relatively permanent housekeeping unit as distinguished from a group occupying a boarding or lodging*

Chapter 4. Constraints

house, hotel or club suitable for group use. A family shall not include a fraternal, social or business group.” This definition is consistent with current housing law.

- Separation requirements – The County’s Development Code does not impose any separation requirements between group homes or residential care facilities.
- Site planning requirements – The site planning requirements for residential care facilities are no different than for other residential uses in the same zone.
- Reasonable accommodation – Article 22 of the County Development Code establishes administrative procedures for reviewing and approving requests for modifications to building or zoning requirements in order to ensure reasonable accommodation for persons with disabilities in conformance with fair housing law.

Farmworker Housing

Housing for agricultural employees occurs in two types of settings: housing accommodations located on farmland that is exclusively for farmworkers; or traditional housing that is intended for lower-income households but is not restricted to farmworkers.

It is estimated that approximately 8,300 farm laborers in Kings County are permanent non-migrant and seasonal laborers. The housing needs of these farmworkers are primarily addressed through the provision of permanent affordable housing, such as apartments, lower-cost single-family homes, and mobile homes. The remaining farm laborers are migrant farmworkers who are not permanent residents of Kings County.

The California Employee Housing Act⁸ regulates farmworker housing and generally requires that no conditional use permit, zoning variance, or other zoning clearance shall be required of state-permitted employee housing that serves six or fewer employees that is not required of a family dwelling of the same type in the same zone (*Health and Safety Code* §17021.5). In addition, state-permitted employee housing facilities with no more than 36 beds in group quarters or 12 units must be treated as an agricultural land use that is not required to obtain any conditional use permit or other approval that is not required of other agricultural uses in the same zone (*Health and Safety Code* §17021.6).

Each jurisdiction’s regulations regarding farmworker housing are described below.

- **Avenal** – Farmworker housing is permitted in conformance with Employee Housing Act requirements. Since Avenal has some of the lowest housing prices and apartment rents in California, the need for farmworker housing is largely met by traditional housing. The City of Avenal actively assists farmworker housing needs: the majority of homeownership loans are made to farmworkers, and a majority of units in assisted multi-family projects are occupied by farmworkers.
- **Corcoran** – Farmworker housing is permitted in conformance with Employee Housing Act requirements. Corcoran has some of the lowest housing prices and apartment rents in California and can meet its needs for farmworker housing through traditional housing. The City actively assists farmworker housing needs: farmworkers receive the majority of homeownership and home rehabilitation loans each year and occupy a larger share of units in assisted multi-family projects.
- **Hanford** – Farmworker housing is permitted in conformance with Employee Housing Act requirements. As the most urbanized city in Kings County, Hanford has only a very small amount of agricultural land.

⁸ California *Health and Safety Code* §17000 et seq.

- **Lemoore** – Farmworker housing for up to six employees is permitted in all residential zones except RVH, therefore a Code amendment is needed to ensure conformance with Employee Housing Act requirements (see Program 4.11 in the Housing Plan). Farmworker housing complexes with up to 12 units or 36 beds are permitted in any zone where agriculture is a permitted use, in conformance with state law. As a more urbanized community, the City of Lemoore has relatively little farmland within its boundaries and only one small area at the western edge of the city with agricultural zoning. The City’s overall efforts to provide and maintain affordable housing opportunities will help to support the few permanent non-migrant and seasonal laborers who may choose to reside in Lemoore.
- **Kings County** – The Kings County Development Code permits farmworker housing with up to four dwelling units in all agricultural zones subject to Site Plan Review. The Housing Plan includes Program 5.10 to process an amendment in conformance with the Employee Housing Act.

Emergency Shelters, Transitional and Supportive Housing

An *emergency shelter* is a year-round facility that provides shelter to homeless families and/or individuals on a limited short-term basis. *Transitional housing* is temporary (often six months to two years) housing for a homeless individual or family who is transitioning to permanent housing. *Supportive housing* includes supportive services (e.g., job training, rehabilitation counseling) to allow individuals to gain necessary life skills in support of independent living.

The passage of SB2 in 2007 amended the requirements for local government regulations regarding emergency shelters and transitional/supportive housing. Unless a city has sufficient existing shelter facilities to accommodate its need, land use regulations must identify at least one zoning district where shelters are a permitted use (i.e., do not require a conditional use permit or other discretionary review). Additionally SB2 requires that transitional and supportive housing be treated as a residential use subject to only those requirements that apply to other residential dwellings of the same type in the same zone.

Each jurisdiction’s policies regarding emergency shelters, transitional and supportive housing are described below.

- **Avenal** - Emergency shelters are permitted by-right without discretionary review in the R-3 zone and by conditional use permit in the PF zone. Required standards include:
 - Maximum of 25 persons per night
 - Off-street parking at one space per five beds plus one space for each staff person on duty
 - Management and security plan
 - Minimum separation of 300 feet between emergency shelters
 - On-site waiting and intake areas screened from the public right-of-way

The R-3 zone is located near transit and commercial services, and provides adequate vacant or underutilized sites to accommodate the City’s need for additional shelter facilities.

Transitional and supportive housing are treated as residential uses subject only to those requirements that apply to other residential dwellings of the same type in the same zone, in conformance with state law.

- **Corcoran** - Emergency shelters are permitted by right without discretionary review in the Service Commercial (CS) zone and by conditional use permit in the Light Industrial (IL) and Heavy Industrial (IH) zones. Required standards include only those that apply to other

Chapter 4. Constraints

uses in the same zone. Parcels within the CS zone encompass approximately ## acres, are located near transit and commercial services, and provide adequate vacant or underutilized sites to accommodate the City's need for additional shelter facilities.

Transitional and supportive housing are treated as residential uses subject only to those requirements that apply to other residential dwellings of the same type in the same zone, in conformance with state law.

- **Hanford** – Emergency shelters are permitted by-right without discretionary review in the OR (Office Residential) zone subject to the following standards.
 - Maximum 25 beds
 - A management and security plan prepared in consultation with the City Manager
 - Off-street parking provided at a ratio of one space per five beds plus one space for each staff person on duty
 - Minimum separation of 300 feet between emergency shelters

The OR zone encompasses approximately 166 acres, is located near transit and commercial services, and provides adequate vacant or underutilized sites to accommodate the City's need for additional shelter facilities.

Transitional and supportive housing are treated as residential uses subject only to those requirements that apply to other residential dwellings of the same type in the same zone, in conformance with state law.

- **Lemoore** – Emergency shelters permitted by right without discretionary review in the Community Facilities (CF) zone and by CUP in the Light Industrial (ML) zone. Required standards include only those that apply to other uses in the same zone. Parcels within the CF zone encompass approximately 589 acres, including 6 vacant parcels totaling over 150 acres, and provide adequate vacant and underutilized sites to accommodate the City's need for additional shelter facilities.

In most zoning districts, transitional and supportive housing are treated as residential uses subject only to those requirements that apply to other residential dwellings of the same type in the same zone. Program 4.10 is included in the Housing Plan to amend zoning regulations in conformance with state law.

- **Kings County** – The Development Code allows emergency shelters through a ministerial site plan review process in the Public Facilities (PF) zone and subject to a conditional use permit in Mixed Use zones, in conformance with permissible development standards under Government Code 65583(a)(4). The PF zone contains approximately 325 acres and has the capacity to accommodate additional shelters. Transitional and supportive housing for up to six persons are permitted subject only to those requirements that apply to other residential uses of the same type in the same zone. Program 5.8 is included in the Housing Plan to ensure consistency with state law.

Single Room Occupancy (SRO)

Single room occupancy (SRO) facilities are small studio-type apartment units, typically occupied by one or two extremely-low-income persons. SROs may provide either private or shared kitchen and bathroom facilities. Each jurisdiction's policies regarding SROs are described below.

- **Avenal** - SROs are permitted by CUP in the Downtown Commercial (DC) and Service Commercial (SC) zones.
- **Corcoran** – SROs are permitted by CUP in all commercial zones (CN, CC, CH, CD, CS) and the Light Industrial (IL) zone.

A. Governmental Constraints

- **Hanford** – SROs are permitted by CUP in the Office Residential (OR) zone.
- **Lemoore** – SROs are permitted by-right in the High Density Residential (RHD) zone and by CUP in the Downtown Mixed Use zones (DMX-1, DMX-2 and DMX-3).
- **Kings County** – SROs permitted by ministerial Site Plan Review in the CS, CH and CR districts.

These regulations help to encourage and facilitate the provision of small economical housing units for persons with limited incomes and do not pose an unreasonable regulatory constraint.

d. Development Standards

The Kings County jurisdictions regulate the type, location, density, and scale of residential development primarily through their zoning ordinances. Zoning regulations are designed to protect and promote the health, safety, and general welfare of residents, as well as preserve the character and integrity of neighborhoods. The Zoning Ordinance sets forth the specific residential development standards, described below and summarized in Table 4-7.

Chapter 4. Constraints

**Table 4-7
Residential Development Standards**

Jurisdiction	Development Standard	RR	R-1		RM
Kings County	Min. Lot Size (sf)	30,000	3,000 – 20,000		6,000
	Max. Density (du/ac)	1.5	2-14.5		14.5-29
	Lot Coverage (%)	40%	40 - 83%		50 - 70%
	Max. Height (ft.)	30 (50 by CUP)	30 (50 by CUP)		30 (50 by CUP)
	Development Standard	RE	R-1	R-2	R-3
Avenal	Min. Lot Size (sf)	20,000	6,000	7,000	6,000
	Max. Density (du/ac)	n.a.	n.a.	12.4	21.8
	Lot Coverage (%)	40%	50%	60%	60%
	Max. Height (ft.)	35	35	35	35
	Development Standard	R-A	R-1-12 / R-1-10/ R-1-6	RM-2.5/ RM-3	RM-1.5/ RM-2
Corcoran	Min. Lot Size (sf)	20,000	12,000/10,000/ 6,000	6,000	6,000
	Max. Density (du/ac)	2.2	3.6-7.3	17.5/14.5	29/21.7
	Lot Coverage (%)	40%	40%	60%	70%
	Max. Height (ft.)	35	35	35	35
	Development Standard	R-1-20	R-1-12, R-1-8 R-1-6	RM-3	RM-2
Hanford	Min. Lot Size (sf)	20,000	12,000/8,000/ 6,000	6,000	6,000
	Max. Density (du/ac)	3	3.6-7.3	14.5	21.8
	Lot Coverage (%)	40	40%	50%	50%
	Max. Height (ft.)	40	35	35	35
	Development Standard	AR/RVLD/ RLD/RN	RLD/RN	RLMD	RMD/RHD

	Max. Density (du/ac)	3	7/12	12	17.4/25
	Lot Coverage (%)	n.a.	n.a.	n.a.	n.a.
	Max. Height (ft.)	40	35	35	45/60

Source: Zoning Ordinances for Avenal, Corcoran, Hanford, Lemoore, and Kings County, 2015

Structural Standards

The permitted density of residential development varies between jurisdictions and zones. The maximum allowable density ranges from 22 units per acre in Avenal and Hanford up to 29 units per acre in Corcoran and Kings County. The wide range of densities allowed in Kings County jurisdictions facilitates a variety of housing types ranging from single-family homes to multi-family apartment complexes.

Minimum lot sizes range from 3,000 square feet to 30,000 square feet for single-family residential zones and from 2,000 to 7,000 square feet per unit for multi-family residential zones. The zoning ordinances also regulate the size of residential structures through lot coverage and height limits. All Kings County jurisdictions have reasonable structural limits with maximum heights ranging from 30 to 60 feet which can accommodate three-story structures and maximum allowable densities in all jurisdictions. However, due to market conditions no residential buildings taller than two stories have been built or proposed in any Kings County jurisdictions except Hanford and Lemoore. Multi-family lot coverage requirements are generous, and all jurisdictions allow coverage of at least 50% in multi-family zones. The single-family

zones allow lot coverage of at least 40%. Agricultural zones have a lower lot coverage limit due to the predominant non-residential nature of these areas. These development standards are typical of other cities in the San Joaquin Valley and are not considered to be a constraint to development.

Parking Requirements

The parking requirements for Kings County jurisdictions are summarized in Table 4-8. All jurisdictions require 2 parking spaces for single-family detached units. Requirements for multi-family units vary based on bedroom counts with studio and one-bedroom units typically requiring not more than 1.5 spaces per unit. Although two covered spaces are required for multi-family units in Avenal, reductions in this ratio have been reduced for projects that qualify for a density bonus, and Program 1.7 includes a commitment to review parking standards as part of the General Plan and Development Code update.

**Table 4-8
Residential Parking Standards**

Unit Type	Avenal	Corcoran	Hanford	Lemoore	Kings County
Single-family detached	2 covered	2 (1 in garage or carport)	2 (1 in garage or carport)	2 (1 in DMX-1 or DMX-2)	2
Multi-family	2 covered	Studio: 1 1 Bedroom: 1 2 Bedroom: 1.5 3 Bedroom: 2	Studio: 1.5 1 Bedroom: 1.5 2 Bedroom: 2 3 Bedroom: 2 (1 covered)	0-1 Bedroom: 1.5 2+ Bedroom: 2 (1 in DMX-1 or DMX-2)	1.5 per unit + 1 per 3 units guest parking
Second units	1	1 or 2 bedroom: 1 3+ bedroom: 2	1	None	1
SRO units	1 per bedroom	1	1 covered	0.5	1
Boarding houses	1 covered space per bedroom or 1 space per 150 square feet of sleeping space whichever is greater	1 per 2 beds	1 covered	2 per unit	1 per 2 beds + 1 per 3 beds guest parking

Source: Zoning Ordinances for Avenal, Corcoran, Hanford, Lemoore, and Kings County, 2015

Providing adequate parking is necessary to facilitate the sale or rental of a unit. Allowing too few spaces limits the potential occupants of a unit. These parking requirements are designed to accommodate multiple vehicles for households most likely to own more than one vehicle – households in single-family homes and in apartments with two or more bedrooms. According to recent Census data, 77% of owner-occupied units and 47% of renter units in Kings County have 2 or more vehicles. Therefore, requiring two spaces per residence is a reasonable requirement and does not constrain development in Kings County.

e. Secondary Dwelling Units

Secondary dwelling units are attached or detached units that provide complete independent living facilities for one or more persons including permanent provisions for living, sleeping, cooking, and sanitation, located on the same lot as the primary structure. Second units often provide affordable housing for extremely-low-, very-low- and low-income households, including seniors. *Government Code* §65852.2 (AB 1866) requires jurisdictions to allow second units by-right (as permitted uses) in all single-family zones unless specific findings are made. As shown in Table 4-2 through Table 4-6, second units are permitted in single-family zones in all five jurisdictions.

Chapter 4. Constraints

Specific requirements for secondary units for each jurisdiction are summarized below.

- **Avenal** – The City of Avenal requires a ministerial permit review for second units to ensure consistency with the following standards set forth in the zoning code: 1) the floor area of the second unit shall not exceed 1,200 square feet or 30% of the primary structure, 2) the height shall not exceed the height of the main dwelling, and 3) one additional parking space shall be provided. These regulations are consistent with AB 1866 and do not pose a constraint on second units.
- **Corcoran** – The City of Corcoran allows second units subject to ministerial review. Standards include: 1) the floor area of the second unit shall not exceed 1,200 square feet (if detached) or 30% of the primary structure (if attached), 2) the second unit must be integrated into the design of the main unit and conform to applicable development standards for the site, and 3) one additional parking space shall be provided for second units with one or two bedrooms, and two additional spaces for second units with three or more bedrooms.
- **Hanford** – The City of Hanford requires an administrative application for second units to ensure consistency with development standards set forth in the Zoning Code. These standards include: 1) maximum floor area of 1,200 square feet (if detached) or 30% of the primary structure (if attached) and minimum floor area of 150 square feet, 2) owner occupancy of the primary residence or the second unit, 3) at least one additional parking space (which may be tandem), and 4) compliance with the other regulations for the R, RM and OR districts, except as provided in the second housing units standards. These regulations are consistent with AB 1866 and do not pose a constraint on second units.
- **Lemoore** – The City of Lemoore requires an administrative permit for all second units to ensure consistency with development standards set forth in the zoning code. Second units are permitted on lots of at least 5,000 square feet. Either the primary unit or the second unit must be owner-occupied. Development standards include: 1) a floor area limit of 30% of the existing living area (interior habitable area) of the existing dwelling if attached and 1,200 square feet if detached, 2) a prohibition on second units in planned unit developments unless approved as part of the project, 3) height limited to the height of the existing unit and 4) compliance with the height, building setbacks, lot coverage and zoning requirement generally applicable to the zone in which the property is located. These regulations are consistent with AB 1866 and do not pose a constraint on second units.
- **Kings County** – Kings County requires ministerial site plan review for second units to ensure consistency with develop standards set forth in the zoning code. These standards include: 1) a floor area limit of 30% of the existing living area if attached and 1,200 square feet if detached, 2) owner occupancy of the primary residence or the second unit, 3) at least one additional parking space, and 4) compliance with the other regulations for the R districts. These regulations are consistent with AB 1866 and do not pose a constraint on second units.

f. Density Bonus

Under current state law (SB 1818 of 2004), cities and counties must provide a density increase up to 35% over the otherwise maximum allowable residential density under the Municipal Code and the Land Use Element of the General Plan (or bonuses of equivalent financial value) when builders agree to construct housing developments with units affordable to low- or moderate-income households. The density bonus policies for each jurisdiction are discussed below.

- **Avenal** –Section 9.19.01(D) of the Avenal Zoning Ordinance establishes density bonus incentives and procedures in conformance with current state law. Use of the density bonus has been limited, however, since allowable densities are sufficient to facilitate affordable housing without requiring a density bonus.
- **Corcoran** – The 2014 Zoning Ordinance update defers to state density bonus law.
- **Hanford** – Sec. 17.39.040 of the Municipal Code establishes density bonus incentives and procedures in conformance with state law.
- **Lemoore** – The City completed a comprehensive update to the Zoning Code in 2013. Article G – Affordable Housing Incentives (Density Bonus) establishes standards and procedures in conformance with state density bonus law.
- **Kings County** – Article 22 of the Development Code establishes density bonus procedures in compliance with state law.

g. Mobile Homes/Manufactured Housing

There is often an economy of scale in manufacturing homes in a plant rather than on site, thereby reducing cost. State law precludes local governments from prohibiting the installation of mobile homes on permanent foundations on single-family lots. It also declares a mobile home park to be a permitted land use on any land planned and zoned for residential use, and prohibits requiring the average density in a new mobile home park to be less than that permitted by the Municipal Code.

As described below, all jurisdictions allow for the development of manufactured housing, factory-built housing and mobile homes, providing a valuable source of housing for seniors, families, as well as farmworkers.

- **Avenal** – The City of Avenal permits mobile homes, factory-built housing and manufactured housing on permanent foundations subject to the same standards as apply to conventional single-family homes by-right in the A-I, A-E, R-E and R-1 zones and by CUP in the R-2 and R-3 zones. Although the Zoning Ordinance includes a Mobile Home Park (MHP) district, there is no land designated as such in the city. All existing MHPs are zoned R-1. As part of the comprehensive General Plan update, an amendment to regulations for mobile and manufactured housing will be processed to ensure that these uses are permitted subject to the same standards as apply to conventional housing, and existing mobile home parks are redesignated “MHP” (see Program 1.3).
- **Corcoran** – The City of Corcoran permits mobile homes and manufactured housing on permanent foundations by-right in any residential zone. New mobilehome parks are allowed by CUP in any residential zone and existing MHPs are located in single-family, multi-family, or service commercial zones.
- **Hanford** – The City of Hanford permits mobile homes and manufactured housing on permanent foundations subject to administrative approval in any residential zones. Mobile home parks are permitted in the RM-2 and RM-3 zones subject to a Conditional Use Permit.
- **Lemoore** – The City of Lemoore permits mobile homes and manufactured housing on permanent foundations in the same zones and subject to the same standards as apply to conventional homes. Mobile home parks are permitted by administrative permit or CUP in all residential zones except Agricultural-Residential (AR). The regulations do not unreasonably constrain production of this type of housing.

Chapter 4. Constraints

- **Kings County** – Kings County permits mobile homes and manufactured housing on permanent foundations in the same zones and subject to the same standards as apply to conventional homes. Manufactured housing communities or mobile home parks are permitted in all residential zones with a conditional use permit.

2. Residential Permit Processing and Environmental Review

Development review procedures exist to ensure that proposals for new residential development comply with local regulations and are compatible with adjacent land uses. As shown in Table 4-9, processing times for Kings County jurisdictions are relatively quick: single-family projects require one to eight weeks, while multi-family projects typically require one to three months.

