Hello. I know this new format will take some getting used to. I usually edit my comments as I hear others speak, to avoid being repetitive. I also want you to hear my emotion through my words. Although... I've watched my public comments, ones where in my head I thought I was being compassionate, but in reality it was cringing to listen to. I'm still learning and appreciate your kindness and patience with me, and many others.

I hope there will be an updated format by the next meeting. I've e-mailed my ideas to Nathan, and am hoping next time you can see my face on a screen or at least hear my voice. Until then, here it goes....

At the last City Council Meeting I was proud of you.

I sat in awe as I saw people on different sides of the same issue, passionately share about this City I love. How you, our leaders, listened, empathized, respectfully disagreed, & took the time to share your side, your view, your heart for Lemoore...was inspiring. Thank you! Between this, the Facebook Live Q&A's with Nathan, the ones the Lemoore Chamber has been doing, and the NAACP Roundtable...I am excited for the future of Lemoore!

Thank you for serving and choosing this City.

I would like the Council to reconsider the costs to do a campaign to update the LLMD's. I know, you know the facts, I know, you know the costs. I know, you know the history of it failing. I'm asking because as I've pressed in and had the conversations with residents and businesses, I'm seeing those, who have complained for months, or some even years.... go from bashing the City, and feeling helpless....to having the same realization I did...which was, I didn't know we, as residents and business owners, were creating the problem. We've tied the City's hands, then complained to you about it.

I'm sorry.

I want to help with the promotion, doing Facebook Live videos, or we can even do a Facebook poll to get an idea of what people think.

As I share the facts, I'm seeing these once frustrated people, in a single conversation, now asking me how they can help.

I want to help make our City great, and what it looks like matters.

Morale also matters.

Please consider the trade offs. How much City staff time is spent fielding calls and complaints? How much time is spent trying to protect and repair the City's reputation?

I want to be part of the solution. Please let me know how I can help make this happen.

I would also like to invite you to do a Q&A with me on Facebook Live. I've heard Amy also offer. People want to hear your thoughts. I know it isn't easy to get back to everyone. I'm still waiting on some of you to respond to my e-mail from a couple weeks ago. Facebook Live is an avenue where your voice can be heard on a larger level, where you can say it once and have hundreds hear your answer.

I look forward to hearing back from you, and seeing what else we can do.

Thank you.
