DOWNTOWN MERCHANTS ADVISORY COMMITTEE

Council Chamber – 429 C Street Regular Meeting Thursday – January 14, 2016 – 6:15 p.m.

AGENDA

- Call to Order
- 2. Public Comment Limited to 3 minutes per person. State your name and address for the record.
- Oath of Office New Members
- 4. Election of Officers Chair and Vice Chair
- 5. Two-year Terms Assign Members to Alternating Schedule (Holwell)
- 6. Approval of Minutes November 12, 2015
- 7. Strategic Initiatives Presentation (Welsh)
- 8. Community Investment Program (CIP) Budget Presentation (Welsh)
- 9. Responsibility for Maintenance/Repairs Downtown (Holwell)
- 10. Tree Trimming Downtown (Holwell)
- 11. FAST Credit Union Account Financial Update (Brazil/Daniel)
- 12. PBIA Account Financial Update (Holwell)
- 13. Facebook Discuss Continuing Service (Garcia)
- 14. Social Media Parameters (Brazil)
- 15. Additional Refuse Containers Downtown (Daniel & Miller)
- 16. Holiday Stroll Discussion (Brazil)
- 17. Next Regularly Scheduled Meeting February 11, 2016
- 18. Adjourn

Notice of ADA Compliance: If you or anyone in your party needs reasonable accommodation to attend, or participate in any Downtown Merchants Advisory Committee Meeting, please make arrangements by contacting City Hall at least 24 hours prior to the meeting by calling 924-6700 or by mail at 119 Fox Street, Lemoore, CA 93245.

Any writings or documents provided to a majority of the Downtown Merchants Advisory Committee regarding any item on this agenda will be made available for public inspection at the City Clerk's Counter at City Hall located at 119 Fox Street, Lemoore, CA during normal business hours. In addition, most documents will be posted on the City's website at www.lemoore.com.

CERTIFICATION OF POSTING

I, Mary J. Venegas, City Clerk for the City of Lemoore, do hereby declare that the foregoing agenda for the Lemoore Downtown Merchants Advisory Committee Regular Meeting of Thursday, January 14, 2016 was posted on the outside bulletin board located at City Hall, 119 Fox Street at or before 6:15 p.m. Monday, January 11, 2016.

_____//s// Mary J. Venegas, City Clerk

** DRAFT **

Buildings

Project Title: New Finance / UB office

Category: Buildings
Department: Parks/Recreation

Division:MaintenanceRequesting Division:FinanceStart Date (MM/DD/YY)03/01/16Completion Date (MM/DD/YY)06/30/18

Strategic Initiative: Operational Excellence

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$6,000

Subsequent Years: \$6,000

Project Description:

Relocate the Finance Department and Utility Billing Office at the Cinnamon Municipal Complex (CMC) located on Cinnamon and Liberty Drives. This project requires the building of an addition onto the existing building, which will include Americans with Disabilities Act (ADA) accessibility, safety improvements for front counter employees, and more ergonomic workspace. CMC would provide one-stop options for residents and customers to access Parks & Recreation, Public Works and Development Services and Finance to pay utility bills and obtain animal and business licenses.

Justification and Impact:

The current office location, at City Hall, 119 Fox Street, has no feasible space for an addition and has limited existing workspace. There is also a concern with employee safety for front office employees. The new office would create a centralized location for citizens to utilize several city services, allow room for finance department expansion, as needed, and provide a safe working area for staff while simultaneously addressing (ADA) compliance requirements.

Funding Source(s):

Fund 075 Facility Infrastructure Fund; Fund 068 General Municipal Facilities Fund.

Project Consideration(s):

The City must comply with ADA regulations and as an employer, it is important to provide safe and employee-friendly working conditions.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Sound System - CMC Recreation

Category:BuildingsDepartment:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 07/01/16 Completion Date (MM/DD/YY) 12/31/16

Strategic Initiative: Community & Neighborhood Livability

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Purchase and installation of a custom overhead sound system for announcements, the boxing ring, soccer field, basketball courts and large events / venues at Cinnamon Municipal Center (CMC) Recreation Center (Rec Center).

Justification and Impact:

The number of reservations at CMC Rec Center has steadily grown since the development of the building into a recreational facility. Common feedback and request from users is that the existing sound system is inadequate and hard to hear when major events are hosted in the building. Installing a ceiling mounted system designed for gymnasiums will add to the performance of the system, as well as the ambiance and atmosphere at the event. Even if this project is not done, rentals of the facility will still continue.

Funding Source(s):

Fund 074C Community/Recreation Facility Capital Impact Fee. from user groups are a possibility to explore.

Donations

Project Consideration(s):

This project will provide an expanded level of service, promote cooperation, future partnership opportunities and enhance community events/venues.

Project Title: Sound System & Stage Lighting - Civic Auditorium

Category:BuildingsDepartment:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 07/01/16 Completion Date (MM/DD/YY) 12/31/16

Strategic Initiative: Community & Neighborhood Livability

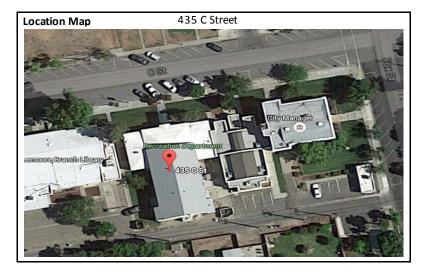

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Installation of a theater package sound system to be used for theatrical productions at the Civic Auditorium, located near Fox and C Streets, to include overhead hanging microphones and lighting. The Lemoore Recreation Department began drama classes for youth about three years ago, which serves about 80 children per year and approximately 500 attendees annually that watch the productions.

Justification and Impact:

Stage lighting and sound are critical for theatrical productions and the lack of sound and lighting has been a persistent complaint by those viewing the productions.

Funding Source(s):

Fund 074C Community/Recreation Facility Capital Impact Fee.

Project Consideration(s):

This project will provide an expanded level of service while enhancing community programming for youth and their families.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Lemoore Police Department New Flooring

Category: Buildings
Department: Parks/Recreation

Division:PoliceRequesting Division:PoliceStart Date (MM/DD/YY)07/01/16Completion Date (MM/DD/YY)08/01/16

Strategic Initiative: Fiscally Sound Government

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

The Lemoore Police Department, located at Cinnamon and Fox Street, was constructed in 2000 and the existing carpet is the original carpet. With 15 years of 24/7/365 use of the facility, the carpet needs to be replaced. This request is to install vinyl tile in high traffic areas within the Police Department. Vinyl flooring is easier to maintain and more durable for the type of use of a Police Department activities.

Justification and Impact:

High foot traffic has taken its toll on the flooring over the past fifteen years and needs to be replaced.

Funding Source(s):

075- Public Facility Infrastructure Fund, General Fund Asset Replacement

Project Consideration(s):

This will enhance the appearance of the current facility while providing longevity of the facility.

Project Title: Fire Department Renovation

Category: Buildings

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Fire

Start Date (MM/DD/YY) 07/01/16 Completion Date (MM/DD/YY) 12/31/16

Strategic Initiative: Fiscally Sound Government

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Update the main fire department building, located at Fox and C Streets, as the facility was lasted renovated in 1994. This project includes the installation of new vinyl floors in the main large upstairs and downstairs rooms, paint and new lighting in the common areas, where needed. The building was built in 1978 and last remodeled in 1994 with the addition of two bays, at which time the building received a minor facelift. Around 2010, the roof received an additional membrane.

Justification and Impact:

The main fire station has daily traffic and has not been upgraded in some areas since the facility was built. New paint and lighting will provide a more user-friendly facility and be more aesthically pleasing, while providing a fresh look to a facility utilized by the Volunteer Fire Department.

Funding Source(s):

075- Public Facility Infrastructure Fund, General Fund Asset Replacement

Project Consideration(s):

This will enhance the appearance of the current facility and provide a better workspace for the volunteers to train and work.

Project Title: Concrete Work- E-waste CMC area

Category:BuildingsDepartment:Parks/RecreationDivision:Maintenance

Requesting Division: Refuse Start Date (MM/DD/YY) 07/01/16 Completion Date (MM/DD/YY) 10/31/16

Strategic Initiative: Operational Excellence

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Add concrete pads to the electonic waste (e-waste) and oil recycling area of the CMC yard (just south of the first entry gate to the electronic entry gate).

Justification and Impact:

To provide a cleaner and safer drop off area at the recycle and e-waste site. This will also provide an impervious material to protect against oil spills absorbing into the ground. Having concrete will also allow for easier on going cleanup and maintenance of the area.

Funding Source(s):

Fund 075 Facility Infrastructure Fund.

Project Consideration(s):

This will provide public safety and enhance the appearance of the recycle and e-waste area.

Project Title: CMC Perimeter Road Work

Category:BuildingsDepartment:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)
Start Date (MM/DD/YY) 07/01/17

Start Date (MM/DD/YY) 07/01/17 Completion Date (MM/DD/YY) 10/31/17

Strategic Initiative: Operational Excellence

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Remove and replace portions of the perimeter road around the Cinnamon Municipal Complex (CMC) property and add asphalt parking from the electronic entry gate to the concrete storage bins. This will ensure that the heavy equipment, such as refuse vehicles and street sweeper, is able to traverse the property.

Justification and Impact:

Aphalted areas have lost their base and are breaking down. Repavement and additional pavement is needed in the equipment and Fleet areas of CMC. Additional parking area along the fence from the electronic entry gate to the storage bin area will provide cleaner and safer area to park the larger equipment. Compaction test cost are listed in engineering if needed.

Funding Source(s):

Fund 075 Facility Infrastructure Fund.

Project Consideration(s):

This project will improve facility access and enhance the appearance of the facility.

Project Title: Fence & Gate Maintenance

Category:BuildingsDepartment:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 07/01/18 Completion Date (MM/DD/YY) 10/31/18

Strategic Initiative: Operational Excellence

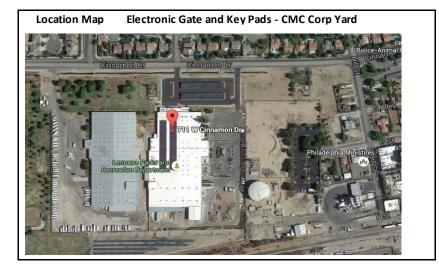

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Replace the electronic entry gate, footings and fence at the Cinnamon Municipal Complex (CMC) maintenance yard.

Justification and Impact:

The electronic entry gate at CMC is a highly used access point and will need to be replaced. Common wear parts for these systems include wheels, guides, electronic and mechanical components. This gate provides a barrier for the safe keeping of Public Work's equipment and safety for employees.

Funding Source(s):

Fund 075 Facility Infrastructure Fund.

Project Consideration(s):

Deterrent for damage to a valuable public facility and reduces future maintenance cost.

Project Title: Slurry Seal - Train Depot

Category: Buildings

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY)

Completion Date (MM/DD/YY)

Strategic Initiative: Fiscally Sound Government

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Fill the cracks in the asphalt, slurry seal the pavement and re-stripe the driveway and parking lot at the Train Depot.

Justification and Impact:

Deterioration of parking lot will require maintenance. Crack filling and slurry sealing from the entry driveway on the west end and all of the east Depot Arbor parking lot.

Funding Source(s):

Streets

Project Consideration(s):

Provides public safety, alleviates liability, prevents irreparable damage to a valuable public facility and reduces future maintenance or operating cost.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Privacy Fencing- Facilities Citywide

Category: Buildings

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY)

Completion Date (MM/DD/YY)

Strategic Initiative: Community & Neighborhood Livability

Tier: 4

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$5,000

Project Description:

Currently, numerous City facilities, such as lift stations, have open fencing. This request is to add privacy slats on fences that staff identifies as needing privacy, particularly in residential neighborhoods, to enhance the community aesthetic. Not all facilities will be fenced as they should remain open to allow for monitoring of sites by public safety.

Justification and Impact:

Beautification to various locations, concealment of property and provide storage facilities in some areas. Some of the current fences will need to be replaced to accommodate the slats. \$5,000 per year for future replacement of damaged slats will be needed.

Funding Source(s):

General Fund, Wastewater, Stormwater, or Water Fund

Project Consideration(s):

Will enhance community surroundings, and/or meet a community need that has not yet been determined.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: City Council Chamber Renovation

Category: Buildings

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 07/01/16 Completion Date (MM/DD/YY) 05/31/18

Strategic Initiative: Community & Neighborhood Livability

Tier: 1

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

The Council Chambers were likely last updated in 1993 during the initial construction. This project will update the meeting space to provide visual equipment for the public and City Council to view presentations, replace the sound and recording system, install new carpet and replace the pre-1993 seating to allow for a more versatile use of the space through the use of unafixed furniture.

