

Appendix A Evaluation of the Prior Housing Element

Section 65588(a) of the *Government Code* requires that jurisdictions evaluate the effectiveness of the existing Housing Element, the appropriateness of goals, objectives and policies, and the progress in implementing programs for the previous planning period. This appendix contains a review each jurisdiction's housing goals, policies, and programs of the previous housing element, and evaluates the degree to which these programs have been implemented during the previous planning period. This analysis also includes an assessment of the appropriateness of goals, objectives and policies. The findings from this evaluation have been instrumental in crafting the 2016-2024 Housing Plan.

Tables A-1a through A-1e summarize the programs contained in the previous Housing Element along with the source of funding, program objectives, accomplishments, and implications for future policies and actions.

Table A-2 summarizes the goals and policies contained in the previous Housing Element along with an assessment of their appropriateness for the new planning period.

Tables A-3a through A-3e summarize new units built during the previous Housing Element period.

Tables A-4a through A-4e present each jurisdiction's progress in meeting the quantified objectives from the previous Housing Element.

<p>1.1. Code Enforcement Code enforcement is an important means to preserve public health and safety and ensure that the character and quality of neighborhoods and housing is maintained. To that end, the City's Code Enforcement staff under the Public Works department will work to enforce state and local regulations. In conjunction with code enforcement activities, City staff will provide information to homeowners regarding the City's Housing Rehabilitation Program.</p>	Code Enforcement Staff/ Public Works Department	General Fund	Continue to work with the community to address code violations. Refer property owners to the Housing Rehabilitation Program. (Timeline: Ongoing)	Code enforcement staff continued working with property owners to remedy issues. Information regarding rehab programs has been provided to property owners.	The City will continue to use Code Enforcement to improve the quality of housing.
<p>1.2. Housing Rehabilitation Program In collaboration with a housing partner, the City will continue providing rehabilitation loans to lower-income households, including very-low- and extremely-low-income persons. Initiated in 1988 with CDBG funds, the Housing Rehabilitation Program will provide loans for up to \$190,430 for most types of housing repairs, energy conservation improvements, and handicapped accessibility devices.</p>	Community Development Department and Self-Help Enterprises	CDBG; HOME; CAL-HOME	Continue to provide between 6 and 12 loans per year. Continue to market the program through brochures at the public counter. (Timeline: Ongoing)	The City has continued to provide an average of 4 to 5 rehab loans per year funded by HOME, CDBG and CalHome grants.	The City will continue to apply for and implement HOME and CDBG grants. The amount available to applicants for rehab will increase as needed with inflation.

<p>1.3. Preservation of At-Risk Affordable Housing The City will work with interested agencies and community organizations to preserve at-risk units by monitoring their status, providing technical and/or financial assistance in return for extended affordability controls, and ensuring proper tenant notification prior to project conversion. As noted in Chapter 2, Avenal has 317 units of affordable housing created through City, state, and federal programs, some of which serve very-low- and extremely-low-income persons, and none are at risk for conversion during the next 10 years.</p>	Community Development Department	General Fund	Continue to monitor at-risk units. (Timeline: Ongoing)	Although no units were at-risk, the City cooperated with property owners to explore Tax Credit funding to extend affordability covenants.	The City will continue to work with interested agencies and community organizations to preserve at-risk units.
<p>1.4. Adequate Sites The City will facilitate the production of new housing to accommodate demand commensurate with the City's share of regional housing needs. To that end, the Housing Element identifies "adequate" sites to accommodate the City's regional housing needs allocation identified as 771 units (40 extremely-low, 40 very-low, 126 low, 214 moderate, and 291 above moderate income affordability) during the current planning period. Adequate sites are those with appropriate development and density standards, water and sewer services, and adequate infrastructure.</p>	Community Development Department	General Fund	Maintain appropriate land use designations to provide adequate sites appropriate for new housing to meet Avenal's housing needs allocation of 771 units. (Timeline: 2009-2014)	The City has maintained adequate sites to accommodate the RHNA allocation.	The City will continue to ensure the availability of adequate sites commensurate with the RHNA for the new planning period.
<p>1.5. Infill Development The City will continue to support infill development for homes and mobile homes in residential zones. Infill lots are being extensively used in Avenal for new development. Over 170 single-family homes have been built during the previous planning period almost exclusively on infill lots. The City works with developers to complete variances that allow more infill lots to be created and used. The City will provide an inventory at the public counter on the location of infill sites that are adequately served by</p>	Community Development Department	General Fund	Provide the location and zoning of residential infill sites in the community. (Timeline: Ongoing)	The City has continued to work with developers to facilitate infill development.	The City will continue to encourage the use of infill lots. However, the inventory of available lots is shrinking.

infrastructure and suitable for residential development.					
<p>1.6. Density Bonus Program In accordance with state law, Avenal has adopted a local ordinance that provides density bonus and other incentives to encourage the development of affordable housing. The City will continue to work with developers to facilitate the use of these options.</p>	Community Development Department	General Fund	Continue to implement the density bonus ordinance to assist development of affordable housing.	No requests for density bonus have been submitted since higher density is not necessary or desirable in this market area.	The City will continue to answer inquiries and work with developers on density bonus if requested.
<p>1.7. Regulatory and Financial Assistance Avenal allows multi-family housing in high density zones and requires a conditional use permit for projects in excess of 19 units. The City also assists developers of affordable housing by reducing or deferring development fees and reducing processing times. The City expedited two CUP applications for multi-family low-income projects during the previous planning period. The City also assisted these developers with Tax Credit applications. The City continues to use the CUP process for large apartment applications. The City will continue providing regulatory and financial assistance to facilitate the development of affordable housing to extremely-low-, very-low-, low-, and moderate-income households.</p>	Community Development Department	General Fund	Continue to defer/reduce fees and expedite processing for affordable housing.	One 41-unit affordable multi-family project was approved.	The City will continue to expedite and assist low income multi-family projects.

<p>1.8. First Time Homebuyer Program In collaboration with a housing partner, Avenal will continue to provide home ownership opportunities to new low-income homebuyers through the First Time Homebuyer Program. Initiated in 2000, this program provides up to \$130,000 in a deferred silent second loan to subsidize mortgage payments and closing costs. Residents must provide a \$1,000 down payment and qualify for a home loan. The City assisted 54 applicants with the purchase of homes under the First Time Homebuyer program during the previous planning period and is applying for CDBG funds to provide additional assistance.</p>	Community Development Department and Self-Help Enterprises	HOME	Assist 10-15 new homebuyers on an annual basis. (Timeline: Ongoing)	The City continued to assist applicants with the purchase of homes under the First Time Homebuyer program during 2009-2014.	The City will continue to apply for and administer the HOME program for use in its First Time Homebuyer program.
<p>1.9. Section 8 Rental Assistance Avenal will continue to participate in the Section 8 rental assistance program. The Section 8 rental assistance program extends rental subsidies to extremely-low- and very-low-income households that spend more than 30% of their income on rent. The rent subsidy is the difference between 30% of the monthly income and the allowable rent determined by the Section 8 program.</p>	Community Development Department, County Housing Authority	Department of Housing and Urban Development	Assist Kings County Housing Authority in promoting the Section 8 program. (Timeline: Ongoing)	The City continued to support the Kings County Housing Authority by posting information on the Section 8 program at City Hall.	Continue to participate in the Section 8 rental assistance program.
<p>1.10. Affordable Housing Assistance The City works with nonprofit groups, such as Self-Help Enterprises, to build and/or rehabilitate housing affordable to lower-income households. The City receives CDBG and HOME funds for these efforts. Affordable housing is being developed under existing zoning and development standards, although in some cases the City provides financial assistance to projects in the form of fee waivers and regulatory incentives</p>	Community Development Department and interested affordable housing providers/developers	Local, state, and federal funds	Seek applicable grants from state and federal sources, provide an inventory of housing sites to interested developers, continue to implement the density bonus ordinance, and continue to pursue housing production and rehabilitation with nonprofits. (Timeline: Ongoing)	The City continued to provide grants and loans for rehabilitation and first time homebuyers using CDBG, HOME and CalHome during 2009-2014. The City has waived building fees for housing rehabilitation.	The City will continue to rehabilitate homes and provide first time homebuyer loans using CDBG, HOME and CalHome and continue to waive building fees for housing rehabilitation.