Table 4-9
Development Review Processing

Permitting Requirements and Timeframes	Jurisdiction				
	Avenal	Corcoran	Hanford	Lemoore	Kings County
Tentative Tract Map	2 mo.	3 mo.	45-60 days	45-60 days	2-3 mo.
Parcel Map	3 mo.	2 mo.	30-45 days	45 days	4-6 weeks
Required Permits					
Conditional Use Permit for Housing in Residential Zones	Not required for SF or MF housing in residential zones	Not required for SF or MF housing in residential zones	Not required for SF or MF housing in residential zones	Required for PUDs only; 60 days	Not required for SF or MF housing in residential zones
Architectural Review for Housing in Residential Zones	Administrative as part of SPR	Only PUDs 30-45 days	Only PUDs 30-45 days	30-45 days	Not required
Administrative Site Plan Review for Apartments	Required 30 days	Required 30-45 days	Required 30 days	n.a.	Required 15 days
Time Frame from plan submittal to approval					
- Single-family project	1 week	14 days	30-45 days	60 days	4-6 weeks
- Multi-Family project	30 days	1 to 3 mo.	30-45 days	60-90 days	4-6 weeks

du=dwelling unit

* Exception is for Planned Unit Developments (PUD)

Source: Cities of Avenal, Corcoran, Hanford, and Lemoore; Kings County, 2015.

State planning and zoning law guides permit processing requirements for residential development. Within the framework of state requirements, each jurisdiction has structured its development review process in order to minimize the time required to obtain permits while ensuring that projects receive careful review. A description of each jurisdiction's permit and environmental review process is described below.

- **Avenal** – Residential subdivisions require approval of a tentative map by the Planning Commission and a final map by the City Council. Typical processing time for a tentative map is two to three months. Multi-family projects are subject only to Site Plan Review by the Director, which must be approved within 30 days if the project's site plan conforms to the Zoning Ordinance. No findings are required other than conformance with the standards contained in the Zoning Ordinance.
- **Corcoran** – Individual single-family homes can be built by-right in residential zones, while subdivisions require Planning Commission approval of a tentative map and City Council approval of a final map. Multi-family projects of any size in RM zones require

only Site Plan Review, which is approved by the Director with no public hearing. Free-standing multi-family residential projects are also permitted with only Site Plan Review in the Downtown Commercial (CD) and Professional Office (PO) zones, with the exception of projects with five or more units in the PO zone, which require a CUP. Findings required for Site Plan Review approval include 1) consistency with the General Plan and any applicable area plan, specific plan, community plan, or neighborhood plan; 2) compliance with all applicable provisions of the Zoning Code and Municipal Code; and 3) the project is arranged to avoid pedestrian and vehicular circulation hazards. (Sec. 11-23-3.F)

- **Hanford** – Residential subdivisions require approval of a tentative map by the Planning Commission and a final map by the City Council. Typical processing time for a tentative map is 45 to 60 days. For multi-family projects, a site plan review is required to enable the City to determine whether a proposed project conforms to the intent and provisions of the Zoning Ordinance, to guide the Building Official in the issuance of building permits, and to provide for the expeditious review of environmental impact assessments. The Community Development Department makes findings for approval provided the project complies with the following City policies: 1) traffic safety, street dedications, street improvements, and environmental quality, 2) zoning, fire, police, building and health codes, and public works construction standards; and 3) any other applicable federal, state or local requirements. Architectural review is required only for Planned Unit Development (PUD) overlays, and only one parcel in Hanford is designated as such. Developers follow objective guidelines and the Planning Commission approves the project.
- **Lemoore** – Residential subdivisions require approval of a tentative map by the Planning Commission and a final map by the City Council. Individual homes are approved administratively with only a building permit and no requirement for a public hearing. Multi-family projects require Planning Commission approval of a Major Site Plan and Architectural Review and applicable CEQA requirements. City staff provides a standard checklist of items to developers at the outset of a project. The purpose of the Site Plan Review process is to enable the City to determine whether a project conforms to the intent and provisions of the Zoning Ordinance, to guide the building official in permit issuance, and to provide for expeditious review of environmental assessments. Required findings for Major Site Plan Review approval include: 1) Consistency with the objectives of the general plan and applicable zoning regulations, specific plan provisions, and improvement standards; 2) The proposed architecture, site design, and landscape are suitable for the purposes of the building and the site and will enhance the character of the neighborhood and community; 3) The architecture, character, and scale of the building and the site are compatible with the character of buildings on adjoining and nearby properties; and 4) The proposed project will not create conflicts with vehicular, bicycle, or pedestrian transportation modes of circulation. (Sec. 9-2B-15.E) The typical time required for review and approval of multi-family projects is 60 to 90 days. As an example of the City’s review and approval process, the Cinnamon Villas affordable apartment project was approved in two phases in 2009 and 2014. Phase I was approved by the Planning Commission in approximately 2 months and Phase II was approved in approximately 6 weeks.
- **Kings County** – Kings County allows single-family and multi-family residential projects by-right in residential zones. No conditional use permits are required for residential uses. Moreover, Kings County does not require architectural review or design review. However, the County does require a ministerial standard site plan review for multi-family housing to enable the County to determine whether a proposed project conforms to the intent and provisions of the Development Code, to guide the Building Official in the issuance of building permits, and to provide for the expeditious review of environmental impact

Chapter 4. Constraints

assessments. Processing times are largely a function of compliance with CEQA requirements. Required findings for site plan approval include consistency with the General Plan and Development Code. (Sec. 1603.C)

These procedures help to ensure that each jurisdiction's development process meets all legal requirements without causing a significant unwarranted constraint to housing development.

3. Developer Fees, Improvement Requirements and Building Codes

State law limits fees charged for development permit processing to the reasonable cost of providing the service for which the fee is charged. Various fees and assessments are charged by Kings County jurisdictions and other public agencies to cover the costs of processing permit applications and providing services and facilities such as schools, parks and infrastructure. Almost all of these fees are assessed through a pro rata share system, based on the magnitude of a project's impact or on the extent of the benefit that will be derived.

After the passage of Proposition 13 and its limitation on local governments' property tax revenues, cities and counties have faced increasing difficulty in providing public services and facilities to serve their residents. One of the main consequences of Proposition 13 has been the shift in funding of new infrastructure from general tax revenues to development impact fees and improvement requirements on land developers. Kings County jurisdictions require developers to provide on-site and off-site improvements necessary to serve their projects. Such improvements may include water, sewer and other utility extensions, street construction and traffic control device installation that are reasonably related to the project. Dedication of land or in-lieu fees may also be required of a project for rights-of-way, transit facilities, recreational facilities, and school sites, consistent with the Subdivision Map Act.

State law prohibits the imposition of building standards that are not necessitated by local geographic, climatic or topographic conditions, and requires that local governments making changes or modifications in building standards must report such changes to the Department of Housing and Community Development along with a finding with justification that the change is needed. Kings County jurisdictions' building codes are based upon the most recent California codes and are updated periodically. These are considered the minimum necessary to protect the public's health, safety and welfare. Although minor amendments have been incorporated to address local conditions, no additional regulations have been imposed that would unnecessarily add to housing costs.

Additional information regarding development fees, improvement requirements, and building codes is provided below.

a. Planning and Development Fees

Housing construction imposes short- and long-term infrastructure costs on communities. Short-term costs include staffing for planning services and inspections. In addition, new residential developments can result in significant long-term costs to maintain and improve infrastructure, public facilities, parks, and streets. In response to the taxing constraints imposed by Proposition 13, many California cities have relied increasingly on planning and development fees to fund services needed by new housing.

In Kings County, all jurisdictions collect planning and building fees for new development, as well as impact fees to assist in the construction of new schools as necessary. In addition, the cities of Avenal, Hanford, Corcoran, and Lemoore collect impact fees to help fund infrastructure improvements. The impact fees include public safety (police and fire), water system supply and distribution, wastewater collection/treatment, streets/thoroughfares, parks and recreation, and various others. Development within

A. Governmental Constraints

special districts (either a community service district or public utility district) requires connection fees to be paid to the respective special district where services were provided.

Table 4-10 presents the development processing and impact fees charged in each jurisdiction. According to a 2001 statewide fee study⁹, Kings County jurisdictions' fees were lower than half of all jurisdictions in the state. Based on current conditions, fees (both processing and impact) range from approximately 6% to 16% of the total cost of housing in Kings County. Given the current realities of local government fiscal conditions, this is considered very modest and is not an unreasonable constraint to housing.

Residential projects may sometimes require the extension of water, sewer, and roads. In these cases, the off-site improvements are more costly than traditional infill development. In Kings County, cities often require the developer to pay for extending water and sewer infrastructure, but then allow the developer to recapture up to 50% of the costs if infill projects developed within ten years are served by that infrastructure extension that was oversized.

⁹ *Pay to Play: Residential Development Fees in California Cities and Counties*. HCD, August 2001.

Chapter 4. Constraints

**Table 4-10
Residential Development Fees**

Jurisdiction	Single Family Projects ¹					Multi-Family Projects ²

Chapter 4. Constraints

Developer impact fees are charged in some cases for certain improvements. In addition to paying impact fees, a developer may provide needed public facilities and services through the creation of a special assessment or infrastructure financing district, annexation to existing public utilities or community services district, or raising of private capital to complete the needed improvements. These costs are passed on to residents through prices or rents charged for new housing. In rural communities, new development is required to be annexed into a city or community services district in order to obtain water and sewer services.

b. Site Improvement Requirements

For new housing developments, all jurisdictions require installation of curbs, gutters, sidewalks, and street lighting. Developments must also provide connections to water and wastewater systems, or provide wells and septic tanks. Where roadways are not present, developers are required to construct all internal roadways for a subdivision, and provide connections to existing roadways. Table 4-11 summarizes typical improvements.

**Table 4-11
On-Site and Off-Site Improvements**

Permit Type	Standard Improvements		
	Internal Streets	On-site Landscaping and Open Space	Curb, Gutters, Sidewalk, Utilities
Avenal	ROW includes local street width of 36' for streets, plus 4' for sidewalk, and none for landscaping. For collectors, ROW 60' with 5' sidewalks on both sides	Front yard setback and lot coverage. Park dedications are not required. City requires two trees per residential lot.	Requires curb, gutters, sidewalks, and roads where they do not exist. Also must connect to utilities and provide street lights.
Corcoran	ROW includes local street width of 60', plus 4' sidewalk on either side. Requires 6' landscaping. Collector ROW is 68 feet with same requirements	Front yard setback and lot coverage. Park dedications are not required. City requires two trees per residential lot.	Requires curb, gutters, sidewalks, and roads where they do not exist. Also must connect to utilities and provide street lights.
Hanford	ROW includes street width of 40' plus 5' for sidewalk, and 5' for utility easement Collector has 80' ROW, with same easements.	Front yard setback and lot coverage. Yard must be landscaped with 4 trees per lot. Apartment complexes must provide open space and/or amenities per Community Development Department approval	Must provide curb, gutters, sidewalks, street lights, as well as sewer and water hookups, and fire hydrants
Lemoore	58' ROW includes local street width of 34', 5' sidewalks, 7' landscaping on each side. Street trees are placed every 40 feet. Most collectors and arterials have 74'-84' ROWs, respectively, and 6' sidewalks	Front yard setback and lot coverage. 10,000 sq ft. of open space required for multi-family projects (can include recreation bldg.) if project exceeds 25 units	Must provide curb, gutters, sidewalks, street lights, as well as sewer and water hookups, fire hydrants, and undergrounding of utilities up to 70 kv
Kings County	For minor street, ROW is 50-56'. For collector, ROW is 60'.	Standard lot coverage requirements of 40% for single-family residences and 50 to 83% for multi-family residences. No standards for open space required, just landscaping.	Curbs and gutters are required for lot sizes less than 20,000 square feet. Street lights not required. Sewer and water hookups required for lot sizes less than one acre.

ROW=right of way

Source: Cities of Avenal, Corcoran, Hanford, and Lemoore; Kings County

While site improvement requirements increase housing costs, they are typical for most jurisdictions. Moreover, site improvements are necessary to maintain the quality of life desired by residents, and ensure the availability of needed public services and facilities. Jurisdictions can mitigate the cost of these

improvement requirements by assisting affordable housing developers in obtaining state and federal financing for their projects, or providing regulatory and financial incentives.

c. Building and Construction Codes

All Kings County jurisdictions have adopted the 2013 California Building Standards Code. The City of Lemoore requires new homes to be pre-wired to facilitate aftermarket solar energy installations. No other additional regulations have been imposed by the jurisdictions that would unnecessarily add to housing costs.

Code enforcement programs are implemented through each jurisdiction's Building Department, Planning Department, Police Department or Public Works Department. Code enforcement staff investigates violations of building code and property maintenance standards as well as other complaints. When violations are identified, eligible property owners are referred to appropriate rehabilitation programs providing grants or low-interest loans for property and building improvements. Each jurisdiction is committed to increasing public awareness of rehabilitation and home improvement programs and to coordinating these programs with code enforcement efforts. This commitment is reflected in Program 1 (Code Enforcement) of each jurisdiction's Housing Plan. In addition, all Housing Plans for Kings County jurisdictions have a housing rehabilitation program.

B. Non-Governmental Constraints

1. Environmental and Infrastructure Constraints

Environmental and infrastructure issues affect the amount, location, and timing of new residential development. New housing opportunities create challenges regarding public infrastructure extensions and expansions, and encroachment into agricultural land. In addition, the availability of adequate water, public infrastructure such as wells and wastewater treatment facilities, and other public services and facilities can impact the feasibility of new residential development. This section analyzes the potential environmental and infrastructure constraints to housing development in Kings County.

a. Agricultural Lands

The California Land Conservation Act, (commonly referred to as the “Williamson” Act) was adopted by the state legislature in 1965 to protect agricultural, wetland, and scenic areas of the state from unnecessary or premature conversion to urban uses. The Williamson Act explicitly pronounces the State’s responsibility for protecting its agricultural industry from stagnation and recession. The agricultural industry is critical to the economy of Kings County, and its agricultural preserve program was first implemented in 1969.

To that end, Kings County has several mechanisms that serve to protect farmland from premature urbanization. Conservation or Farmland Security Zone Contracts provide that property may not be used by the owner, or their successors, for any purpose other than the production of agricultural products for commercial purposes. The minimum timeframe of a Land Conservation Contract cannot be less than 10 years. Farmland Security Zone contracts cannot be less than 20 years. Both contracts automatically renew one additional year and the automatic renewal continues indefinitely unless a notice of non-renewal is filed.

As discussed in Chapter 3 and Appendix B – Land Inventory, the sites identified for housing development are not encumbered with Williamson Act contracts, nor are any sites located within Farmland Security Zones. Thus, all sites proposed for development are not constrained by agricultural land use conservation contracts.

b. Wastewater Infrastructure

Wastewater service for residential development in King County is provided by public sewers in the incorporated cities and the unincorporated community service districts (CSDs). In rural areas of the County, wastewater service is not provided and residential developments rely on individual septic systems. An analysis of sewer capacity in Kings County jurisdictions and the capacity to accommodate growth commensurate with the RHNA for the 2016-2024 Housing Element planning period is provided below.

- **Avenal** – The City of Avenal provides sewer service to its urbanized areas and the Avenal State Prison. The City’s sewage collection system includes two major trunk lines in Laneva Boulevard that extend from the urban area to the sewage treatment plant located in

southeast Avenal. Based on projected population growth the City's portion of treatment plant reserve capacity will not be fully utilized until the year 2024 under average flow conditions.

- **Corcoran** – Corcoran's wastewater is collected and conveyed to the City's treatment plant, located at the intersection of King Avenue and Pueblo Avenue, in the southeastern portion of the City. This facility provides secondary level treatment. Corcoran State Prison has its own wastewater treatment facility. The City's wastewater treatment plant has been expanded in recent years to accommodate population growth as outlined in the General Plan. The City continues to plan for expansion of the wastewater treatment facility as part of its Capital Improvement Program and Wastewater Collection Master Plan as necessary to include alternative analysis of water reclamation facilities. New development is responsible for construction of all sewer lines serving the development. Adequate treatment plant capacity is projected through the planning period.
- **Hanford** – Hanford's wastewater treatment plant has a design capacity of 8 million gallons per day (8 MGD) with a current inflow to the plant of approximately 5 MGD. There is sufficient capacity at the plant to support city growth for the foreseeable future. Hanford's wastewater treatment plant was recently expanded to provide additional capacity for city growth through 2016. To allow for growth east of the City's boundaries, either a major new interceptor line will be installed to connect this area with the wastewater treatment plant or a satellite tertiary wastewater treatment plant must be built. These improvements will either be funded through impact fees or provided by developers to ensure adequate capacity to accommodate development. Thus, adequate capacity will be available to serve new residential development commensurate with the regional housing production goals.
- **Lemoore** – Lemoore requires all new developments to connect to the City's sewer system. Single-family homes on lots of at least one-acre, which were previously allowed to use private septic systems, are now required to connect to sewer systems to prevent groundwater contamination. Lemoore's wastewater system has adequate capacity to serve projected development through the end of the planning period. New trunk lines and collectors must be planned in areas of the city where growth is expected to occur. Such improvements will be funded through wastewater impact fees.
- **Unincorporated County** – Wastewater treatment capacity is more limited in unincorporated communities than in the cities. In most of the unincorporated areas, wastewater treatment services are not provided, and residential development relies on individual septic systems. However, the Armona, Kettleman City and Stratford areas are served by wastewater treatment systems. The Stratford Public Utility District is able to service only existing connections. The community districts of Armona, Home Garden, and Kettleman City have adequate wastewater treatment capabilities. Home Garden contracts with the City of Hanford for wastewater treatment.

c. Water Availability and Infrastructure

The availability of water to serve residential development is an important prerequisite for determining the ability of sites to accommodate housing commensurate with the regional housing needs production goals during the 2016-2024 planning period. The availability of water to serve additional growth in each jurisdiction is discussed below. Pursuant to Government Code Sec. 65589.7, water and sewer providers are required to grant priority to developments that include lower-income units, and jurisdictions are required to provide copies of their Housing Elements to water and sewer providers within their boundaries immediately upon adoption.

Chapter 4. Constraints

- **Avenal** – The City of Avenal uses imported water supplied from the San Luis Canal as part of the federal Central Valley Project. Based on the Avenal Water Master Plan, the City is projected to have a sufficient supply of imported water to meet growth demands and regional housing needs through the planning period, although it is difficult to predict future water supplies with certainty due to the current drought.
- **Corcoran** – Corcoran relies upon five groundwater wells located in a well field northeast of the City to meet all domestic, commercial, and industrial water demands. To prevent aquifer overdrafting, Corcoran participates in groundwater recharge activities, has adopted water conservation ordinances, and treats/reuses wastewater effluent for irrigation at Corcoran State Prison. The City has sufficient existing and planned groundwater supply to serve the City’s regional housing needs and maximum population projected at buildout of the General Plan without depletion of the aquifer.
- **Hanford** – Hanford and surrounding urban areas rely on local groundwater from the San Joaquin Valley Groundwater Basin to meet all domestic, commercial, and industrial water demand. The City also maintains drainage basins to percolate storm water and excess domestic water year-round to recharge the aquifer. Approximately one-half the potable water consumed by urban users is for outdoor water use such as landscape irrigation. The other half is utilized by consumers for indoor use. Indoor wastewater is delivered to the City’s wastewater treatment plant where it is treated, disinfected, and delivered to the Lakeside Irrigation District (by agreement) for reuse as agricultural irrigation water. The City’s Urban Water Management Plan identifies adequate water through the planning period to serve regional housing needs and anticipated urban growth.
- **Lemoore** – The City of Lemoore provides water service within its corporate limits from seven wells. According to the 2008 General Plan, projected average day demand is expected to be within the current supply capacity needed to meet the City’s share of regional housing needs for the planning period. As the City grows in accordance with General Plan projections, demand will eventually exceed the supply available from existing wells. At that time, the City may need to drill additional wells to serve new development. Lemoore is in the process of complying with new groundwater management regulations, but enforcement is still uncertain, so there is no known restriction on the number of wells that may be drilled inside the City limits. The City also encourages conservation measures to decrease demand. Because the City lies above a semi-confined aquifer, groundwater recharge is accomplished by up-basin stream recharge.
- **Unincorporated County** – The Kettleman City Community Services District (KCCSD) provides water to the unincorporated community of Kettleman City from two groundwater wells. The KCCSD has established a moratorium on new commercial and residential development until a new surface water treatment plant can be constructed which will treat water from the California Aqueduct. It is currently anticipated that construction of the new water treatment plant will begin in early 2016 and be completed in 2018.

The Armona Community Services District (ACSD) provides water services in the unincorporated community from two groundwater wells. The ACSD has established a moratorium on new commercial and residential development until water system improvements or an imported water source is identified.