Justification and Impact:

The current sound system is old and not designed for recording meetings. Te visual technology does not allow for City Council and the public to view visual presentations. The removal and replacement of seating and carpet in the City Council Chambers will allow for the ability to reconfigure floor seating, if needed. Minor floor patching will need to be done as existing seats are anchored into the floor. The existing seats were in the upstairs City Council Chambers prior to 1993.

Funding Source(s):

001 General Fund Asset Replacement

Project Consideration(s):

New visual equipment, recording devices and seating will expand the level of service available to the public and provide intergovernmental cooperation and community partnership opportunities, as well as adding value to a public facility.

Project Title: Card Reader Security System

Category: Buildings

Department: Parks/Recreation
Division: Maintenance
Requesting Division: City Manager
Start Date (MM/DD/YY) 07/01/17
Completion Date (MM/DD/YY) 06/30/18

Strategic Initiative: Fiscally Sound Government

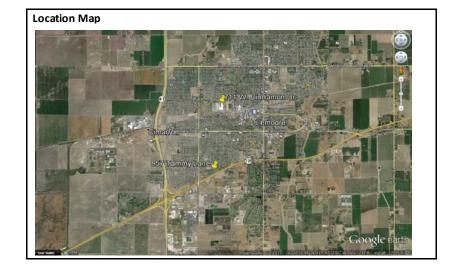

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$3,500

Project Description:

Install card reader security systems for employee entry at city facilities to ensure access is restricted and ensure employee safety. A key reader system would eliminate the need for keys and restrict access after employee terminations. The card reader system would also serve as employee badges to ensure employees can be identified as legitimate City employees.

Justification and Impact:

To secure city facilities and eliminate the amount of keys needed for each employee. Card reader systems have the ability to phase add access points, as needed.

Funding Source(s):

075 Facility Infrastructure Fund; Grant Funds

Project Consideration(s):

A security system can expand the level of service available, and will reduce future maintenance or operating cost for facility access. A card reader system will allow the city to quickly add/delete access as needed to city facilities.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Regional Dispatch Center

Category: Buildings
Department: Parks/Recreation

 Division:
 Police

 Requesting Division:
 Police

 Start Date (MM/DD/YY)
 07/01/16

 Completion Date (MM/DD/YY)
 03/01/17

Strategic Initiative: Community & Neighborhood Livability

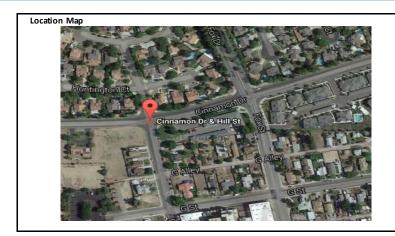

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$1,600,000

Project Description:

Construct a Regional Dispatch Center on existing police property, west of the main police department building, located at Cinnamon and Fox Streets.

Justification and Impact:

Currently, Lemoore Police and Fire Departments contract with Hanford Police Department for police and fire dispatch services. Regionalization and consolidation of dispatch services for all law and fire entities within the county are being fully explored, with the exception of Corcoran) If a Regional Center is constructed, services would be enhanced and improved to all citizens within Kings County through the elimination of dispatch services redundancy. Increased personnel will result in a need for additional parking for dispatch employees.

Funding Source(s):

Fund 066 Law Enforcement Facility and Equipment Fees; Fund 067 Fire Protection Impact Fees East; Fund 067A Fire Protection Impact Fees West; Fund 020 Traffic Safety Funds; Fund 028 State Infrastructure Budget Allocation; Outside Funding Source/Federal Grants; additional local financing as needed Fund 001 General Fund.

Project Consideration(s):

A regional dispatch facility will enhance public health, safety and welfare needs as well as expand the level of service to the community and region. This has the opportunity to promote intergovernmental cooperation and partnership opportunities.

CITY OF LEMOORE FIVE-YEAR COMMUNITY INVESTMENT PROGRAM

FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Bathroom Renovation- Cinnamon Municipal Complex

Category: Buildings

Department:Parks/RecreationDivision:MaintenanceRequesting Division:recreationreation

Start Date (MM/DD/YY) 07/01/15 Completion Date (MM/DD/YY) 12/31/15

Strategic Initiative: Operational Excellence

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

This project is to renovate the public restrooms at the Cinnamon Municipal Complex Recreation Center, located south of Cinnamon Street and West of Fox Street, including Americans with Disabilities Act (ADA) compliance.

Justification and Impact:

The current facility has underground leakage and outdated infrastructure. Allocated funds are \$116,714.

Funding Source(s):

075 Facility Infrastructure Fund - Project - 4775D-4317

Project Consideration(s):

Meets public health, safety and welfare, legal requirements and mandates for ADA facilities. The restrooms also enhance and improve community facilities.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Replace Main Water Line-Cinnamon Municipal Complex

Category:BuildingsDepartment:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 01/01/14 Completion Date (MM/DD/YY) 06/30/20

Strategic Initiative: Operational Excellence

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Replace Main Water Line inside the Cinnamon Municipal Complex facility, located near Cinnamon and Fox Streets. The line is likely over 40 years old.

Justification and Impact:

The main water line has minor leaks and has had portions replaced as additional uses have been added to the Cinnamon Municipal Complex. The next phase is to remove and replace the existing pipe during times that will have the least impact on the facility and staff.

Funding Source(s):

Fund 075 Facility Infrastructure Fund - Project - 4775A-4317 C/0 6

Project Consideration(s):

This project will potentially alleviate an emergency situation or disruption of activities and prevent major damage to a valuable public facility.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: CrossFit Room - Cinnamon Municipal Complex

Category:BuildingsDepartment:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 07/01/14 Completion Date (MM/DD/YY) 06/30/15

Strategic Initiative: Community & Neighborhood Livability

Tier: 1

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

To create a larger workout space for CrossFit at Cinnamon Municipal Complex due to increased attendance at CrossFit.

Justification and Impact:

The CrossFit class has been growing and a larger space was needed. A current unused space in the rear portion of the building was remodeled for CrossFit, with the Police Athletic League utilizing the smaller CrossFit room.

Funding Source(s):

Fund 075 - Facility / Infrastructure Fund - Project 4775G-4317

Project Consideration(s):

Will provide a expanded level of service and provide a partnership opportunity, as well as a community benefit and need for the PAL program.

Project Title: Citywide ADA Compliance

Category: Buildings

Department:Parks/RecreationDivision:MaintenanceRequesting Division:City ManagerStart Date (MM/DD/YY)07/01/18Completion Date (MM/DD/YY)06/30/20

Strategic Initiative: Operational Excellence

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Address Americans with Disabilities Act (ADA) compliance throughout the City. The City conducted an ADA assessment in 2009 that assessed ADA at City facilities and Public rights-of-way. This project is to provide ongoing funding to address ADA compliance throughout the City. ADA compliance is conducted at the time the City initiates other capital projects. This funding is to address stand-alone ADA compliance.

Justification and Impact:

Continue to fund and address ADA deficiencies throughtout the City to demonstrate the City's compliance with the 1992 Federal law.

Funding Source(s):

ADA Contingency Fund; Funds 075 Facility / Infrastructure Fund; 068 General Municipal Facilities Fee; Parks Capital Funds; Enterprise Funds; Gas Tax Funds;

Project Consideration(s):

This will meet legal, liability and safety requirements, along with federal and state mandates for ADA standards and expand the level of service to the community.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Security Gates - Wastewater Plant

Category: Buildings
Department: Public Works
Division: Maintenance
Requesting Division: Public Works
Start Date (MM/DD/YY) 04/01/17
Completion Date (MM/DD/YY) 07/31/17

Strategic Initiative: Safe & Vibrant Community

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Install two electrical gates at the Wastewater Treatment Plant to ensure the plant is secured and access is restricted to employees and vendors. This project would fund two gates to the facility- one gate on Vine Street and one gate on 19th Avenue, where access is through the Leprino treatment plant (operated by Leprino on City property).

Justification and Impact:

Installation of monitored electrical gates will provide security and safety at the Wastewater Treatment Plant. With a residential neighborhood adjacent to the facility, it is a potential hazard in which the public can enter the site. Price does not include lighting.

Funding Source(s):

Fund 060 Sewer Asset Replacement

Project Consideration(s):

The project will provide safety for the general public and could prevent damage to a public facility.

Fire

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Turnouts - Fire Personal Protective Gear

Category: Fire
Department: Fire
Division: Fire
Requesting Division: Fire
Start Date (MM/DD/YY) 08/01/16
Completion Date (MM/DD/YY) 06/30/17

Strategic Initiative: Safe & Vibrant Community

Tier: 1

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$30,000

Subsequent Years:

Project Description:

Fire volunteers use "turnouts" as their personal protective equipment when responding to calls for service. The turnouts have a useful life of approximately 10 (ten) years and then should be replaced. There are 35 volunteers and some of the volunteers have a two sets of turnouts, one at the Main Fire Department, located at Fox and C Streets, and one set at the north station, located near Cinnamon Street and 18th Avenue, so that the volunteers are able to respond to calls at the station they are closest to at the time of the service call.

Justification and Impact:

This request is to replace existing turnout equipment due to the lifespan of the equipment. The request is to replace 25 sets in one year and 20 sets in the second year (at a cost of \$1200 per turnout).

Funding Source(s):

General Fund

Project Consideration(s)

Personal protective equipment is at its useful life.

									Beyond 10

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Fire Squad Truck- Asset Replacement

Category: Fire
Department: Fire
Division: Fire
Requesting Division: Fire
Start Date (MM/DD/YY) 08/01/16
Completion Date (MM/DD/YY) 06/30/17

Strategic Initiative: Safe & Vibrant Community

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$30,000

Subsequent Years:

Project Description:

Currently, the fire department utilizes a 2004 squad truck as the primary first responder vehicle for grass fires, traffic accidents and medical calls. A 1994 squad truck serves as a back-up vehicle in case the 2004 truck is unavailable. As the 1994 vehicle is obsolete (useful life of squad trucks is typically 15-20 years), this request is to replace the 2004 truck as the primary responding vehicle with a new fire squad truck that will have the capability to address small house fires, medical calls, traffic accidents and grass fires. The 1994 truck would be retired and the 2004 vehicle would become the secondary/back-up unit.

Justification and Impact:

This request is to replace an existing asset. Fire Department is requesting to replace a 2004 Ford Rescue vehicle equipped with Jaws of Life. The Ferrara Crew Cab Freightliner that is requested will replace #9.

Funding Source(s):

Fire Department, with the support of the Lemoore Police Department, applied for a Homeland Security Grant to pay for the freightliner. Status is pending regarding the approval or denial. Should the funding application be denied, the Department will re-apply for funding. If the funding request is denied a second time, the funding would likely need to come from the City. Fund 001 Asset Replacement; Fund 028 General Fund Grants.

Project Consideration(s)

Servicability of aging assets are beyond useful life.

Golf Course

Project Title: Greens Bank Mower

Category: Golf Course
Department: Parks/Recreation
Division: Golf Course
Requesting Division: Golf Course
Start Date (MM/DD/YY) 07/01/16
Completion Date (MM/DD/YY) 09/30/16

Strategic Initiative: Operational Excellence

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$500

Project Description:

Replace the current mower that maintains the outer greens' banks and surrounding golf play areas. The current unit is used daily and is approximately 20 years old. A typical life expectancy of this type of equipment is 5-8 years.

Justification and Impact:

The current unit requires multiple passes to provide a marginal look and play area. The unit is used daily and is well past its life cycle and repairs are costly. Additional staff time is needed to repeat patterns to to obtain a proper mowing patte+A39nr.

Funding Source(s):

Fund 045 Golf Course Asset Replacement

Project Consideration(s):

Will reduce maintenance time with a more efficient unit. The golf course operator will consider purchase of a used unit in good condition.

									Beyond 10

Project Title: Turbine Blower - Maintenance

Category: Golf Course
Department: Parks/Recreation
Division: Golf Course
Requesting Division: Golf Course
Start Date (MM/DD/YY) 07/01/17
Completion Date (MM/DD/YY) 06/30/18

Strategic Initiative: Operational Excellence

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$100

Location Map

Iona Ave.

Project Description:

Purchase a turbine blower to efficiently blow leaves and debris off the course, club house grounds and parking lot areas to improve aesthetics and course playability. The course does not currently have a unit of this type. Another golf course donated a used unit that was originally designed for agriculture and is currently in use.

Justification and Impact:

This is a versatile unit that will reduce maintenance time, provide a cleaner appearance and ensure the course is more playable during the fall (a heavy leaf debris season). There will be a staff savings of about 30% using a heavier piece of equipment. This unit would bring the course up to a higher level of play as the golf course does not typically blow leaves off the course in the fall season.

Funding Source(s):

Fund 045 Golf Course

Project Consideration(s):

Increases the level of service and beautification of a City facility.