<p>1.11. Special Needs Housing for Senior and Disabled</p> <p>The City will assist in planning and locating affordable housing for special needs groups such as seniors and persons with disabilities, many of whom have very-low- or extremely-low-incomes. The City expedited one application for a senior housing apartment complex and assisted the developer with a tax credit application. The City will continue to work with developers on the completion of a senior project, including assistance to persons with disabilities by expediting applications and assisting with grant applications.</p>	Community Development Department	General Fund	Continue to work with developers on the completion of a senior project, including assistance to persons with disabilities by expediting applications and assisting with grant applications. (Timeline: Apply for grant funds annually as available)	No applications for senior or special needs housing projects were received during 2009-2014.	The City will continue to work with developers in the completion of a senior project as well as for the disabled by expediting applications and assisting with grant applications.
<p>1.12. Second Units</p> <p>Second units can provide additional housing opportunities for many special needs groups, including seniors, farmworkers and other persons with very-low or extremely-low incomes. The City updated its Zoning Ordinance during the previous planning period to allow second units by right in residentially zoned areas consistent with state law. The City will continue to assist property owners with second unit applications by providing information and expediting their applications.</p>	Community Development Department	General Fund	Continue to encourage production of second units by providing information and assistance with expedited permit processing. (Timeline: Ongoing)	No applications for second units were received during 2009-2014.	The City will continue to assist property owners with second unit applications by providing information and expediting their applications.

<p>1.13. Emergency and Transitional Shelters Housing Element Law requires a jurisdiction to provide adequate sites for a variety of housing types, including emergency shelters and transitional/supportive housing, through appropriate zoning and development standards. These types of housing typically serve those with very-low or extremely-low incomes. To address the requirements of Senate Bill 2, Avenal will amend the Zoning Code to permit emergency shelters and transitional housing in the High Density Multi-Family Residential (R-3) zone by right subject to appropriate development standards. The R-3 zone is conveniently located adjacent to services needed by persons residing in a shelter. The Code amendment will also clarify that transitional and supportive housing is a residential use subject only to the same requirements and procedures as for other residential uses of the same type in the same zone.</p>	Community Development Department	General Fund	Amend the Avenal Zoning Ordinance to allow emergency shelters and transitional/supportive housing in compliance with SB 2. (Timeline: Within one year of Housing Element adoption)	The Zoning Ordinance was amended to allow emergency shelters by-right in the R-3 zone and by CUP in the P-F zone, and allow transitional and supportive housing as a residential use subject only to the same standards and procedures as apply to other residential uses of the same type in the same zone.	The City will continue to work with Kings Community Action Organization and other organizations to facilitate provision of emergency shelters and transitional and supportive housing.
<p>1.14. Farmworker and Employee Housing Farmworker housing is a permitted use in the R-2 and R-3 zones and is conditionally permitted in the AI and AE zones in conjunction with a primary permitted use (see concluding note below). Development standards of the underlying district apply to proposals for farmworker housing. Since Avenal has some of the lowest housing prices and apartment rents in California, the need for farmworker housing is largely met by traditional housing. The City of Avenal actively assists farmworker housing needs: the majority of homeownership loans are made to farmworkers and a majority of units in assisted multi-family projects are occupied by farmworkers. Many of the farmworkers served by these programs have very-low or extremely-low incomes.</p>	Community Development Department	General Fund	<ol style="list-style-type: none"> 1) Amend the Zoning Code to incorporate Section 17021.5 and 17021.6 of the Health and Safety Code 2) Inventory suitable sites for farm worker housing with the update of the Land Use Element 3) Assist interested developers by identifying sites and supporting funding applications 4) Provide, to the extent feasible, financial and regulatory incentives (Timeline: Zoning Code amendment by 2010; facilitate construction of farmworker housing throughout the planning period.)	The Zoning Ordinance was amended to allow farmworker housing consistent with state law. No applications for farmworker housing were submitted during 2009-2014.	The City will continue to offer assistance in facilitating production of farmworker housing.

<p>1.15. Housing for Persons with Disabilities State law requires jurisdictions to analyze and remove potential constraints to housing for persons with disabilities, many of whom have very-low or extremely-low incomes. As part of this Housing Element update the City conducted an analysis of its zoning and land use requirements, permit processing procedures, and building codes to identify potential impediments. In order to address the potential constraints identified in Chapter 4, the City will amend the Zoning Code to ensure that the definition of “family” is consistent with current law, and also adopt a reasonable accommodation ordinance in conformance with SB 520.</p>	Community Development Department	General Fund	Amend the Zoning Ordinance to ensure that the definition of “family” is consistent with state law and adopt reasonable accommodation procedures consistent with state law. (Timeline: Zoning Code amendment by 2010)	The City amended the Zoning Ordinance to revise the definition of “family” and establish reasonable accommodation procedures.	The City will continue to facilitate reasonable accommodation in housing for persons with disabilities and expedite applications for residential care facilities.
<p>1.16. Promote Equal Housing Opportunities Currently, the City does not refer fair housing complaints to a fair housing agency. This is particularly problematic if a resident or landlord has a problem and cannot find the appropriate agency to provide assistance. The City will designate and publicize an agency to provide information on fair housing laws, and refer complaints of housing discrimination to the appropriate state or federal agencies.</p>	Community Development Department	General Fund	Avenal will coordinate with Kings County to select a local fair housing agency to provide landlord and tenant mediation and fair housing investigations. The City will develop a fair housing brochure in Spanish and English or acquire one from a local fair housing provider. To broadly disseminate fair housing information, the City will distribute the brochure at the City Hall, library, post office, and appropriate shopping areas. (Timeline: 2010)	The City refers fair housing inquiries to the Fresno office of the California Department of Fair Employment and Housing (DFEH). Brochures are also made available in government offices and on the website.	Avenal will continue to coordinate with DFEH and other jurisdictions in Kings County to provide fair housing information.

<p>1.17 Multi-Family Permit Processing The City currently requires approval of a conditional use permit (CUP) for multi-family projects with 20 units or more. Although the CUP requirement has not been a significant constraint to housing development in the past, in order to increase development certainty the City will amend the Zoning Code to eliminate the CUP requirement in favor of a site plan review (SPR) by the Planning Commission. The SPR process will focus on ensuring compliance with applicable development standards.</p>	Community Development Department	General Fund	Amend the Zoning Code to increase development certainty by requiring SPR rather than a CUP for multi-family projects of 20 or more units. (Timeline: 2010-11)	Zoning amendment adopted to change CUP to Site Plan Review.	This program has been completed and is no longer necessary.
<p>1.18 Energy Conservation The City of Avenal is developing a Partnership with Pacific Gas & Electric to provide homeowners and renters with energy audits and to provide them with resources to obtain low energy products such as lights and insulation. The partnership should be in place early in 2010.</p>	Community Development Department	General Fund	Reduce energy use in residential developments by providing information and low-energy products to residents. (Timeline: initiation in 2010 and implementation throughout the planning period)	The City initiated discussions with PG&E.	This program should be continued.

In conjunction with code enforcement activities, City staff provides information to homeowners regarding the City's Housing Rehabilitation Program.</p>	Code Enforcement Staff	General Fund	Continue to work with the community to eliminate code violations. Refer property owners to the Housing Rehabilitation Program. (Timeline: Ongoing)	The City continued to implement code enforcement program and refer property owners to available programs to assist with repairs.	This program should be continued.
<p>2.2. Paint Programs The City offers assistance to low- and moderate-income homeowners for exterior or interior painting in three related programs. The City's Paint Program covers the cost of paint only. Under the Senior/Handicapped Paint Program, the City provides low- and moderate-income seniors and people with disabilities with paint, paint supplies, and supervision.</p>	Community Development Department, Job Training Office, Kings County Planning Department, and Kings County Office of Education	CDBG	City Paint Program: 20-25 annually Senior/Handicapped Paint Program: 15 homes annually Kings County Paint Program: 5-10 homes annually-as funding permits (Timeline: Ongoing)	No homes were assisted.	This program should be continued.
<p>2.3. Housing Rehabilitation Program The City will continue providing rehabilitation loans to lower-income households through the Housing Rehabilitation Program. Initiated in 1981, the Housing Rehabilitation Program provides loans for up to the maximum allowed by HCD for most housing repairs, demolition/reconstruction, energy conservation improvements, and handicapped accessibility devices. Health and safety grants of up to \$7,500 are provided to correct minor repairs or improve handicap accessibility for very low and low income households.</p>	Community Development Department	HOME; CDBG	Provide 5-10 loans annually and 10 grants annually. Continue to market the program through brochures at the public counter. Conduct outreach to major employers (e.g., hospital, school district, and prisons) regarding the program. (Timeline: Ongoing)	22 homes have been assisted	This program should be continued.