Neither the KCCSD nor the ACSD are restricted in the amount of groundwater wells that can be drilled. The KCCSD and ACSD Capital Facilities Plans include the provision of new wells and additional water storage capacity to accommodate buildout of the General Plan land use policies. As demand for water supply increases with population growth, these

community service districts will drill new wells and construct additional water storage facilities in accordance with their Capital Facilities Plans.

Home Garden Community Service District (HGCS D) can support limited infill development and currently has undetermined capacity for future water connections.

Stratford Public Utility District (SPUD) has three existing wells, however only two are operational and one will be abandoned soon and can support limited infill development. The existing capacity will not support large-scale development within the community and new sources of potable water will be needed.

Although some water supply restrictions currently exist, they are not expected to preclude new residential development commensurate with regional housing needs in unincorporated areas during the 2016-2024 planning period.

2. Land and Construction Costs

Land and construction costs contribute to the cost and affordability of housing. However, these market factors are largely beyond the control of local jurisdictions.

While land costs are primarily controlled by regional location, cities and counties can influence per-unit land costs through allowable densities. As discussed in the Governmental Constraints section, all of the jurisdictions in Kings County allow residential development at sufficient densities to accommodate market demand.

Like land costs, construction costs are not significantly affected by local policies. The price of materials and labor are affected by regional, national and international forces. Construction costs depend on the type of home as well as amenities, materials used, and quality of construction. Jurisdictions have several means to reduce the cost of housing construction, improve housing affordability, and expand housing opportunities for more residents. Using prefabricated or manufactured housing is one way to reduce construction costs. All Kings County jurisdictions have policies to facilitate the use of manufactured housing.

Local building code requirements could also affect the cost of new housing. All Kings County jurisdictions have adopted the California Building Code and no local amendments have been adopted that would significantly increase the cost of construction.

In some portions of Lemoore, mitigation is needed to comply with FEMA flood hazard regulations or to provide noise insulation in homes impacted by aircraft overflight from the Naval Air Station Lemoore. While these measures will increase constructions costs, they are at least partially offset by creating additional areas for residential development, thereby increasing the potential supply of housing.

3. Cost and Availability of Financing

Kings County jurisdictions are similar to most other communities with regard to private sector home financing programs. The financial crisis that began in 2008 has affected the availability of real estate loans, and although interest rates in the past several years have been at historic low levels for those with good credit, most lower-income households have difficulty qualifying for home loans.

Chapter 4. Constraints

Under state law, it is illegal for real estate lending institutions to discriminate against entire neighborhoods in lending practices because of the physical or economic conditions in the area (“redlining”). In monitoring new construction sales, re-sales of existing homes, and permits for remodeling, there is no evidence of redlining in Kings County.

C. Fair Housing

State law prohibits discrimination in the development process or in real property transactions, and it is each jurisdiction’s policy to uphold the law in this regard. In Kings County, fair housing complaints are referred to different agencies depending on the jurisdiction. The cities of Corcoran and Lemoore refer fair housing complaints to the HUD Fair Housing Enforcement Center in San Francisco. The cities of Corcoran and Lemoore also refer housing complaints to Tulare/Kings County Legal Aid. Kings County, Avenal, Hanford and Lemoore refer fair housing complaints to the Human Rights/Fair Housing Commission office in Fresno. Each jurisdiction’s efforts to support fair housing are described in the Housing Plan (Chapter 5).

Chapter 5. Housing Plan

The earlier chapters of the Housing Element describe the housing needs, resources and constraints for the five jurisdictions in Kings County. This Housing Plan sets forth a comprehensive strategy and program of actions to address the housing issues identified within the cities of Avenal, Corcoran, Hanford, Lemoore, and the unincorporated areas of Kings County.

Section A highlights the major housing issues identified in Kings County and corresponding goals and policies to address those issues. Section B sets forth the specific programs to be implemented by the cities of Avenal, Corcoran, Hanford, Lemoore, and unincorporated Kings County to effectively implement the goals and policies.

A. Goals and Policies

1. Housing and Neighborhood Conservation

Improving the condition of housing is a primary housing goal for many communities. Although the majority of homes in each community are in sound condition, there is a need for repair, improvement, and rehabilitation of many homes, particularly older “Farmers Home” units and mobile homes as well as older multi-family complexes. Thus a primary goal of the Housing Element is to continue to support policies and programs for improving housing and residential neighborhoods.

GOAL 1. Improve and maintain the quality of housing and residential neighborhoods.

Policy 1.1. Promote and improve the quality of residential properties by ensuring compliance with housing and property maintenance standards.

Policy 1.2. Assist in the repair, rehabilitation, and improvement of residential structures; demolish and replace structures which are dilapidated and beyond repair.

Policy 1.3. Invest in infrastructure and public facilities to ensure that adequate water, sewer, roads, parks, and other needed services are in place to serve existing and future residential developments.

Policy 1.4. Preserve assisted rental housing for long-term occupancy by low- and moderate-income households.

2. Housing Production

Like most other areas in the San Joaquin Valley, growth and development in Kings County is expected to continue in the foreseeable future. The Housing Element sets forth policies to encourage the production of high quality housing that meets identified housing needs, further stimulates economic development, and improves residential neighborhoods.

GOAL 2. Facilitate and encourage the provision of a range of housing types and prices to meet the diverse needs of residents.

Policy 2.1. Provide adequate sites for housing through appropriate land use, zoning and development standards to accommodate the regional housing needs for the current planning period.

Policy 2.2. Work collaboratively with nonprofit and for-profit developers to seek state and federal grants to support the production of affordable housing.

Policy 2.3. Ensure the adequate provision of water, sewer, roads, public facilities, and other infrastructure necessary to serve new housing.

Policy 2.4. Support the construction of high quality single- and multi-family housing which is well designed and energy efficient.

3. Housing Constraints

Market factors and government regulations can have a significant impact on the cost of new housing. Although market factors are largely beyond the influence of local governments, Kings County jurisdictions can continue to implement responsive programs to mitigate the impact of market conditions and governmental regulations.

GOAL 3. Remove or mitigate, to the extent feasible and appropriate, potential governmental constraints to the production, maintenance, improvement and affordability of housing.

Policy 3.1. Offer regulatory and/or financial incentives, as available and appropriate, to encourage the construction of quality housing.

Policy 3.2. Periodically review local ordinances and building regulations to ensure that they do not unduly impede housing investment.

Policy 3.3. Utilize planned developments and other creative mechanisms to facilitate the construction of more creative, well-designed, housing projects.

Policy 3.4. Ensure that developments are processed efficiently to minimize holding costs and comply with the Permit Streamlining Act.

4. Housing Assistance

Certain groups may have greater difficulty in finding decent, affordable housing due to unique circumstances. Persons with special needs include low- and moderate-income households, military personnel, seniors, persons with disabilities, large families, people who are homeless, single-parent households, and farmworkers. Kings County jurisdictions remain committed to assisting people of all walks of life in securing adequate housing.

GOAL 4. Provide housing assistance to extremely-low-, very-low-, low-, and moderate-income households and those with special housing needs.

Policy 4.1. Support the provision of rental assistance to provide affordable housing options for extremely-low-, very-low- and low-income households.

Policy 4.2. Participate in efforts to expand homeownership opportunities to lower- and moderate-income households through downpayment assistance and other homeownership programs.

***Policy 4.3.** Support the provision of housing suitable for special needs groups, including seniors, people with disabilities, homeless people, military personnel, large households, single-parent families, and farmworkers.*

***Policy 4.4.** Develop and maintain collaborative efforts among nonprofits, for-profit developers, and public agencies to encourage the development, maintenance, and improvement of housing.*

5. Fair and Equal Housing Opportunities

Fair and equal housing opportunity is a continuing need in Kings County to ensure that all persons, regardless of their status, have the opportunity to find a suitable home. Mediating tenant/landlord disputes, investigating complaints of discrimination, providing education services, and improving public awareness are all part of a comprehensive fair housing program.

GOAL 5. Further equal housing opportunities for persons, regardless of status.

***Policy 5.1.** Support enforcement of fair housing laws prohibiting arbitrary discrimination in the development, financing, rental, or sale of housing.*

***Policy 5.2.** Periodically review City ordinances and development regulations and modify, as necessary, to accommodate housing for disabled persons.*

B. Housing Programs

1. Avenal Housing Programs

Avenal has a long history dating back to the 1800s. Early American settlers arrived in the Kettleman Hills during the 1850s with the dream of raising cattle and farming. Oil, however, would bring fame, fortune, and people to Avenal. In 1929, Standard Oil surveyed the current site of Avenal to build a town. By 1940, Avenal was the second largest town in Kings County with a population of 3,000 – mostly oil workers – and was known for some of the best services and schools in California. During the 1940s, however, the decline of oil and gas production affected Avenal's economy, and many stores and houses were vacated.

Avenal State Prison

Avenal's transition began when agricultural workers came to the area. During the 1970s, the completion of the California Aqueduct provided needed water and completion of I-5 brought new business opportunities. Following incorporation in 1979, the City attracted a state prison in 1987, and later annexed the I-269/I-5 interchange and zoned the area for commercial and industrial development.

Community development will play an important role in Avenal's future. New quality housing is needed to attract employees of Avenal State Prison, Coalinga State Mental Hospital, and other future employers.

Rehabilitation and infrastructure programs are needed to improve the quality of neighborhoods and foster identity and pride. Assisting residents in securing affordable rental and ownership housing remains a priority for Avenal. The Housing Element plays an important role in Avenal by guiding community development programs which will define and shape the City's future through 2024.

1.1 Code Enforcement

Code enforcement is an important means to preserve public health and safety and ensure that the character and quality of neighborhoods and housing is maintained. To that end, the City's Code Enforcement staff under the Public Works department will work to enforce state and local regulations. In conjunction with code enforcement activities, City staff will provide information to homeowners regarding the City's Housing Rehabilitation Program (Program 1.2).

El Palmar Apartments

Objective: Continue to work with the community to address code violations. Refer property owners to the Housing Rehabilitation Program.

Responsible Agency: Code Enforcement Staff/Public Works Department

Funding: General Fund

Timeline: Ongoing

1.2 Housing Rehabilitation Program

In collaboration with a housing partner, the City will continue providing rehabilitation loans to lower-income households, including very-low- and extremely-low-income persons. Initiated in 1988 with CDBG funds, the Housing Rehabilitation Program will provide loans for up to \$190,430 for most types of housing repairs, energy conservation improvements, and handicapped accessibility devices.

Objective: Continue to provide between 6 to 12 loans per year.
Continue to market the program through brochures at the public counter.

Responsible Agency: Community Development Department and Self-Help Enterprises

Funding: CDBG; HOME; CAL-HOME

Timeline: Ongoing

1.3 Preservation of At-Risk Affordable Housing and Mobile Home Parks

The City will work with interested agencies and community organizations to preserve at-risk units by monitoring their status, providing technical and/or financial assistance in return for extended affordability controls, and ensuring proper tenant notification prior to project conversion. As noted in Chapter 2, Avenal has 317 units of affordable housing created through City, state, and federal programs, some of which serve very-low- and extremely-low-income persons, and none are at risk for conversion during the next 10 years.

In addition, as part of the comprehensive General Plan and Zoning Ordinance update the City will redesignate existing mobile home parks from R-1 to MHP to facilitate preservation of this important source of affordable housing, and ensure that manufactured and factory-built housing on permanent foundations are permitted subject to the same standards as apply to conventional housing.

Objective: Continue to monitor at-risk units; preserve mobile home parks.

Responsible Agency: Community Development Department

Funding: General Fund

Timeline: Ongoing; General Plan and Zoning Ordinance update in 2016/17

1.4 Adequate Sites

The City will facilitate the production of new housing to accommodate demand commensurate with the City’s share of regional housing needs. To that end, the Housing Element identifies “adequate” sites to accommodate the City’s regional housing needs allocation identified as 639 units (73 extremely-low, 72 very-low, 108 low, 115 moderate, and 271 above moderate income affordability) during the current

Chapter 5. Housing Plan

planning period. Adequate sites are those with appropriate development and density standards, water and sewer services, and adequate infrastructure.

Objective:	Maintain appropriate land use designations to provide adequate sites appropriate for new housing to meet Avenal's housing needs allocation of 639 units.
Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Throughout the planning period

1.5 Infill Development

The City will continue to support infill development for homes and mobile homes in residential zones. Infill lots are being extensively used in Avenal for new development. The City works with developers to complete variances that allow more infill lots to be created and used. The City will provide an inventory at the public counter on the location of infill sites that are adequately served by infrastructure and suitable for residential development.

Objective:	Facilitate infill development by providing the location and zoning of residential infill sites in the community and working with developers to expedite applications.
Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Ongoing

1.6 Density Bonus Program

In accordance with state law, Avenal has adopted a local ordinance that provides density bonus and other incentives to encourage the development of affordable housing. The City will continue to work with developers to facilitate the use of these options.

Objective:	Continue to implement the density bonus ordinance to assist development of affordable housing.
Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Throughout the planning period

1.7 Regulatory and Financial Assistance

The City assists developers of affordable housing by reducing or deferring development fees, reducing processing times, and providing assistance with grant applications. The City will continue providing regulatory and financial assistance to facilitate the development of affordable housing to extremely-low-, very-low-, low-, and moderate-income households. In addition, as part of the General Plan and Development Code update the City will review parking standards for smaller multi-family units and reduce the current requirement for two covered spaces in order to facilitate production of housing for small households.

- Objective:** Continue to defer/reduce fees and expedite processing for affordable housing; Reduce parking standards for small multi-family units.
- Responsible Agency:** Community Development Department
- Funding:** General Fund
- Timeline:** Throughout the planning period; Development Code update in 2016/17.

1.8 First Time Homebuyer Program

In collaboration with a housing partner, Avenal will continue to provide home ownership opportunities to new low-income homebuyers through the First Time Homebuyer Program. Initiated in 2000, this program provides up to \$130,000 in a deferred silent second loan to subsidize mortgage payments and closing costs. Residents must provide a \$1,000 down payment and qualify for a home loan. The City will continue to apply for CDBG funds to provide assistance to first-time homebuyers.

- Objective:** Assist 5 to 10 new first-time homebuyers annually.
- Responsible Agency:** Community Development Department and Self-Help Enterprises
- Funding:** HOME
- Timeline:** Throughout the planning period

1.9 Section 8 Rental Assistance

Avenal will continue to participate in the Section 8 rental assistance program. The Section 8 program extends rental subsidies to extremely-low- and very-low-income households that spend more than 30% of their income on rent. The rent subsidy is the difference between 30% of the monthly income and the allowable rent determined by the Section 8 program.

- Objective:** Assist Kings County Housing Authority in promoting the Section 8 program by posting information at City Hall.
- Responsible Agency:** Community Development Department, County Housing Authority
- Funding:** Department of Housing and Urban Development
- Timeline:** Throughout the planning period

1.10 Affordable Housing Assistance

The City works with nonprofit groups, such as Self-Help Enterprises, to build and/or rehabilitate housing affordable to lower-income households. The City receives CDBG and HOME funds for these efforts. Affordable housing has been developed under existing zoning and development standards, without the need for density bonus, although in some cases the City provides financial assistance to projects in the form of fee waivers and regulatory incentives. To continue supporting affordable housing, especially units for very-low- and extremely-low-income persons, the City will undertake the following actions.

Objective:	Seek applicable grants from state and federal sources (e.g., CDBG, HOME, Proposition 1C, AHSC) including funding specifically targeted to ELI housing, provide an inventory of housing sites to interested developers, continue to implement the density bonus ordinance, and continue to pursue housing production and rehabilitation activities with nonprofits. The City shall promote the benefits of this program to the development community by posting information on its web page and creating a handout to be distributed with land development applications.
Responsible Agency:	Community Development Department and interested affordable housing providers/developers
Funding:	Local, state, and federal funds
Timeline:	Ongoing; apply for grant funding on an annual basis as available.

1.11 Special Needs Housing for Seniors and Persons with Disabilities

The City will assist in planning and locating affordable housing for special needs groups such as seniors and persons with disabilities, many of whom have very-low or extremely-low incomes. In the past, the City has expedited applications for senior housing apartments and assisted the developer with tax credit applications. The City will continue to work with developers on senior or special needs projects, including assistance to persons with disabilities by expediting applications and assisting with grant applications.

Objective:	Continue to work with developers on senior and special needs projects, including assistance to persons with disabilities by expediting applications and assisting with grant applications.
Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Annual assistance to affordable and special needs housing applications, if requested, throughout the planning period

1.12 Second Units

Second units can provide additional housing opportunities for many special needs groups, including seniors, farmworkers and other persons with very-low or extremely-low incomes. Second units are allowed by right in residentially zoned areas consistent with state law. The City will continue to assist property owners with second unit applications by providing information and expediting their applications.

Objective:	Continue to assist property owners with second unit applications by providing information and expediting their applications.
Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Throughout the planning period

1.13 Emergency Shelters and Transitional/Supportive Housing

Housing Element Law requires all jurisdictions to provide adequate sites for a variety of housing types, including emergency shelters and transitional/supportive housing, through appropriate zoning and development standards. These types of housing typically serve those with very-low or extremely-low

incomes. The Zoning Code permits emergency shelters in the High Density Multi-Family Residential (R-3) zone by right subject to appropriate development standards. The R-3 zone is conveniently located adjacent to services needed by persons residing in a shelter. The Zoning Code also allows transitional and supportive housing as a residential use subject only to the same requirements and procedures as for other residential uses of the same type in the same zone, consistent with state law.

Objective:	Continue to facilitate the provision of emergency shelters and transitional/supportive housing.
Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Throughout the planning period

1.14 Farmworker and Employee Housing

Farmworker housing is an important issue in the Central Valley. Since Avenal has some of the lowest housing prices and apartment rents in California, the need for farmworker housing is largely met by traditional housing. The City of Avenal actively assists farmworker housing needs: the majority of homeownership loans are made to farmworkers and a majority of units in assisted multi-family projects are occupied by farmworkers. Many of the farmworkers served by these programs have very-low or extremely-low incomes.

In addition, the Zoning Code complies with *Health and Safety Code* §17021.5 and §17021.6 regarding farmworker housing.

Objectives:	<ol style="list-style-type: none">1. Continue to ensure that the Zoning Code conforms with §17021.5 and §17021.6 of the <i>Health and Safety Code</i> regarding farmworker housing;2. Inventory suitable sites for farmworker housing with the update of the Land Use Element;3. Continue to assist interested developers by identifying sites and supporting funding applications for affordable housing; and4. Provide, to the extent feasible, financial and regulatory incentives for affordable and farmworker housing developments.
--------------------	--

Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Continue to facilitate the construction of farmworker housing on an annual basis, if requested, throughout the planning period.

1.15 Housing for Persons with Disabilities

State law requires jurisdictions to analyze and remove potential constraints to housing for persons with disabilities, many of whom have very-low or extremely-low incomes. As part of this Housing Element update the City conducted an analysis of its zoning and land use requirements, permit processing

Chapter 5. Housing Plan

procedures, and building codes to identify potential impediments, and City regulations and procedures are in conformance with state law.

Objective:	Continue to facilitate reasonable accommodation in housing for persons with disabilities and expedite development applications for housing that serves persons with disabilities such as residential care facilities.
Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Throughout the planning period

1.16 Promote Equal Housing Opportunities

To help promote fair housing opportunities, the City will continue to refer fair housing questions and complaints to the Department of Fair Employment and Housing office in Fresno and posts fair housing information in public offices and on the City website.

Objective:	Continue to refer fair housing inquiries to the Department of Fair Employment and Housing office in Fresno and distribute fair housing information at City Hall, website, library, post office, and shopping areas.
Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Throughout the planning period

1.17 Energy Conservation

The City of Avenal works cooperatively with Pacific Gas & Electric to provide homeowners and renters with energy audits and to provide them with resources to obtain low energy products such as lights and insulation.

Objective:	Reduce energy use in residential developments by providing information and low-energy products to residents.
Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Program implementation throughout the planning period

2. Corcoran Housing Programs

Corcoran’s history dates to the early 1900s. The town site originally served as a junction for the San Francisco Railroad and San Joaquin Valley Railroad. Later developers found Corcoran’s climate and soil ideal for farming, particularly cotton, and grazing. In subsequent years, Corcoran grew rapidly with the rise of the cotton industry – attracting workers to its booming agricultural industry. In 1914, the town of Corcoran incorporated and continues to be known as the farming capital of California.

Corcoran State Prison

During the 1960s, the mechanization of cotton planting and harvesting caused a significant loss of jobs, residents, and economic vitality in Corcoran. Still the City remains a center of agriculture. J.G. Boswell Company, the nation's largest cotton producer, operates major farming operations in Corcoran. In 1988 and 1997, the City attracted two state prisons providing 3,200 jobs. In 2001, the City attracted Bioproducts, a world-leading manufacturer of nutritional animal food product supplements. The City also adopted a Downtown Specific Plan to revitalize its historic town center.