Department: Parks/Recreation
Division: Golf Course
Requesting Division: Golf Course
Start Date (MM/DD/YY) 07/01/16
Completion Date (MM/DD/YY) 08/31/16

Strategic Initiative: Operational Excellence

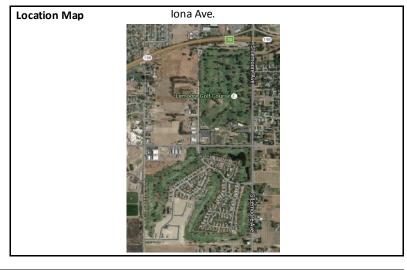

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Replace the current tables and chairs with more comfortable and inviting seating to encourage patrons to stay in the facility longer. It is estimated that the furniture is about 11-14 years in age and the tabletops have a permanent sticky residue.

Justification and Impact:

The current tables and chairs need refinishing or replacing. They are not comfortable or inviting for patrons to use. A more inviting and comfortable atmosphere will likely generate additional revenue.

Funding Source(s):

Fund 045 Golf Course Asset Replacement

Project Consideration(s):

Expands the level of service and beautification of a City facility, while potentially adding revenue.

Project Title: Rough Mower
Category: Golf Course
Department: Parks/Recreation
Division: Golf Course
Requesting Division: Golf Course
Start Date (MM/DD/YY) 07/01/16
Completion Date (MM/DD/YY) 12/31/16

Strategic Initiative: Operational Excellence

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

The mower maintains grass that is not on the fairway and out of range of play and is approximately 18-20 years in age. The current unit is an attachment to a tractor, so if the tractor is inoperable, the mower is not able to be used. This unit is in operation 40 hours per week. This mower is similar to a unit used at parks facilities.

Justification and Impact:

The current unit is old and breaks down daily. During the summer months, it is estimated that maintenance is approximately \$300 per month.

Funding Source(s):

Fund 045 Golf Course Asset Replacement

Project Consideration(s):

Project Title: Sand Bunker Machine

Category: Golf Course

Department: Parks/Recreation

Division: Golf Course

Requesting Division: Golf Course

Start Date (MM/DD/YY) 01/01/17

Completion Date (MM/DD/YY) 03/30/17

Strategic Initiative: Operational Excellence

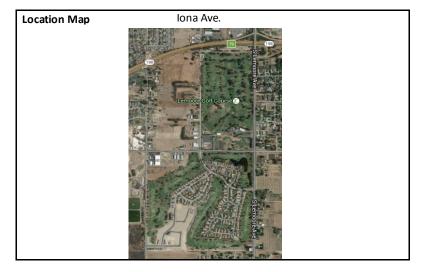

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Replace the current sand bunker machine that grooms the sand traps daily, at a minimum. The equipment is about 15 years old. A typical life expectancy is 8-10 years. The machine takes about 4 hours to scarify the sand, as opposed to about 7 hours by hand to rake all 18 sand traps.

Justification and Impact:

Without the machine, the grooming of the sand traps will need to be done by hand and is a more time consuming method.

Funding Source(s):

Fund 045 Golf Course Asset Replacement

Project Consideration(s):

Project Title: Point of Sale Software

Category: Golf Course
Department: Parks/Recreation
Division: Golf Course
Requesting Division: Golf Course
Start Date (MM/DD/YY) 01/01/17
Completion Date (MM/DD/YY) 04/30/17

Strategic Initiative: Operational Excellence

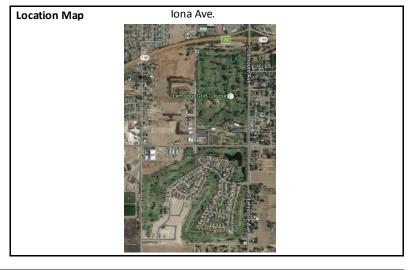

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Replace the current point of sale system with a modernized system. The current point of sale system software is about 15 years old and is not able to be updated. The operator would look at updating the current system or acquiring a new software system.

Justification and Impact:

A new system has much more to offer and improved convenience features for staff and patrons. Some of the features a new system would provide are retail inventory presentation (providing price tags instead of hand pricing retail items), provide a tracking mechanism of loyalty points for repeat customers, and tie into the City's financial software system.

Funding Source(s):

Fund 045 Golf Course Asset Replacement

Project Consideration(s):

Provides a new level of service including tracking loyalty points, provides report accountability, expands the market areas and adds convenience for staff and patrons.

Project Title: Chemical Sprayer Vehicle

Category: Golf Course
Department: Parks/Recreation
Division: Golf Course
Requesting Division: Golf Course
Start Date (MM/DD/YY) 07/01/17
Completion Date (MM/DD/YY) 10/31/17

Strategic Initiative: Operational Excellence

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$500

Project Description:

A large cart/vehicle with chemical sprayer applicator unit to apply herbicides, fertilizers, and nutrients. The tank is an antiquated agriculature sprayer that is over 20 years old.

Justification and Impact:

The current tank unit is lifted onto a vehicle and has controls that are outdated and failing. Fertilizing, nutrients and weed control are an ongoing part of the upkeep and excellence of play for the course. A vehicle driven chemical sprayer provides efficiency in time and effectiveness of product application.

Funding Source(s):

Fund 045 Golf Course Asset Replacement

Project Consideration(s):

Expands the efficiency and benefits the City's investment through reduction in future maintenance and operating cost.

Project Title: Parking Lot Repair
Category: Golf Course
Department: Parks/Recreation
Division: Golf Course
Requesting Division: Golf Course
Start Date (MM/DD/YY) 09/01/17
Completion Date (MM/DD/YY) 12/31/17

Strategic Initiative: Operational Excellence

Tier: 1

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Repair and/or resurface the existing parking lot.

Justification and Impact:

There are cracks and beginning loss of the parking lot surface requiring pavement maintenace and/or resurfacing. The longer the interval between periodic maintenance, there is the potential for an increased maintenance cost.

Funding Source(s):

Fund 045 Golf Course

Project Consideration(s):

Prevents future irreparable damage to a public facility.

Project Title: Fairway Mower
Category: Golf Course
Department: Parks/Recreation
Division: Golf Course
Requesting Division: Golf Course
Start Date (MM/DD/YY) 09/01/17
Completion Date (MM/DD/YY) 12/31/17

Strategic Initiative: Operational Excellence

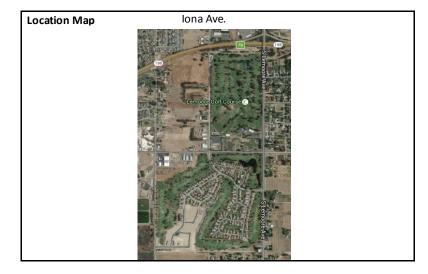

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$500

Project Description:

Replace current Fairway Mower to keep the fairways maintained in a professional manner. The current mower is 20+ years in age and is used 5 days per week.

Justification and Impact:

The current unit is aging and will need to be replaced.

Funding Source(s):

Fund 045 Golf Course Asset Replacement

Project Consideration(s):

This purchase could reduce maintenance and operating costs and enhance the course play.

									Beyond 10

Project Title: Utility Vehicles (2)
Category: Golf Course
Department: Parks/Recreation
Division: Golf Course
Requesting Division: Golf Course
Start Date (MM/DD/YY) 08/01/17
Completion Date (MM/DD/YY) 12/31/18

Strategic Initiative: Operational Excellence

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$300

Project Description:

Replace the current GEM Cart (an electric vehicle) and ZAP truck (used as the mechanics vehicle) with two (2) utility work vehicles for golf course staff to maintain and access the course more efficiently. The new utility work vehicles will have a utility box in the rear of the vehicle and allow for the carrying of equipment. The vehicles are a heavier duty golf cart type vehicle with a stronger gas motor, suspension and larger tires.

Justification and Impact:

Purchase two new utility work vehicles at a cost of \$14,000 per unit over the course of two budget years. The units would be more usable and effective for the type of work done on and around the Golf Course.

Funding Source(s):

Fund 045 Golf Course Asset Replacement

Project Consideration(s):

These purchases could add efficiency and possible reduce future maintenance costs.

									Beyond 10
Expenditure Category	Prior Year Funds	FY 15-16	FY 16-17	FY 17-18	FY 18-19	FY 19-20	Total	Years 6-10	Years

Project Title: Greens Mowers (2)
Category: Golf Course
Department: Parks/Recreation
Division: Golf Course
Requesting Division: Golf Course
Start Date (MM/DD/YY) 11/01/17
Completion Date (MM/DD/YY) 02/01/19

Strategic Initiative: Operational Excellence

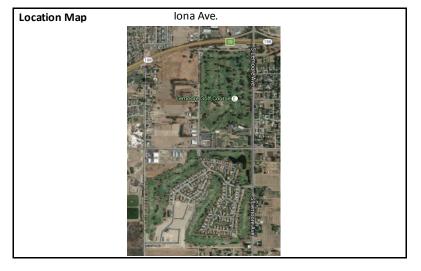

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$500

Project Description:

Replace two current putting greens (greens) mowers. Each unit costs \$39,500. Two units are needed to have a back-up unit in case one unit is down for an extended period of time, as well as to expedite the mowing of the greens. It is an industry standard to have 2 mowers, as greens are mowed 7 days per week. The two units are from 1999.

Justification and Impact:

One of the current units (1992 model) was just rebuilt at a cost of \$5,000. These mowers are used seven days a week and are necessary for good play on the course. If one unit breaks down, the other unit must mow the entire course. The equipment is old and requires daily fix and repair.

Funding Source(s):

Fund 045 Golf Course Asset Replacement

Project Consideration(s):

Possible reduction in future maintenance and operating costs and greater efficiency with less time in maintenance.

									Beyond 10

Project Title: Tee Mower with Baskets

Category: Golf Course
Department: Parks/Recreation
Division: Golf Course
Requesting Division: Golf Course
Start Date (MM/DD/YY) 07/01/18
Completion Date (MM/DD/YY) 09/30/18

Strategic Initiative: Operational Excellence

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$500

Project Description:

Purchase a tee mower with clipping basket. A tee mower grooms the tee box areas, while simultaneously collecting the clippings, for a more professional play surface. This mower is used 3 days per week. Currently, an older fairway mower is used to mow the tees.

Justification and Impact:

A tee mower grooms the tee box areas, gathering the clippings verses scattering them on the green. This provides a more professional play surface for the golfer.

Funding Source(s):

Fund 045 Golf Course

Project Consideration(s):

Raises the level of service of the golf course play surfaces.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM

Iona Ave.

Project Title: Debris Sweeper
Category: Golf Course
Department: Parks/Recreation
Division: Golf Course
Requesting Division: Golf Course
Start Date (MM/DD/YY) 07/01/18
Completion Date (MM/DD/YY) 09/30/18

Strategic Initiative: Operational Excellence

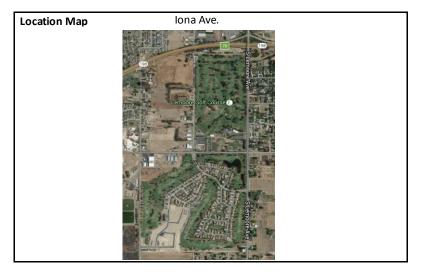

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$500

Project Description:

Purchase a debris sweeper for large and small material on the golf course. The course does not have a debris sweeper and currently the debris sits on the side of the fairways or mow them into mulch on the sides of the fairways.

Justification and Impact:

A debris sweeper will benefit the golf course play through removal of leaves, small limbs, and greens' plugs. Staff aerates the greens periodically and the plugs can interfere with the mower blades. The sweeper provides an improved play surface after aeration.

Funding Source(s):

Fund 045 Golf Course

Project Consideration(s):

This purchase would need to occur after the purchase of a turbine blower.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Maintenance Shop Buildings

Category:Golf CourseDepartment:Parks/RecreationDivision:Golf CourseRequesting Division:Golf CourseStart Date (MM/DD/YY)07/01/18Completion Date (MM/DD/YY)03/31/19

Strategic Initiative: Operational Excellence

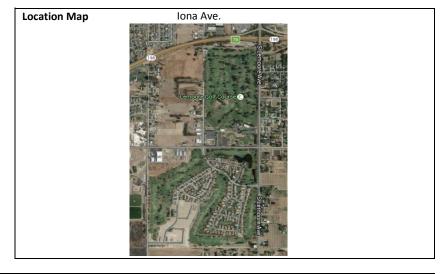

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Redesign, remove and replace the existing Maintenance Buildings at the Golf Course. The buildings are likely over than 50 years in age and were not designed for the current use as a golf maintenance yard. The location of the maintenance buildings at the front of the facility do not provide for a welcoming entrance to the facility.