<p>2.4. Preservation of At-Risk Affordable Housing</p> <p>The City continues to work with interested agencies and community organizations to preserve at-risk units by monitoring their status, providing technical and/or financial assistance in return for extended affordability controls, and ensuring proper tenant notification prior to project conversion. Corcoran has 593 units of affordable housing for very-low-, low-, and moderate-income households created through various City, state, and federal programs. One of the housing projects (Saltair Place) is at-risk for conversion to market rate during the next 10 years. The City will work with the project owner and interested non-profit organizations to preserve this project, if feasible.</p>	Community Development Department	General Fund	Continue to monitor the status of publicly-assisted affordable units. The City will contact the property owners to determine their intentions, contact qualified nonprofits regarding potential opt-out projects, ensure that property owners comply with noticing requirements, support the acquisition of at-risk properties by nonprofits, and pursue grants to support the preservation of affordable at-risk housing. (Timeline: Ongoing)	The City continued to monitor affordable units.	This program should be continued.
<p>2.5. Adequate Sites</p> <p>The City will facilitate construction of new housing to accommodate projected employment and population growth and to meet the needs of existing residents. To that end, the Housing Element identifies adequate sites to accommodate the City's share of the region's housing needs allocation identified as 905 units (80 very low, 160 low, 295 moderate, and 370 above moderate) for the new planning period. Adequate sites are those with sufficient development and density standards, water and sewer services, and adequate infrastructure.</p> <p>In order to provide additional rental housing opportunities for persons of modest means, the City is also working with downtown property owners to encourage conversion of underutilized second floor space to residential apartments in existing commercial buildings.</p>	Community Development Department	General Fund	Maintain appropriate land use designations to provide adequate sites appropriate for new housing to meet Corcoran's housing needs allocation of 905 units. Work with downtown property owners to facilitate the conversion of underutilized commercial buildings for residential use. (Timeline: Ongoing)	The City continued to maintain adequate sites to accommodate housing needs.	This program should be continued.

<p>2.6. Density Bonus Program In accordance with state law, Corcoran has adopted a local ordinance that provides density bonus and other incentives to encourage the development of affordable housing. The City will continue to work with developers to facilitate the use of these options.</p>	Community Development Department	General Fund	Continue to implement the density bonus ordinance to facilitate affordable housing. (Timeline: Ongoing)	The City continued to offer density bonus and other incentives, although no requests were submitted for density bonus.	This program should be continued.
<p>2.7. Affordable Housing Development Assistance The City facilitates the development of affordable housing through a number of tools including density bonuses, minimal fee requirements (no impact fees), and PUD development standards. The City will continue to provide regulatory and financial assistance to facilitate and encourage the development of housing affordable to extremely-low-, very-low-, low-, and moderate-income households commensurate with its fair share housing needs. SRO and transitional housing projects in particular can help to address the needs of extremely-low-income persons. In addition, the City will facilitate the improvement and redevelopment of underutilized properties by encouraging consolidation of adjacent parcels through expedited processing, modified development standards and reduced development fees when such projects include affordable housing. To facilitate the development of affordable housing, the City will approve projects at or above the maximum allowable density pursuant to state density bonus law and continue to identify rezoning opportunities for additional High Density residential development.</p>	Community Development Department	General Fund	Seek applicable grants from state and federal sources (e.g., CDBG, HOME, Proposition 1C) including funding specifically targeted to ELI housing, provide an inventory of housing sites to interested developers, continue to implement the density bonus ordinance, and continue to pursue housing production and rehabilitation activities with nonprofits. The City shall promote the benefits of this program to the development community by posting information on its web page and creating a handout to be distributed with land development applications. Continue to defer/reduce fees and expedite processing for affordable housing. (Timeline: Ongoing.)	The City continued to apply for grants in support of affordable housing.	This program should be continued.

<p>2.8. First Time Homebuyer Program The City provides housing assistance to new homebuyers through its First Time Homebuyer Program. Up to \$30,000 in housing assistance in the form of a low interest second mortgage loans is provided to qualified very low and low income homebuyers. While the Program is currently funded by HOME, a revolving fund has been set up that utilizes repayments of prior Agency-assisted second mortgage loans to fund new loans.</p>	Community Development Department	HOME and revolving loan fund	Offer 10 to 12 loans per year. Conduct outreach to major employers (e.g., hospital, school district, and prisons) regarding the availability of the program. (Timeline: Ongoing)	Five 1 st time buyers were assisted.	Continue??
<p>2.9. RDA Closing Costs Assistance Program The RDA Closing Costs Assistance Program is designed to assist moderate-income families to purchase a home. This program is designed to assist families that do not qualify for the HOME-funded First Time Homebuyer Program. The objective of the program is to assist households by providing up to \$5,000 toward the closing costs of purchasing a new home. The City will actively work with major employers in Corcoran, including the hospital, school district and prisons, and provide publications and advertisements, to ensure that they are aware of the program.</p>	RDA	RDA Funds	Initiate new program and assist 10 households annually. Conduct outreach to major employers regarding the program. (Timeline: Ongoing)	This program was discontinued due to the dissolution of the redevelopment agency.	This program has been eliminated.

<p>2.12. Emergency Shelters and Transitional Housing</p> <p>State law requires jurisdictions to provide for a variety of housing types including emergency shelters and transitional/supportive housing. Senate Bill 2 of 2007 requires all jurisdictions to allow emergency shelters by-right in at least one zone, and stipulates that transitional and supportive housing is a residential use subject only to the same standards and procedures as for other residential uses of the same type in the same zone. The Corcoran Zoning Ordinance will be updated consistent with the requirements of SB 2 within one year of Housing Element adoption. The C-S (Service Commercial) zone will be amended to include shelters as a permitted use subject to appropriate development standards. The C-S zone encompasses approximately 181 acres, is located near transportation routes and commercial services, and provides the capacity for at least one emergency shelter.</p>	Community Development Department	General Fund	Amend the Zoning Ordinance with regard to emergency shelters and transitional/supportive housing in conformance with SB 2. (Timeline: Revise Ordinance within one year of Housing Element adoption)	Zoning Ordinance regulations for emergency shelters and transitional/supportive housing were amended in conformance with SB 2.	This program should be revised to reflect accomplishments.
<p>2.13. Farmworker and Employee Housing</p> <p>The Corcoran Zoning Ordinance permits mobile homes as farm employee housing and conditionally permits farm employee housing in excess of five units in the A-zone. Farmworkers receive the majority of homeownership and home rehabilitation loans each year and occupy a large share of assisted multi-family units in Corcoran. Corcoran also supported the development of the Whitely Avenue project.</p>	Community Development Department	General Fund	<ol style="list-style-type: none"> 1. <p>2.14. Housing for Persons with Disabilities</p> <p>State law requires jurisdictions to analyze and remove potential constraints to housing for persons with disabilities. As part of this Housing Element update the City conducted an analysis of its zoning and land use requirements, permit processing procedures, and building codes to identify potential impediments. In order to address the potential constraints identified in Chapter 4, the City will amend the Zoning Code to allow licensed residential care facilities for six or fewer persons in any residential zone as a permitted use, and allow residential care facilities for more than six persons by conditional use permit in the R-1 and RM zones. In addition, the City will adopt a reasonable accommodation ordinance in conformance with SB 520.</p>	Community Development Department	General Fund	<ol style="list-style-type: none"> 1. This program should be revised to reflect accomplishments.
<p>2.15. Promote Equal Housing Opportunities</p> <p>Corcoran currently refers fair housing complaints to HUD and the Tulare/Kings County Legal Aid Foundation. However, other communities within Kings County refer fair housing complaints to different agencies. Therefore, it may be confusing to residents to know the appropriate agency to handle fair housing complaints or issues.</p>	Community Development Department	General Fund	<p>Corcoran will coordinate with Kings County to select a local fair housing agency to provide landlord/tenant mediation services and fair housing investigations. The City will develop a fair housing brochure in Spanish and English or acquire one from a local fair housing provider. To broadly disseminate information, the City will distribute the brochure at the City Hall, library, post office, and appropriate shopping areas.</p> <p>(Timeline: Select a local provider by 2010)</p>	This program is in process. <p>2.16. Multi-Family Permit Processing The City currently requires approval of a conditional use permit (CUP) for multi-family projects with 20 units or more. Although the CUP requirement has not been a significant constraint to housing development in the past, in order to increase development certainty the City will amend the Zoning Code to eliminate the CUP requirement in favor of a site plan review (SPR) by the Planning Commission. The SPR process will focus on ensuring compliance with applicable development standards.</p>	Community Development Department	General Fund	Amend the Zoning Code to increase development certainty by requiring SPR rather than a CUP for multi-family projects of 20 or more units. This program has been completed and is no longer necessary.
<p>2.17. Weatherization and Energy-Efficient Home Improvements The purpose of this program is to reduce energy use by providing financial assistance to lower-income households for weatherization and energy-efficient heating (including solar photovoltaic water heaters) and cooling systems. The City will refer lower-income households to the Kings Community Action Organization and other community services agencies that provide financial assistance to qualifying households for these improvements.</p>	Community Development Department	Nominal funding required	Reduce residential energy use and carbon footprint by providing financial assistance to lower-income households for weatherization and energy-efficient heating and cooling systems. (Timeline: Ongoing)	The City continued to implement this program.	This program should be continued.