In addition to ongoing economic programs, community development also plays an ongoing important role in defining Corcoran’s future. The City has undertaken several rehabilitation programs to improve older farmer housing, revitalize neighborhoods, improve infrastructure, and renovate the downtown. New quality housing is also needed for employees of Corcoran State Prison and to attract other employers. Providing housing assistance so that residents can afford quality rental and ownership housing continues as a priority.

Corcoran’s Housing Element plays an important role by setting forth community development programs that will define and shaping the City’s future through 2024.

2.1 Code Enforcement

Code enforcement is an important means to preserve public health and safety and ensure that the character and quality of residential neighborhoods and housing is maintained. The City’s Code Enforcement staff

Chapter 5. Housing Plan

under the Community Development Department will work to enforce state and local regulations. In conjunction with code enforcement activities, City staff provides information to homeowners regarding the City's Housing Rehabilitation Program.

Objective:	Continue to work with the community to eliminate code violations. Refer property owners to the Housing Rehabilitation Program.
Responsible Agency:	Code Enforcement Staff
Funding:	General Fund
Timeline:	Throughout the planning period

2.2 Paint Programs

The City offers assistance to low- and moderate-income homeowners for exterior or interior painting in three related programs. The City's Paint Program covers the cost of paint only. Under the Senior/Handicapped Paint Program, the City provides low- and moderate-income seniors and people with disabilities with paint, paint supplies, and supervision.

Objective:	Dependent on funding levels
Responsible Agency:	Community Development Department, Job Training Office, Kings County Planning Department, and Kings County Office of Education
Funding:	CDBG
Timeline:	Throughout the planning period

2.3 Housing Rehabilitation Program

The City will continue providing rehabilitation loans to lower-income households through the Housing Rehabilitation Program. Initiated in 1981, the Housing Rehabilitation Program provides loans for up to the maximum allowed by HCD for most housing repairs, demolition/reconstruction, energy conservation improvements, and handicapped accessibility devices. Health and safety grants of up to \$7,500 are provided to correct minor repairs or improve handicap accessibility for very low and low income households.

Objective:	Provide loans and grants as funding allows. Continue to market the program through brochures at the public counter. Conduct outreach to major employers (e.g., hospital, school district, and prisons) regarding the program.
Responsible Agency:	Community Development Department
Funding:	HOME; CDBG
Timeline:	Throughout the planning period

2.4 Preservation of At-Risk Affordable Housing

The City continues to work with interested agencies and community organizations to preserve at-risk units by monitoring their status, providing technical and/or financial assistance in return for extended affordability controls, and ensuring proper tenant notification prior to project conversion. Corcoran has 593 units of affordable housing for very-low-, low-, and moderate-income households created through various City, state, and federal programs. None of these housing projects is at-risk for conversion to market rate during the next 10 years. The City will continue to monitor the status of publicly-assisted affordable units and work with the project owners and interested non-profit organizations to preserve projects that may become at-risk of conversion.

- Objective:** Continue to monitor the status of publicly-assisted affordable units. The City will contact the property owners to determine their intentions, contact qualified nonprofits regarding potential opt-out projects, ensure that property owners comply with noticing requirements, support the acquisition of at-risk properties by nonprofits, and pursue grants to support the preservation of affordable at-risk housing.
- Responsible Agency:** Community Development Department
- Funding:** General Fund
- Timeline:** Throughout the planning period

2.5 Adequate Sites

The City will facilitate construction of new housing to accommodate projected employment and population growth and to meet the needs of existing residents. To that end, the Housing Element identifies adequate sites to accommodate the City’s share of the region’s housing needs allocation identified as 946 units (215 very low, 161 low, 169 moderate, and 401 above moderate) for the new planning period. Adequate sites are those with sufficient development and density standards, water and sewer services, and adequate infrastructure. In order to encourage development of smaller sites, the City will encourage lot consolidation through fee reductions and concurrent processing of lot mergers for multi-family projects that include units affordable to lower-income households.

- Objective:** Maintain appropriate land use designations to provide adequate sites appropriate for new housing to meet Corcoran’s housing needs allocation of 946 units. Work with downtown property owners to facilitate the conversion of underutilized commercial buildings for residential use. Facilitate development of smaller sites through lot mergers.
- Responsible Agency:** Community Development Department
- Funding:** General Fund
- Timeline:** Throughout the planning period

Chapter 5. Housing Plan

2.6 Density Bonus Program

In accordance with state law, Corcoran has adopted a local ordinance that provides density bonus and other incentives to encourage the development of affordable housing. The City will continue to work with developers to facilitate the use of these options.

Objective:	Continue to implement the density bonus ordinance to facilitate affordable housing.
Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Throughout the planning period

2.7 Affordable Housing Development Assistance

The City facilitates the development of affordable housing through a number of tools including density bonuses, minimal fee requirements (no impact fees), and PUD development standards. The City will continue to provide regulatory and financial assistance to facilitate and encourage the development of housing affordable to extremely-low-, very-low-, low-, and moderate-income households commensurate with its fair share housing needs, as well as housing for persons with special needs such as developmental disabilities. SROs, transitional and supportive housing projects in particular can help to address the needs of extremely-low-income persons and those with disabilities. In addition, the City will facilitate the improvement and redevelopment of underutilized properties by encouraging consolidation of adjacent parcels through expedited processing, modified development standards and reduced development fees when such projects include affordable housing. To facilitate the development of affordable housing, the City will approve projects at or above the maximum allowable density pursuant to state density bonus law and continue to identify rezoning opportunities for additional High Density residential development.

Objective:	Seek applicable grants from state and federal sources (e.g., CDBG, HOME, AHSC) including funding specifically targeted to ELI housing, provide an inventory of housing sites to interested developers, continue to implement the density bonus ordinance, and continue to pursue housing production and rehabilitation activities with nonprofits. The City shall promote the benefits of this program to the development community by posting information on its web page and creating a handout to be distributed with land development applications. Continue to defer/reduce fees and expedite processing for affordable housing.
Responsible Agency:	Community Development Department
Funding:	General Fund, grant funds
Timeline:	Continue to facilitate the construction of affordable housing and housing for persons with special needs on an annual basis, if requested, throughout the planning period.

2.8 First Time Homebuyer Program

The City provides housing assistance to new homebuyers through its First Time Homebuyer Program. Up to \$30,000 in housing assistance in the form of a low interest second mortgage loans is provided to qualified lower-income homebuyers. While this program is currently funded by HOME, a revolving fund has been set up that utilizes repayments of prior Agency-assisted second mortgage loans to fund new loans.

- Objective:** Offer 10 to 12 loans per year. Conduct outreach to major employers (e.g., hospital, school district, and prisons) regarding the availability of the program.
- Responsible Agency:** Community Development Department
- Funding:** HOME and revolving loan fund
- Timeline:** Throughout the planning period

2.9 Purchase and Rehabilitation Homeownership Program

The purpose of the Purchase and Rehabilitation Homeownership Program is to improve the condition of housing for families that live in substandard or overcrowded conditions and assist very-low- and low-income families purchase quality homes. The City will provide a zero percent deferred loan to assist homebuyers purchase and rehabilitate a substandard home. Applicants must provide a \$1,000 down payment and attend a home ownership education workshop. The City will advertise the program in local newspapers and create English and Spanish flyers advertising the program.

- Objective:** Conduct outreach to major employers (e.g., hospital, school district, and prisons) regarding the program; assist 4 households per year
- Responsible Agency:** Community Development Department
- Funding:** CDBG funds
- Timeline:** Throughout the planning period

2.10 Section 8 Rental Vouchers

Corcoran will continue to participate in the Section 8 rental assistance program, which is administered by the Kings County Housing Authority. The Section 8 program provides rent subsidies to extremely-low- and very-low-income households that spend more than 30% of their income on rent. The rent subsidy is the difference between 30% of the household’s monthly income and the allowable rent determined by the federal government.

- Objective:** Assist the Housing Authority in promoting the Section 8 program.
- Responsible Agency:** Community Development Department, County Housing Authority
- Funding:** HUD
- Timeline:** Throughout the planning period

2.11 Emergency Shelters and Transitional/Supportive Housing

State law requires jurisdictions to provide for a variety of housing types including emergency shelters and transitional/supportive housing. Emergency shelters are permitted by-right in the C-S (Service Commercial) zone, and transitional and supportive housing are permitted as residential uses subject only to the same standards and procedures as for other residential uses of the same type in the same zone. The City will continue work with providers to facilitate the establishment of these facilities.

- Objective:** Continue to work with providers to facilitate emergency shelters and transitional/supportive housing.

Chapter 5. Housing Plan

Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Throughout the planning period

2.12 Farmworker and Employee Housing

Farmworkers receive the majority of homeownership and home rehabilitation loans each year and occupy a large share of assisted multi-family units in Corcoran. In addition, the Zoning Ordinance allows farmworker housing consistent with §17021.5 and §17021.6 of the *Health and Safety Code*. The City will continue to assist interested farmworker housing developers by identifying sites, supporting funding applications, and providing regulatory and financial concessions to the extent feasible.

Objective:	Continue to facilitate the provision of farmworker housing.
Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Continue to facilitate the construction of farmworker housing on an annual basis, if requested, throughout the planning period

2.13 Housing for Persons with Disabilities

State law requires jurisdictions to analyze and remove potential constraints to housing for persons with disabilities. As part of this Housing Element update the City conducted an analysis of its zoning and land use requirements, permit processing procedures, and building codes to identify potential impediments and City regulations and procedures are in conformance with state law.

Objectives:	Continue to facilitate reasonable accommodation in housing for persons with disabilities and expedite development applications for housing that serves persons with disabilities such as residential care facilities.
Responsible Agency:	Community Development Department
Funding:	General Fund
Timeline:	Throughout the planning period

2.14 Promote Equal Housing Opportunities

Corcoran currently refers fair housing complaints to HUD and the Tulare/Kings County Legal Aid Foundation. However, other communities within Kings County refer fair housing complaints to different agencies. Therefore, it may be confusing to residents to know the appropriate agency to handle fair housing complaints or issues.

Objective:	Corcoran will coordinate with Kings County to select a local fair housing agency to provide landlord/tenant mediation services and fair housing investigations. The City will develop a fair housing brochure in Spanish and English or acquire one from a local fair housing provider. To broadly disseminate information, the City will distribute the brochure at
-------------------	--

the City Hall, the City website, library, post office, and appropriate shopping areas.

- Responsible Agency:** Community Development Department
Funding: General Fund
Timeline: Select a local provider by 2016

2.15 Weatherization and Energy-Efficient Home Improvements

The purpose of this program is to reduce energy use by providing financial assistance to lower-income households for weatherization and energy-efficient heating (including solar photovoltaic water heaters) and cooling systems. The City will refer lower-income households to the Kings Community Action Organization and other community services agencies that provide financial assistance to qualifying households for these improvements.

- Objective:** Reduce residential energy use and carbon footprint by providing financial assistance to lower-income households for weatherization and energy-efficient heating and cooling systems.
Responsible Agency: Community Development Department
Funding: Nominal funding required
Timeline: Throughout the planning period

This page intentionally left blank.

3. Hanford Housing Programs

Hanford had its roots in the expansion of the Central and Southern Pacific Railroad system in the 1870s. Hanford was incorporated in 1891. As the County seat, Hanford has developed into the residential, commercial, and industrial center of the County. Hanford is known to embrace growth and change, while preserving the integrity of its past. Hanford’s progressive business community coupled with the quaint, comfortable lifestyle continues to attract new people to Hanford, young or old.

Hanford Civic Auditorium

Downtown Hanford

Hanford’s location along Highway 198 and pro-business climate contribute to the City’s success. Hanford is home to the County’s largest employers such as Kings County Government Center, Del Monte, Hanford Elementary, Wal-Mart, Hanford Community Medical, Central Valley Hospital, Marquez Brothers, and others. West Hills College, Chapman University, College of the Sequoias, and Kings County Workforce Investment Board provide educational opportunities. The City’s Enterprise Zone, Foreign Trade Zone, and Industrial Park offer incentives for new business.

The Housing Element plays a key role in shaping the City’s future. Continued development of housing is important to accommodate expected population and employment growth within the city. Community development programs

strengthen neighborhoods by providing assistance to maintain and upgrade housing. Housing assistance programs ensure that residents of all income levels have the opportunity to live in the community. The Housing Element sets the framework for building upon the City’s past successes in providing a diverse living environment.

3.1 Code Compliance

Code compliance is an important means to preserve public health and safety and ensure that the character and quality of neighborhoods and housing is maintained. To that end, the City’s Code Compliance staff under the Community Development Department will work to enforce state and local regulations. In conjunction with code compliance activities, City staff will provide information to homeowners regarding the City’s Housing Rehabilitation Program.

Objective:	Continue to work with the community concerning code violations. Refer property owners to the Housing Rehabilitation Program.
Responsible Agency:	Code Compliance staff
Funding:	General Fund
Timeline:	Throughout the planning period

Chapter 5. Housing Plan

3.2 Housing Rehabilitation Program

The City will continue providing rehabilitation loans to lower-income households. Initiated in 1985, the Housing Rehabilitation Program provides loans for up to \$90,000 for housing repairs, energy conservation improvements, and handicapped accessibility devices. In addition the City offers an Emergency Repair Program, with grants up to \$10,000. Hanford has designated southwest and central Hanford as “target areas” for this program.

- Objective:** Assist 10 to 15 units per year if funds are available
- Responsible Agency:** Community Development Department
- Funding:** CDBG Funds; CalHome
- Timeline:** Throughout the planning period

3.3 Preservation of At-Risk Affordable Housing

The City will continue to work with interested agencies and community organizations to preserve at-risk units by monitoring their status, providing technical and/or financial assistance in return for extended affordability controls, and ensuring proper tenant notification prior to project conversion. Hanford has approximately 766 units of affordable housing for low- and moderate-income households created through City, state, and federal programs. Although none of the projects is considered to be at risk of converting to market-rate housing during the next 10 years, the City will continue to monitor the status of these projects.

- Objective:** Continue to monitor the status of publicly-assisted affordable units. The City will contact the property owners to determine their intentions, contact qualified nonprofits regarding potential opt-out projects, ensure that property owners comply with noticing requirements, support the acquisition of at-risk properties by nonprofits, and pursue grants to support the preservation of affordable at-risk housing.
- Responsible Agency:** Community Development Department and interested affordable housing providers/developers
- Funding:** General Fund
- Timeline:** Throughout the planning period

3.4 Adequate Sites

The City will facilitate construction of new housing to accommodate projected employment and population growth to meet the needs of the City’s residents. To that end, the Housing Element identifies “adequate” sites to accommodate the City’s share of the regional housing needs allocation identified as 4,832 units (1,097 very-low, 821 low, 865 moderate, and 2,049 above-

moderate) during the planning period. Adequate sites are those with sufficient development and density standards, water and sewer services, and other infrastructure. Staff will monitor development affordability and report annually on progress toward the City’s share of the regional housing need.

The City is currently preparing a comprehensive General Plan update, which is expected to be completed in early 2016. In order to enhance opportunities for affordable housing development, allowable densities are proposed to be increased to 20 units/acre in the Medium Density Residential category and 29 units/acre in the High Density Residential category.

The City will also encourage affordable housing development on small parcels by facilitating lot consolidation through expedited processing, density bonus and/or reduced processing fees.

- Objective:** Facilitate the construction of new housing through the provision of adequately zoned sites to meet Hanford’s housing needs allocation of 4,832 units.
Increase allowable densities for multi-family development as part of the comprehensive General Plan update.
- Responsible Agency:** Community Development Department
- Funding:** General Fund
- Timeline:** Provide adequate sites throughout the planning period; adopt revised General Plan densities in 2016

3.5 Density Bonus Program

In accordance with state law, Hanford adopted a local density bonus ordinance in 2008 that is in conformance with state law. The City will continue to implement this program to encourage and facilitate development of affordable housing through the provision of density bonuses or other incentives for qualifying projects.

- Objective:** Continue to publicize and implement the density bonus ordinance to assist development of affordable housing.
- Responsible Agency:** Community Development Department
- Funding:** General Fund
- Timeline:** Throughout the planning period

3.6 Planned Unit Development

The Hanford General Plan includes a Planned Unit Development Zone process whereby a project proponent can propose a concept that may change or remove many of the conventional zoning restrictions. For example, housing units could be clustered around large open space areas or other development amenities resulting in higher localized “net” densities. The PUD option provides greater flexibility in the development process, which can lead to cost savings.

- Objective:** Continue to utilize the PUD process to encourage unique design and develop housing that addresses site constraints.
- Responsible Agency:** Community Development Department
- Funding:** General Fund

Chapter 5. Housing Plan

Timeline: Throughout the planning period

3.7 First Time Homebuyer Programs

The City offers the Home Sweet Home First-Time Homebuyers Program that provides financing assistance to very-low-, low- and moderate-income first-time homebuyers. The program has been revised to increase the loan limit to \$75,000, reduce the interest rate to 3% and extend the term to 30 years. Payment is deferred for the entire loan term.

In smaller communities, there may be a limited number of qualified HOME administrative subcontractors and non-profit affordable housing developers. In a situation where an organization acts as the Administrative Subcontractor to a State Recipient in the State HOME program for a first-time homebuyer (FTHB) assistance program, and also develops affordable housing in the same community, HCD restricts homebuyers participating in a development program (e.g., mutual self-help housing) from utilizing HOME FTHB funding to purchase their homes. This causes not only an impediment to the ability to develop new single-family affordable homeownership opportunities, but also impacts the State Recipients ability to spend FTHB funds in a community with limited affordable housing inventory. In order to mitigate this potential constraint, the City will support non-profit housing organizations in working with HCD to remove this impediment and/or allow for a streamlined process of requesting an exception pursuant to 24 CFR 92.356(d) for projects/programs that will serve to further the purposes of the HOME Investment Partnerships Program.

Objective: Assist 10 households for the First-Time Homebuyer Program and assist 20 households annually for the HOME Sweet Home Program

Support non-profit housing organizations in working with HCD to remove constraints on the use of HOME funds

Responsible Agency: Community Development Department

Funding: HOME and CDBG funds

Timeline: Throughout the planning period

3.8 Section 8 Rental Assistance Program

Administered by the Kings County Housing Authority, Hanford will continue to participate in the Section 8 rental assistance program. The Section 8 rental assistance program extends rental subsidies to extremely-low- and very-low-income households equal to the difference between 30% of the monthly income and the allowable rent determined by the program.

Objective: Assist Kings County Housing Authority in promoting the Section 8 program.

Responsible Agency: Community Development Department, County Housing Authority

Funding: HUD funds

Timeline: Throughout the planning period

3.9 Affordable Housing Assistance

The City promotes affordable housing through various programs such as home ownership assistance, rehabilitation assistance, new construction/infill, and grant application programs. Hanford is an entitlement city and receives CDBG and HOME funds directly from HUD. Affordable housing is being developed under existing zoning and development standards with administrative and financial assistance

from the City. To continue supporting affordable housing production, the City will undertake the following actions.

- Objective:** Seek applicable grants from state and federal sources including funding specifically targeted to ELI housing, provide an inventory of housing sites to interested developers, continue to provide a density bonus to qualifying projects, provide financial and regulatory assistance such as reduced fees and/or modified development standards, fee reductions and concurrent processing of lot mergers for multi-family projects that include units affordable to lower-income households, and continue to pursue housing production and rehabilitation with nonprofits including assistance in preparing grant applications. Housing for very-low- and extremely-low-income persons will be prioritized where feasible. In addition, the City’s affordable housing incentives will be promoted on the website and in handouts provided at the Planning counter.
- Responsible Agency:** Community Development Department and affordable housing developers
- Funding:** Local, state, and federal funds
- Timeline:** Continue to facilitate the construction of affordable housing on an annual basis, if requested, throughout the planning period

3.10 Farmworker and Employee Housing

To address farmworker housing needs, the City permits farmworker housing in conformance with *Health and Safety Code* §17021.5 and §17021.6. In addition, the City will assist interested developers by providing incentives, identifying suitable sites, and assisting in preparation of funding applications.

- Objectives:** Assist interested developers in identifying sites and preparing funding applications;
Provide, to the extent feasible, regulatory incentives
- Responsible Agency:** Community Development Department
- Funding:** General Fund
- Timeline:** Continue to facilitate the construction of farmworker housing on an annual basis, if requested, throughout the planning period

3.11 Emergency Shelters and Transitional/Supportive Housing

State law requires jurisdictions to provide adequate sites for a variety of housing types including emergency shelters and transitional/supportive housing. Emergency shelters are permitted by-right in the OR zone, and transitional and supportive housing facilities are permitted subject only to the same regulations and procedures that apply to other residential uses of the same type in the same zone.