Justification and Impact:

Demolish the existing buildings used for maintenance and replace the buildings with new facilities that are functionable and efficient for all the needs required to maintain the course. Demo cost are estimated at \$40,000 with Construction cost at \$380,000 and \$30,000 in Engineering.

Funding Source(s):

Fund 045 Golf Course Asset Replacement

Project Consideration(s):

Improves a city facility, reduces future maintenance and operating costs with more efficient facilities and enhances aesthetics.

CITY OF LEMOORE FIVE-YEAR COMMUNITY INVESTMENT PROGRAM

FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: BMX Track Category: Parks

Department: Parks/Recreation Division: Recreation

Requesting Division: Recreation Start Date (MM/DD/YY) 02/16/16 Completion Date (MM/DD/YY) 07/31/18

Strategic Initiative: Community & Neighborhood Livability

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Relocate the bicycle motocross, also known as BMX, track east of Highway 41 and south of Iona Avenue, as a result of the 19th Ave overpass. This project has involved costs associated with relocating the track and installing a water line to address dust control issues in a more efficient manner than the current leaking truck method.

Justification and Impact:

Provides an additional recreational amenity to the community and may generate additional revenue through sporting events. Current capital project 4730I allocated \$37,000 leaving a \$22,111 balance after expenditures.

Funding Source(s):

074 Park and Recreation Impact Fee.

Project Consideration(s):

Provide an expanded level of service in additional community features, improving and promoting partnership opportunities.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Park Development - Bevilaqua Park

Category: Parks

Department:Parks/RecreationDivision:MaintenanceRequesting Division:Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 06/01/25 Completion Date (MM/DD/YY) 07/01/26

Strategic Initiative: Community & Neighborhood Livability

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$0

Project Description:

Develop a Park Facility Master Plan for Bevilaqua Park, located north of Cedar Avenue and west of Acacia Drive. This park is currently being remediated for environmental hazards and is currently zoned as a park facility.

Justification and Impact:

Layout plans and design for future park space and provide recreational greenspace within the City. A certain portion of Parks and Recreation Impact Fees may only be used for the development of new park facilities.

Funding Source(s):

Fund 074 Park and Recreation Capital Impact Fees and Fund 074B Park Improvements Capital Impact Fees

Project Consideration(s):

Adds an additional community amenity, expands recreational facilities and may promote partnership opportunities.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Lighting / Electrical - Downtown D St.

Category: Streets

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)
Start Data (MM/DD/VV) 06/01/25

Start Date (MM/DD/YY) 06/01/25 Completion Date (MM/DD/YY) 06/01/25

Strategic Initiative: Safe & Vibrant Community

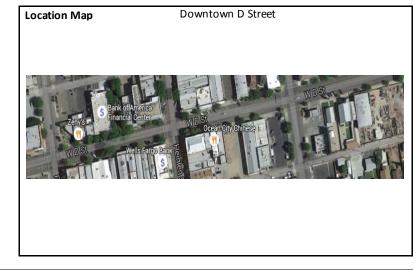

Tier: 4

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Installation of LED up lighting on all tree wells - 21 lights on north side of D Street and 23 on the south side of D Street. This will require boring under the street and sidewalks. It would not make sense to just include lighting, so included in the package is lighting, irrigation and electrical outlets. Also included are strings of LED lights in all 44 trees.

Justification and Impact:

Ambiance and safety to provide an inviting shopping area in downtown Lemoore.

Funding Source(s):

General Fund

Project Consideration(s):

Provide for public safety, welfare, enhance community features, expand opportunities for downtown activities and meet community needs. Will be done in conjunction with downt

Project Title: Lighting Heritage Park

Category: Parks

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 03/01/17 Completion Date (MM/DD/YY) 06/30/18

Strategic Initiative: Safe & Vibrant Community

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Location Map

551 E. Hanford-Armona Road

Project Description:

Safety is a concern at Heritage Park as expressed by neighbors and public safety. This project provides for funding to conduct a safety assessment and determine a course of action to address illegal activities, such as drugs. Safety features may include, but are not limited to, lighting, fencing, modifying the layout of park amenities and/or security cameras.

Justification and Impact:

Creating safe park facilities is important to ensure the community has a place to recreate in a safe manner.

Funding Source(s):

Fund 074 Parks and Recreation Capital Impact Fees

Project Consideration(s):

Provide public safety, health, welfare, and protect a public facility.

Project Title: LED Dual Sided Signage - Cinnamon Municipal Complex Rec

Category: Parks

Department:Parks/RecreationDivision:MaintenanceRequesting Division:Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 07/01/16 **Completion Date (MM/DD/YY)** 09/31/2016

Strategic Initiative: Community & Neighborhood Livability

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$1,500

Project Description:

Install a two sided, LED information sign along the streetscape in front of the Cinnamon Municipal Complex Recreation Center. Information regarding City events and activities would notify passersby of City happenings. Additionally, the sign would identify the City facility for Public Works, Development Services and Parks and Recreation.

Justification and Impact:

A large display sign would inform citizens and facility patrons communication of current and upcoming events at this facility. Sign could also be used for other forms of communication, i.e..Holiday Schedules, Water Conservation Messages. Currently there is no directional signage to alert passersby of the complex and City facilities available at the complex.

Funding Source(s):

General Fund

Project Consideration(s):

Sign will expand the level of service, promote cooperation with other community entities and improve community communication.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Restroom - Kings Lions Park

Category: Parks

Department: Parks/Recreation Division: Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 02/01/17 Completion Date (MM/DD/YY) 05/31/17

Strategic Initiative: **Growing & Dynamic Economy**

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Kings Lions Park - New Bathroom

Project Description:

Remove and replace the existing restrooms at Kings Lions Park, located at 19th Avenue and Hwy 198. The project also includes electrical, sewer and water upgrades to modernize the outdated facility. Additionally, new landscaping of the perimeter areas will be completed utilizing drought tolerant foliage, hardscape, and efficient irrigation systems. Project will allow park to use less water.

Justification and Impact:

Current facility is undesirable and undersized for large events and does not meet current building codes. The electrical panels are outdated and need to moved from current location.

Funding Source(s):

Fund 001 General Fund Asset Replacement; Fund 075 Facility Infrastructure Fund.

Project Consideration(s):

Will meet mandates, expand and improve level of service to the community and reduce future maintenance repairs.

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Kings Lions Park - New Pavilion

Project Description:

Build a new large pavilion at Kings Lions Park, located at 19th Avenue and Highway 198, that includes lighting, drought tolerant landscaping, two large bar-b-ques and picnic tables. There is not a pavilion at the park currently.

Justification and Impact:

The City's other two pavilions located at Lemoore Lions and Heritage Parks are in high demand and a third pavilion will provide an additional facility for parties and events to the community, as well as service this section of town and potentially provide additional revenue. The City's two current ramadas are rented every weekend during summer.

Funding Source(s):

Fund 074 Parks and Recreation Capital Impact Fees

Project Consideration(s):

Provide an expanded level of service, promotes family, enhances community features and meet community needs. This project also accommodates the master plan for the redesign of the park at 19th Avenue.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Playground System - Kings Lions Park

Category: Parks

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 01/01/16 Completion Date (MM/DD/YY) 06/30/16

Strategic Initiative: Growing & Dynamic Economy

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Design and install a new playground at Kings Lions Park, located at 19th Avenue and Highway 198, with a shade structure. The park does not currently have a playground at the park. High summer temperatures limit the use of playground facilities that are not shaded.

Justification and Impact:

This is part of the master plan for the redesign of the park at 19th Avenue. The City applied for and received grants for a playground and rubber bark, providing another recreation opportunity to the citizens.

Funding Source(s):

CA Dept Housing & Community Development 2013 Housing Related Parks Program Grant - 13-HRPP-9241 - \$120,475

Tire Derived Product Grant for Bark TDP - 15-14-0007- \$20,000

Capital \$60,000

Parks

Project Consideration(s):

Provide an expanded level of service, enhance community features and meet community needs. The shade structure will increase play availability during the season (April through October) on the equipment and has potential for expanding the longevity of the equipment.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Outfield Lights - Vierra Field

Category: Parks

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 03/01/16 Completion Date (MM/DD/YY) 09/01/16

Strategic Initiative: Community & Neighborhood Livability

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$500

Project Description:

Kings Lions Park, located at 19th Avenue and Highway 198, softball fields currently has some field lighting; however there is a dark spot in the field that would be remedied by the installation of an outfield light. There have been complaints by users of the facility that there is a dark spot on the field during evening games.

Justification and Impact:

The field would be lighting to an improved standard with minimal operating costs, except for an increased cost in electricity.

Funding Source(s):

Fund 074 Parks and Recreation Capital Impact Fees

Project Consideration(s):

Promote safety, enhance community features and meet community needs.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Storage Facility - Kings Lions Park

Category: Parks

Department:Parks/RecreationDivision:MaintenanceRequesting Division:Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 02/01/17

Completion Date (MM/DD/YY) 07/01/18

Strategic Initiative: Community & Neighborhood Livability

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

This project is to construct an enclosed maintenance storage facility at Kings Lion Park, located at 19th Avenue and Highway 198. Should a restroom rehabilitation project be undertaken, the current storage would be eliminated. The storage facility houses softball field maintenance and park maintenance equipment.

Justification and Impact:

If a storage facility is not built, staff would have to transport the equipment from another location. There would be staff time savings if the storage facility is located at the park site in which it is used.

Funding Source(s):

Fund 074 Parks and Recreation Capital Impact Fees

Project Consideration(s):

Maintains a current level of service if new restrooms are built. Should park maintenance ever be outsourced, storage may not be needed.

CITY OF LEMOORE FIVE-YEAR COMMUNITY INVESTMENT PROGRAM

FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Palm Tree Removal - City Park

Category: Parks

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 01/01/18 Completion Date (MM/DD/YY) 06/30/18

Strategic Initiative: Fiscally Sound Government

Tier: 1

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Remove the palm trees at City Park due to safety and maintenance concerns. The project includes funding a few replacement trees.

Justification and Impact:

Due to the size of the large palm trees, they are too large for staff to maintain. The palm roots have damaged irrigation lines and have attracted vermin and undesireable wildlife within the foilage and root systems. Additionally, residents have expressed safety concerns with the falling palm fronds as they are not maintained to remove dead foliage. Existing trees provide a limited shade benefit; however do create a sense of ambiance.

Funding Source(s):

General Fund

Project Consideration(s):

Address community concerns and reduced long-term maintenance costs.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Drought Landscaping - Plaza Park

Category: Parks

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 05/01/16 Completion Date (MM/DD/YY) 07/31/16

Strategic Initiative: Fiscally Sound Government

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$2,000

Subsequent Years: \$2,000

Project Description:

Remove all fescue grass in the front and back portion of the park and replace those areas with artificial turf. Turf is recommended in lieu of other drought tolerant landscaping to allow for the park space to continue to be rented or utilized for weddings, ceremonies, and City events (such as Evening Under the Stars). This project will demonstrate the City's committment to reducing water consumption.

Justification and Impact:

Water cutbacks have been mandated by the State and this project will set an example for the community. Artificial turf is an appropriate surface for patrons currently using the park for weddings and events. There is potential for water and maintenance savings.

Funding Source(s):

General Fund

Project Consideration(s):

This project will meet state mandates, provide for public welfare in water savings, enhance community features and meet long term community needs.

Project Title: Restroom - Depot Arbor

Category: Parks

Department:Parks/RecreationDivision:MaintenanceRequesting Division:Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 10/01/16

Start Date (MM/DD/YY) 10/01/16 Completion Date (MM/DD/YY) 05/31/17

Strategic Initiative: Safe & Vibrant Community

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Ramanda Building - West End

Ramanda Building - East End

Project Description:

Convert two existing ramadas located at the Train Depot Arbor, located near E and Follet Streets, to a restroom and a storage facility. The Depot Arbor is used for several large annual functions, such as Rockin' the Arbor, and patrons must utilize portable restrooms or walk to the skatepark to use a restroom. The Chamber of Commerce does not have a storage facility and this would provide a place for their additional storage needs. There is a possibility that if a cross-valley rail line ever ran from Huron to Exeter, with a stop in Lemogre, a restroom facility would be needed

Justification and Impact:

Funding Source(s):

Fund 074B Park Improvements Capital Impact Fees

Project Consideration(s):

Provide for public health, safety, welfare, expand partnership opportunities, enhance community features and meet community needs.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Splash Pad at Rotary Waterpark / Skatepark

Category: Parks

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 03/01/18 Completion Date (MM/DD/YY) 05/31/19

Strategic Initiative: Community & Neighborhood Livability

Tier: 4

Funded or Unfunded

Estimated Ongoing Operating Expenses:

First Year: \$2,000

Subsequent Years: \$2,000

Project Description:

Remove the existing turf circle at Rotary Park and replace the area with a second splash pad water feature, including a 5,000 gallon recyclable water tank. The existing concession stand (currently vacant) would be converted into a pump house. The splash pad would have amenities to focus on the 6-12 year olds. While the perception may be that a splash pad uses alot of water, this facility would recycle water.