<p>3.1. Code Compliance Code compliance is an important means to preserve public health and safety and ensure that the character and quality of neighborhoods and housing is maintained. To that end, the City's Code Compliance staff under the Community Development Department will work to enforce state and local regulations. In conjunction with code compliance activities, City staff will provide information to homeowners regarding the City's Housing Rehabilitation Program.</p>	Code Compliance Staff	General Fund	Continue to work with the community concerning code violations. Refer property owners to the Housing Rehabilitation Program. (Timeline: Ongoing)	City code enforcement officers have continued to work with property owners to encourage compliance.	Continue program.
<p>3.2. Paint Programs The City offers two paint assistance programs for low- and moderate-income homeowners. Through the Do-It-Yourself Paint Program, the City assists qualified homeowners with the cost of the paint, while materials and labor are provided by the homeowner. The New Looks Summer Paint Program assists extremely-low-, very-low-, low- and moderate-income senior and/or disabled residents by providing assistance in paint supplies and materials.</p>	Community Development Department	RDA Funds	Do-It-Yourself Paint Program - 10 units per year New Looks Summer Paint Program – 10 to 15 units per year (Timeline: Ongoing)	The City continued to offer this program.	Continue program.
<p>3.3. Housing Rehabilitation Program The City will continue providing rehabilitation loans to lower-income households. Initiated in 1985, the Housing Rehabilitation Program provides loans for up to \$90,000 for housing repairs, energy conservation improvements, and handicapped accessibility devices. Hanford has designated southwest and central Hanford as "target areas" for this program. Since 2004, 46 homeowners have benefited from this program.</p>	Community Development Department	CDBG Funds; CalHome	Assist 10 to 15 units per year (Timeline: Ongoing)	The City continued to offer this program.	Continue program.

<p>3.4. Preservation of At-Risk Affordable Housing The City will continue to work with interested agencies and community organizations to preserve at-risk units by monitoring their status, providing technical and/or financial assistance in return for extended affordability controls, and ensuring proper tenant notification prior to project conversion. Hanford has approximately 815 units of affordable housing for low- and moderate-income households created through City, state, and federal programs. One project – Cedarbrook - is considered to be at high-risk of converting to market-rate housing during the next 10 years. The City will work with the project owner and interested non-profit organizations to preserve this project, if feasible.</p>	Community Development Department and interested affordable housing providers/ developers	General Fund	Continue to monitor the status of publicly-assisted affordable units. The City will contact the property owners to determine their intentions, contact qualified nonprofits regarding potential opt-out projects, ensure that property owners comply with noticing requirements, support the acquisition of at-risk properties by nonprofits, and pursue grants to support the preservation of affordable at-risk housing. (Timeline: Ongoing)	The City continued to offer this program.	There are no units at risk during this planning period therefore this program is not necessary.
<p>3.5. Adequate Sites The City will facilitate construction of new housing to accommodate projected employment and population growth to meet the needs of the City’s residents. To that end, the Housing Element identifies “adequate” sites to accommodate the City’s share of the regional housing needs allocation identified as 5,758 units (1,446 very-low, 1,015 low, 938 moderate, and 2,359 above-moderate) from 2007-2014. Adequate sites are those with sufficient development and density standards, water and sewer services, and other infrastructure. Staff will monitor development affordability and report annually on progress toward the City’s share of the regional housing need.</p> <p>In order to enhance the feasibility of affordable housing development, the City will review current land use and zoning designations as part of the next General Plan update and increase the maximum density in the Medium Density category above 15 units/acre and/or redesignate additional sites to High Density Residential.</p>	Community Development Department	General Fund	Facilitate the construction of new housing through the provision of adequately zoned sites to meet Hanford’s housing needs allocation of 5,758 units. (Timeline: Provide adequate sites throughout the planning period; initiate a General Plan update by 2012 if funding is available)	The City maintained adequate sites commensurate with the RHNA allocation and initiated a General Plan update in 2014.	This program should be continued and updated to reflect current information.

The City will also encourage affordable housing development on small parcels by facilitating lot consolidation through expedited processing, density bonus and/or reduced processing fees.					
<p>3.6. Density Bonus Program In accordance with state law, Hanford adopted a local density bonus ordinance in 2008 that is in conformance with state law. The City will continue to implement this program to encourage and facilitate development of affordable housing through the provision of density bonuses or other incentives for qualifying projects.</p>	Community Development Department	General Fund	Continue to publicize and implement the density bonus ordinance to assist development of affordable housing. (Timeline: Ongoing)	The City continued to implement the density bonus ordinance.	This program should be continued but merged with Program 11.
<p>3.7. Planned Unit Development The Hanford 2002 General Plan Update includes a Planned Unit Development Zone process whereby a project proponent can propose a concept that may change or remove many of the conventional zoning restrictions. For example, housing units could be clustered around large open space areas or other development amenities resulting in higher localized “net” densities.</p>	Community Development Department	General Fund	Continue to utilize the PUD process to encourage unique design and develop housing that addresses site constraints. (Timeline: Ongoing)	The City continued to utilize PUD zoning to facilitate housing development.	This program should be continued.
<p>3.8. First Time Homebuyer Programs The City offers the RDA First-Time Homebuyers Program that provides financing assistance to very-low-, low- and moderate-income first-time homebuyers. The program has been revised to increase the loan limit to \$100,000, reduce the interest rate to 2% and extend the term to 45 years. Payment is deferred for the entire loan term. The City also offers the HOME Sweet Home Program, which has also increased its loan limit to \$100,000, as well as reduced the interest rate to 2%. Payment is deferred for the entire loan term.</p>	Community Development Department	HOME and RDA set-aside funds	Assist 10 households each year for the RDA First-Time Homebuyer Program and assist 20 households annually for the HOME Sweet Home Program. (Timeline: Ongoing)	Funding for this program was reduced due to the dissolution of the redevelopment agency.	This program should be continued at a reduced funding level.

<p>3.9. Section 8 Rental Assistance Program Administered by the Kings County Housing Authority, Hanford will continue to participate in the Section 8 rental assistance program. (Timeline: Ongoing)	The City continued to support the Section 8 program, which is administered by the Kings County Housing Authority.	Hanford will continue to participate in the Section 8 rental assistance program.
<p>3.10. Residential Infill Construction Program The City offers very-low-, low- and moderate-income homebuyers the opportunity to purchase a newly constructed home on an infill lot. City funds are used to purchase infill lots and finance construction of affordable single-family homes. The City oversees the construction of the home while qualified buyers are required to obtain primary financing from a bank or mortgage company to purchase the home upon completion of construction.</p>	Community Development Department	General fund and RDA set-aside funds	Continue to implement program and assist construction of 4 homes per year. (Timeline: Ongoing)	This program was eliminated due to the dissolution of the redevelopment agency.	This program is no longer active.