- Objective:** Continue to facilitate the establishment of emergency shelters and transitional/supportive housing in conformance with SB 2; continue to support efforts with surrounding Kings County jurisdictions to meet the needs of people who are homeless or transitioning to independence.
- Responsible Agency:** Community Development Department
- Funding:** General Fund

Timeline: Facilitate establishment of emergency shelters and transitional/supportive housing throughout the planning period

3.12 Housing for Persons with Disabilities

State law requires jurisdictions to analyze and remove potential constraints to housing for persons with disabilities. As part of this Housing Element update the City conducted an analysis of its zoning and land use processes, permitting processing procedures, and building codes and no constraints were identified. The City will continue to monitor legal requirements and local conditions and will update local regulations and procedures as necessary to encourage and facilitate the development, maintenance, and improvement of housing for persons with disabilities.

Objective: Continue to monitor legal requirements and local conditions and update local regulations, if necessary, to remove any impediments to housing for persons with disabilities.

Responsible Agency: Community Development Department

Funding: General Fund

Timeline: If required to ensure conformance with applicable law, Code amendment will be initiated to clarify the definition of *family* in 2016; continue to monitor potential constraints throughout the planning period

3.13 Promote Equal Housing Opportunities

Promoting fair housing includes both education and enforcement. The City of Hanford will continue to support both education and enforcement efforts. The City has recently partnered with the Fair Housing Council of Central California (FHC-CC) for services related to fair housing.

Objective: Hanford will continue to refer fair housing inquires to the Department of Fair Employment and Housing office in Fresno and distribute fair housing information at City Hall, on the City website, and at other public offices.

Responsible Agency: Planning Department

Funding: General Fund

Timeline: Throughout the planning period

4. Lemoore Housing Programs

Lemoore is a city preparing for the future while preserving the best of its past. Incorporated in 1900, Lemoore has undergone significant changes over its 115-year history. Although the City’s major employers are still rooted in agriculture, economic development has paved the way for a more diversified economy. Yet despite change, Lemoore retains the charm and beauty of a small rural town with its turn-of-the-century buildings, residences and casual environment.

Lemoore is committed to a sustainable economy and quality of life. Lemoore Naval Air Station provides a significant component of the City’s economic base. West Hills College, Brandman University, College of the Sequoias, and Kings County Job Training Office all provide workforce training. With the elimination of redevelopment and the Enterprise Zone Program, there are no incentives to offer new businesses. A new interchange at SR 198 and 19th Avenue was constructed in 2014, and the City is working with Caltrans for an improved interchange at SR 41 and Bush Street. In 2014 the U.S. Navy announced that the new F-35C Joint Strike Fighter will be based

at Lemoore beginning in 2016. This decision assures the long-term importance of the Naval Air Station to Lemoore’s local economy.

The City’s downtown revitalization efforts focus on mixed-use opportunities and converting historic structures for housing.

The 2016-2024 Housing Plan represents Lemoore’s efforts to continue to build upon past successes by facilitating development of additional housing to accommodate employment growth, providing housing assistance to residents in need, and maintaining the charm of Lemoore’s past.

4.1 Code Enforcement

The City will continue to provide code enforcement services and refer property owners to City rehabilitation programs. Code enforcement is an important means to ensure that the character and quality of neighborhoods and housing is maintained. The City’s Code Enforcement staff will work to enforce state and local regulations. In conjunction with code enforcement activities, City staff will provide information to homeowners regarding Lemoore’s Housing Rehabilitation Program.

- Objective:** Continue to work with the community on code violations. Refer property owners to City programs for rehabilitation assistance.
- Responsible Agency:** Code Enforcement coordinated with Police, Business License, Planning, Building and Fire Departments
- Funding:** General Fund and grant funds

Chapter 5. Housing Plan

Timeline: Throughout the planning period

4.2 Housing Rehabilitation Program

In the past, the City’s Housing Rehabilitation Program assisted lower-income households with substantial home repairs or reconstruction. Loans of up to \$70,000 for rehabilitation and \$116,000 for home reconstruction were provided to qualified applicants. All loans were deferred for 50 years with a zero percent interest rate as long as the residence remained the owner’s primary home. No funding is currently available to operate this program; therefore, this program will only be implemented should HOME grant funds be awarded. The City will continue to monitor funding opportunities and apply for grant funds as they become available.

Objective: Assist lower-income households with rehabilitation based on available funding.

Responsible Agency: Planning Department

Funding Source: HOME funds

Timeline: Monitor the availability grant funding annually and submit applications as HOME funding is made available.

4.3 Zoning for Adequate Sites

The City will facilitate the construction of new housing to accommodate projected employment and population growth and to meet the needs of residents. To that end, the Housing Element identifies adequate sites to accommodate the City’s share of the Regional Housing Needs Allocation of 2,985 units (339 extremely-low-, 338 very-low, 507 low, 534 moderate, and 1,267 above-moderate) during the planning period. Adequate sites are those with sufficient development and density standards, water and sewer services, and adequate infrastructure.

Mixed-use development represents one of the City’s key land use strategies not only for meeting its housing needs, but also for achieving other planning objectives such as economic development, walkable communities, and reductions in vehicular trips and greenhouse gas emissions. The new Zoning Code includes regulations and incentives to implement the mixed-use policies contained in the Land Use Element of the General Plan, including incentives to encourage the inclusion of a residential component in projects located in mixed-use districts. Where necessary, the City will facilitate the subdivision of large parcels for development. The City will continue to monitor and report annually on its progress toward these objectives.

Objectives: Provide adequate sites to meet the housing needs allocation of 2,985 units.

Responsible Agency: Planning Department

Funding: General Fund

Timeline: Continue to accommodate the City’s housing needs through 2024

4.4 Downtown Revitalization

As part of the City’s 1992 Downtown Revitalization Plan, the City has been encouraging and facilitating the development and redevelopment of its downtown core. An important component

Lucerne Hotel

of these efforts has been mixed residential-commercial uses in the Downtown Mixed Use zones. The City has converted two historic hotels in the downtown to provide low-income and senior housing above commercial uses. Such projects have assisted the City in meeting revitalization objectives, historic preservation, and the need for lower-income housing.

- Objective:** Facilitate additional mixed-use projects in the downtown as opportunities arise.
- Responsible Agency:** Planning Department
- Funding:** CDBG and other grants
- Timeline:** Throughout the planning period

4.5 Planned Unit Development (PUD)

The City implements a PUD overlay zone to provide flexibility in setback requirements and other regulations, increase residential densities in certain areas through techniques such as clustering, provide flexible site requirements, and stimulate creative, flexible and more affordable development.

- Objective:** Continue to promote the benefits of PUD alternatives to traditional development.
- Responsible Agency:** Planning Department
- Funding Source:** General Fund
- Timeline:** Throughout the planning period

4.6 First Time Homebuyer Programs

The City offers first-time home ownership assistance to very-low-income homebuyers through a HOME-funded *First Time Homebuyer Program*. The Program offers assistance as a deferred second mortgage loan of up to \$65,000 for down payment and closing cost assistance. Assistance under this program may include foreclosed properties. Buyers must provide a \$1,000 down payment, qualify with a primary lender and comply with their requirements.

- Objective:** Assist 5 households annually.
- Responsible Agency:** Planning Department and City Manager’s Office
- Funding:** HOME funds
- Timeline:** Throughout the planning period

4.7 Section 8 Rental Assistance

Administered by the Kings County Housing Authority, Lemoore will continue to participate in the Section 8 rental assistance program. This program extends rental subsidies to extremely-low- and very-low-income households that spend more than 30% of their income on rent. The rent subsidy is the difference between 30% of monthly income and allowable rent determined by HUD.

Chapter 5. Housing Plan

Objective:	Assist the Housing Authority in promoting the Section 8 program.
Responsible Agency:	Kings County Housing Authority
Funding:	HUD
Timeline:	Throughout the planning period

4.8 Affordable Housing Project Assistance

The City provides financial and administrative assistance to affordable housing projects whenever feasible. Financial assistance is dependent on grant funding and administrative assistance may include support with the preparation of grant applications as well as incentives such as density bonus and fast-track permit processing.

Objective:	Assist affordable housing projects on a case-by-case basis, including priority for extremely-low-income units where feasible.
Responsible Agency:	Planning Department
Funding:	Grant funds; General Fund
Timeline:	Continue to facilitate the construction of affordable housing on an annual basis, if requested, throughout the planning period

4.9 Senior and Special Needs Housing

The City supports development of affordable housing for special needs households, including elderly and disabled. The City has been supportive of special needs housing including affordable senior housing development, housing rehabilitation programs, and development of second units, all of which serve the needs of very-low- and extremely-low-income households and persons with disabilities. The City also supported the conversion of the Antlers Hotel into senior housing. The City will continue to facilitate the development of senior housing, special needs housing, and/or a senior assisted living facility in the Lemoore Market Area through incentives and administrative assistance.

Objective:	Continue to support the development of senior/disabled/assisted living housing.
Responsible Agency:	Planning Department
Funding:	CDBG, state and federal funds

Timeline: Continue to facilitate the construction of affordable senior and special needs housing on an annual basis, if requested, throughout the planning period

4.10 Emergency Shelters and Transitional/Supportive Housing

State law requires jurisdictions to provide adequate sites for a variety of housing types including emergency shelters and transitional/supportive housing. This type of housing is particularly important in addressing the needs of very-low- and extremely-low-income persons. The Zoning Code allows emergency shelters by-right in the Community Facilities (CF) zone subject to objective development standards. In addition, transitional and supportive housing are considered residential uses and are permitted in most zones subject only to the same requirements as other residential uses of the same type in the same zone. Minor revisions to zoning regulations are needed to ensure conformance with state law.

Objectives: Continue to facilitate emergency shelters and transitional/supportive housing consistent with state law.

Amend the Zoning Code to revise regulations for transitional and supportive housing in 2016 to ensure conformance with state law

Responsible Agency: Planning Department

Funding: General Fund

Timeline: Zoning Code amendment in 2016

4.11 Employee and Farmworker Housing

As the second most urbanized city in Kings County, Lemoore has few resident farmworkers. Although agricultural operations are very limited, an amendment to City zoning regulations will be processed to allow farmworker housing in conformance with *Health and Safety Code* §17021.5. Lemoore has worked with Self-Help Enterprises to create 36 affordable single-family units by providing land and home ownership assistance while families provided “sweat equity” towards constructing their homes. Occupants were primarily very-low-income farmworker families.

- Objectives:**
1. Process a Zoning Code amendment to allow employee housing in conformance with *Health and Safety Code* §17021.5;
 2. Assist interested affordable housing developers by identifying sites and supporting funding applications for farmworker housing; and

3. Provide, to the extent feasible, regulatory incentives to encourage the construction of farmworker housing

Responsible Agency: Planning Department
Funding: General Fund
Timeline: Code amendment in 2016; continue to facilitate the construction of farmworker housing on an annual basis, if requested, throughout the planning period

4.12 Remove Constraints on Housing for Persons with Disabilities and Special Needs

State law requires jurisdictions to analyze and remove potential constraints to housing for persons with disabilities, who often have very-low or extremely-low incomes. As part of this Housing Element update the City conducted an analysis of its zoning and land use processes, permit processing procedures, and building codes and no constraints were identified.

Objectives: Continue to facilitate the production of housing for persons with disabilities and other special needs consistent with current law.
Responsible Agency: Planning Department
Funding: General Fund
Timeline: Throughout the planning period

4.13 Promote Equal Housing Opportunities

The City provides information on fair housing laws, landlord/tenant rights and responsibilities and refers complaints of housing discrimination to the Department of Fair Employment and Housing in Fresno. Information on housing discrimination is available at City Hall and flyers on fair housing are distributed to participants in the City’s First Time Homebuyer Program.

In addition, the Zoning Ordinance includes reasonable accommodation procedures for reviewing and approving requests for modifications to zoning and building regulations by persons with disabilities.

Objective: Continue to provide fair housing information at City Hall, other public offices and on the City website.
Continue to process requests for reasonable accommodation by persons with disabilities
Responsible Agency: Planning Department
Funding: General Fund
Timeline: Throughout the planning period

5. Kings County Housing Programs

Kings County was formed in 1893 from the separation of the western portion of Tulare County and from an additional 100 square miles added from Fresno County in 1908. Located in the fertile agricultural valley floor along the Kings River, Kings County quickly began to establish itself as a prominent agricultural region. With the construction of the Southern Pacific Railroad – Alcade branch in 1877, the community of Armona soon began to flourish as a central fruit packing and shipping point. Growth of the smaller rural communities diminished as Hanford grew rapidly and later developments in Lemoore prospered.

More than 100 years after its founding, Kings County continues to remain strongly based in its agriculture roots. Today, Kings County is ranked as the 8th leading agricultural county in California (25th in the nation), and has risen to one of the top fifteen milk producing counties in the nation. With the County’s prominent agricultural resources and vast distribution network to move agricultural goods to national and international markets, the County has remained dedicated towards supporting agriculture while directing urban development to cities and community areas where services are more efficiently provided.

This Housing Plan reflects the County’s historical population trends and policies that direct urban development to existing cities or community service districts, while also providing opportunities for affordable housing development. The Housing Plan sets forth policies to encourage the production of housing where adequate infrastructure and services are available, preserve and rehabilitate residential structures, and provide housing assistance to low- and moderate-income households to meet their housing needs.

5.1 Code Enforcement

Code enforcement is an important means to ensure that the character and quality of neighborhoods and housing is maintained. The Kings County Building Inspection staff will continue to work to enforce state and local regulations regarding building and property maintenance. In conjunction with code enforcement activities, staff will provide information to homeowners regarding the County’s Housing Rehabilitation Program.

Objective:	Continue to address code violations in the County unincorporated areas. Refer property owners to rehabilitation assistance.
Responsible Agency:	Building Inspection Division
Funding:	General Fund
Timeline:	Throughout the planning period

Chapter 5. Housing Plan

5.2 Housing Rehabilitation Program

Working through nonprofit organizations and jurisdictions, the County offers housing rehabilitation assistance through the Housing Rehabilitation Program. Kings County offers housing rehabilitation assistance throughout County unincorporated areas, including the Corcoran fringe, Hanford fringe, Lemoore fringe, Armona, Home Gardens, Kettleman City, Stratford and other small community areas. The County provides low- or no-interest loans up to \$57,000 to correct health and safety hazards and make more routine repairs. The loan can be deferred until the owner sells the home, moves out of the home, or is able to begin making payments.

Objective:	Provide 5 to 10 loans per year.
Responsible Agency:	Community Development Agency
Funding:	HOME and CDBG
Timeline:	Throughout the planning period

5.3 Preservation of At-Risk Affordable Housing

The County will continue to work with interested agencies and community organizations to preserve at-risk units by monitoring their status, providing technical and/or financial assistance in return for extended affordability controls, and ensuring proper tenant notification prior to project conversion. Unincorporated Kings County has four projects with approximately 197 units of affordable housing created through various County, state, and federal programs. None of those units are at risk for conversion to market rate.

Objective:	Continue to monitor at-risk units.
Responsible Agency:	Community Development Agency
Funding:	General Fund
Timeline:	Throughout the planning period

5.4 Adequate Sites

The County will ensure that an adequate supply of residential land is designated in unincorporated areas to accommodate projected growth needs. Appendix B of the Housing Element identifies adequate sites within unincorporated areas to accommodate the County’s share of the regional housing needs allocation, which is identified as 818 units (93 extremely-low, 93 very-low, 138 low, 147 moderate, and 347 above-moderate) for the new planning period. Adequate sites are those with appropriate zoning and development standards and adequate water and sewer services and other infrastructure.

- Objective:** Designate adequate sites to meet Kings County’s housing needs of 818 units for the new planning period.
- Responsible Agency:** Community Development Agency
- Funding:** General Fund
- Timeline:** Throughout the planning period

5.5 First-Time Homebuyer Program

The County’s First-Time Homebuyer Program provides qualified first-time homebuyers up to no more than 50% of purchase price towards a home purchase. The loan is deferred for the life of the first loan or until the home owner sells the house. This program is available in all the unincorporated areas of Kings County and is administered by Self-Help Enterprises.

- Objective:** Provide 10 to 15 loans per year.
- Responsible Agency:** Community Development Agency and Self-Help Enterprises
- Funding:** HOME
- Timeline:** Throughout the planning period

5.6 Section 8 Rental Assistance

Administered by the Kings County Housing Authority, unincorporated communities will continue to participate in the Section 8 rental assistance program. The Section 8 program extends rental subsidies to extremely-low- and very-low-income households that spend more than 30% of their income on rent. The rent subsidy is the difference between 30% of monthly income and allowable rent determined by HUD.

- Objective:** Support the Housing Authority’s Section 8 program by promoting the program via the County website and brochures at County offices.
- Responsible Agency:** Kings County Housing Authority

Chapter 5. Housing Plan

Funding:	HUD
Timeline:	Throughout the planning period

5.7 Foster Youth Transitional Program

The County supports the Housing Authority in the provision of transitional homes for foster youth. Foster children are a top priority for Kings County. Working with the Kings County Housing Authority, various agencies and organizations have established two transitional homes for aged-out foster children. The homes each accommodate six residents. The Hanford boys' home was completed in 2001 by refurbishing a dilapidated HUD home with the assistance of donations of material and labor. The Lemoore girls' home was built in 2002 from a historical dwelling that was refurbished.

Objective:	Continue to support the Housing Authority in the provision of transitional homes for foster youth.
Responsible Agency:	Community Development Agency and the Kings County Housing Authority
Funding:	General Fund
Timeline:	Throughout the planning period

5.8 Emergency Shelters and Transitional/Supportive Housing

Housing Element law requires jurisdictions to provide adequate sites for a variety of housing including emergency shelters and transitional/supportive housing through appropriate zoning and development standards. The Kings County Development Code allows emergency shelters in the PF zone subject only to a ministerial Site Plan Review, consistent with SB 2, and also allows emergency shelters by CUP in the R-1 and RM zones. The Development Code also allows transitional or supportive housing for up to 6 persons by-right in all residential zones. The Code will be amended to specify that transitional/supportive housing is a residential use subject only to the same requirements and procedures as for other residential uses of the same type in the same zone.

Objective:	Amend the Development Code to permit transitional/supportive housing subject to the same requirements and procedures as for other residential uses of the same type in the same zone, as required by state law. Continue to support the Kings/Tulare Continuum of Care Plan to develop transitional and emergency housing programs for homeless individuals and families.
Responsible Agency:	Community Development Agency
Funding:	General Fund
Timeline:	Development Code amendment in 2016

5.9 Mobile Home/Manufactured Housing

Mobile homes and manufactured housing can provide an important source of affordable housing in rural areas. Pursuant to state law, all jurisdictions must allow for the development of manufactured housing/mobile homes as a permitted use in all residential zones where single-family homes are permitted. County codes are consistent with state law in this regard, and the County will continue to facilitate this type of housing to address the needs of low- and moderate-income households.

- Objective:** Continue to allow manufactured housing by right in all R zones which allow “one-family dwellings.”
- Responsible Agency:** Community Development Agency
- Funding:** General Fund
- Timeline:** Throughout the planning period

5.10 Farmworker and Employee Housing

Kings County administratively permits mobile homes as farm employee housing in the AL-10, AG-20, AG-40 and AX zones. Farmworker housing not exceeding 5 units per parcel is permitted in the AL-10, AG-20 and AG-40 zones with larger facilities in the same zones requiring a conditional use permit. Although no farm labor camps currently are present in Kings County, the County routinely permits mobile homes used as employee housing and smaller farmworker housing units. The County works with the Housing Authority and non-profit developers to develop rental and ownership housing for farmworkers. The County also facilitated renovation of a former motel into temporary and/or long-term, permanent agricultural employee housing for 24 farmworker families. To further assist in meeting housing needs, the County will:

- Objective:** Continue to support farmworker housing as follows:
 1. Amend the Development Code to incorporate §17021.5 and §17021.6 of the *Health and Safety Code*
 2. Assist interested developers by identifying sites and supporting funding applications
 3. Provide, to the extent feasible, regulatory incentives.
- Responsible Agency:** Community Development Agency, Kings County Housing Authority, and interested affordable housing providers/developers
- Funding:** General fund
- Timeline:** Development Code amendment in 2016; continue to facilitate the construction of farmworker housing on an annual basis, if requested, throughout the planning period.