Justification and Impact:

Meet the expanding population and demographic needs of 6-12 year olds in a more cost efficient manner than building a new pool.

Funding Source(s):

Fund 074 Parks and Recreation Capital Impact Fees

Project Consideration(s):

Enhance community features and provide for an additional demographic.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Palm Tree Removal - Heritage Park

Category: Parks

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY)

Completion Date (MM/DD/YY)

Strategic Initiative: Fiscally Sound Government

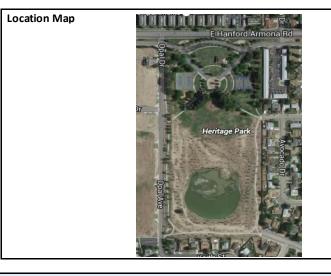

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Remove the palm trees at Heritage Park, located near Hanford Armona Road and 18th Avenue, due to safety and maintenance concerns. The project does not include funding any replacement trees.

Justification and Impact:

Due to the size of the large palm trees, they are too large for staff to maintain. The palm roots have damaged irrigation lines and have attracted vermin and undesireable wildlife within the foilage and root systems. Additionally, residents have expressed safety concerns with the falling palm fronds, as they are not maintained to remove dead foliage. Existing trees provide a limited shade benefit; however do create a sense of ambiance. Trees have been planted in the south end of the park and a few in the north end.

Funding Source(s):

General Fund

Project Consideration(s):

Provide for public health, safety, welfare, prevent damage to a public facility, and enhance community features.

Project Title: Irrigation System - Lions Park

Category: Parks

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 09/01/17 Completion Date (MM/DD/YY) 12/30/17

Strategic Initiative: Fiscally Sound Government

Tier: 3

Funded or Unfunded

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

852 Fox Street Sheffield Ct Final Ct Entitol Ct Residue Ct Re

Project Description:

Redesign Lions Park, located at Fox Street and Fallenleaf Drive, irrigation system to install new conduit, valves, sprinklers and wiring to improve efficiency of the irrigation system. This project will reduce water consumption and provide for better mangement of the irrigation system by allowing for the irrigation system to be utilized in a "zone" based manner, instead of watering the grass as one unit.

Justification and Impact:

Replace and install new irrigation system to provide an efficient and cost saving system. Vermin create havoc in the current system that are not in conduit. With the partial standardone watering units currently in use, maintenance is not able to control when an area irrigates, causing batteries to be replaced at a higher than normal level. A new system will allow for the ability to control the watering schedule and amounts remotely, thereby reducing staff time.

Funding Source(s):

Fund 074B Park Improvements Capital Impact Fees

Project Consideration(s):

Meet state mandates for water conservation, prevent ireparable damage to a public facility, and enhance community features and levels of activities.

Project Title: Landscaping - City Hall / Council Chambers / Civic Auditorium

Category: Parks

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 05/01/16 Completion Date (MM/DD/YY) 07/31/16

Strategic Initiative: Fiscally Sound Government

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Lemore Food Locker C St Reservation Department

Project Description:

Remove existing fescue grass at City Hall, Civic Auditorium, and Council Chambers to demonstrate the City's committment to water conservation. The City complex, located at a prime downtown location of Fox and C Streets, provides an opportunity to showcase drought tolerant plants. Artificial turf would be installed in front of the Civic Auditorium as the facility is often used for special events. All existing irrigation would be converted to either drip and/or mist irrigation.

Justification and Impact:

It is anticipated that there will be cost savings due to a reduction in water consumption and a savings in maintenance. The project would also demonstrate the City's commitment to water conservation in light of current drought conditions.

Funding Source(s):

General Fund, donations, grants

Project Consideration(s):

This project will help meet drought restrictions; while potentially providing an opportunity for the commmunity to join together in an "adopt-a-plot" program for installation of the drought tolerant plants.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Solar Power Structure South Lemoore

Category: Parks

Department:Parks/RecreationDivision:Maintenance

Requesting Division: Maint (Parks & Bldgs)

Start Date (MM/DD/YY) 07/01/17 Completion Date (MM/DD/YY) 07/01/18

Strategic Initiative: Fiscally Sound Government

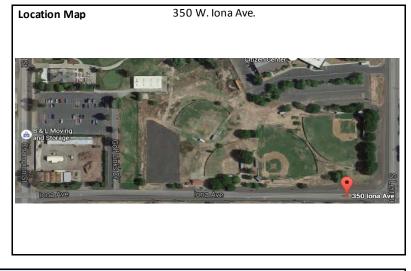

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$2,000

Project Description:

Install a solar parking structure at Golf Course that has the potential capacity to support electricial needs (or at least augement electric consumption) at the Golf Course, Senior Center and Little League Fields. There is a possibility that the time of day usage of electricity varies at the sites (i.e. golf course during the day and Little League activities in the evening) so that all three facilities could benefit. The senior center may have solar installed as part of the current Community Development Block Grant (CDBG) funding.

Justification and Impact:

All three enties have concerns regarding operational costs and cost containment of electricity. The use of solar could take a huge burden off all three entities. Ongoing yearly maintenance is estimated at \$2,000 per year.

Funding Source(s):

074C Community/Recreation Facilities Capital Impact Fee

Project Consideration(s):

This project will provide for reduced energy costs, promote partnership opportunities and meet long term community needs to keep the Senior Center and Little League complex self sustaining.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title:General Plan UpdateCategory:Professional Services

Department:Public WorksDivision:Public WorksRequesting Division:PlanningStart Date (MM/DD/YY)07/01/16Completion Date (MM/DD/YY)06/30/17

Strategic Initiative: Community & Neighborhood Livability

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$0

Project Description:

A general plan is a planning document based on input from city officials and community members. The input is used to develop a vision of how the community should look in the future. All growth within the city limits and in the surrounding sphere of influence should then follow the plan. An outside consultant will be procured to perform a comprehensive general plan update.

Justification and Impact:

The State of California recommends cities update their general plan every 10 years. Lemoore's 2030 General Plan was last adopted May 6, 2008. Since that time, the economy has changed and development in the community has shifted from the west side of State Route 41 to potentially east of the Lemoore Canal, and north of Hanford-Armona Road. An updated general plan will provide a road map for Lemoore's future growth and provide a basis for developing infrastructure master plans. These plans will then provide a basis for updating our development impact fee schedule.

Funding Source(s):

General Fund & Development Impact Fees (General Plan Update Fee)

Project Consideration(s):

Council priority and mandated by the state.

Department: City Manager
Division: Human Resources
Requesting Division: City Manager
Start Date (MM/DD/YY) 07/01/16

Strategic Initiative: Community & Neighborhood Livability

06/30/17

Tier: 2

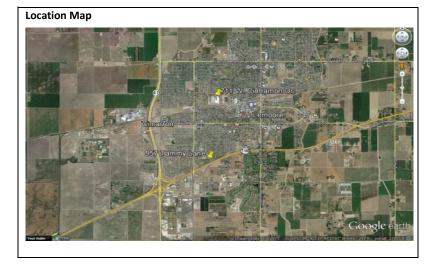

Completion Date (MM/DD/YY)

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$0

Project Description:

The City has never formally conducted a classification and compensation study for City employees. Compensation and classifications have been reviewed on an as-needed basis and always been conducted internally. The City will need to develop a City Council adopted philosophy regarding compensation, as well as establish benchmark cities.

Justification and Impact:

City employees are the City's most valuable assets. Lemoore's pay structure has never been reviewed by a third party, and as a result, the labor unions have negotiated a number of specialty pay options, in lieu of adjusting employee's total compensation on a comprehensive level. If the City wants to attract and retain the best employees, the City should conduct a review of compensation and classifications.

Funding Source(s):

General Fund

Project Consideration(s):

The first phase of the project is to conduct a study. Any future salary increases will have a long-standing impact on the general fund.

CITY OF LEMOORE FIVE-YEAR COMMUNITY INVESTMENT PROGRAM

FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Zoning Code Update
Category: Professional Services

Department:Public WorksDivision:Public WorksRequesting Division:PlanningStart Date (MM/DD/YY)07/01/17Completion Date (MM/DD/YY)06/30/18

Strategic Initiative: Community & Neighborhood Livability

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$0

Project Description:

A zoning code regulates the development and use of land in accordance with the general plan in a manner that protects the public health, safety, comfort and convenience, and welfare of residents and businesses in Lemoore. It also provides information to facilitate the efficient review of development proposals, while providing opportunity for public review and comment for proposals that may have a significant impact on the community. An outside consultant will be procured to perform a comprehensive zoning code update.

Justification and Impact:

A zoning code should be updated following a comprehensive general plan update so that the use of land and development standards are consistent with the community's vision as identified in the adopted general plan. It is expected that the general plan will be updated in Fiscal Year 2016-2017. Therefore, the zoning code should be updated the following year.

Funding Source(s):

General Fund

Project Consideration(s):

Cohesion in planning for future city growth.

Project Title: Development Impact Fee Schedule Update

Category: Professional Services

Department: Public Works
Division: Public Works
Requesting Division: Planning
Start Date (MM/DD/YY) 07/01/18
Completion Date (MM/DD/YY) 06/30/19

Strategic Initiative: Fiscally Sound Government

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$0

Project Description:

Development impact fees are designed to be collected from new development in the community to equitably and sufficiently fund new infrastructure required to handle increased service demands created by the new development. An outside consultant will be procured to perform the update.

Justification and Impact:

The development impact fees were last comprehensively updated in 2005, and a West Side Streets & Thoroughfares Impact Fee Study was completed in 2010. It has been a priority of Council to ensure that new development pays its own way. Following the proposed general plan update, infrastructure master plans will be developed. After the necessary infrastructure is known, the Development Impact Fee Schedule should be updated to take into consideration the increased costs associated with the additional infrastructure.

Funding Source(s):

Development Impact Fees

Project Consideration(s):

Impact fees are needed to provide for safe, vibrant communities as the city grows.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Master User Fee Schedule Update

Category: Professional Services

Department:Public WorksDivision:Public WorksRequesting Division:PlanningStart Date (MM/DD/YY)07/01/16Completion Date (MM/DD/YY)06/30/17

Strategic Initiative:

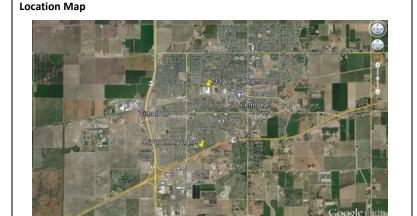

Tier: 1

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$0

Project Description:

Master user fees are payments made by an individual for a governmental service that primarily benefits the individual. Public agencies impose such fees when the individual's decision to use the service is voluntary and the fee charged is reasonably related to the level of service rendered and the cost of providing that service. A comprehensive update performed by an outside consultant is recommended so that the fees charged are justified.

Justification and Impact:

The last comprehensive update and adoption of the Master User Fee Schedule was done through a study by MuniFinancial in 2004. Since that time, staff annually reviews the fee schedule to determine areas that may need to be adjusted, and Council is given the opportunity to review and update the fees. Because 12 years has past since the last study, a comprehensive update should be performed to ensure that payment for services are reflective of the actual cost of performing the service.

Funding Source(s):

General Fund

Project Consideration(s):

Fees are outdated and need to be evaluated. This is also a Council Priority.

Refuse

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Front Loader Refuse Truck Replacement

Category:RefuseDepartment:Public WorksDivision:RefuseRequesting Division:RefuseStart Date (MM/DD/YY)04/01/16Completion Date (MM/DD/YY)12/31/16

Strategic Initiative: Operational Excellence

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$25,000

Subsequent Years: \$30,000

Project Description:

Purchase one front loader Compressed Natural Gas (CNG) refuse truck to replace a diesel rear load vehicle. Additionally, by changing to a front loader vehicle, the refuse trucks will be able to service larger dumpster sizes (up to 8 cubic yards). This replacement purchase is the last unit to convert to a front loader and will standardize the City's frontline commercial fleet to all front loaders, with the exception of one back-up rear load vehicle.

Justification and Impact:

The City's replacement philosophy is to replace refuse vehicles after 8-10 years in service. This diesel unit was purchased in 2006. A new unit will require less maintenance.

Funding Source(s):

Available Grants (\$20,000) or Asset Replacement. (\$280,000)

Project Consideration(s):

CNG reduces emissions.