<p>3.11. Affordable Housing Assistance The City promotes affordable housing through various programs - home ownership assistance, rehabilitation assistance, new construction/infill, and grant application programs. The City currently receives CDBG and HOME funds for much of its program activities. Affordable housing is being developed under existing zoning and development standards. To continue supporting affordable housing production, the City will undertake the following actions.</p>	Community Development Department and affordable housing developers	Local, state, and federal funds	Seek applicable grants under Proposition 1C and federal sources including funding specifically targeted to ELI housing, provide an inventory of housing sites to interested developers, continue to provide a density bonus to qualifying projects, provide financial and regulatory assistance such as reduced fees and/or modified development standards, and continue to pursue housing production and rehabilitation with nonprofits including assistance in preparing grant applications. Housing for very-low- and extremely-low-income persons will be prioritized where feasible. In addition, the City's affordable housing incentives will be promoted on the website and in handouts provided at the Planning counter. (Timeline: Ongoing)	The City continued to facilitate development and rehabilitation of affordable housing.	This program should be continued.
<p>3.12. Farmworker and Employee Housing To address farmworker housing needs, the City permits farmworker housing in the AG zone. However, in order to remove potential constraints identified in Chapter 4 the City will amend the Zoning Code in conformance with <i>Health and Safety Code</i> §17021.5 and §17021.6. In addition, the City will assist interested developers by providing incentives, identifying suitable sites, and assisting in preparation of funding applications.</p>	Community Development Department	General Fund	<ol style="list-style-type: none"> 1. Ensure that zoning and development standards facilitate farmworker housing (Timeline: Amend the Zoning Code by 2010; provide assistance throughout the planning period)	Zoning regulations for farmworker housing were amended in conformance with state law.	This program should be continued and revised to reflect prior accomplishments.

<p>3.13. Emergency and Transitional Shelters State law requires jurisdictions to provide adequate sites for a variety of housing types including emergency shelters and transitional/supportive housing. Emergency shelters and transitional housing are currently permitted subject to site plan review in the OR zone. The Zoning Code will be amended to clarify that emergency shelters are a non-discretionary permitted use in the OR zone and identify appropriate development standards consistent with SB 2.</p> <p>The Zoning Code will also be amended to clarify that transitional and supportive housing facilities are permitted uses subject only to the same regulations and procedures that apply to other residential uses of the same type in the same zone.</p>	Community Development Department	General Fund	Amend the Zoning Code to clarify the zoning regulations for emergency shelters and transitional/supportive housing in conformance with SB 2; continue to support efforts with surrounding Kings County jurisdictions to meet the needs of people who are homeless or transitioning to independence. (Timeline: Amend the Zoning Code within one year of Housing Element adoption; facilitate establishment of emergency shelters and transitional/supportive housing throughout the planning period)	Zoning regulations for emergency shelters and transitional/supportive housing were amended in conformance with state law.	This program should be continued and revised to reflect prior accomplishments.
<p>3.14. Housing for Persons with Disabilities State law requires jurisdictions to analyze and remove potential constraints to housing for persons with disabilities. As part of this Housing Element update the City conducted an analysis of its zoning and land use processes, permitting processing procedures, and building codes. That analysis concluded that the City will amend the Zoning Code to allow residential care facilities for more than six persons by conditional use permit in the R-1 zone (the Code already allows large care facilities in the RM and OR zones by CUP). The City will continue to monitor legal requirements and local conditions and will update local regulations and procedures as necessary to encourage and facilitate the development, maintenance, and improvement of housing for persons with disabilities.</p>	Community Development Department	General Fund	Amend the Zoning Code to allow residential care facilities for more than six persons by conditional use permit in the R-1 zone. Continue to monitor legal requirements and local conditions and update local regulations, if necessary, to remove any impediments to housing for persons with disabilities. <p>3.15. Promote Equal Housing Opportunities Hanford currently refers fair housing complaints to the Fair Housing Enforcement Center in San Francisco. These offices are far removed from Hanford and may be difficult to access. Referrals to a local agency could offer residents better access to services as well as allow the City to benefit from other fair housing services.</p>	Planning Department	General Fund	<p>Hanford will coordinate with Kings County to select a local fair housing agency to provide landlord/tenant mediation, fair housing investigations and testing. The City will develop a fair housing brochure in Spanish and English or acquire one from a local fair housing provider. To broadly disseminate information, the City will distribute the brochure at the City Hall, library, post office, and appropriate shopping areas. Literature is distributed at City Hall and other locations.</p>	<p>This program should be continued.</p>
<p>3.16. Single Room Occupancy (SRO) Housing To ensure development standards do not constrain the development of SROs, the City will adopt development standards for SRO housing which may include:</p> <ul style="list-style-type: none"> • Requirements for a management plan outlining policies and procedures and annual review of services by the Planning Department • 24-hour on-site management • Room limitation to single occupancy, with allowance for overnight guests • Requirements for monthly tenancies • Units must be 250–300 square feet in size and include kitchen or bathroom • Parking ratio of one space per unit and bicycle rack storage of one rack per 5 units 	Community Development Department	General Fund	<p>Address the needs of extremely-low-income persons through SRO housing. <p>4.1. Code Enforcement The City will continue to provide code enforcement services and refer property owners to City rehabilitation programs. Code enforcement is an important means to ensure that the character and quality of neighborhoods and housing is maintained. <p>4.4. Emergency Home Repair Program The City initiated the Emergency Home Repair Program in 2006 to provide rehabilitation assistance for emergency health and safety repairs and accessibility improvements for the disabled and for extremely-low-, very-low-, and low-income households. The program provides grants of up to \$2,500 for home repairs to correct problems such as unsafe electrical, unsanitary plumbing, broken windows, doors and locks, non-working heating and cooling systems, wheelchair ramps, bathroom or kitchen modifications, etc.</p>	RDA	RDA LMIH funds	Assist up to 10 households annually. <p>4.5. Do-it-Yourself and Senior House Painting Program In 2007 the City initiated the Do-It-Yourself House Painting Program that pays for paint and materials needed for house painting. In addition, in 2008 the City partnered with West Hills Community College to implement a Senior House Painting Program for individuals 55 years or older and/or disabled persons to have their homes painted by students at no charge. Both programs are available to extremely-low-, very-low-, low- and moderate-income households.</p>	RDA	RDA LMIH funds	Assist up to 20-30 households annually. <p>4.7. Zoning for Adequate Sites The City will facilitate the construction of new housing to accommodate projected employment and population growth and to meet the needs of residents. To that end, the Housing Element identifies adequate sites to accommodate the City’s share of the Regional Housing Needs Allocation of 3,021 units (374 extremely-low-, 374 very-low, 534 low, 502 moderate, and 1,237 above-moderate) from January 1, 2007 to June 30, 2014. Adequate sites are those with sufficient development and density standards, water and sewer services, and adequate infrastructure. The City will continue the Zoning Code update process to bring the Code into conformance with the new General Plan, which was adopted in 2008. During the interim period until the Zoning Code update is completed, the General Plan is the controlling land use designation. In cases where an inconsistency between the new General Plan and zoning exists for a proposed development project, the City will process a zone change concurrently with other development applications (e.g., subdivision map) at no additional cost to the applicant, and the project must conform to the General Plan and the development standards for the new zoning designation. The new Zoning Code will include regulations and incentives to implement the mixed-use policies contained in the Land Use Element of the General Plan, including incentives to encourage the inclusion of a residential component in projects located in mixed-use districts. Where necessary, the City will facilitate the subdivision of large parcels for development. The City will monitor and report annually on its progress toward these objectives.</p>					
<p>4.8. Downtown Revitalization As part of the City's 1992 Downtown Revitalization Plan, the City has been encouraging and facilitating the development and redevelopment of its downtown core. An important component of these efforts has been mixed residential-commercial uses in the C-C district. The City has converted two historic hotels in the downtown to provide low-income and senior housing above commercial uses. Such projects have assisted the City in meeting revitalization objectives, historic preservation, and the need for lower-income housing.</p>	RDA	CDBG, RDA, and grants	Facilitate additional mixed use projects in the downtown as opportunities arise. The grant application was not approved.	This program should be continued.