Chapter 5. Housing Plan

5.11 Housing for Persons with Disabilities

State law requires jurisdictions to analyze and remove potential constraints to housing for persons with disabilities. As part of this Housing Element update, the County conducted an analysis of its zoning and land use processes, permit processing procedures, and building codes to identify impediments and no significant constraints were identified. In order to facilitate the provision of adequate housing for persons with disabilities, the County will continue to:

1. Permit small licensed community care facilities (6 or fewer persons) by-right in all residential zones and larger community care facilities serving more than 6 persons by CUP in all residential zones; and
2. Continue to implement the reasonable accommodation ordinance (Zoning Code Sec. 2208) establishing administrative procedures for reviewing and approving modifications to land use and building regulations that are reasonably necessary to ensure accessibility and use by persons with disabilities.

Objective: Continue to facilitate the provision of community care facilities and housing for persons with disabilities

Responsible Agency: Community Development Agency

Funding: General Fund

Timeline: Throughout the planning period

5.12 Promote Equal Housing Opportunities

Kings County currently refers fair housing complaints to the Human Rights/Fair Housing Commission at the Fresno office. The County will continue to publicize fair housing information at County offices and website, other public agencies and commercial centers. County staff will also coordinate with the cities of Avenal, Corcoran, Hanford and Lemoore regarding the most effective fair housing organizations to serve residents of Kings County.

Objective: Continue to facilitate the provision of fair housing information to residents of Kings County.

Responsible Agency: Community Development Agency

Funding: General Fund

Timeline: Throughout the planning period

5.13 Assist Affordable Housing Development

The County promotes the development of housing for extremely-low-, very-low-, low- and moderate-income persons through direct financial assistance such as CDBG and HOME, priority entitlement processing, regulatory incentives such as density bonus and modified development standards, administrative support to developers on grant applications. Programs 5.6 (Section 8 Rental Assistance), 5.8 (Emergency Shelters and Transitional/Supportive Housing), 5.9 (Mobile/Manufactured Housing), 5.10 (Farmworker and Employee Housing), 5.11 (Housing for Persons with Disabilities) and 5.16 (SRO Housing) are all intended to address the needs of extremely-low-income (ELI) households. In order to further assist in the development of ELI units, the County will apply for State and Federal funds for direct support of low-income housing construction and rehabilitation. Potential funding sources include CDBG and HOME. The County will also seek State and Federal funding specifically targeted for the development of housing affordable to ELI households, such as AHSC funds. The County will promote the

benefits of this program to the development community by posting information on its web page and creating a handout to be distributed with land development applications.

- Objective:** Seek applicable grants for affordable housing, provide an inventory of housing sites to interested developers, and continue to pursue housing production and rehabilitation with nonprofit housing organizations.
- Responsible Agency:** Community Development Agency and affordable housing developers
- Funding:** Local, state, and federal funds
- Timeline:** Throughout the planning period; apply for grant funding on an annual basis as available.

5.14 Energy Conservation and Greenhouse Gas/Particulate Matter Reduction

The Community Development Agency offers expedited plan check and permit processing for residential projects designed to comply with the voluntary residential requirements of the California Green Building Standards Code. Expedited plan check/permit processing is also provided for photovoltaic systems that generate energy for residential uses.

- Objective:** Increase energy conservation and reduce greenhouse gases/particulate matter in Kings County by encouraging developers to comply with the California Green Building Standards Code. Developers receive expedited plan check/permit processing if their project meets or exceeds the California Green Building Standards Code or if the project incorporates a photovoltaic system that provides energy for residential uses. This program will be publicized through postings within the Community Development Agency office and on the Agency’s webpage.
- Responsible Agency:** Community Development Agency and housing developers
- Funding:** No additional County funding required
- Timeline:** Throughout the planning period

5.15 Weatherization and Energy-Efficient Home Improvements

The purpose of this program is to reduce energy use by providing financial assistance to lower-income households for weatherization and energy-efficient heating (including solar photovoltaic water heaters) and cooling systems. The County will refer lower-income households to the Kings Community Action Organization and other community services agencies that provide financial assistance to qualifying households for these improvements.

- Objective:** Reduce residential energy use and carbon footprint by providing financial assistance to lower-income households for weatherization and energy-efficient heating and cooling systems.
- Responsible Agency:** Community Development Agency
- Funding:** Nominal funding required
- Timeline:** Throughout the planning period

5.16 Single Room Occupancy (SRO) Housing

To facilitate additional housing opportunities for lower-income residents, the County will continue to encourage development of SRO housing.

- Objective:** Address the needs of extremely-low-income persons through SRO housing.
- Responsible Agency:** Community Development Agency
- Funding:** Nominal funding required
- Timeline:** Throughout the planning period

5.17 Promote Fair and Balanced Fee Structures

Kings County promotes the development of affordable housing. However, such properties are often owned by non-profit organizations that are exempt from property taxes, which are necessary to provide funding for the public services and facilities required by residents. As a result, non-profit developments can have a negative fiscal impact on the County. In the event that affordable housing production by non-profit developers exceeds the level of need identified in the RHNA Plan for this planning period, the County will initiate a study to assess the fiscal impacts of additional non-profit affordable housing development, and consider appropriate mechanisms such as in-lieu fees to mitigate such impacts. Prior to implementation of such mitigation, the County shall conduct an evaluation of its effect on the cost and supply of housing, and process an amendment to the Housing Element.

- Objective:** The objective of this program is to balance the benefits of non-profit affordable housing tax benefits with the importance of maintaining local funding mechanisms for the continuance of essential County services.
- Responsible Agency:** Community Development Agency
- Funding:** No funding required at this time.
- Timeline:** To be determined

C. Quantified Objectives

Table 5-1 below summarizes the quantified objectives for housing construction, rehabilitation, and conservation for Kings County jurisdictions for the 2016-2024 planning period. Construction objectives do not reflect past building activity, but rather reflect housing needs based on demographic trends as determined by the California Department of Housing and Community Development (HCD).

**Table 5-1
Quantified Objectives 2016-2024**

Income Category	Avenal	Corcoran	Hanford	Lemoore	Unincorporated Kings County
New Construction¹					
Extremely Low	73	108	549	339	93
Very Low	72	107	548	338	93
Low	108	161	821	507	138
Moderate	115	169	865	534	147
Above-Moderate	271	401	2,049	1,267	347
Rehabilitation					
Extremely Low	5	10	10	10	12
Very Low	5	20	40	10	13
Low	10	45	50	10	25
Moderate	0	0	0	10	0
Above-Moderate	0	0	0	0	0
Conservation²					
Extremely Low					
Very Low					
Low	317	593	718	624	197
Moderate					
Above-Moderate	0	0	0	0	0

1 Construction objectives are for 2014-2024 commensurate with the RHNA

2 Conservation objectives refer to existing units with affordability covenants (see Table 2-33)

Source: KCAG, 2014 Kings County Regional Housing Needs Assessment Plan, January 28, 2015

This page intentionally left blank.

Chapter 6. Glossary of Terms

Acre: A unit of land measure equal to 43,560 square feet. Net acreage refers to the portion of a site exclusive of existing or planned public or private road rights-of-way.

Accessory Dwelling Unit: A dwelling unit accessory to a main single-family dwelling on a parcel of land and which meets the requirements of state law.

Affordability Covenant: A property title agreement which places resale or rental restrictions on a housing unit.

Affordable Housing: Under state and federal statutes, housing which costs no more than 30% of gross household income. Housing costs include rent or mortgage payments, utilities, taxes, insurance, homeowner association fees, and related costs.

Assisted Housing: Housing that has received subsidies (such as low interest loans, density bonuses, direct financial assistance) by federal, state, or local housing programs in exchange for restrictions requiring a certain number of housing units to be affordable to very-low-, low-, and moderate-income households.

Kings County Association of Governments (KCAG): The regional government agency authorized by the federal and state government to address regional transportation, housing, and other planning issues in Kings County.

At-Risk Housing: Assisted rental housing that is at risk of losing its status as housing affordable for very-low-, low-, and moderate-income residents due to the expiration of federal, state or local agreements.

California Department of Housing and Community Development (HCD): The state department responsible for administering state-sponsored housing programs and for reviewing housing elements to determine compliance with state housing law.

Census: The official United States decennial enumeration of the population conducted by the federal government.

Community Development Block Grant (CDBG): A grant program administered by the U.S. Department of Housing and Urban Development (HUD). This grant allots money to cities and counties for housing rehabilitation and community development activities, including public facilities and economic development.

Condominium: A building or group of buildings in which units are owned individually, but the structure, common areas and facilities are owned by all owners on a proportional, undivided basis.

Density: The number of dwelling units per unit of land. Density usually is expressed “per acre,” e.g., a development with 100 units located on 20 acres has density of 5.0 units per acre.

Density Bonus: The allowance of additional residential units beyond the maximum for which the parcel is otherwise permitted usually in exchange for the provision or preservation of affordable housing units at the same site or at another location.

Development Impact Fees: A fee or charge imposed on developers to pay for a jurisdiction’s costs of providing services to a new development.

Development Right: The right granted to a land owner or other authorized party to improve a property. Such right is usually expressed in terms of a use and intensity allowed under existing zoning regulation. For example, a development right may specify the maximum number of residential dwelling units permitted per acre of land.

Chapter 6. Glossary of Terms

Dwelling Unit: One or more rooms, designed, occupied or intended for occupancy as separate living quarters, with cooking, sleeping and sanitary facilities provided within the unit for the exclusive use of a household.

Dwelling, Multi-family: A building containing two or more dwelling units for the use of individual households; e.g., an apartment or condominium building.

Dwelling, Single-family Attached: A one-family dwelling attached to one or more other one-family dwellings by a common vertical wall. Row houses and town homes are examples of this dwelling unit type.

Dwelling, Single-family Detached: A dwelling, not attached to any other dwelling, which is designed for and occupied by not more than one family and surrounded by open space or yards.

Elderly Household: Elderly households are one- or two- member (family or non-family) households in which the head or spouse is age 65 or older.

Emergency Shelter: An emergency shelter is a facility that provides shelter to homeless families and/or homeless individuals on a limited short-term basis.

Fair Market Rent (FMR): Fair Market Rents (FMRs) are freely set rental rates defined by HUD as the median gross rents charged for available standard units in a county or Standard Metropolitan Statistical Area (SMSA). Fair Market Rents are used for the Section 8 Rental Program and other HUD programs.

First-Time Home Buyer: Defined by HUD as an individual or family who has not owned a home during the three-year period preceding the HUD-assisted purchase of a home. Jurisdictions may adopt local definitions for first-time home buyer programs which differ from non-federally funded programs.

Floor Area Ratio (FAR): The gross floor area of all buildings on a lot divided by the lot area; usually expressed as a numerical value (e.g., a building having 10,000 square feet of gross floor area located on a lot of 5,000 square feet in area has a floor area ratio of 2:1).

General Plan: The General Plan is a legal document, adopted by the legislative body of a city or county, setting forth policies regarding long-term development. California law requires the preparation of seven elements or chapters in the General Plan: Land Use, Housing, Circulation, Conservation, Open Space, Noise, and Safety. Additional elements are permitted, such as Economic Development, Urban Design and similar local concerns.

Group Quarters: A facility that houses groups of unrelated persons not living in households (U.S. Census definition). Examples of group quarters include institutions, dormitories, shelters, military quarters, assisted living facilities and other quarters, including single-room occupancy (SRO) housing, where 10 or more unrelated individuals are housed.

Home Mortgage Disclosure Act (HMDA): The Home Mortgage Disclosure Act requires larger lending institutions making home mortgage loans to publicly disclose the location and disposition of home purchase, refinance and improvement loans. Institutions subject to HMDA must also disclose the gender, race, and income of loan applicants.

HOME Program: The HOME Investment Partnership Act, Title II of the National Affordable Housing Act of 1990. HOME is a Federal program administered by HUD which provides formula grants to states and localities to fund activities that build, buy, and/or rehabilitate affordable housing for rent or home ownership or provide direct rental assistance to low-income people.

Homeless: Unsheltered homeless are families and individuals whose primary nighttime residence is a public or private place not designed for, or ordinarily used as, regular sleeping accommodation for human beings (e.g., the street, sidewalks, cars, vacant and abandoned buildings). Sheltered

homeless are families and persons whose primary nighttime residence is a supervised publicly or privately operated shelter (e.g., emergency, transitional, battered women, and homeless youth shelters; and commercial hotels or motels used to house the homeless).

Household: The US Census Bureau defines a household as all persons living in a housing unit whether or not they are related. A single person living in an apartment as well as a family living in a house is considered a household. Household does not include individuals living in dormitories, prisons, convalescent homes, or other group quarters.

Household Income: The total income of all the persons living in a household. Household income is commonly grouped into income categories based upon household size, and income, relative to the regional median family income. The following categories are used in the Housing Element:

- *Extremely Low:* Households earning less than 30% of County median family income;
- *Very low:* Households earning less than 50% of County median family income;
- *Low:* Households earning 51% to 80% of the County median family income;
- *Moderate:* Households earning 81% to 120% of County median family income;
- *Above Moderate:* Households earning above 120% of County median family income

Housing Problems: Defined by HUD as a household which: (1) occupies a unit with physical defects (lacks complete kitchen or bathroom); (2) meets the definition of overcrowded; or (3) spends more than 30% of income on housing cost.

Housing Subsidy: Housing subsidies refer to government assistance aimed at reducing housing sales or rent prices to more affordable levels. Two general types of housing subsidy exist: 1) where a housing subsidy is linked to a particular house or apartment, the housing subsidy is “project” or “unit” based; or 2) In Section 8 rental assistance programs the subsidy is provided to the family (called “tenant-based”) who can then use the assistance to find suitable housing in the accommodations of their choice.

Housing Unit: A room or group of rooms used by one or more individuals living separately from others in the structure, with direct access to the outside or to a public hall and containing separate toilet and kitchen facilities.

Inclusionary Unit. An ownership or rental dwelling unit which is required to meet affordability criteria established by local ordinance.

Large Household: A household with 5 or more members.

Manufactured Housing: Housing that is constructed of manufactured components, assembled partly at the site rather than totally at the site. Also referred to as modular housing.

Market-Rate Housing: Housing which is available on the open market without any subsidy. The price for housing is determined by the market forces of supply and demand and varies by location.

Median Income: The annual income (adjusted for household size) within a region for which half of the households have incomes above the median and half have incomes below the median. The “Areawide Median Income” (AMI) is established annually by HUD and HCD for each county as the basis for affordable housing programs.

Mobile Home: A structure, transportable in one or more sections, which is at least 8 feet in width and 32 feet in length, is built on a permanent chassis and designed to be used as a dwelling unit when connected to the required utilities, either with or without a permanent foundation.

Mortgage Revenue Bond (MRB): A state, county or city program providing financing for the development of housing through the sale of tax-exempt bonds.

Chapter 6. Glossary of Terms

Overcrowding: As defined by the U.S. Census, a household with greater than 1.01 persons per room, excluding bathrooms, kitchens, hallways, and porches. Severe overcrowding is defined as households with greater than 1.51 persons per room.

Overpayment: The extent to which gross housing costs, including utility costs, exceed 30% of gross household income, based on data published by the U.S. Census Bureau. Severe overpayment, or cost burden, exists if gross housing costs exceed 50% of gross income.

Parcel: The basic unit of land entitlement. A designated area of land established by plat, subdivision, or otherwise legally defined and permitted to be used, or built upon.

Public Housing: A project-based low-rent housing program operated by independent local public housing authorities. A low-income family applies to the local public housing authority in the area in which they want to live.

Regional Housing Needs Plan (RHNP): The Regional Housing Needs Plan (RHNP) is based on State of California projections of population growth and housing unit demand and assigns a share of the region's future housing need to each jurisdiction in Kings County. These housing needs numbers serve as a basis for the update of the Housing Element.

Rehabilitation: The upgrading of a building previously in a dilapidated or substandard condition for human habitation or use.

Section 8 Rental Voucher/Certificate Program: A tenant-based rental assistance program that subsidizes a family's rent in a privately owned house or apartment. The program is administered by local public housing authorities. Assistance payments are based on 30% of household annual income. Households with incomes of 50% or below the area median income are eligible to participate in the program.

Senior: The Census Bureau defines a senior as a person who is 65 years or older. For persons of social security eligibility, a senior is defined as a person age 62 and older. Other age limits may be used for eligibility for housing assistance or retired communities.

Service Needs: The particular services required by special populations, typically including needs such as transportation, personal care, housekeeping, counseling, meals, case management, personal emergency response, and other services preventing premature institutionalization and assisting individuals to continue living independently.

Small Household: Pursuant to HUD definition, a small household consists of two to four non-elderly persons.

Special Needs Groups: Those segments of the population which have a more difficult time finding decent affordable housing due to special circumstances. Under California Housing Element statutes, these special needs groups consist of the elderly, people with disabilities, large families with five or more members, single-parent families with children, farmworkers and the homeless. A jurisdiction may also choose to consider additional special needs groups in the Housing Element, such as students, military households, other groups present in their community.

Subdivision: The division of a lot, tract or parcel of land in accordance with the Subdivision Map Act (California *Government Code* §66410, et seq.).

Substandard Housing: Housing which does not meet the minimum standards in the California Housing Code. Jurisdictions may adopt more stringent local definitions of substandard housing. Substandard units which are structurally sound and for which the cost of rehabilitation is economically warranted are considered suitable for rehabilitation. Substandard units which are structurally unsound and for which the cost of rehabilitation is considered infeasible are considered in need of replacement.

Supportive Services: Services provided to residents of supportive housing for the purpose of facilitating the independence of residents. Some examples are case management, medical or psychological counseling and supervision, child care, transportation, and job training.

Tenant-Based Rental Assistance: A form of rental assistance in which the assisted tenant may move from a dwelling unit with a right to continued assistance. The assistance is provided for the tenant, not for the project.

Transitional Housing: Transitional housing is temporary (often six months to two years) housing for a homeless individual or family who is transitioning to permanent housing. Transitional housing often includes a supportive services component (e.g., job skills training, rehabilitation counseling) to allow individuals to gain necessary life skills in support of independent living.

U.S. Department of Housing and Urban Development (HUD): The cabinet level department of the federal government responsible for housing, housing assistance, and urban development at the national level. Housing programs administered through HUD include Community Development Block Grant (CDBG), HOME and Section 8, among others.

Zoning: A land use regulatory measure enacted by local government. Zoning district regulations governing lot size, building bulk, placement, and other development standards vary from district to district, but must be uniform within the same district. Each city and county adopts a zoning ordinance specifying these regulations.

Appendix A Evaluation of the Prior Housing Element

Section 65588(a) of the *Government Code* requires that jurisdictions evaluate the effectiveness of the existing Housing Element, the appropriateness of goals, objectives and policies, and the progress in implementing programs for the previous planning period. This appendix contains a review each jurisdiction's housing goals, policies, and programs of the previous housing element, and evaluates the degree to which these programs have been implemented during the previous planning period. This analysis also includes an assessment of the appropriateness of goals, objectives and policies. The findings from this evaluation have been instrumental in crafting the 2016-2024 Housing Plan.

Tables A-1a through A-1e summarize the programs contained in the previous Housing Element along with the source of funding, program objectives, accomplishments, and implications for future policies and actions.

Table A-2 summarizes the goals and policies contained in the previous Housing Element along with an assessment of their appropriateness for the new planning period.

Tables A-3a through A-3e summarize new units built during the previous Housing Element period.

Tables A-4a through A-4e present each jurisdiction's progress in meeting the quantified objectives from the previous Housing Element.

Appendix A

**Table A-1d
Housing Element Program Evaluation
City of Lemoore
2009-2014**

City of Lemoore	Responsible Agency	Funding Source	Program Objectives and Timeline	Accomplishments	Future Policies and Actions
<p>4.1. Code Enforcement The City will continue to provide code enforcement services and refer property owners to City rehabilitation programs. Code enforcement is an important means to ensure that the character and quality of neighborhoods and housing is maintained. The City's Code Enforcement staff will work to enforce state and local regulations. In conjunction with code enforcement activities, City staff will provide information to homeowners regarding Lemoore's Exterior Home Improvement (Paint-Up/Fix-Up) Program and Housing Rehabilitation Program.</p>	RDA Code Enforcement coordinated with Police, Business License, Planning, Building and Fire Departments	RDA, General Fund and grant funds	Continue to work with the community on code violations. Refer property owners to City programs for rehabilitation assistance. (Timeline: Ongoing)	The Police Dept. continued to provide code enforcement services in cooperation with the Planning and Fire Depts.	This program should be continued.
<p>4.2. Exterior Home Improvement (Paint-Up/Fix-Up) Program The City offers the Exterior Home Improvement (Paint-Up/Fix-Up) Program that provides rehabilitation assistance for minor repairs for extremely-low, very-low-, low- and moderate-income households. The Program provides grants of up to \$8,000 to make exterior home repairs such as painting, minor roof work, carpentry, porch steps repair, concrete work for driveways, and front sidewalks.</p>	RDA	RDA LMIH funds	Assist 10-15 households annually with grant amounts up to \$8,000. (Timeline: Ongoing)	During 2009-2011, 40 homes were assisted under this program. When the state eliminated redevelopment agencies, this program was discontinued.	This program is no longer active.
<p>4.3. Housing Rehabilitation Program The City's Housing Rehabilitation Program would assist, as generally identified in the housing conditions survey, lower-income households with substantial home repairs or reconstruction. This program will only be implemented should HOME grant funds be awarded. In the past, loans of up to \$70,000 for rehabilitation and \$116,000 for home reconstruction were provided to qualified</p>	RDA	HOME funds	Initiate program and assist households during the grant cycle based on available funding. (Timeline: As HOME funding is available)	This program became inactive due to lack of funding.	This program is no longer active due to lack of funding.