Project Title: Additional Side Loader Refuse Truck

Category: Refuse
Department: Public Works
Division: Refuse
Requesting Division: Refuse
Start Date (MM/DD/YY) 01/01/22
Completion Date (MM/DD/YY) 06/30/22

Strategic Initiative: Operational Excellence

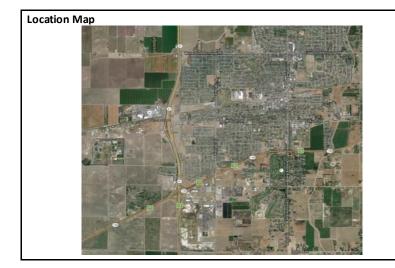

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$80,000

Subsequent Years: \$85,000

Project Description:

This request is to purchase an additional side loader residential refuse truck in anticipation of residential growth in the community, whether to growth at Lemoore Naval Air Station or other market forces.

Justification and Impact:

Currently, refuse routes are operating at near-full capacity.

Funding Source(s):

Fund 076 Refuse Impact Fees or available grants. (\$300,000)

Project Consideration(s):

This purchase would allow the City to prepare for growth.

Project Title: Front Loader Refuse Truck Replacement

Category:RefuseDepartment:Public WorksDivision:RefuseRequesting Division:RefuseStart Date (MM/DD/YY)04/01/18Completion Date (MM/DD/YY)12/31/18

Strategic Initiative: Operational Excellence

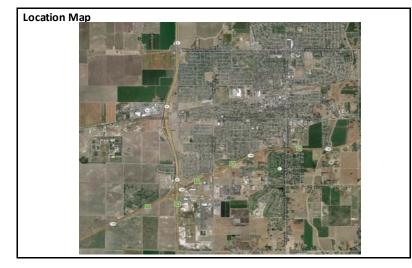

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$25,000

Subsequent Years: \$30,000

Project Description:

Replace one large front loader Compressed Natural Gas (CNG) refuse truck with a new smaller CNG refuse vehicle. A smaller vehicle will allow for the servicing of refuse in alleys and apartment complexes. The vehicle will also reduce or eliminate back-up due to the ability to make sharp right turns and avoid striking overhead wires. The current vehicle is at the end of its useful life after 8-10 years of service.

Justification and Impact:

A smaller vehicle will allow for better access in tight locations and improve safety for employees and the general public.

Funding Source(s):

Refuse Asset Replacement. (\$300,000)

Project Consideration(s):

Storm Drain

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: CMC Storm Drain Basin Improvements

Category: Storm Drain

Department: Public Works

Division:SewerRequesting Division:SewerStart Date (MM/DD/YY)01/01/21Completion Date (MM/DD/YY)12/31/22

Strategic Initiative: Operational Excellence

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Construct a new stormwater lift station and electrical panel, due to the paved Cinnamon Municipal Complex parking lot that increased the amount of water flowing into the basin. Pacific Gas and Electric (PG&E) power must also be installed at a potential additional cost.

Justification and Impact:

PG&E would need to install power to operate the lift station. The lift station would be capable of draining the pond at a faster rate than the current single pump.

Funding Source(s):

Fund 069 Storm Drainage Facility Fee.

Project Consideration(s):

With the addition of a parking lot, curb and gutter additional stormwater will flow into the basin. The installation of a new lift station will help to drain the basin and would accommodate more stormwater from the G Street and the Leprino East plan area.

Location Map Cedar Ln Representation of the control of the contr

Project Description:

Complete a retention basin with the construction of a new storm lift station along with a pipeline to the Wetlands. Bevilaqua Park is located on Cedar Lane west of Acacia Drive.

Justification and Impact:

The completion of the storm water lift station and storm water line will allow for storm water to be pumped toward the Wetlands. Currently, storm water travels from the Cedar Lane lift station, located on Cedar Lane at 19th Avenue, which then goes into Vierra Field. These improvements will direct some of the storm water to a different location, which will alleviate some of the flooding in the PW Engvall School and residential area nearby.

Funding Source(s):

Fund 069 Storm Drainage Facility Fee.

Project Consideration(s):

The completion of this project will benefit the public by eliminating flood problem areas and is to be conducted in conjunction with the Bevilagua Park Development Project.

the completion of this project will be left the public by eliminating flood problem areas and is to be conducted in conjunction with the bevinduda Park Development Project.

CITY OF LEMOORE FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Storm Drain Reimbursements

Category:Storm DrainDepartment:Public Works

Division:SewerRequesting Division:SewerStart Date (MM/DD/YY)07/01/15Completion Date (MM/DD/YY)06/30/20

Strategic Initiative: Growing & Dynamic Economy

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

This capital request serves as a contingency amount to ensure funds are available to reimburse developers for potential storm drain line extensions, oversizing of lines and/or pump station oversizing to accommodate future growth. This method reduces the impact of construction in the future and allows for the installation of infrastrucutre to allow for future growth in a more efficient manner. In FY 2017, staff anticipates a drainage project for a new residential subdivision north of D street and near the East end of Bush Street.

Justification and Impact:

This request provides for a contingency fund for potential new development to oversize storm water lines. If development projects do not occur, the funds are not expended.

Funding Source(s):

Fund 069 Storm Drainage Facility Fee

Project Consideration(s):

Funds are not expended if there is not new development that requires facility oversizing.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Industrial Park Improvements

Category:Storm DrainDepartment:Public Works

Division: Sewer
Requesting Division: Sewer
Start Date (MM/DD/YY) FY 18/19
Completion Date (MM/DD/YY) FY 20/21

Strategic Initiative: Growing & Dynamic Economy

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Construct a new storm pump lift station at the Industrial Park ponding basin located southwest of Olam Foods. This project includes the installation of a pipeline from the lift station to the D-1 ditch located on the north side of Idaho Avenue. As the Industrial Park becomes more developed, additional storm drain infrastructure is required to ensure proper drainage in this area. This project enhances the economic development viability of the Industrial Park.

Justification and Impact:

The new lift station will provide the capability of transferring storm water from the basin into the canal. Currently, storm water must evaporate from the retention pond or a portable pump is used to expedite drainage.

Funding Source(s):

Fund 069 Storm Drainage Facility Fee.

Project Consideration(s):

This project will allow for an expanded level of service to existing and future businesses located in the Industrial Park.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Storm Drain Master Plan

Category: Storm Drain

Department: Public Works

Division:SewerRequesting Division:SewerStart Date (MM/DD/YY)09/01/16Completion Date (MM/DD/YY)09/20/18

Strategic Initiative: Operational Excellence

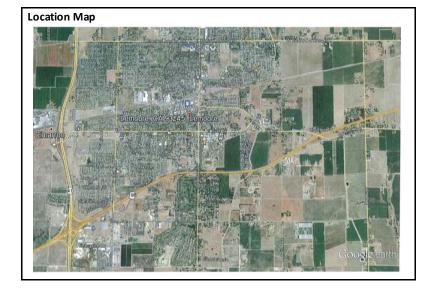

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

A stormwater master plan will assess the current conditions of the City's system and set forth a long-term plan that guides flood management, stormwater drainage (detention, retention, and sewers) and stormwater quality.

Justification and Impact:

The master plan is needed to create a dependable collection system and provide quality service to the community. The City has not ever conducted a stormwater master plan. The master plan will document all pumps, lift stations, valves and size and location of City infrastructure.

Funding Source(s):

Fund 060 Sewer

Project Consideration(s):

The master plan will provide the community with a roadmap to address potential deficiencies. The community will benefit through reduced operational costs and improved functionality of system. Staff will evaluate conducting a comprehensive master plan that includes stormwater, water, and wastewater.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM

FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Message Boards - Road Work

Category:StreetsDepartment:Public WorksDivision:Streets

Requesting Division: Streets
Start Date (MM/DD/YY) 07/01/16
Completion Date (MM/DD/YY) 10/31/16

Strategic Initiative: Operational Excellence

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$50,000

Subsequent Years:

Project Description:

Variable message signs provide a safe method to notifying motorists of traffic congestion, accidents, incidents, roadwork zones, or speed limits on a specific roadway segment. Additionally the signs may be used to provide information, such as event information or alternative routes.

Justification and Impact:

Variable message signs are the safest means for notifying motorists of changes in traffic patterns and road conditions. City staff currently uses flashers and hand held Stop/Slow sign

Funding Source(s):

Gas Tax

Project Consideration(s):

Message boards play an essential role in keeping the work zone safe. A variable sign is more visible, ultra-bright and highly legible, with a variety of functions for any application.

Project Title: Transportation Master Plan

Category: Streets
Department: Public Works
Division: Streets
Requesting Division: Streets
Start Date (MM/DD/YY) 07/01/16
Completion Date (MM/DD/YY) 06/30/17

Strategic Initiative: Fiscally Sound Government

Tier: 1

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$200,000

Subsequent Years: \$7,000

Project Description:

This project is to develop a Citywide Transportation Master Plan (TMP) that will provide a framework for transportation plan that evaluates traffic flow patterns for current needs and future growth. A (TMP) will describe Lemoore's multimodal transportation (vehicular, pedestrian, and non-motorized equipment) and how it will develop over the next 10-25 years. The TMP identifies programs, services, and facilities that Lemoore will implement to help people get where they need to go in a safe and efficient manner.

Justification and Impact:

The TMP will encourage the development of a complete transportation network throughout the community to create a more balanced transportation system. Investments in the transportation system

Funding Source(s):

034 Gas Tax

Project Consideration(s):

The Plan will ensure that new and updated public and private projects are planned, designed, maintained and operated to enable safe, comfortable and convenient travel to the greatest extent possible.

Project Title: Tammy Lane Extension

Category: Streets
Department: Public Works
Division: Streets
Requesting Division: Streets
Start Date (MM/DD/YY) 07/01/16
Completion Date (MM/DD/YY) 06/30/17

Strategic Initiative: Safe & Vibrant Community

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$192,500

Subsequent Years:

Location Map

Completion of Tammy Lane Between 19th Avenue and Cottonwood

Project Description:

Construct an extension of Tammy Lane, between 19th Avenue and Cottonwood Lane, to provide a thoroughfare adjacent to Kings Lions Park. The project includes water and sewer line infrastructure, curb and gutter. The project will also enhance access to the east side of Kings Lions Park, including the dog park.

Justification and Impact:

Connecting Tammy Lane east of 19th Avenue to Cottonwood Lane north of the 19th Avenue Park will improve the traffic pattern to the park, and alleviate some of Cedar Lane east/west traffic flow

Funding Source(s):

065 A Streets and Thoroughfares West

Project Consideration(s):

This project will address a previously identified capital need and will address connectivity throughout the community.

Location Map

East Cedar Lane Extension from Brooks Drive to Lemoore Avenue. (Not to specs.)

Project Description:

Construction of East Cedar Avenue from Vine Street to Lemoore Avenue as identified in the General Plan to enhance connectivity and reduce congestion through the City.

Justification and Impact:

Engineering for this project was funded in 2012 by the City Council. The next step is to acquire property, construct the roadway, connect water and sewer lines to eliminate dead-ends in this location,

Funding Source(s):

Fund 065 Streets/Thoroughfare East Capital Impact Fees and Gas Taxes, carry over of \$1,415,163 on Account 065-4721B

Project Consideration(s):

An additional study will be done to see if the 19th Ave interchange elevated some traffic issues on Bush Street.

Project Title: E Street Reconstruction

Category: Streets

Department: Public Works

Division:StreetsRequesting Division:StreetsStart Date (MM/DD/YY)07/01/16Completion Date (MM/DD/YY)06/30/18

Strategic Initiative: Operational Excellence

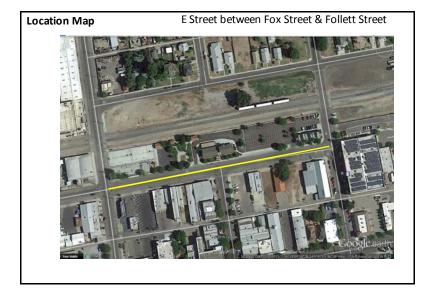

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$0

Project Description:

Reconstruct the sidewalk, curb and gutter on E Street from Fox to Heinlen Streets, including some portions just west of Follett Street.

Justification and Impact:

Provide accessible walkways; storm water drainage and streetscape for the downtown business district. The current sidewalks are deteriorating and some need to be reconfigured

Funding Source(s):

Gas Tax; ADA Funds; Local Transportation Funds, Property Owners

Project Consideration(s):

This project identifies a future capital need, enhances public safety, welfare and potentially could stimulate economic growth in the downtown district. Some of the expense will be re-cooped from property owners assessed for their portion of the sidewalk and/or curb and gutter.

