FAX: (209) 445-5910

23 November 1993

Mr. Joe De La Cruz
933 Roosevelt
Kingsburg, CA 93631

**UNDERGROUND TANK LEAK AT BUY-N-SPLIT MARKET, 500 19 1/2 AVENUE,
LEMOORE, KINGS COUNTY**

The Kings County Environmental Health Department has referred the subject case to our agency for regulatory oversight. They also provided us with information that indicates gasoline and diesel leaked at the subject facility and degraded soils and ground water. It will be necessary for you to determine the extent of soil and groundwater degradation caused by the discharge and remediate its effects.

Prior to 7 January 1994, please provide us with a description of the occurrence resulting in the discharge and the cleanup measures accomplished to date. Also by this date, provide us with a work plan for delineation of the lateral and vertical extent of soil contamination and ground water pollution, and interim remediation of the effects of the discharge. The work plan, in general, should comply with the enclosed *Tri-Regional Recommendations for Initial Evaluation and Investigation of Underground Tanks* and *Appendix A - Regional Board Staff Recommendations for Initial Evaluation and Investigation of Underground Tanks*. The work plan should include sufficient detail to allow us to determine the adequacy of the proposed study. It should also contain a time schedule for conducting the study and submitting reports. All submittals should contain the signature and seal of a California registered civil engineer, certified engineering geologist, or registered geologist who is responsible for the content of the submittal.

In addition, if you have evidence to support identification of other potentially responsible parties, we request that you identify them now by providing such evidence so they may be notified of their potential responsibility. Evidence should include the beginning and ending dates and type of involvement, the names and current addresses of all potentially responsible parties, and copies of any documents that would verify the terms and conditions of involvement.

Lastly, you should be aware of legislation to assist owners and operators of underground tanks. Senator Keene's Senate Bill 2004 (Cleanup Fund Program) offers several forms of assistance for investigation and cleanup of underground tank discharges. You may want to contact the State Water Resources Control Board at (916)739-2475 about the Cleanup Fund Program. An application for and information on the Cleanup Fund Program is enclosed. If

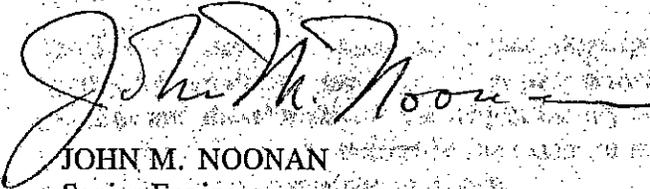

Mr. Joe De La Cruz

-2-

you have not already applied for the Cleanup Fund Program, we strongly encourage you do. In addition, I have enclosed a copy of the *Petroleum Underground Storage Tank Cleanup Fund Corrective Action Guide*. The guide contains information on choosing a consultant and obtaining a good bid (three bids are required to be eligible for reimbursement under the Cleanup Fund Program).

Should you have questions regarding this matter, please contact Russell Walls of this office at (209) 445-6192.

To: Underground Storage Tank Cleanup Fund (Fund) Claimants and Interested Parties

SUBJECT: FISCAL YEAR 2012-2013 UST CLEANUP FUND CLAIM SITE BUDGETS

The attached table provides claim site budgets for fiscal year 2012-2013 (FY 12/13) for all Priority A, B, and C claims. The Fund reasonably expects there will be sufficient gasoline storage fee revenues in the upcoming fiscal year to reimburse claims based on these budgets. The Fund also expects to pay reimbursement requests for reasonable and necessary costs of claims that stay within claim site budgets in a timely manner.

These claim site budgets are used as administrative tools to help the Fund manage both the claim-specific cash flow as well as overall program cash flow. Regardless of the budget amount identified on the attached table, reimbursements will be limited to reasonable and necessary costs. Claimants must continue to comply with regulatory directives, regardless of whether the Fund can reimburse those costs. The Fund recommends that claimants and regulators discuss strategies to continue corrective action work for those sites with limited budgets from the Fund. Implementation of successful cost-saving strategies such as optimization of both remedial processes and long-term monitoring are also strongly encouraged by the Fund to maximize limited Fund resources.

Funding Available for Reimbursements

The site budgets reflect revenue forecasts. The revenues from the petroleum storage fee are expected to be about the same for FY 12/13 as FY 11/12. The majority of the FY 11/12 budget was allocated to pay off "old costs" incurred prior to July 1, 2011. The old costs are expected to have been reimbursed by the end of June 2012. In addition approximately 600 claims should be closed out by the end of FY 11/12, freeing up some resources for active claims. Therefore, most of the FY 12/13 revenues are being allocated for budgeted costs (costs being incurred during the fiscal year and submitted in a timely manner). The amount available for budgeted costs is roughly double the amount available during FY 11/12.