4.10. Planned Unit Development (PUD) The City implements a PUD overlay zone to provide flexibility in setback requirements and other regulations, increase residential densities in certain areas through techniques such as clustering, provide flexible site requirements, and stimulate creative, flexible and more affordable development. A PUD Livable Neighborhood booklet has been prepared and is available to interested developers at the Planning Department counter.	Planning Department	General Fund	Continue to promote the benefits of PUD alternatives to traditional development. (Timeline: Ongoing)	The City continued to offer PUD zoning. 4.11. First Time Homebuyer Programs The City offers first-time home ownership assistance to very-low-, low- and moderate-income homebuyers through two <i>First Time Homebuyer Programs</i> . One program offers assistance as a deferred second mortgage loan of up to \$30,000, and the other up to \$100,000 for down payment and closing cost assistance. Assistance under these programs may include foreclosed properties. Buyers must provide a \$1,000 down payment, qualify with a primary lender and comply with their requirements. 4.12. Infill Housing Program This program was initiated in 2008-09 for the purpose of constructing affordable housing in predominately developed neighborhoods for sale to low- and moderate-income families. Initially, the Redevelopment Agency had contracted to have new homes built on vacant lots, which were then sold to qualifying households at affordable prices. In the past, this has included assistance for multi-family or single-family subdivision projects. <p>4.15. Senior and Special Needs Housing The City supports development of affordable housing for special needs households, including elderly and disabled. The City has been supportive of special needs housing including affordable senior housing development, housing rehabilitation programs, and development of second units, all of which serve the needs of very-low- and extremely-low-income households. The City also supported the conversion of the Antlers Hotel into senior housing. State law requires jurisdictions to provide adequate sites for a variety of housing types including emergency shelters and transitional/supportive housing. This type of housing is particularly important in addressing the needs of very-low- and extremely-low-income persons. The Zoning Code will be amended to allow emergency shelters by-right in the RSC (Recreation, School and Conservation) zone subject to objective development standards. The RSC zone encompasses 730 acres, has the capacity for at least one shelter, and provides access to transit and other services used by homeless persons. <p>4.17. Employee and Farmworker Housing</p> <p>As the second most urbanized city in Kings County, Lemoore has few resident farmworkers, no farmland within its boundaries and no agricultural zoning. As a result, Lemoore is not directly affected by the provisions of <i>Health and Safety Code</i> §17021.5 and §17021.6. The City's Zoning Code does not explicitly allow farmworker housing. However, in the past decade Lemoore worked with Self-Help Enterprises to create 36 affordable single-family units by providing land and home ownership assistance while families provided "sweat equity" towards constructing their homes. Occupants were primarily very-low-income farmworker families. <p>State law requires jurisdictions to analyze and remove potential constraints to housing for persons with disabilities, who often have very-low or extremely-low incomes. As part of this Housing Element update the City conducted an analysis of its zoning and land use processes, permit processing procedures, and building codes to identify impediments. In order to comply with state requirements and reduce potential constraints, the City will amend the Zoning Code in the following areas:</p> <ol style="list-style-type: none"> 1. Licensed community care facilities serving 6 or fewer persons, excluding staff, will be included as a permitted use by-right in any residential district; 2. Large community care facilities serving more than 6 persons will be identified as a conditional use in appropriate district(s); 3. A reasonable accommodation ordinance establishing administrative procedures for reviewing and approving modifications to land use and building regulations that are reasonably necessary to ensure accessibility and use by persons with disabilities. 4. A definition and development standards for Single Room Occupancy (SRO) units will be added to the Zoning Code. 5. A definition of “family” will be added in conformance with current law. 			<p>potential constraints on community care facilities, housing for persons with disabilities, SROs, and amend the definition of “family” consistent with current law. <p>5.1. Code Enforcement Code enforcement is an important means to ensure that the character and quality of neighborhoods and housing is maintained. The Kings County Code Compliance staff will continue to work to enforce state and local regulations regarding building and property maintenance. In conjunction with code enforcement activities, staff will provide information to homeowners regarding the County's Housing Rehabilitation Program.</p>	Code Compliance Division	General Fund	Continue to address code violations in the County unincorporated areas. Refer property owners to rehabilitation assistance. (Timeline: Ongoing)	The County continued to address code violations and refer property owners to rehabilitation assistance.	This program should be continued.
<p>5.2. Housing Rehabilitation Program Working through nonprofit organizations and jurisdictions, the County offers housing rehabilitation assistance through the Housing Rehabilitation Program. Kings County offers housing rehabilitation assistance throughout County unincorporated areas, including and in the Corcoran fringe, Hanford fringe, Lemoore fringe, Armona, Home Gardens, Kettleman City, Stratford and other small community areas. The County provides low- or no-interest loans up to \$190,430 to correct health and safety hazards and make more routine repairs. The loan can be deferred until the owner sells the home, moves out of the home, or is able to begin making payments.</p>	Community Development Agency	HOME and CDBG funds	Provide 5 to 10 loans per year. (Timeline: Ongoing)	The County provided funding assistance for rehabilitation of approximately 25 homes.	This program should be continued.
<p>5.3. Preservation of At-Risk Affordable Housing The County will continue to work with interested agencies and community organizations to preserve at-risk units by monitoring their status, providing technical and/or financial assistance in return for extended affordability controls, and ensuring proper tenant notification prior to project conversion. Unincorporated Kings County</p>	Community Development Agency	General fund	Continue to monitor at-risk units. has four projects with approximately 197 units of affordable housing created through various County, state, and federal programs. None are at risk for conversion to market rate.					
<p>5.4. Adequate Sites The County will ensure that an adequate supply of residential land is designated in unincorporated areas to accommodate projected growth needs. Appendix B of the Housing Element identifies adequate sites within unincorporated areas to accommodate the County's share of the regional housing needs allocation, which is identified as 1,094 units (69 extremely-low, 68 very-low, 193 low, 316 moderate, and 448 above-moderate) for the new planning period. Adequate sites are those with appropriate zoning and development standards and adequate water and sewer services and other infrastructure.</p>	Community Development Agency	General Fund	Designate adequate sites to meet Kings County's housing needs of 1,094 units for the new planning period. (Timeline: ongoing)	The County continued to provide adequate sites to accommodate its RHNA allocation.	This program should be continued.
<p>5.5. Density Bonus Program The County granted density bonuses for 14 homes during the previous planning period, however, the Zoning Ordinance has not yet been amended to reflect the latest changes to state density bonus law. The County will amend the Zoning Ordinance to include the current density bonus standards in <i>Government Code</i> §65915, et seq.</p>	Community Development Agency	General Fund	Amend the density bonus ordinance in conformance with state law. (Timeline: Code amendment by 2010)	County zoning regulations were amended in conformance with current state law.	This program should be revised to reflect prior accomplishments and merged with Program 5.14.
<p>5.6. First-Time Homebuyer Program The County's First-Time Homebuyer Program provides qualified first-time homebuyers up to \$20,000 towards a home purchase. The loan is deferred for the life of the first loan or until the home owner sells the house. This program is available in all the unincorporated areas of Kings County and is administered by Self-Help Enterprises. During the previous planning period the County assisted an average of 10 first-time homebuyers per year.</p>	Community Development Agency and Self-Help Enterprises	HOME funds	Provide 10 to 15 loans per year. <p>5.8. Foster Youth Transitional Program The County supports the Housing Authority in the provision of transitional homes for foster youth. Foster children are a top priority for Kings County. Working with the Kings County Housing Authority, various agencies and organizations have established two transitional homes for aged-out foster children. The homes each accommodate six residents. The Hanford boys' home was completed in 2001 by refurbishing a dilapidated HUD home with the assistance of donations of material and labor. The Lemoore girls' home was built in 2002 from a historical dwelling that was refurbished.</p>	<p>Community Development Agency and Kings County Housing Authority</p>	<p>General Fund</p>	<p>Continue to support the Housing Authority in the provision of transitional homes for foster youth. (Timeline: Ongoing)</p>	<p>The County continued to support the Housing Authority in this program.</p>	<p>This program should be continued.</p>
<p>5.9. Emergency Shelters and Transitional/Supportive Housing Housing Element Law requires jurisdictions to provide adequate sites for a variety of housing including emergency shelters and transitional/supportive housing through appropriate zoning and development standards. The Kings County Zoning Ordinance allows emergency shelters in the RM and PF zones subject only to a ministerial Site Plan Review, consistent with SB 2. The Zoning Ordinance does not explicitly address transitional or supportive housing, however. The Code will be amended to specify that transitional/supportive housing is a residential use subject only to the same requirements and procedures as for other residential uses of the same type in the same zone.</p>	<p>Community Development Agency</p>	<p>General Fund</p>	<p>Amend the Zoning Code to permit transitional/supportive housing subject to the same requirements and procedures as for other residential uses of the same type in the same zone, as required by state law. <p>Mobile homes and manufactured housing can provide an important source of affordable housing in rural areas. Pursuant to state law, all jurisdictions must allow for the development of manufactured housing/mobile homes as a permitted use in all residential zones where single-family homes are permitted. County codes are consistent with state law in this regard, and the County will continue to facilitate this type of housing to address the needs of low- and moderate-income households.</p>			<p>which allow “one-family dwellings.” (Timeline: Ongoing)</p>	<p>consistent with state law.</p>	
<p>5.11. Farmworker and Employee Housing Kings County administratively permits mobile homes as farm employee housing in the AL-10, AG-20, AG-40 and AX zones. Farmworker housing not exceeding 5 units per parcel is permitted in the AL-10, AG-20 and AG-40 zones with larger facilities in the same zones requiring a conditional use permit. Although no farm labor camps currently are present in Kings County, the County routinely permits mobile homes used as employee housing and smaller farmworker housing units. The County works with the Housing Authority and non-profit developers to develop rental and ownership housing for farmworkers. The County also facilitated renovation of a former motel into temporary and/or long-term, permanent agricultural employee housing for 24 farmworker families.</p>	<p>Community Development Agency, Kings County Housing Authority, and interested affordable housing providers/developers</p>	<p>General Fund</p>	<p>Continue to support farmworker housing as follows: 1. Amend the Zoning Code to incorporate §17021.5 and §17021.6 of the Health and Safety Code 2. Assist interested developers by identifying sites and supporting funding applications 3. <p>5.12. Housing for Persons with Disabilities State law requires jurisdictions to analyze and remove potential constraints to housing for persons with disabilities. As part of this Housing Element update, the County conducted an analysis of its zoning and land use processes, permit processing procedures, and building codes to identify impediments. In order to comply with state requirements and reduce potential constraints, the County will amend the Zoning Code in the following</p>	<p>Community Development Agency</p>	<p>General fund</p>	<p>Amend Zoning Code to remove potential constraints on community care facilities and housing for persons with disabilities. <p>5.13. Promote Equal Housing Opportunities Kings County currently refers fair housing complaints to the Human Rights/Fair Housing Commission at the Fresno office. However, since a number of communities within Kings County refer fair housing complaints to different agencies it may be confusing to residents to know the appropriate agency to handle fair housing complaints.</p>	Community Development Agency	General fund	The County will coordinate with the communities of Avenal, Corcoran, Hanford and Lemoore to select a local fair housing provider that will provide centralized fair housing services for all jurisdictions within Kings County. To broadly disseminate fair housing information, the County will distribute the brochure at the City Hall, library, post office, appropriate shopping areas, and primary government offices within each Community Service District. (Timeline: Select a local agency by 2010)	This program has not been completed.	This program should be continued.
<p>5.14. Assist Affordable Housing Development The County promotes the development of housing for extremely-low-, very-low-, low- and moderate-income persons through direct financial assistance such as CDBG and HOME, priority entitlement processing, regulatory incentives such as density bonus and modified development standards, administrative support to developers on grant applications. In order to further assist in the development of ELI units, the following actions will be taken: The County shall apply for State and Federal funds for direct support of low-income housing construction and rehabilitation. Potential funding sources include CDBG and HOME. The County shall also seek State and Federal funding specifically targeted for the development of housing affordable to ELI households, such as Proposition 1C funds. Appendix B Land Inventory