Project Title: D Street Reconstruction

Category: Streets

Department: Public Works

Division:StreetsRequesting Division:StreetsStart Date (MM/DD/YY)07/01/16Completion Date (MM/DD/YY)06/30/18

Strategic Initiative: Operational Excellence

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$0

Project Description:

Streetscape D Street from intersection at Fox to Follet Streets. Project will address deficiencies with storm water, aging water lines, curb/gutter, electrical (for future lighting enhancements to the area) and Americans with Disabilities Act (ADA) requirements.

Justification and Impact:

Standing water is common in downtown after a rainstorm. D Street currently uses gravity to drain to the alley north of D street. This project will provide accessible walkways; enhance storm water drainage and overall streetscape for the downtown business district. Current sidewalks are deteriorating and some need to be reconfigured for ADA compliance. Additionally, this project will include the undergrounding of electrical to provide for the ability to light the streetscape (trees and over the roadway) year-round.

Funding Source(s):

Gas Tax; ADA Funds; Local Transportation Funds, Property Owners, Fund 069 Storm Drainage Facility Fee.

Project Consideration(s):

This project identifies a future capital need, enhances public safety, and potentially could stimulate economic growth in the downtown district. Some of the expense may be obtained from property owners assessed for their portion of the sidewalk and/or curb and gutter.

Wastewater

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Sewer Line Extensions

Category: Wastewater

Department: Public Works

Division:SewerRequesting Division:SewerStart Date (MM/DD/YY)07/01/15Completion Date (MM/DD/YY)06/30/20Strategic Initiative:Not Applicable

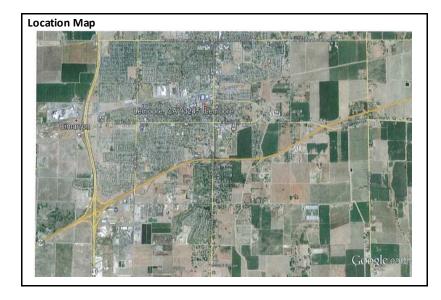

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

This capital request serves as a contingency amount to ensure funds are available to reimburse developers for potential wastewater line extensions, oversizing of lines and/or pump station oversizing to accommodate future growth. This method reduces the impact of construction in the future and allows for the installation of infrastructure to allow for future growth in a more efficient manner.

Justification and Impact:

This request provides for a contigency fund for potential new development to oversize wastewater lines. If development projects do not occur, the funds are not expended.

Funding Source(s):

Fund 071A Wastewater Collection Facility Fees

Project Considerations:

Gap funding for new projects.

Subsequent Years:

Project Description:

Excavation is needed to replace the existing transite sewer lines that are failing due to crown rot and age of the infrastructure in the subdivision located off of Belle Haven Drive. Polyvinylchloride (PVC) pipe will be used for replacement of the line, with a projected lifespan of 50 years. The existing line is over fifty years old, as it was installed in 1961. Should it be determined that the pipe needs to be upsized for future development (residential and/or commercial), the line will be upsized at time of construction.

Justification and Impact:

Improve the quality of the collection system due to degrading lines. In 2007, ground water infiltrated into the sewer line just before the lift station, causing the pumps to run for extended periods of time. When the line was repaired, it was determined that hydrogen sulfide caused the deterioration of the top of the pipe. The Cimarron Park subdivision was built in 1961 and the age of the lines are over 50 years old. Due to the age of the lines, staff has not cleaned lines in this area since December 2007 due to concerns that cleaning the lines might cause a line to rupture.

Funding Source(s):

Sewer Asset Replacement 060

Project Considerations:

If this repair is not made, groundwater may infiltrate the wastewater system and cause malfunctions with the lift station or increase operating costs of the lift station. There is a possibility the pipe lines may collapse, causing sink holes, which will in turn create problems and disrupt service to the residents.

Expenditure Category	Prior Year Funds	FY 15-16	FY 16-17	FY 17-18	FY 18-19	FY 19-20	Total	Years 6-10	Beyond 10 Years

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Replace Sewer Line- E and Olive Streets

Category: Wastewater
Department: Public Works

Division:SewerRequesting Division:SewerStart Date (MM/DD/YY)FY 15/16Completion Date (MM/DD/YY)FY 17/18

Strategic Initiative: Operational Excellence

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Replace existing 10" sewer line on E and Olive Street, specifically E Street west from Hill Street to North Olive Street and Olive Street south approximately 300 feet to prevent groundwater infiltration and eliminate sewer back-ups.

Justification and Impact:

Improve the quality of the collection system by replacing the corrugated pipe with polyvinylchloride pipe. Sewer back-ups are becoming commonplace in this section of the line.

Funding Source(s):

Sewer Asset Replacement 060, Currently carryover of \$82,000 060-4260-4850AR project 42601

Project Considerations:

If this repair is not made, groundwater may infiltrate the line and may cause the lift station to malfunction or increase costs of operating the lift station. There is a possibility of the pipe lines collapsing, which may cause sink holes.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Thomas Lift Station Wet Well Rehabilitation

Category: Wastewater

Department: Public Works

Division:SewerRequesting Division:SewerStart Date (MM/DD/YY)FY 16/17Completion Date (MM/DD/YY)FY 17/18

Strategic Initiative: Operational Excellence

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

Contractors will be used to recoat the interior of Thomas Lift Station wet well and replace all pump rail and hardware deteriorated by sulfuric gases. The Thomas lift station is located at 699 South Vine Street on the west side of Vine Street approximately 1200 feet south of Highway 198.

Justification and Impact:

The recoating of the lift station will eliminate futher damage and costs associated with repairs.

Funding Source(s):

Sewer Asset Replacement 060, carry over of \$100,000 account 060-4260-4850AR project 42602.

Project Considerations:

If this repair is not made we may have infiltration from ground water that would increase the flow to the lift station causing pumping costs to go up. The fittings and rails will continue to deteriorate.

Expenditure Category	Prior Year Funds	FY 15-16	FY 16-17	FY 17-18	FY 18-19	FY 19-20	Total	Years 6-10	Beyond 10 Years

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Waste Water Treatment Plant

Category:WastewaterDepartment:Public WorksDivision:SewerRequesting Division:SewerStart Date (MM/DD/YY)FY 15/16Completion Date (MM/DD/YY)FY 20/21

Strategic Initiative: Operational Excellence

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$600,000

Project Description:

Conduct a feasibility/engineering study to determine the highest and best use for the City's treated wastewater. This project would budget for the assessment and potential land acquisition, and construction of a new wastewater treatment plant to meet tertiary standards will create multiple options for the effluent discharge.

Justification and Impact:

Should the City decide to treat pursue a higher quality treatment of the wastewater, the final wastewater discharged will have several options to be utilized. The highly treated wastewater could be used to help recharge the aquifer, recycle for reclaimed water reuse put on wetlands and meet State Regional Water Quality Control Board discharge standards. The City of Lemoore currently has only one discharge source for treated wastewater out to Westlake Farms. Tertiery quality water allows for multiple discharge points.

Funding Source(s):

Fund 071 Wastewater Treatment/Disposal Capital Impact Fee; Fund 071AWastewater Collection Capital Impact Fee; Sewer Set Aside Funds; Alternate Funding

Project Considerations:

Without a new wastewater plant the benefits of reclaimed water would be lost. Violations may become a problem in the future with the existing plant causing the State Water Regional Water Quality Control Board to impose fines. Current plant is operating within the local community and odor issues are a continued concern.

Project Title: Wastewater Master Plan

Category: Wastewater

Department: Public Works

Division:SewerRequesting Division:SewerStart Date (MM/DD/YY)FY 15/16Completion Date (MM/DD/YY)FY 16/17

Strategic Initiative: Operational Excellence

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

A wastewater master plan will provide a comprehensive assessment of the entire wastewater treatment and collection systems (pipes and pumping stations) to develop a long-term plan for existing and new infrastructure.

Justification and Impact:

The master plan is needed to create a dependable collection system and provide quality service to the community. A master plan will document all pumps, lift stations, valves and size of lines.

Funding Source(s):

Fund 060 Sewer

Project Considerations:

The master plan will provide the community with a roadmap to address potential deficiencies. The community will benefit through reduced operational costs and improved functionality of system. Staff will evaluate conducting a comprehensive master plan that includes stormwater, water, and wastewater.

Project Title: Restore Brookfair Lift Station

Category: Wastewater

Department: Public Works

Division:SewerRequesting Division:SewerStart Date (MM/DD/YY)FY 19/20Completion Date (MM/DD/YY)FY 21/22

Strategic Initiative: Operational Excellence

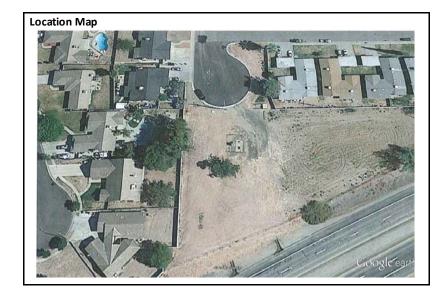

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years:

Project Description:

The Brookfair lift station is located on northeast corner of Highway 198 and Vine Street. This is the start of a new preventative maintenance program to address deteriorating wet wells by recoating the concrete surfaces after removing all of the mechanisms in the wet. Once all of the components are removed, a full inspection of the site will ensue.

Justification and Impact:

Repairs made will improve the quality of the collection system and preventing futher damage reducing capital costs.

Funding Source(s):

Sewer Asset Replacement 060

Project Considerations:

The number of repairs will increase over time along with associated costs.

Project Title: Westlake Sewer Outfall Line

Category: Wastewater

Department: Public Works

Division:SewerRequesting Division:SewerStart Date (MM/DD/YY)FY 19/20Completion Date (MM/DD/YY)FY 20/21

Strategic Initiative: Operational Excellence

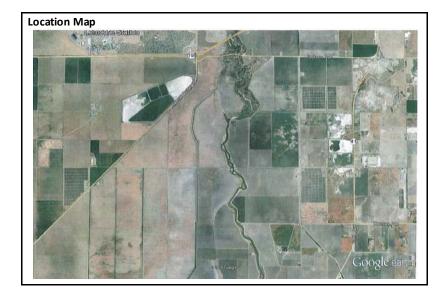

Tier: 1

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Replace existing open ditch with an enclosed pipeline to transfer treated City wastewater effluent to Westlake Farms. The canal runs approximately 5 miles from 1/2 mile South of highway 198 to Laurel Avenue in Stratford. This project is to comply with state regulations to dry out all canals annually to prevent the development of fisheries.

Justification and Impact:

This is a new state mandate.

Funding Source(s):

Loan, Fund 060, sewer asset replacement, grants, Westlake Farms and Leprino Foods

Project Considerations:

Other alternatives staff will explore include the purchase property and install infrastructure to retain 400 acre feet of water or install temporary measures to dry the canal up incrementally with portable pumps and hoses. This project cost is worst case scenario.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Upgrade Cimarron Park Lift Station & Force Main

Category: Wastewater

Department: Public Works

Division:SewerRequesting Division:SewerStart Date (MM/DD/YY)FY 18/19Completion Date (MM/DD/YY)FY 21/22

Strategic Initiative: Operational Excellence

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

This project is to replace the lift station, install a new force main and upsize the line from 8" to 12", at the wastewater facility located near the east end of Park Lane, near Belle Haven Drive. The facility is over 50 years old and beyond its serviceable life. The line will be upsized to accommodate future growth.

Justification and Impact:

This project is required due to the end of life cycle of the life station and associated components, as well as accommodate future growth on the west side of Highway 41.

Funding Source(s):

Wastewater Collection Facility Fee 071A, carry over of \$325,000 from 071A

Project Considerations:

The Cimmaron lift station is over 50 years old with aging equipment that needs to be upgraded to accommodate future growth of the entire area west of Highway 41 by Leprino Foods and West Hills College.

Project Title: Wastewater SCADA System

Category: Wastewater
Department: Public Works

Division:SewerRequesting Division:SewerStart Date (MM/DD/YY)FY 18/19Completion Date (MM/DD/YY)FY 20/21

Strategic Initiative: Operational Excellence

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Installation of a Supervisory Control and Data Acquisition (SCADA) system to monitor city lift stations electronically. A SCADA system will automate much of the processes, as well as, collect and store information for reporting, troubleshooting, and maintenance. If a new wastewater treatment plant is built, a SCADA system would be installed at the plant at that time.

Justification and Impact:

A SCADA system will monitor the lift station alarms and will allow for remote access.

Funding Source(s):

Wastewater Collection Facility Fee 017A

Project Considerations:

A SCADA system may eliminate some call outs, thereby reducing costs. SCADA may provide quicker response time avoiding possible violations from State Water Resources Control Board.

