-FOR IMMEDIATE RELEASE-

Major heatwave to impact Kings County starting today

July 2, 2024

Hanford, CA – Forecasted high Temperatures of 105 -111 degrees are expected starting today in Kings County, which can be dangerous for those who are heat sensitive and those without effective cooling and/or adequate hydration. The County would like to remind the community of our Cool Zone Program and emphasize some precautions necessary in extreme heat.

The Cool Zone Program establishes cool places and cool centers in case of heat emergencies. The purpose of these cooling zones is to provide members of the public who lack air conditioning at home with relief from the heat, free of charge. The sites of these zones are opened in partnership between the cities of Avenal, Corcoran, Lemoore, Hanford, the County of Kings, and their community partners.

Cooling zones in Kings County are categorized according to two types. "Cooling Places" are locations that agency or business partners share for members of the public to visit during their regular business hours. "Cooling Centers" are opened on an as needed basis by an emergency trigger of weather conditions. Although the criteria for the opening of the "centers" is two consecutive days over 105 degrees Fahrenheit and does not drop below 80 degrees at night, each city in Kings County may decide to open their cooling centers if they anticipate a need for them.

You can call 211 or search on 211kingscounty.org under the housing section for a list of participating locations in the Cool Zone Program. Additionally, the full list of anticipated locations will be at the end of this document. Kings Area Rural Transit may be available to assist with a ride to a designated location, with a 24-hour notice (except Sundays). Specific route times will be designated per event based on demand. Call (559) 584-0101 for additional information.

The County also reminds all members of the public to take the following extra precautions during period of extreme heat in the Central Valley:

- **Avoid the sun** – stay indoors from 10 a.m. to 3 p.m. when the burning rays are strongest.
- **Drink plenty of fluids** – At least three to four quarts a day. Don't rely on thirst to tell you when to drink.
- **Replace salt and minerals** – sweating removes salt and minerals from your body, so replenish these nutrients with low sugar fruit juices or sports drinks during exercise or when working outside.
- **Avoid alcohol.**
- **Pace yourself** – reduce physical activity and avoid exercising outdoors during peak heat hours.
- **Wear appropriate clothing** – wear a wide-brimmed hat and light-colored lightweight, loose-fitting clothes when you are outdoors.

KINGS COUNTY OFFICE OF EMERGENCY SERVICES

280 North Campus Drive • Hanford, California 93230

Phone: 559-852-2883 • Fax: 559-582-8261

- **Stay cool indoors during peak hours** – set your air conditioner between 75° to 80°. If you don't have air conditioning, take a cool shower twice a day and/or visit a County Emergency Cooling Center.
- **Monitor those at high risk** – check on elderly neighbors, family members and friends who do not have air conditioning. Infants and children up to 4 years old, people who overexert during work (e.g. construction workers) and people 65 years and older are at the highest risk of heat-related illnesses.
- **Use sunscreen** with a sun protection factor (SPF) of at least 15 if you need to be in the sun.
- **Keep pets indoors** – heat also affects your pets, so please keep them indoors. If they are outside, make sure they have plenty of water and a shaded area to help them keep cool.

For more information, please visit www.countyofkings.com/oes. If you are a business or public agency prepared to open your site as a cool "place" in Kings County, please reach out to the Kings County Office of Emergency Services at (559) 852-2883.

A List of Cooling Locations is continued on the next page of this document.