1. Methodology and Assumptions

State law requires each jurisdiction to include in the Housing Element an inventory of vacant parcels having the potential for residential development, or “underutilized” parcels with potential for additional development. The purpose of this inventory is to evaluate whether there is sufficient capacity, based on the General Plan, zoning, development standards, and infrastructure, to accommodate the jurisdiction’s fair share of regional growth needs as identified in the Regional Housing Needs Assessment (RHNA).

The detailed methodology and assumptions for the residential land inventory presented in Chapter 3 are provided below and summarized in Tables B-1a through B-1e.

Affordability Assumptions

In general, there are three alternative ways for determining the affordability level of new housing units.

1. Affordability Covenants. The most definitive method is through required affordability covenants (i.e., requirements imposed upon or agreed to by the project sponsor) that establish income limits for purchasers or tenants. Such covenants are legally enforceable and binding upon the property owner for a specified time period.
2. Market Prices or Rents. When covenants are not in place, affordability levels for newly built units are based on actual prices or rents. Summarized below are 2015 affordability levels along with the monthly rental costs or estimated sales prices that correspond with each level.

2015 County Median Income = \$57,900	Income Limits	Affordable Rent	Affordable Price (est.)
Extremely Low (<30%)	\$24,250	\$606	\$110,000
Very Low (31-50%)	\$28,950	\$724	\$130,000
Low (51-80%)	\$46,300	\$1,158	\$210,000
Moderate (81-120%)	\$69,500	\$1,738	\$315,000
Above moderate (120%+)	>\$69,500	>\$1,738	>\$315,000

- a. Home Prices. Like most areas of the San Joaquin Valley, new home prices are generally affordable to moderate-income households. A survey of recent new home sales found that nearly all projects were priced within the moderate-income category of \$210,000 to \$315,000. Some new single-family homes on standard-sized lots sold within the low-income price range.

For purposes of the land inventory analysis, large lots of one-half acre or more were allocated to the above-moderate category in all jurisdictions.

In **Avenal**, all standard-sized lots were allocated to the moderate-income category. As noted in Chapter 2, all single-family homes sales and listings in Avenal, both new and resale, were priced within the low- or moderate-income categories during 2015.

In **Corcoran**, all standard-sized infill lots were allocated to the moderate-income category while large parcels suitable for standard-lot subdivisions were allocated 50%

moderate and 50% above-moderate. As noted in Chapter 2, all single-family homes sales and listings in Corcoran, both new and resale, were priced within the low- or moderate-income categories during 2015. Half of the sites zoned for single-family subdivisions were allocated upward to the above-moderate category in order to accommodate the City's RHNA allocation.

In **Hanford**, Very Low Density single-family sites were allocated to the above-moderate category, while Low Density single-family sites were evenly distributed between the moderate and above-moderate categories. As shown in Chapter 2, most of Hanford's newer home listings were priced in the moderate category. Most new single-family subdivisions offered homes in the moderate category at the time of the survey. Sites in the Medium designation allow small-lot subdivisions, PUDs and attached product types at up to 15 units/acre and were allocated to the low-income category.

In **Lemoore**, Agricultural-Rural and Very Low Density Residential sites were allocated to the above-moderate category. Low Density single-family sites were allocated 50% moderate and 50% above-moderate. As shown in Chapter 2, most recent home sales (both new and resale) were priced in the moderate category. Sites in the Low-Medium designation allow small-lot subdivisions and attached product types and were allocated to the moderate category.

In **unincorporated Kings County**, the Very Low Density and Low Density Residential sites allow large lots (1/2 acre or more) and were allocated to the above-moderate category. The Low Medium sites allow standard size lots and were allocated to the moderate category.

Mobile homes are an affordable option for lower-income households. As noted in Chapter 2, new mobile homes are available at prices ranging from \$24,000 to \$72,000. These prices are within the lower-income affordability range, including the price of a single-family lot.

- b. Apartment Rents. As with single-family homes, apartment rents are very affordable in Kings County. Nearly all newer market-rate apartments surveyed, including larger projects as well as small duplex/triplex projects, had rents within the low-income category (i.e., less than \$1,158 per month), and some apartments were renting at the very-low-income affordability level (i.e., less than \$724 per month). Many projects built by non-profit organizations using assistance such as Low-Income Housing Tax Credits include apartments affordable to extremely-low- and very-low-income households. Therefore, vacant sites in all jurisdictions designated for multi-family or mixed-use development were allocated to the lower-income category.
3. Density. For potential new units in a jurisdiction's land inventory, state law establishes that affordability assumptions may be based on density. The "default" density for jurisdictions in Kings County is 20 units per acre. This means that if the General Plan and zoning allow development at 20 units per acre or greater, these sites are considered to be suitable for lower-income housing. State law also allows jurisdictions to establish an alternative to the default density if local market conditions and experience support a different density assumption for affordability.