Appendix A

City of Lemoore	Responsible Agency	Funding Source	Program Objectives and Timeline	Accomplishments	Future Policies and Actions
applicants. All loans were deferred for 50 years with a zero percent interest rate as long as the residence remained the owner's primary home.					
<p>4.4. Emergency Home Repair Program The City initiated the Emergency Home Repair Program in 2006 to provide rehabilitation assistance for emergency health and safety repairs and accessibility improvements for the disabled and for extremely-low-, very-low-, and low-income households. The program provides grants of up to \$2,500 for home repairs to correct problems such as unsafe electrical, unsanitary plumbing, broken windows, doors and locks, non-working heating and cooling systems, wheelchair ramps, bathroom or kitchen modifications, etc.</p>	RDA	RDA LMIH funds	Assist up to 10 households annually. (Timeline: Ongoing)	During 2009-2011, 9 homes were assisted under this program. When the state eliminated redevelopment agencies, this program was discontinued.	This program is no longer active.
<p>4.5. Do-it-Yourself and Senior House Painting Program In 2007 the City initiated the Do-It-Yourself House Painting Program that pays for paint and materials needed for house painting. In addition, in 2008 the City partnered with West Hills Community College to implement a Senior House Painting Program for individuals 55 years or older and/or disabled persons to have their homes painted by students at no charge. Both programs are available to extremely-low-, very-low-, low- and moderate-income households.</p>	RDA	RDA LMIH funds	Assist up to 20-30 households annually. (Timeline: Ongoing)	During 2009-2011, 11 homes were assisted under this program. When the state eliminated redevelopment agencies, this program was discontinued.	This program is no longer active.
<p>4.6. Preservation of At-Risk Affordable Housing The City will continue to work with interested agencies and community organizations to preserve at-risk units by monitoring their status, providing technical and/or financial assistance in return for extended affordability controls, and ensuring proper tenant notification prior to project conversion. Lemoore has 13 assisted projects with 624 units of affordable</p>	RDA	General Fund; various federal, state and local funding sources	Continue to monitor the status of publicly-assisted affordable units. The City will contact the property owners to determine their intentions, contact qualified nonprofits regarding potential opt-out projects, ensure that property owners comply with noticing requirements, support the	Affordability covenants on one at-risk project expired.	After the dissolution of the Redevelopment Agency, no funding is available to implement this program.

<p>housing for extremely-low, very-low-, low-, and moderate-income households created through various City, state, and federal programs. One project in Lemoore is at risk of converting to market rents during the next 10 years – Lucerne Hotel which has 7 units with restrictions expiring in 2015. In addition, the Country Club Apartments tax credit funding restriction has already expired on 107 of their units; however, they have continued to restrict 55-units to low-income persons through another program.</p>			<p>acquisition of at-risk properties by nonprofits, and pursue grants to support the preservation of affordable at-risk housing. (Timeline: Ongoing)</p>		
<p>4.7. Zoning for Adequate Sites The City will facilitate the construction of new housing to accommodate projected employment and population growth and to meet the needs of residents. To that end, the Housing Element identifies adequate sites to accommodate the City’s share of the Regional Housing Needs Allocation of 3,021 units (374 extremely-low-, 374 very-low, 534 low, 502 moderate, and 1,237 above-moderate) from January 1, 2007 to June 30, 2014. Adequate sites are those with sufficient development and density standards, water and sewer services, and adequate infrastructure. The City will continue the Zoning Code update process to bring the Code into conformance with the new General Plan, which was adopted in 2008. During the interim period until the Zoning Code update is completed, the General Plan is the controlling land use designation. In cases where an inconsistency between the new General Plan and zoning exists for a proposed development project, the City will process a zone change concurrently with other development applications (e.g., subdivision map) at no additional cost to the applicant, and the project must conform to the General Plan and the development standards for the new zoning designation. Any proposed</p>	<p>Planning Department</p>	<p>General Fund</p>	<p>Provide adequate sites to meet the housing needs allocation of 3,021 units. (Timeline: Zoning Code update during 2010-2011; Annual implementation progress reports; Continue to accommodate the City’s housing needs through 2014)</p>	<p>The Zoning Code update was completed and the City continued to have adequate sites to accommodate the RHNA allocation.</p>	<p>This program should be revised to reflect prior accomplishments.</p>

Appendix A

City of Lemoore	Responsible Agency	Funding Source	Program Objectives and Timeline	Accomplishments	Future Policies and Actions
<p>development that conforms to the old zoning but is inconsistent with the new General Plan designation would require a General Plan amendment.</p> <p>Mixed-use development represents one of the City’s key land use strategies not only for meeting its housing needs, but also for achieving other planning objectives such as economic development, walkable communities, and reductions in vehicular trips and greenhouse gas emissions. The new Zoning Code will include regulations and incentives to implement the mixed-use policies contained in the Land Use Element of the General Plan, including incentives to encourage the inclusion of a residential component in projects located in mixed-use districts. Where necessary, the City will facilitate the subdivision of large parcels for development. The City will monitor and report annually on its progress toward these objectives.</p>					
<p>4.8. Downtown Revitalization As part of the City’s 1992 Downtown Revitalization Plan, the City has been encouraging and facilitating the development and redevelopment of its downtown core. An important component of these efforts has been mixed residential-commercial uses in the C-C district. The City has converted two historic hotels in the downtown to provide low-income and senior housing above commercial uses. Such projects have assisted the City in meeting revitalization objectives, historic preservation, and the need for lower-income housing.</p>	RDA	CDBG, RDA, and grants	Facilitate additional mixed use projects in the downtown as opportunities arise. (Timeline: Ongoing)	The City continued to encourage new development downtown, and in 2013 a CDBG Planning Technical Assistance grant application was submitted for a business incubator program to support downtown restaurants that use locally grown produce. The grant application was not approved.	This program should be continued.
<p>4.9. Density Bonus Program In accordance with state density bonus law, Lemoore adopted a local ordinance in 1992 that provided incentives to encourage the development of affordable housing. The City has not yet completed its</p>	Planning Department	General Fund	Update the City’s density bonus ordinance in conformance with state law and continue to offer a density bonus and other incentives for qualified	The Density Bonus ordinance was updated in conformance with state law as part of the new Zoning Code. One density bonus project was approved during 2009-2014.	This program has been completed and is no longer necessary.

Appendix A

City of Lemoore	Responsible Agency	Funding Source	Program Objectives and Timeline	Accomplishments	Future Policies and Actions
comprehensive update of the Zoning Code following adoption of the new General Plan in 2008. The Zoning Code update will include a revision to the City's density bonus regulations consistent with state law.			projects. (Timeline: Density bonus ordinance update by 2010)		
4.10. Planned Unit Development (PUD) The City implements a PUD overlay zone to provide flexibility in setback requirements and other regulations, increase residential densities in certain areas through techniques such as clustering, provide flexible site requirements, and stimulate creative, flexible and more affordable development. A PUD Livable Neighborhood booklet has been prepared and is available to interested developers at the Planning Department counter.	Planning Department	General Fund	Continue to promote the benefits of PUD alternatives to traditional development. (Timeline: Ongoing)	The City continued to offer PUD zoning.	This program should be continued.
4.11. First Time Homebuyer Programs The City offers first-time home ownership assistance to very-low-, low- and moderate-income homebuyers through two <i>First Time Homebuyer Programs</i> . One program offers assistance as a deferred second mortgage loan of up to \$30,000, and the other up to \$100,000 for down payment and closing cost assistance. Assistance under these programs may include foreclosed properties. Buyers must provide a \$1,000 down payment, qualify with a primary lender and comply with their requirements.	RDA	RDA LIMH and HOME funds	Assist 20 households annually. (Timeline: Ongoing)	Approximately 34 households were assisted through this program during 2009-2014. With the dissolution of the RDA, available funding has been reduced.	This program should be revised to reflect the dissolution of the RDA.
4.12. Infill Housing Program This program was initiated in 2008-09 for the purpose of constructing affordable housing in predominately developed neighborhoods for sale to low- and moderate-income families. Initially, the Redevelopment Agency had contracted to have new homes built on vacant lots, which were then sold to qualifying households at affordable prices. This program may be expanded to identify vacant lots or severely dilapidated houses in the City's core area, purchase them and build homes on them for	RDA	RDA LIMH funds	Assist 1 to 2 households annually. (Timeline: Ongoing)	2 homes were assisted under this program prior to the state dissolution of redevelopment agencies. This program has been discontinued due to the loss of RDA funding.	This program is no longer active.

Appendix A

City of Lemoore	Responsible Agency	Funding Source	Program Objectives and Timeline	Accomplishments	Future Policies and Actions
low/moderate-income families.					
<p>4.13. Section 8 Rental Assistance Administered by the Kings County Housing Authority, Lemoore will continue to participate in the Section 8 rental assistance program. This program extends rental subsidies to extremely-low- and very-low-income households that spend more than 30% of their income on rent. The rent subsidy is the difference between 30% of monthly income and allowable rent determined by HUD.</p>	RDA and Kings County Housing Authority	HUD	Assist the Housing Authority in promoting the Section 8 program. (Timeline: Ongoing)	The City continued to assist the Housing Authority in publicizing this program.	This program should be continued.
<p>4.14. Affordable Housing Project Assistance The RDA considers assisting specific affordable housing projects separate and apart from its regular programs. In the past, this has included assistance for multi-family or single-family subdivision projects. The RDA recently awarded \$1.2 million to one multi-family project and has earmarked funds for two affordable housing projects in this planning period - \$850,000 remaining for Oleander Terrace and \$1,650,000 for Village at Acacia.</p>	RDA	RDA and other funds	Assist affordable housing projects on a case-by-case basis, including priority for extremely-low-income units where feasible. (Timeline: As funding becomes available)	The RDA provided funding to affordable housing projects prior to statewide dissolution of redevelopment agencies. Since then, assistance has been limited to density bonus incentives and administrative assistance.	This program should be revised to reflect the elimination of the RDA.
<p>4.15. Senior and Special Needs Housing The City supports development of affordable housing for special needs households, including elderly and disabled. The City has been supportive of special needs housing including affordable senior housing development, housing rehabilitation programs, and development of second units, all of which serve the needs of very-low- and extremely-low-income households. The City also supported the conversion of the Antlers Hotel into senior housing. The City will pursue the development of senior housing, special needs housing, and/or a senior assisted living facility in the Lemoore Market Area.</p>	RDA	RDA, CDBG, state and federal funds	Continue to support the development of senior/disabled/assisted living housing (Timeline: Ongoing)	The RDA provided funding to senior housing projects prior to statewide dissolution of redevelopment agencies. Since then, assistance has been limited to density bonus incentives and administrative assistance.	This program should be revised to reflect changed circumstances.
<p>4.16. Emergency Shelters and Transitional/Supportive Housing</p>	Planning Department	General Fund	Amend Zoning Code to permit emergency shelters	Zoning Code regulations for emergency shelters and	This program should be revised to reflect prior

Appendix A

City of Lemoore	Responsible Agency	Funding Source	Program Objectives and Timeline	Accomplishments	Future Policies and Actions
State law requires jurisdictions to provide adequate sites for a variety of housing types including emergency shelters and transitional/supportive housing. This type of housing is particularly important in addressing the needs of very-low- and extremely-low-income persons. The Zoning Code will be amended to allow emergency shelters by-right in the RSC (Recreation, School and Conservation) zone subject to objective development standards. The RSC zone encompasses 730 acres, has the capacity for at least one shelter, and provides access to transit and other services used by homeless persons. In addition, the Code amendment will clarify that transitional and supportive housing is a residential use subject only to the same requirements as other residential uses of the same type in the same zone.			by-right in the RSC zone subject to objective development standards and clarify that transitional and supportive housing are residential uses subject only to the same requirements as other residential uses of the same type in the same zone. (Timeline: Amend Zoning Code within one year of Housing Element adoption)	transitional/supportive housing were amended pursuant to state law. Minor revisions are required to ensure that City regulations conform to current law.	accomplishments.
<p>4.17. Employee and Farmworker Housing</p> <p>As the second most urbanized city in Kings County, Lemoore has few resident farmworkers, no farmland within its boundaries and no agricultural zoning. As a result, Lemoore is not directly affected by the provisions of <i>Health and Safety Code</i> §17021.5 and §17021.6. The City’s Zoning Code does not explicitly allow farmworker housing. However, in the past decade Lemoore worked with Self-Help Enterprises to create 36 affordable single-family units by providing land and home ownership assistance while families provided “sweat equity” towards constructing their homes. Occupants were primarily very-low-income farmworker families. In addition, the RDA has recently purchased land for an affordable multi-family complex, Oleander Terrace, that will provide 39 units for farmworker housing.</p>	Planning Department and RDA	RDA LMIH funds and General Fund	<ol style="list-style-type: none"> 1. Assist interested affordable housing developers by identifying sites and supporting funding applications for farmworker housing, and 2. Provide, to the extent feasible, regulatory incentives to encourage the construction of farmworker housing (Timeline: ongoing)	Zoning Code regulations for employee housing were amended pursuant to state law. Minor revisions are required to ensure that City regulations conform to current law.	This program should be revised to reflect prior accomplishments.
<p>4.18. Housing for Persons with Disabilities and Special Needs</p>	Planning Department	General Fund	Amend the Zoning Ordinance to remove	Zoning regulations for care facilities and SROs were amended in	This program should be revised to reflect prior

Appendix A

City of Lemoore	Responsible Agency	Funding Source	Program Objectives and Timeline	Accomplishments	Future Policies and Actions
<p>State law requires jurisdictions to analyze and remove potential constraints to housing for persons with disabilities, who often have very-low or extremely-low incomes. As part of this Housing Element update the City conducted an analysis of its zoning and land use processes, permit processing procedures, and building codes to identify impediments. In order to comply with state requirements and reduce potential constraints, the City will amend the Zoning Code in the following areas:</p> <ol style="list-style-type: none"> 1. Licensed community care facilities serving 6 or fewer persons, excluding staff, will be included as a permitted use by-right in any residential district; 2. Large community care facilities serving more than 6 persons will be identified as a conditional use in appropriate district(s); 3. A reasonable accommodation ordinance establishing administrative procedures for reviewing and approving modifications to land use and building regulations that are reasonably necessary to ensure accessibility and use by persons with disabilities. 4. A definition and development standards for Single Room Occupancy (SRO) units will be added to the Zoning Code. 5. A definition of “family” will be added in conformance with current law. 			<p>potential constraints on community care facilities, housing for persons with disabilities, SROs, and amend the definition of “family” consistent with current law. (Timeline: Amend Zoning Code by 2010)</p>	<p>conformance with state law. A follow-up amendment is needed to allow small residential care facilities in the AR and DMX-1 zones and establish a definition of “family.”</p>	<p>accomplishments</p>
<p>4.19. Promote Equal Housing Opportunities The City provides information on fair housing laws, landlord/tenant rights and responsibilities and refers complaints of housing discrimination to the U.S. Department of Housing and Urban Development (HUD), the Department of Fair Housing, and Tulare/Kings Legal Aid. Information on housing discrimination is</p>	<p>RDA</p>	<p>General Fund</p>	<p>Lemoore will coordinate with Kings County to select a local fair housing agency to provide landlord/tenant mediation, fair housing investigations, and testing. <p>available at City Hall and flyers on fair housing are distributed to participants in the City's First Time Homebuyer Program. HUD's address and toll-free number are provided on the flyer. However, since the closest HUD representative is located in San Francisco, it is an inconvenient distance for Lemoore residents to receive fair housing counseling. A fair housing service organization in the Central Valley would provide more direct services.</p>			<p>provider. To broadly disseminate fair housing information, the City will make the brochure available at City Hall and on the City website. (Timeline: Select a local provider by 2010.)</p>		

Appendix A

**Table A-2
Appropriateness of 2003 Housing Element Goals and Policies
Kings County and the Cities of Avenal, Corcoran, Hanford and Lemoore**

Goal	Policy	Appropriateness
<i>Housing and Neighborhood Conservation</i>		
GOAL 1	Improve and maintain the quality of housing and residential neighborhoods.	Appropriate - continue
	Policy 1.1. <i>Promote and improve the quality of residential properties by ensuring compliance with housing and property maintenance standards.</i>	Appropriate - continue
	Policy 1.2. <i>Assist in the repair, rehabilitation, and improvement of residential structures; demolish structures which are dilapidated and beyond repair.</i>	Appropriate - continue
	Policy 1.3. <i>Invest in infrastructure and public facilities to ensure that adequate water, sewer, roads, parks, and other needed services are in place to serve future and present residential developments.</i>	Appropriate - continue
	Policy 1.4. <i>Preserve assisted rental housing for long-term occupancy by low- and moderate-income households.</i>	Appropriate - continue
<i>Housing Production</i>		
GOAL 2.	Facilitate and encourage the provision of a range of housing types and prices to meet the diverse needs of residents.	Appropriate - continue
	Policy 2.1. <i>Provide adequate sites for housing through appropriate land use, zoning and development standards to accommodate the regional housing needs goals for 2003-2008.</i>	Appropriate – continue but update for the 2009-2014 planning period
	Policy 2.2. <i>Work collaboratively with nonprofit and for-profit developers to seek state and federal grants to support the production of affordable housing.</i>	Appropriate - continue
	Policy 2.3. <i>Ensure the adequate provision of water, sewer, roads, public facilities, and other infrastructure necessary to serve new housing.</i>	Appropriate - continue
	Policy 2.4. <i>Support the construction of high quality single- and multi-family housing which is well designed and energy efficient.</i>	Appropriate - continue
<i>Housing Constraints</i>		
GOAL 3.	Remove or mitigate, to the extent feasible and appropriate, potential governmental constraints to the production, maintenance, improvement and affordability of housing.	Appropriate - continue
	Policy 3.1. <i>Offer regulatory and/or financial incentives, as available and appropriate, to encourage the construction of quality housing.</i>	Appropriate - continue
	Policy 3.2. <i>Periodically review local ordinances and building regulations to ensure that they do not unduly impede housing investment.</i>	Appropriate - continue

Appendix A

Goal	Policy	Appropriateness
	Policy 3.3. Utilize planned developments and other creative mechanisms to facilitate the construction of more creative, well-designed, housing projects.	Appropriate - continue
	Policy 3.4. Ensure that developments are processed efficiently to minimize holding costs and comply with the Permit Streamlining Act.	Appropriate - continue
<i>Housing Assistance</i>		
GOAL 4. Provide housing assistance to very low-, low-, and moderate income households and those with special housing needs.		Appropriate - continue
	Policy 4.1. Support the provision of rental assistance to provide affordable housing options for very-low- and low-income households.	Appropriate - continue
	Policy 4.2. Participate in efforts to expand homeownership opportunities to lower- and moderate-income households through downpayment assistance and other homeownership programs.	Appropriate - continue
	Policy 4.3. Support the provision of housing suitable for special needs groups, including seniors, people with disabilities, homeless people, military personnel, large household, single-parent families, and farm workers.	Appropriate - continue
	Policy 4.4. Develop and maintain collaborative efforts among nonprofits, for-profit developers, and public agencies to encourage the development, maintenance, and improvement of housing.	Appropriate - continue
<i>Fair and Equal Housing Opportunities</i>		
GOAL 5. Further equal housing opportunities for persons, regardless of status.		Appropriate - continue
	Policy 5.1. Support enforcement of fair housing laws prohibiting arbitrary discrimination in the development, financing, rental, or sale of housing.	Appropriate - continue
	Policy 5.2. Periodically review City ordinances and development regulations and modify, as necessary, to accommodate housing for disabled persons.	Appropriate - continue

Appendix B Land Inventory

1. Methodology and Assumptions

State law requires each jurisdiction to include in the Housing Element an inventory of vacant parcels having the potential for residential development, or “underutilized” parcels with potential for additional development. The purpose of this inventory is to evaluate whether there is sufficient capacity, based on the General Plan, zoning, development standards, and infrastructure, to accommodate the jurisdiction’s fair share of regional growth needs as identified in the Regional Housing Needs Assessment (RHNA).