CHARLES R. HOPPIN, CHAIRMAN | THOMAS HOWARD, EXECUTIVE DIRECTOR

1001 I Street, Sacramento, CA 95814 | Mailing Address: P.O. Box 100, Sacramento, CA 95812-0100 | www.waterboards.ca.gov

The Fund monitors expenditures against the actual revenues throughout the year. Dependent on available revenue, additional funding may become available during the year for claim site budgets. Justifiable increases in site budgets also can come from funds allocated to other claims that do not need them, such as claims that close during the year and claimants who inform the Fund that their claim budget is not needed for the year. In these cases it is important for the claimant to inform the Fund Manager if the budget identified in the attached table is not needed during FY 12/13 so that it can be made available for other sites for the year.

The Budget Setting Process

- Budget amounts were established based on Priority and current work phase. The Fund posted the work phase of each active claim shown in Fund records, and requested and received updates from claimants. The budget category is based on the work phase as well as the recommendation of the Fund Five-Year Review Communication with regulators also is reflected in the budget category. Specifically, claims for which the Five-Year Review recommends taking actions toward closure are in the Site Closeout budget category and costs directly related to site closure, such as monitoring well abandonment, will be reimbursed.
- Inactive claims (those claims that have not submitted reimbursement requests since January 1, 2009) were budgeted at zero dollars. These claims are being evaluated by the Fund for final audit and claim closure.
- All the Priority A claims are currently active and have been assigned a budget.
- Priority B claims on the Priority list (approximately 90) will be activated beginning July 1, and have been allocated a budget. However, in order to receive reimbursements, a claim must be active, meaning that the claimant has received an initial Letter of Commitment (LOC) and the claim has neither been suspended nor closed. Claimants with newly activated claims will receive an official Letter of Commitment from the Fund, after which they can begin submitting reimbursement requests. The remaining old costs for newly activated Priority B claims will be separately reimbursed.
- Claims in the School District Account or the Commingled Plume Account are being budgeted separately, and are not included in the attached table.

The Claim Budgets

- Priority class was considered when allocating budget amounts for each work phase. Priority A claims were funded at slightly higher levels than Priority B claims. Priority B claims were funded at slightly higher levels than Priority C claims.

- Both Priority A and B claims beginning remediation (RS/IRA or CAP/REM Startup) were given initial budgets. These budgets may be modified upon receipt of additional information concerning the details of the planned remediation system. Similarly, the budgets may be modified for claims with sites in O&M phase after claimants provide additional details of their treatment system.
- Budgets were identified for Priority C and Priority D claims at the statutory minimum of 14%.
- Individual active Priority C claims were allocated budgets similarly to Priority A and B claims. However, there are insufficient resources to reimburse costs for remediation start-up activities for the Priority C claims in that work phase. FY 12/13 budget change orders requesting additional funding for Priority C claims are less likely to be approved because, as the attached table shows, the statutory 14% minimum has nearly been met with the allocated budgets.
- Priority D claims will continue to be funded at the statutory 14% minimum. Only those claims in the Site Closeout category due to a Five-Year Review recommendation to pursue closure have been allotted a budget. These claims have the same annual budgets as Priority A, B, and C claims in the amount of \$25,000. Priority D claims in other budget categories continue to not have annual budgets identified by the Fund for FY 12/13.

Budget Change Procedures

The Fund has written Budget Change Order Request procedures and a request form which are posted to the Fund's web site. Please use this form to request a change to your claim's budget.

The additional information that will be necessary to support budget change requests for remediation start-up and O&M costs will be posted by the beginning of FY 12/13. Other than remediation change orders, the Fund may not be able to accommodate all requests due to the limited resources.

LEMOORE REDEVELOPMENT AGENCY, ASSIGNEE
JUDY HOLWELL
119 FOX ST
LEMOORE, CA 93245

Dear JUDY HOLWELL:

UNDERGROUND STORAGE TANK CLEANUP FUND (FUND), CHANGE OF CLAIMANT REQUEST FOR FORMER REDEVELOPMENT AGENCIES DISSOLVED PURSUANT TO ABx1 26

Pursuant to ABx1 26 (Stats. 2011-2012, 1st Ex. Sess., Ch. 5), Redevelopment Agencies (RDAs) have been dissolved in the State of California. Effective February 1, 2012, the former RDAs lost all authority to transact business or exercise power previously granted under the Community Redevelopment Law. ABx1 26 provides for the designation of Successor Agencies, and the transfer of assets formerly held by the dissolved RDAs to the Successor Agencies (Health & Safety Code, §§ 34173, 34175). It is the Successor Agency's responsibility to notify the Fund of the transfer of the former RDA's Fund claim.