Location Map

Project Title: New Emergency Trailer

Category: Water Department: **Public Works** Division: Water Requesting Division: Water Start Date (MM/DD/YY) 02/01/16 Completion Date (MM/DD/YY)

Strategic Initiative: Operational Excellence

04/30/16

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

\$1,500 First Year:

Subsequent Years: \$1,500

Project Description:

To purchase a new Water Department emergency response trailer. The Water Department needs a new 18' enclosed trailer to include a new generator, shoring equipment, trash pumps, trash pump hoses, cutting torches, wet cutting saws, tool box, various hand tools, shovels, rakes, digging bars, gloves, ear, nose and eye protection, lighting and electrical cords.

Justification and Impact:

Due to the State and Federal laws the Water Department is requesting an emergency response trailer to respond to water breaks. When a water line breaks and equipment is shared with the wastewater division, cross-contamination could become a public health and safety issue.

Funding Source(s):

Fund 050 Water

Project Consideration(s):

This project is for public health and safety welfare and provides an expanded level of service.

CITY OF LEMOORE FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Water Treatment Plants

Category: Water
Department: Public Works
Division: Water
Requesting Division: Water
Start Date (MM/DD/YY) 01/01/15
Completion Date (MM/DD/YY) 06/30/17

Strategic Initiative: Safe & Vibrant Community

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$0

Location Map

Well 7 Site

Well 11 Site

Project Description:

The City may need to build two (2) water treatment plants to treat TTHM (Total Trihalomethanes) in the City's water. A report recommending a treatment solution is expected in January 2016 that will determine whether the City needs to build two plants. Building two plants is the worst case treatment scenario.

Justification and Impact:

The State of California has mandated that City water be treated to new Federal standards. If the City does not comply with the new standards, the state may implement fines or pursue an alternative course of action.

Funding Source(s):

Fund 050 Water; Fund 050 Water Set Aside Funds; State Water Resources Control Board Loan; Other financing if available.

Project Consideration(s):

This project protects public health and is mandated by the Federal and State government.

Expenditure Category	Prior Year Funds	FY 15-16	FY 16-17	FY 17-18	FY 18-19	FY 19-20	Total	Years 6-10	Beyond 10 Years

CITY OF LEMOORE FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: New Southeast Well Site 16

Category: Water
Department: Public Works
Division: Water
Requesting Division: Water
Start Date (MM/DD/YY) 07/01/16
Completion Date (MM/DD/YY) 12/31/18

Strategic Initiative: Community & Neighborhood Livability

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year: \$0

Subsequent Years: \$0

Location Map Well Site Behind County Fire Department on Lemoore Ave. Kings County Department

Project Description:

This project is to drill a new water well in the southeast portion of the City to ensure adequate water supply. The City Engineer conducted a hydrology study and identified this site as a good source of potential water source.

Justification and Impact:

The City needs to provide clean and safe drinking water to its residents. To continue to do so, the City must drill additional water wells. If the City fails to plan for new wells, the City will be unable to fulfill water demand needs for existing and new commercial, industrial and residents, which may limit growth. There is \$1,500,000 (070-4750B-4318) allocated in fund 070 fiscal year 2013- 2015.

Funding Source(s):

Fund 070 Water Supply Capital

Project Consideration(s):

Ensures adequate water supply for current and future needs.

Expenditure Category	Prior Year Funds	FY 15-16	FY 16-17	FY 17-18	FY 18-19	FY 19-20	Total	Years 6-10	Beyond 10 Years

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Replace Well 8

Category: Water
Department: Public Works

Division: Water
Requesting Division: Water
Start Date (MM/DD/YY) 03/01/16
Completion Date (MM/DD/YY) 12/31/18

Strategic Initiative: Growing & Dynamic Economy

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Well 8 supplies water to Olam for their processing plant. Well 8 began to pull sand and when repairs were attempted, it was discovered the well casing collapsed. Due to the collapse, well 12 is now providing water. As a result, water demand on Well 12 is difficult to manage when water needs are high from residents and Olam. This project is to redrill a new water well in an adjacent location. The well is shallower well that uses untreated water for Olam to rinse their products.

Justification and Impact:

Without taking the necessary action to redrill Well 8 at a deeper depth, the City would have to continue to divert water from residential supply. Additional loss to other city wells could cause a water shortage.

Funding Source(s):

Fund 050 Water Asset Replacement. Outside funding may be available.

Project Consideration(s):

Alleviates sevice disruption, promotes economic growth.

Expenditure Category	Prior Year Funds	FY 15-16	FY 16-17	FY 17-18	FY 18-19	FY 19-20	Total	Years 6-10	Beyond 10 Years

Total	\$ -	\$ -	\$ 80,000	\$ 2,150,000	\$ -	\$ -	\$ 2,230,000	\$ -	\$ -

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Water Line Replacements

Category: Water

Department: Public Works

Division:WaterRequesting Division:WaterStart Date (MM/DD/YY)01/01/17Completion Date (MM/DD/YY)12/31/18

Strategic Initiative: Safe & Vibrant Community

Tier: 1

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Replace the original aging 18" water line from the North Water Well Field, located approximately 5 miles north of the City and replace it with a new pipe. The pipe is the original pipe from the 1960's. Due to the age of the pump, the City is only able to run the line at half the allowable water pressure.

Justification and Impact:

This project will replace antiquated lines and allow for additional water resources for the city, as well as build in preventative maintenance measures. There is \$3,825,000 allocated in 050 AR for fiscal year 2019 and beyond. Project 42507

Funding Source(s):

Fund 050 Water Asset Replacement. Private contribution(s)

Project Consideration(s):

Ensures adequate water supply and replacement of aging water supply.

Subsequent Years:

Location Map

40 G Street

Project Description:

Repair and update the 40 G Street building to enhance the work space environment. This project includes new HVAC ducts, electrical lighting, energy efficiency windows, new doors, low flow water fixtures, exterior building paint, new office furniture, add employee lockers, and expand the lab.) The facility was originally built in 1972 and has had limited facility improvements during its lifespan.

Justification and Impact:

Update the 40 G St building that was built in 1972 with modern energy saving materials and conveniences for employees who have to work there. is \$98,000 allocated from fund 4250-4820 in fiscal year 2015-2016.

There

Funding Source(s):

Fund 050 Water

Project Consideration(s):

Enhances employee work areas and demonstrates the City's commitment to its employees.

Project Title: 40 G Street Drainage

Category: Water

Department: Public Works

Division:WaterRequesting Division:WaterStart Date (MM/DD/YY)04/01/16Completion Date (MM/DD/YY)06/30/16

Strategic Initiative: Operational Excellence

Tier: 1

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Remove and replace the curb, gutter, sidewalk and drive approach in front of 40 G Street Water office. The damage has likely been caused by the use of heavy equipment accessing the site.

Justification and Impact:

Because the curb and gutter has subsided, water is unable to flow to the Storm Water inlet thus allowing water to pond. This has caused the asphalt to erode and damage the street.

Funding Source(s):

Fund 050 Water

Project Consideration(s):

Is a rourtine maintenance request.

Project Title: Water Master Plan

Category: Water

Department: Public Works

Division:WaterRequesting Division:WaterStart Date (MM/DD/YY)02/01/16Completion Date (MM/DD/YY)08/31/16

Strategic Initiative: Community & Neighborhood Livability

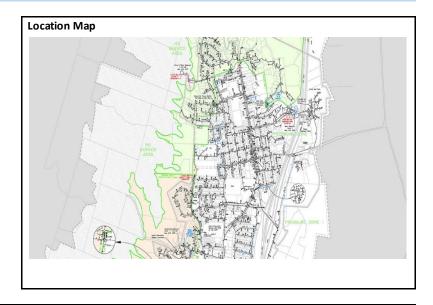

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

A water master plan will assess the current conditions of the City's system and set forth a long-term plan that guides the City's water treatment and distribution system, as well as identify gaps and challenges in the current system.

Justification and Impact:

The City has never conducted a water master plan to determine the location of all of the City's infrastructure as well as develop a long-term plan for the City's water infrastructure.

Funding Source(s):

Fund 050 Water; Grant Funds if available.

Project Consideration(s):

The master plan will provide the community with a roadmap to address potential deficiencies. The community will benefit through reduced operational costs and improved functionality of system. Staff will evaluate conducting a comprehensive master plan that includes stormwater, water, and wastewater.

Coogle earth

Project Description:

Installation of a Supervisory Control and Data Acquisition (SCADA) system to monitor city lift stations electronically. A SCADA system will automate much of the processes, as well as, collect and store information for reporting, troubleshooting, and maintenance.

Justification and Impact:

A SCADA system will monitor the lift station alarms and will allow for remote access.

Funding Source(s):

Fund 050 Water Asset Replacement

Project Consideration(s):

A SCADA system may eliminate some call outs, thereby reducing costs. SCADA may provide quicker response time avoiding possible violations from state agencies.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Additional Well 7 Water Tank

Category: Water

Department: Public Works

Division:WaterRequesting Division:WaterStart Date (MM/DD/YY)01/01/17Completion Date (MM/DD/YY)12/31/17

Strategic Initiative: Growing & Dynamic Economy

Tier: 2

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Add a one (1) million gallon water storage water tank at Well 7 site, located north Bush Street, near West Hills College, will provide additional water storage to meet demands of commercial, industrial and future residential customers.

Justification and Impact:

The City of Lemoore needs additional water storage to sustain Leprino Foods plant and the surrounding areas water demands. Currently, Well 7 is not able to be taken off-line for maintenance due to water demands. By adding an additional tank, the City would be able to store more water on-site, and when needed, move water from one tank to the other to service the tanks. There is \$900,000 allocated in 050 AR in fiscal year 2015- 2017.

Funding Source(s):

Fund 070 Water Supply Capital

Project Consideration(s):

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Rehabilitation of Well 14

Category: Water

Department: Public Works

Division:WaterRequesting Division:WaterStart Date (MM/DD/YY)10/01/16Completion Date (MM/DD/YY)03/31/17

Strategic Initiative: Operational Excellence

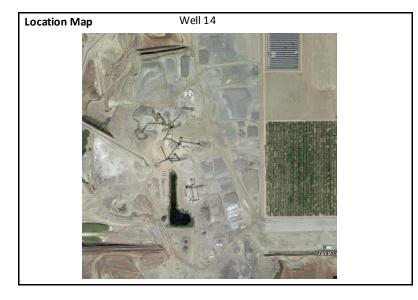

Tier: 1

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

Well 14, located on the southwest corner of West Hills College, needs preventive maintenance performed, including motor repair, pull and repair shafts, bowls checked or replaced, acid wash of the shaft, and reinstallation.

Justification and Impact:

Well 14 was recently taken off-line due to an equipment malfunction. This well is the biggest producer of water in this area, without it on-line, the city will not be able to meet the water demands in March of 2016.

Funding Source(s):

Fund 050 Water Asset Replacement, 050-4250-4850AR project 42502. (Well 8 collapsed so funds will be reallocated to the water fund)

Project Consideration(s):

Prevents irreparable damage to a valuable public facility and reduces future maintenance costs.

Project Title: Install Chlorine Monitoring Equipment

Category: Water

Department: Public Works

Division:WaterRequesting Division:WaterStart Date (MM/DD/YY)01/01/17Completion Date (MM/DD/YY)12/31/17

Strategic Initiative: Safe & Vibrant Community

Tier:

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Stremove 957 Tammy Lane

Project Description:

Install monitoring chlorine equipment at Well 12, Well 10, Well 7, Well and 40 G Street to ensure the water quality is meeting state and federal regulations in lieu of manually conducting the testing.

Justification and Impact:

The city needs to have monitoring equipment added to ensure water quality is electonically calibrated. Currently, the testing is manually conducted, which takes additional staff time to travel to each site and manually adjust the cholorine levels. Electronic calibration is likely to reduce human error.

Funding Source(s):

Fund 050 Water. 050-4250-xxxx currently has \$95,000 alloted, Water Supply Cap Fund (not sure can use impact fees) not associated with growth

Project Consideration(s):

Ensures water quality standards are met and monitored.

FIVE-YEAR COMMUNITY INVESTMENT PROGRAM FISCAL YEARS 2015-2016 TO 2019-2020

Project Title: Cedar Lane Water Extension

Category: Water

Department: Public Works

Division:WaterRequesting Division:WaterStart Date (MM/DD/YY)04/01/19Completion Date (MM/DD/YY)12/31/19

Strategic Initiative: Community & Neighborhood Livability

Tier: 3

Funded or Unfunded:

Estimated Ongoing Operating Expenses:

First Year:

Subsequent Years:

Project Description:

This project will complete the Cedar Lane water main line connection loop during the future roadway construction between 19th and 18th Avenues.

Justification and Impact:

Completing the water loop will remove two dead end water lines. Dead ends foster bacterial growth and require additional staff time to flush and clean the lines.

Funding Source(s):

070A Water Distribution Capital, \$175,000 currently allocated from prior years.

Project Consideration(s):

Conducting the water line installation in conjuction with the roadway project should result in economies of scale.