The detailed methodology and assumptions for the residential land inventory presented in Chapter 3 are provided below and summarized in Tables B-1a through B-1e.

Affordability Assumptions

In general, there are three alternative ways for determining the affordability level of new housing units.

1. Affordability Covenants. The most definitive method is through required affordability covenants (i.e., requirements imposed upon or agreed to by the project sponsor) that establish income limits for purchasers or tenants. Such covenants are legally enforceable and binding upon the property owner for a specified time period.
2. Market Prices or Rents. When covenants are not in place, affordability levels for newly built units are based on actual prices or rents. Summarized below are 2015 affordability levels along with the monthly rental costs or estimated sales prices that correspond with each level.

2015 County Median Income = \$57,900	Income Limits	Affordable Rent	Affordable Price (est.)
Extremely Low (<30%)	\$24,250	\$606	\$110,000
Very Low (31-50%)	\$28,950	\$724	\$130,000
Low (51-80%)	\$46,300	\$1,158	\$210,000
Moderate (81-120%)	\$69,500	\$1,738	\$315,000
Above moderate (120%+)	>\$69,500	>\$1,738	>\$315,000

- a. Home Prices. Like most areas of the San Joaquin Valley, new home prices are generally affordable to moderate-income households. A survey of recent new home sales found that nearly all projects were priced within the moderate-income category of \$210,000 to \$315,000. Some new single-family homes on standard-sized lots sold within the low-income price range.

For purposes of the land inventory analysis, large lots of one-half acre or more were allocated to the above-moderate category in all jurisdictions.

In **Avenal**, all standard-sized lots were allocated to the moderate-income category. As noted in Chapter 2, all single-family homes sales and listings in Avenal, both new and resale, were priced within the low- or moderate-income categories during 2015.

In **Corcoran**, all standard-sized infill lots were allocated to the moderate-income category while large parcels suitable for standard-lot subdivisions were allocated 50%

moderate and 50% above-moderate. As noted in Chapter 2, all single-family homes sales and listings in Corcoran, both new and resale, were priced within the low- or moderate-income categories during 2015. Half of the sites zoned for single-family subdivisions were allocated upward to the above-moderate category in order to accommodate the City's RHNA allocation.

In **Hanford**, Very Low Density single-family sites were allocated to the above-moderate category, while Low Density single-family sites were evenly distributed between the moderate and above-moderate categories. As shown in Chapter 2, most of Hanford's newer home listings were priced in the moderate category. Most new single-family subdivisions offered homes in the moderate category at the time of the survey. Sites in the Medium designation allow small-lot subdivisions, PUDs and attached product types at up to 15 units/acre. Parcels larger than one acre were equally divided between the low and moderate income categories while smaller parcels were assigned to the moderate category.

In **Lemoore**, Agricultural-Rural and Very Low Density Residential sites were allocated to the above-moderate category. Low Density single-family sites were allocated 50% moderate and 50% above-moderate. As shown in Chapter 2, most recent home sales (both new and resale) were priced in the moderate category. Sites in the Low-Medium designation allow small-lot subdivisions and attached product types and were allocated to the moderate category.

In **unincorporated Kings County**, the Very Low Density and Low Density Residential sites allow large lots (1/2 acre or more) and were allocated to the above-moderate category. The Low Medium sites allow standard size lots and were allocated to the moderate category.

Mobile homes are an affordable option for lower-income households. As noted in Chapter 2, new mobile homes are available at prices ranging from \$24,000 to \$72,000. These prices are within the lower-income affordability range, including the price of a single-family lot.

- b. Apartment Rents. As with single-family homes, apartment rents are very affordable in Kings County. Nearly all newer market-rate apartments surveyed, including larger projects as well as small duplex/triplex projects, had rents within the low-income category (i.e., less than \$1,158 per month), and some apartments were renting at the very-low-income affordability level (i.e., less than \$724 per month). Many projects built by non-profit organizations using assistance such as Low-Income Housing Tax Credits include apartments affordable to extremely-low- and very-low-income households. Therefore, vacant sites in all jurisdictions designated for multi-family or mixed-use development at densities greater than 15 units/acre were allocated to the lower-income category. In Hanford, sites in the RM-3 zone (up to 15 units/acre) were conservatively divided between the low and moderate categories, with sites larger than one acre equally divided between low and moderate categories and smaller sites assigned to the moderate category. In unincorporated Kings County, RM-3 sites (up to 11 units/acre) were conservatively assigned to the moderate category.
3. Density. For potential new units in a jurisdiction's land inventory, state law establishes that affordability assumptions may be based on density. The "default" density for jurisdictions in Kings County is 20 units per acre. This means that if the General Plan and zoning allow development at 20 units per acre or greater, these sites are assumed to be suitable for lower-

income housing. State law also allows jurisdictions to establish an alternative to the default density if local market conditions and experience support a different density assumption for affordability.

As discussed in Chapter 4, all of the jurisdictions in Kings County allow multi-family development at densities greater than 20 units/acre, excluding density bonus, in at least one multi-family zone. In addition to multi-family zones, Lemoore allows mixed-use development at densities up to 20 units/acre. However, most new multi-family developments in Kings County – including affordable projects by non-profit developers – are built at densities significantly lower than the “default” density. Conversations with non-profits confirmed that densities in the range of 11-13 units/acre are typical and sufficient to make such projects feasible. This density range allows one-and two-story projects with large units (3-4 bedrooms) as well as spacious community facilities such as play areas for children. Developers indicated that they rarely request a density bonus, but may take advantage of other concessions such as modifications to development standards such as setbacks.

Hanford and Lemoore generally have the highest home prices and rents among the five jurisdictions. As an example of market conditions, a new market-rate high-end apartment development (The Grove) was recently built in Lemoore at a density of 16.7 units acre with rents at the upper end of the low-income affordability category. The maximum density under zoning regulations applicable to that project was 17 units/acre, but the applicant chose not to seek the maximum density. Cinnamon Villas, a recent deed-restricted affordable project in Lemoore, is located in the Low-Medium Density (RLMD) zone which has a maximum density of 14.5 units/acre. The project requested and was granted a density bonus to allow 15 units/acre although a density of 20 units/acre was allowed under density bonus law. In Hanford, a recent affordable tax credit project (Tierra Vista) was built at a density of 15.1 units/acre even though the project was eligible for a density bonus of up to 20 units/acre. These projects demonstrate that affordable housing is feasible at densities less than 20 units/acre in all jurisdictions in Kings County.

Realistic Capacity

In order to determine the realistic capacity of vacant sites, the potential yield for each parcel was estimated based on previous experience of recent projects rather than the maximum allowable density for the zone. In addition, site constraints such as flood hazard zones and airport approach and departure patterns were considered and potential yield was reduced where these constraints would be expected to prevent full utilization of the parcel. These constraints are noted in Tables B-1a through B-1e.

2. Units Built or Approved 2014-2015

Tables A-3a through A-3e in Appendix A summarize new residential units built or approved during 2009-2014. Under State law, new housing units completed after January 1, 2014 are credited in the new planning period. These units have been assigned to income categories based on affordability covenants or market prices/rents and are summarized in Table B-1.

3. Vacant or Underutilized Land

Tables B-2a through B-2e contain a parcel-level inventory of sites with potential for residential development in each jurisdiction during the current planning period. As noted above, the capacity of each site has been estimated based on realistic assumptions, recent development trends and any existing site constraints that could prevent the site from being developed to its full potential.

Appendix B

4. Capacity to Accommodate the RHNA

Based on the assumptions described above and the inventory of sites shown in Tables B-2a through B-2e, the realistic development capacity has been estimated for each jurisdiction and is summarized in Table B-1 below. This table demonstrates that each jurisdiction has adequate capacity to accommodate its RHNA allocation for the planning period.

Table B-1: Land Inventory Summary

Jurisdiction	Income Category				Total
	EL/VL	Low	Mod	Above Mod	
Avenal					
RHNA (Table 2-34)	145	108	115	271	639

Adequate Capacity?	Yes		Yes	Yes	Yes

Notes:

*Only deed-restricted units have been counted toward the lower-income RHNA.

Avenal Sites Inventory

Avenal has approximately 600 acres of vacant land zoned for single-family housing with a realistic capacity of approximately 4,200 units. This potential inventory is equally divided between the Moderate

Appendix B

and Above Moderate categories. Vacant sites zoned for multi-family development total approximately 47 acres and have a realistic capacity of about 650 units. Allowable density is 29 units/acre although the inventory assumes only 14 units/acre for multi-family sites based on recent projects. This inventory exceeds the RHNA allocation in all income categories.

Corcoran Sites Inventory

Corcoran has approximately 454 acres of vacant land zoned for low-density and very-low-density single-family housing with a realistic capacity of approximately 2,200 units. This potential inventory is equally divided between the Moderate and Above Moderate categories. Sites zoned for multi-family development total approximately 29 acres and have a realistic capacity of about 370 units. Allowable density for multi-family sites ranges from 15 to 29 units/acre. In addition, vacant sites in the Downtown Commercial and Professional Office zones allowing high-density residential development have a realistic capacity of over 100 units. Most of the sites allowing multi-family development are vacant, although a few sites have existing structures but are underutilized.

One significant underutilized site in Corcoran (see photos below) near the northwest corner of Orange and Otis represents a redevelopment opportunity. The possible redevelopment project includes four lots, two of which are in common ownership totaling 1.93 acres. One lot, in separate ownership, is 0.42 acre and is currently vacant; while a fourth lot is 1.5 acres. The developed lots all contain substandard housing. It is believed that the property was once a farm worker housing camp that has been converted to rental units. APN 034-050-025 (0.20 acre) contains a 2-bedroom/1-bath unit of 644 square feet, built in 1920. APN 034-050-026 (1.73 acres) contain seven units, which includes the main house with 3 bedrooms, 2 bathrooms and approximately 1200 square feet and six additional units. Of the six units, three are vacant and boarded up and the other three single-room units are occupied. APN 034-050-018 (1.50 acres) also contains six units all built around 1949. Two of the units are 2-bedroom/2-bath, three units are 2-bedroom/1-bath, and one unit is a 1-bedroom/1-bath. All of these units are occupied and all appear to be substandard except one unit which was recently remodeled. The property is zoned RM-2 (low density multi-family) which allows 21.7 units/acre and is bordered by light industrial zone to the north, neighborhood commercial to the east and single-family residential to the south and west. The City will encourage the redevelopment of this site through the actions described in Program 2.7 of the Housing Plan (Chapter 5).

Hanford Sites Inventory

Hanford has over 380 acres of vacant land zoned for low-density and very-low-density single-family housing with a realistic capacity of approximately 2,500 moderate- and above-moderate-income units. Vacant sites zoned for multi-family development total over 200 acres and have a realistic capacity of

Appendix B

about 2,700 units. Allowable density for multi-family sites ranges from 15 to 22 units/acre. In addition, vacant sites in the Downtown East Precise Plan and Office-Residential zones allowing residential development at up to 45 units/acre have a realistic capacity of over 300 units.

Although market-rate multi-family development at a density of 15 units/acre is feasible at rents affordable to lower-income households, the vacant land inventory for the RM-3 zone conservatively assigns all potential units on lots smaller than one acre to the moderate-income category and equally divides potential units on lots greater than one acre between the lower and moderate income categories.

Lemoore Sites Inventory

Lemoore has approximately 442 acres of vacant land zoned for medium-low-density, low-density and very-low-density single- and multi-family housing with a realistic capacity of approximately 2,300 units. This potential inventory is divided between the Moderate and Above Moderate categories. Vacant sites zoned for multi-family residential use total about 55 acres and have a realistic capacity of about 762 lower-income units.

The General Plan and zoning regulations also designate five Mixed Use districts where retail, residential, office, business and personal services, public, and institutional uses are clustered in neighborhood-oriented centers in a variety of mixed use configurations, such as ground floor commercial with residential or office uses above, or collocation of buildings with different single uses in a contiguous area. Three-story buildings and densities of 20 units/acre are permitted. Density transfers are also allowed within centers. Typical densities of 9 units/acre are assumed in the General Plan. The land inventory includes vacant sites totaling approximately 80 acres with an estimated capacity of about 700 lower-income units.

High-density housing is also permitted in the downtown area. The downtown has three zoning districts (DMX-1, DMX-2 and DMX-3) that utilize form-based principles. The highest intensity is allowed in the DMX-1 area, which has a 40-foot height limit. The DMX-2 zone allows buildings up to 25 in height. Densities in the range of 20 units/acre are possible in the DMX districts, although the General Plan assumes a typical density of 14 units/acre. Vacant DMX sites total about 4 acres with an estimated realistic capacity of 48 lower-income units.

Kings County Unincorporated Area Sites Inventory

The County unincorporated area has approximately 440 acres of vacant land zoned for low-density and very-low-density single-family housing with a realistic capacity of approximately 1,400 units. Standard-sized single-family lots (R-1-6 and R-1-8) are equally divided between the Moderate and Above Moderate categories while larger lots are assigned to the Above Moderate category. Vacant sites zoned for high-density and very-high-density multi-family residential use total about 23 acres and have a realistic capacity of about 354 lower-income units.

Appendix B

Figure B-1d: Land Inventory Map – City of Lemoore

**Addendum No. 1 to
Initial Study/Negative Declaration No. SCH 2010041002
City of Lemoore
2016-2024 Housing Element
December 14, 2015**

Overview

On May 4, 2010 the City Council adopted Negative Declaration (“ND”) SCH 2010041002 for the 2009-2014 Housing Element. The City is now required to adopt an updated Housing Element for the 2016-2024 planning period. The purpose of this Addendum is to demonstrate that the 2016-2024 Housing Element update would not result in any of the conditions under which a subsequent Environmental Impact Report (“EIR”) or Negative Declaration would be required pursuant to Public Resources Code Section 21166 or CEQA Guidelines Sections 15162 and 15164.

Purpose of an Addendum

CEQA and the CEQA Guidelines establish the type of environmental documentation that is required when changes to a project occur or new information arises after an EIR is certified or a Negative Declaration adopted for a project. CEQA Guidelines Section 15162 establishes criteria for determining whether more detailed information, such as the preparation of a Subsequent or Supplemental EIR, is needed, and Section 15164 defines the appropriate use of Addendums to previous EIRs and Negative Declarations.

CEQA Guidelines Section 15162(a) states:

When an EIR has been certified or a negative declaration adopted for a project, no subsequent EIR shall be prepared for that project unless the lead agency determines on the basis of substantial evidence in the light of the whole record, one or more of the following:

(1) Substantial changes are proposed in the project, which will require major revisions in the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects.

(2) Substantial changes occur with respect to the circumstances under which the project is to be undertaken, which will require major revisions of the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects.

(3) New information of substantial importance which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete shows any of the following:

a. The project will have one or more significant effects not discussed in the EIR.

b. Significant effects previously examined will be substantially more severe than shown in the previous EIR

c. Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure; or

d. Mitigation measures or alternatives that are considerably different from those analyzed in the previous EIR would substantially reduce one or more effects on the environment but the project proponents decline to adopt the mitigation measure.

CEQA Guidelines Section 15164(b) states: “An addendum to an adopted negative declaration may be prepared if only minor technical changes or additions are necessary or none of the conditions described in Section 15162 calling for the preparation of a subsequent EIR or negative declaration have occurred.”

The following analysis demonstrates that the 2016-2024 Housing Element update does not raise any new environmental issues and requires only minor technical changes or additions to the previous Negative Declaration to satisfy the requirements of CEQA.

Project Description

State law requires each jurisdiction in Kings County to prepare an updated Housing Element for the 2016-2024 planning period. The County and its four cities have again followed a collaborative process in preparing a joint Housing Element document covering all five jurisdictions. The joint Housing Element includes data, analysis and general goals and policies covering the entire county, but each jurisdiction has separate programs that apply only to that jurisdiction. No major changes to conditions, requirements or the statutory framework that raise new potentially significant environmental impacts not previously considered have occurred with respect to the Housing Element, and the proposed 2016-2024 Housing Element update would not make substantial changes to City housing policies or land use regulations. The new Housing Element is comprised of the following sections.

Chapter 1: Introduction

This chapter provides an overview of the Housing Element and a summary of the public participation process. No policy or regulatory changes are proposed in this section, and none of the changes reflected in this section would result in the potential for significant environmental impacts not previously considered in the 2010 ND.

Chapter 2: Housing Needs Assessment

This section has been revised to reflect more recent demographic data, trends and special housing needs. Most of the demographic information is based on the 2010 Census or the American Community Survey. This chapter also describes the new Regional Housing Needs Assessment (RHNA), which identifies housing growth needs for the new planning period as summarized below.

Regional Housing Needs Assessment (RHNA)

The City's assigned share of regional housing need is an important component of the Housing Element. The Kings County Association of Governments (“KCAG”) is responsible for allocating a portion of the region's new housing need to each jurisdiction. Lemoore's share of the regional housing need for the new Housing Element cycle is 2,985 units. The table below shows the distribution of new housing need by income category that has been allocated to the City in the RHNA. One of the key requirements of the Housing Element is to identify adequate sites with appropriate zoning that could accommodate new housing development commensurate with the assigned need in each income category. It should be emphasized that the RHNA is a planning target, not a development mandate or quota. State law does not require cities to achieve their RHNA targets or build housing.

**2016-2024 RHNA Allocation
City of Lemoore**

Very Low	Low	Moderate	Above Moderate	Total
677*	507	534	1,267	2,985

*Per state law, half of the very-low units are assumed to be in the extremely-low category
Source: KCAAG, 1/28/2015

Chapter 3 and Appendix B of the Housing Element present an inventory and analysis of available sites that could accommodate the level of development assigned to Lemoore through the RHNA process. No substantial changes to Housing Element programs are proposed in connection with the new RHNA allocation that were not previously considered in the 2010 ND.

This section of the Housing Element also discusses various categories of special needs, including the elderly, persons with disabilities, large families, female-headed households, farmworkers and the homeless. No substantial changes in development regulations are proposed with respect to these special needs that were not previously considered in the 2010 ND.

Chapter 3: Resources and Opportunities

This section describes the City’s land resources that could accommodate housing development, as well as financial and administrative resources, and opportunities to foster energy conservation. None of the changes reflected in this section would change development regulations or result in the potential for significant environmental impacts not previously considered in the 2010 ND.

Chapter 4: Constraints

This chapter analyzes City plans and regulations that guide housing development. The most noteworthy changes reflect the completion of several state-mandated Code amendments related to housing for persons with special needs during the previous planning period. No changes to land use plans or regulations are proposed in connection with the 2016-2024 Housing Element. This chapter also discusses non-governmental constraints such as infrastructure availability and development costs. None of the changes reflected in this chapter would change development regulations or result in the potential for new significant environmental impacts that were not previously considered in the 2010 ND.

Chapter 5: Housing Plan

This chapter presents the City’s goals, objectives, policies and programs for the 2016-2024 planning period. Most of the changes in this chapter reflect the completion of Zoning Code amendments related to housing for persons with special needs. No substantial changes to programs are proposed, and no new potentially significant impacts not previously considered in the 2010 ND would result from adoption of the revised Housing Element.

Chapter 6: Glossary

This chapter contains definitions for terms commonly used in the Housing Element. None of the changes reflected in this section would change development regulations or result in the potential for significant environmental impacts.

Appendix A: Evaluation of the Prior Housing Element

This appendix contains a review of the goals, policies and programs from the previous element and identifies the City's accomplishments as well as changes that are appropriate for the new planning period based on changed circumstances. None of the revisions reflected in this evaluation would change development regulations or result in the potential for significant environmental impacts that were not previously considered in the 2010 ND.

Appendix B: Land Inventory

This appendix includes a parcel-specific listing of properties with potential for housing development. None of the changes reflected in this section would change development regulations or result in the potential for significant environmental impacts.

Appendix C: Public Participation Summary

This appendix describes opportunities for public involvement during the 2016-2024 Housing Element update process. None of the changes reflected in this section would change development regulations or result in the potential for significant environmental impacts.

Environmental Analysis and Conclusions

Because adoption of the 2016-2024 Housing Element would not substantially change the City's land use designations or development regulations, no new potentially significant environmental effects would occur that were not previously analyzed in the Negative Declaration prepared for the prior Housing Element. Therefore, pursuant to CEQA Guidelines Section 15164, an addendum is the appropriate CEQA document for the 2016-2024 Housing Element update. There is no substantial evidence that adoption of the Housing Element update will result in new significant environmental impacts, or impacts that would be more severe than described in the previous Negative Declaration. Consequently, a subsequent or supplemental EIR or IS/ND is not required.
