Education is key to prevention. Our classes are developed by educators in partnership with healthcare professionals and informed by other anti-trafficking experts. Through our in-person and online classes, we have educated over 30,000 people since 2014. Whatever your field, we can equip you to help eradicate exploitation.

Advocate & EMPOWER

Through our one-on-one mentorship and multiple youth programs, we equip youth to protect themselves from exploitation and empower them to transform the world around them.
