City of Lemoore – COVID-19

On Tuesday, March 17, 2020, the Lemoore City Council adopted Resolution 2020-08, declaring a local emergency related to COVID-19. The emergency declaration was ratified in an effort to ensure the City can comply with any State or Federal mandates related to the national emergency. The emergency declaration was not intended to cause alarm. Citizens are urged to be mindful of their outings; abiding by recommendations to stay at least six feet away from other persons, wash hands frequently, and to avoid touching eyes and faces.

The City will continue to monitor the situation and actions will be based on State and Federal mandates, as well as recommendations from the Centers for Disease Control and Prevention (CDC). At this time, the City is not anticipating any stay-at-home orders, but that may change if it is deemed necessary in the future.

The public can view the “15 Days to Slow the Spread” guidance from the White House at www.whitehouse.gov. The CDC has COVID-19 resources located at www.cdc.gov. The City will issue additional information as it becomes available and can be found on the City’s website at www.lemoore.com.

City of Lemoore – COVID-19

Effective at close of business today the City of Lemoore Recreation will be following the guidelines set forth by the State of California and the Kings County Health Department and will be postponing all indoor soccer leagues, all children's programs that take place in the Recreation Center and our Witness for Fitness Program. The Recreation Center will be closed. There will be no open play basketball or soccer and no indoor walking. The programs will resume and be rescheduled when possible. We thank you for your understanding.

Adult fitness activities will remain available at the discretion of the instructor.

Sincerely,
Nathan Olson
City Manager