As discussed in Chapter 4, all of the jurisdictions in Kings County allow multi-family development at densities greater than 20 units/acre, excluding density bonus, in at least one multi-family zone. In addition to multi-family zones, Lemoore allows mixed-use

development at densities up to 20 units/acre. However, most new multi-family developments in Kings County – including affordable projects by non-profit developers – are built at densities significantly lower than the “default” density. Conversations with non-profits confirmed that densities in the range of 11-13 units/acre are typical and sufficient to make such projects feasible. This density range allows one-and two-story projects with large units (3-4 bedrooms) as well as spacious community facilities such as play areas for children. Developers indicated that they rarely request a density bonus, but may take advantage of other concessions such as modifications to development standards such as setbacks.

Realistic Capacity

In order to determine the realistic capacity of vacant sites, the potential yield for each parcel was estimated based on previous experience of recent projects rather than the maximum allowable density for the zone. In addition, site constraints such as flood hazard zones and airport approach and departure patterns were considered and potential yield was reduced where these constraints would be expected to prevent full utilization of the parcel. These constraints are noted in Tables B-1a through B-1e.

2. Units Built or Approved 2014-2015

Tables A-3a through A-3e in Appendix A summarize new residential units built or approved during 2009-2014. Under State law, new housing units completed after January 1, 2014 are credited in the new planning period. These units have been assigned to income categories based on affordability covenants or market prices/rents and are summarized in Table B-1.

3. Vacant or Underutilized Land

Tables B-2a through B-2e contain a parcel-level inventory of sites with potential for residential development in each jurisdiction during the current planning period. As noted above, the capacity of each site has been estimated based on realistic assumptions, recent development trends and any existing site constraints that could prevent the site from being developed to its full potential.

4. Capacity to Accommodate the RHNA

Based on the assumptions described above and the inventory of sites shown in Tables B-2a through B-2e, the realistic development capacity has been estimated for each jurisdiction and is summarized in Table B-1 below. This table demonstrates that each jurisdiction has adequate capacity to accommodate its RHNA allocation for the planning period.

Avenal Sites Inventory

Avenal has approximately 600 acres of vacant land zoned for single-family housing with a realistic capacity of approximately 4,200 units. This potential inventory is equally divided between the Moderate and Above Moderate categories. Vacant sites zoned for multi-family development total approximately 47 acres and have a realistic capacity of about 650 units. Allowable density is 29 units/acre although the inventory assumes only 14 units/acre for multi-family sites based on recent projects. This inventory exceeds the RHNA allocation in all income categories.

Appendix B

Corcoran Sites Inventory

Corcoran has approximately 454 acres of vacant land zoned for low-density and very-low-density single-family housing with a realistic capacity of approximately 2,200 units. This potential inventory is equally divided between the Moderate and Above Moderate categories. Sites zoned for multi-family development total approximately 29 acres and have a realistic capacity of about 370 units. Allowable density for multi-family sites ranges from 15 to 29 units/acre. In addition, vacant sites in the Downtown Commercial and Professional Office zones allowing high-density residential development have a realistic capacity of over 100 units. Most of the sites allowing multi-family development are vacant, although a few sites have existing structures but are underutilized.

One significant underutilized site in Corcoran (see photos below) near the northwest corner of Orange and Otis represents a redevelopment opportunity. The possible redevelopment project includes four lots, two of which are in common ownership totaling 1.93 acres. One lot, in separate ownership, is 0.42 acre and is currently vacant; while a fourth lot is 1.5 acres. The developed lots all contain substandard housing. It is believed that the property was once a farm worker housing camp that has been converted to rental units. APN 034-050-025 (0.20 acre) contains a 2-bedroom/1-bath unit of 644 square feet, built in 1920. APN 034-050-026 (1.73 acres) contain seven units, which includes the main house with 3 bedrooms, 2 bathrooms and approximately 1200 square feet and six additional units. Of the six units, three are vacant and boarded up and the other three single-room units are occupied. APN 034-050-018 (1.50 acres) also contains six units all built around 1949. Two of the units are 2-bedroom/2-bath, three units are 2-bedroom/1-bath, and one unit is a 1-bedroom/1-bath. All of these units are occupied and all appear to be substandard except one unit which was recently remodeled. The property is zoned RM-2 (low density multi-family) which allows 21.7 units/acre and is bordered by light industrial zone to the north, neighborhood commercial to the east and single-family residential to the south and west. The City will encourage the redevelopment of this site through the actions described in Program 2.7 of the Housing Plan (Chapter 5).

Hanford Sites Inventory

Hanford has over 380 acres of vacant land zoned for low-density and very-low-density single-family housing with a realistic capacity of approximately 2,500 moderate- and above-moderate-income units. Vacant sites zoned for multi-family development total over 200 acres and have a realistic capacity of about 2,700 units. Allowable density for multi-family sites ranges from 15 to 22 units/acre. In addition, vacant sites in the Downtown East Precise Plan and Office-Residential zones allowing residential development at up to 45 units/acre have a realistic capacity of over 300 units.

Appendix B

Lemoore Sites Inventory

Lemoore has approximately 442 acres of vacant land zoned for medium-low-density, low-density and very-low-density single- and multi-family housing with a realistic capacity of approximately 2,300 units. This potential inventory is divided between the Moderate and Above Moderate categories. Vacant sites zoned for multi-family residential use total about 55 acres and have a realistic capacity of about 762 lower-income units.

The General Plan and zoning regulations also designate five Mixed Use districts where retail, residential, office, business and personal services, public, and institutional uses are clustered in neighborhood-oriented centers in a variety of mixed use configurations, such as ground floor commercial with residential or office uses above, or collocation of buildings with different single uses in a contiguous area. Three-story buildings and densities of 20 units/acre are permitted. Density transfers are also allowed within centers. Typical densities of 9 units/acre are assumed in the General Plan. The land inventory includes vacant sites totaling approximately 80 acres with an estimated capacity of about 700 lower-income units.

High-density housing is also permitted in the downtown area. The downtown has three zoning districts (DMX-1, DMX-2 and DMX-3) that utilize form-based principles. The highest intensity is allowed in the DMX-1 area, which has a 40-foot height limit. The DMX-2 zone allows buildings up to 25 in height. Densities in the range of 20 units/acre are possible in the DMX districts, although the General Plan assumes a typical density of 14 units/acre. Vacant DMX sites total about 4 acres with an estimated realistic capacity of 48 lower-income units.

Kings County Unincorporated Area Sites Inventory

The County unincorporated area has approximately 440 acres of vacant land zoned for low-density and very-low-density single-family housing with a realistic capacity of approximately 1,400 units. Standard-sized single-family lots (R-1-6 and R-1-8) are equally divided between the Moderate and Above Moderate categories while larger lots are assigned to the Above Moderate category. Vacant sites zoned for multi-family residential use total over 50 acres and have a realistic capacity of about 525 lower-income units.

Table C-3. Summary of Public Comments

Comment	Response
What happens if the City doesn't achieve the RHNA allocation?	The RHNA is a planning target, not a development quota. The City's primary responsibility is to ensure that adequate sites are available to accommodate the level of development for all income segments commensurate with the RHNA. There is no penalty for not achieving housing construction equal to the RHNA.
How is the RHNA determined?	The RHNA is prepared by the Kings County Association of Governments (KCAG) as the regional planning agency for Kings County based on growth trends, local plans, physical and other constraints such as public open space, prime agricultural land and sensitive environmental resources. The RHNA is reviewed and approved by the California Department of Housing and Community Development.
What are the requirements for transitional/ supportive housing and residential care facilities?	Transitional and supportive housing must be permitted according to the same standards and procedures as apply to other residential uses of the same type in the same zone. Also, state-licensed residential care facilities for 6 or fewer persons must be treated as a family residential use. Larger care facilities for 7 or more persons may require approval of a conditional use permit and may be restricted to multi-family or non-residential zones.
How can cities be expected to meet their affordable housing needs when a major source of housing funds were eliminated with redevelopment agencies?	The RHNA is a planning target, not a development mandate or quota. Cities are not solely responsible for production of affordable housing, but they play an important role through their land use plans and development regulations. If a city has adopted plans and regulations that facilitate affordable housing development commensurate with their RHNA allocation, it will not be penalized if housing production is less than the RHNA.