The LEMOORE REDEVELOPMENT AGENCY, ASSIGNEE filed the following claims with the Fund:

Claim No.	Site Location
18805	500 19 1/2 AVE

The Fund requires the following documents to transfer the claim from the former RDA to the Successor Agency:

- Submit one or more of the appropriate transfer documents:
 1. Resolution by the former RDA designating a Successor Agency, if applicable
 2. Resolution by the Successor Agency accepting the designation as a Successor Agency, if applicable
 3. Other document that identifies the entity vested with the powers and duties of a Successor Agency in accordance with section 34173 of the Health &

Safety Code, if applicable

- Request For a Change of Claimant form
- Claimant Data Record form
- Certificate of Non-Recovery form
- Conditions of Payment form

Note: A Successor Agency that acquired multiple Fund claims from a former RDA may submit one set of documents, as identified above, with the exception of the Certificate of Non-Recovery and Conditions of Payment forms. A Certificate of Non-Recovery form and Conditions of Payment form must be completed for each Fund claim to be transferred. All forms requested above can be found at the following link:

http://www.waterboards.ca.gov/water_issues/programs/ustcf/forms.shtml

Submit requested documents within the next (30) thirty calendar days to my attention at:

State Water Resources Control Board
Division of Financial Assistance
Attn: Judy Reid, Settlements Manager
P.O. Box 244212
Sacramento, CA 94412

We will continue to process your claim once the above-mentioned information is received and reviewed. Upon approval of transfer, the Fund will send you information and instructions on how to request reimbursement of costs for the Fund claim. If you have questions, please call me at (916) 341-5760 or e-mail me at jreid@waterboards.ca.gov.

Sincerely,

Judy Reid, Manager

City of Lemoore
Attn: Judy Holwell
119 Fox Street
Lemoore, CA 93245

Dear Ms. Apone:

UNDERGROUND STORAGE TANK CLEANUP FUND (FUND); CHANGE OF CLAIMANT APPROVAL FOR FORMER REDEVELOPMENT AGENCIES DISSOLVED PURSUANT TO ABx1 26, FOR CLAIM NO. 18805

This letter is to inform you that the Fund has accepted the resolution for the City of Lemoore (City) to act as the successor to Lemoore Redevelopment Agency pursuant to the passage of ABx126.

The Letters of Commitment for the subject claim has been changed to reflect the City as the claimant. Accordingly, the City steps into the shoes of the Lemoore Redevelopment Agency and accepts all the Fund requirements associated with a claimant.

I have enclosed an updated copy of the Letter of Commitment and new Reimbursement Request forms and instructions. Additional information regarding the Fund and the submittal of reimbursement requests can be found at:

http://www.waterboards.ca.gov/water_issues/programs/ustcfl/.

If you have any questions regarding this transfer please contact me at (916) 341-5714 or kgarver@waterboards.ca.gov. Questions regarding the payment process should be directed to Selica Potter at (916) 327-9534 or spotter@waterboards.ca.gov.

Sincerely,

Subject to availability of funds, the State Water Resources Control Board (State Water Board) agrees to reimburse CITY OF LEMOORE (Claimant) for eligible corrective action costs at BUY-N-SPLIT MARKET, 500 19 1/2 AVE, LEMOORE, CA 93245 (Site). The commitment reflected by this Letter is subject to all of the following terms and conditions:

- 1. Reimbursement shall not exceed the limits established by section 25299.59 of the Health and Safety Code, less the applicable deductible of \$5000 per occurrence.
2. The obligation to pay any sum under this Letter of Commitment is contingent upon availability of funds.
3. All costs for which reimbursement is sought must be eligible for reimbursement and the Claimant must be the person entitled to reimbursement thereof.
4. Claimant must at all times be in compliance with all applicable state laws, rules and regulations and with all terms, conditions, and commitments contained in the Claimant's Application and any supporting documents or in any payment requests submitted by the Claimant.
5. No disbursement under this Letter of Commitment will be made except upon receipt of acceptable Standard Form Payment Requests duly executed by or on behalf of the Claimant.
6. Any and all disbursements payable under this Letter of Commitment may be withheld if the Claimant is not in compliance with the provisions of Paragraph 5 above.
7. Neither this Letter of Commitment nor any right thereunder is assignable by the Claimant without the written consent of the State Water Board.
8. This Letter of Commitment may be withdrawn at any time by the State Water Board if completion of corrective action is not performed with reasonable diligence.
9. This Letter of Commitment may be suspended or withdrawn by the State Water Board pending the investigation of activities related to this claim that are suspected in connection with fraud, waste, the abuse of public funds, or other prohibited acts.

IN WITNESS WHEREOF, this Letter of Commitment has been issued by the State Water Board this 11th day of June, 2012.

Subject: Proposal for the 2012/2013 Fiscal Year

Dear Ms. Holwell,

This proposal was prepared at the request of Ms. Lauren Apone of the Lemoore Successor Agency to the Lemoore Redevelopment Agency. The proposal covers expected costs incurred during the 2012/2013 fiscal year. The cost incurred will be associated with two groundwater monitoring events and the installation of the soil vapor extraction and air sparge remediation systems. A line item cost sheet is attached for your review.
